The National Priorities List (NPL) informs the public of uncontrolled hazardous waste sites that warrant further investigation to determine if they pose risks to public health or the environment. Such sites are eligible for long-term "remedial action" financed under the Trust Fund established by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA). In October 1990, CERCLA was extended to September 30, 1994. The U.S. Environmental Protection Agency (EPA) has the primary responsibility for managing the Superfund program.

EPA's goals for the Superfund Program are to:

- Ensure that polluters pay to clean up the problems they created
- Work first on the worst problems at the worst sites:
  - make sites safe by controlling acute threats to people and the environment
  - make sites clean by achieving long-term cleanup goals
  - use technology to remove contamination from the environment by, for example, pumping and treating polluted ground water

EPA proposed 1,301 NPL sites under original HRS

• **Sites placed on final NPL**		1,189	1,189
(includes 14 in "Construction Completion" Category)			
Federal Facility Sites	(116)		
Others	(1,073)		
• **Sites remaining on proposed NPL**		0	
• **Sites deleted from final NPL**		33	
• **Sites dropped from proposed NPL**		79	
Policy Issues	(43)		
Technical Issues	(36)		
• **Sites proposed (1981 - 1991)**			
HRS Score 28.5 or above	(1,259)		
State Top Priority	(38)		
ATSDR Health Advisory	(4)	1,301	Total

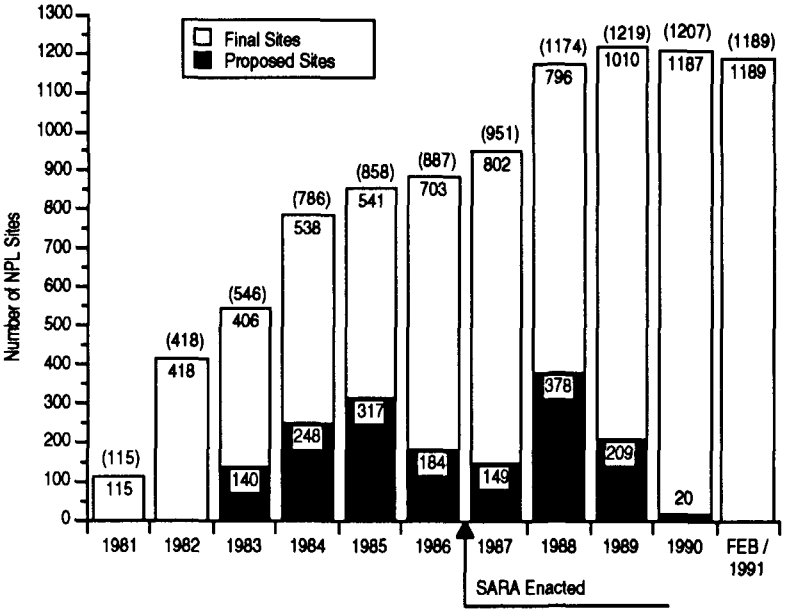
(March 14, 1991)

Sites are placed on the NPL primarily on the basis of their scores under EPA's Hazard Ranking System (HRS). The original HRS, developed in 1982, evaluated the relative threat a site poses to human health or the environment over five "pathways," or routes of exposure. The HRS score was based on the evaluation of three migration pathways: ground water, surface water, and air. The two other pathways, direct contact and fire/explosion, were evaluated to determine the need for immediate removal (emergency) action. HRS scores ranged from 0 to 100. Sites that scored 28.50 and above on the orginial HRS were eligible for the NPL.

EPA has now revised the HRS as required by SARA. The revised HRS was promulgated on December 14, 1990 (55FR 51532) and became effective on March 14, 1991. It is a more comprehensive and accurate scoring system than the original HRS and will add new types of sites to the NPL. The revised HRS retains the same cutoff score and basic approach as the orginal HRS, while incorporating SARA requirements as well as improvements identified as necessary by EPA and the public. The revised HRS retains the ground water, surface water, and air pathways, drops the direct contact and fire/explosion pathways, and adds a fourth pathway, soil exposure. All four are used to calculate the HRS score.

This fact book summarizes the history of the NPL under the original HRS. During that time (1981-91), EPA proposed 1,301 sites to the NPL.

NPL has grown since 1981



HOW SITES ARE PLACED ON THE NPL

EPA uses informal rulemaking to place sites on the NPL. Sites are first proposed to the NPL in the *Federal Register*. EPA then accepts public comments on the sites (typically for 60 days), responds to the comments, and finally places on the NPL those sites that continue to meet requirements for listing.

Section 300.425(c) of the National Contingency Plan (NCP), the Federal regulation by which CERCLA is implemented (55 FR 8845, March 8, 1990), provides three mechanisms for placing sites on the NPL. The primary mechanism is the HRS. An HRS score of 28.50 was selected as the cutoff point for the first proposed NPL to identify at least 400 sites, the minimum specified by CERCLA.

The second mechanism allows States or Territories to designate one top-priority site regardless of score and requires those sites to be included in the first 100 sites on the NPL. Of the 57 States and Territories, 38 have designated top-priority sites. Six of these sites have been deleted from the NPL because no further response was needed. Of the remaining top-priority sites, 10 are included in the first 100 on the basis of their scores. The remaining 22 have scores that would not place them in the top 100. They are included at the bottom of the first 100 sites. Of the 22, 7 have scores below 28.50.

The third mechanism allows including a site on the NPL if it meets all three of these requirements:

- The Agency for Toxic Substances and Disease Registry (ATSDR) of the U.S. Public Health Service has issued a health advisory that recommends removing people from the site.
- EPA determines the site poses a significant threat to public health.
- EPA anticipates it will be more cost-effective to use its remedial authority (available only at NPL sites) than to use its emergency removal authority to respond to the site.

Three sites have been placed on the NPL on the basis of ATSDR advisories. All three have HRS scores below 28.50 and are at the end of the NPL. The sites are:

- Glen Ridge Radium and Montclair /West Orange Radium Sites, NJ (54 FR 48184, February 14, 1985)
- Lansdowne Radiation Site, Lansdowne, PA (50 FR 37630, September 16, 1985)

One site was proposed to the NPL on September 8, 1983 (48 FR 40674) on the basis of an advisory but has been dropped from further consideration. Because of an EPA removal action, ATSDR had rescinded its advisory. The site is:

- Quail Mobile Manor, Gray Summitt, MO (56 FR 5598, February 11, 1991).

Key Dates in Superfund

Legislation

- Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) enacted **December 11, 1980**;
  Trust Fund of $1.6 billion authorized over 5 years

- Superfund Amendments and Reauthorization Act (SARA) enacted **October 17,1980**;
  Trust Fund of $8.5 billion authorized over 5 years

- SARA extended to **September 30, 1994**; an additional $5.1 billion authorized

Federal regulation implementing Superfund: National Oil and Hazardous Substances Pollution Contingency Plan (NCP)

- Revised **March 8, 1990** (55FR 8666) in response to CERCLA Section 105, amended by SARA

Hazard Ranking System

- Promulgated **July 11, 1982** (47FR 31180) as Appendix A of the NCP

- Revised **December 14, 1990** (55FR 51532) in response to CERCLA Section 105(c), added by SARA; effective date **March 14,1991**

National Priorities List

- Promulgated **September 8, 1983** (48FR 40658) as Appendix B of the NCP

- Updated at least annually

- Last sites proposed under original HRS promulgated **February 11, 1991** (56FR 5598); construction completion category activated

STATUTORY REQUIREMENTS AND LISTING POLICIES

CERCLA restricts EPA's authority to respond to certain sites by expressly excluding some substances — petroleum, for example — from the definition of "release." In addition, as a matter of policy, EPA may choose not to use CERCLA because the Federal government can undertake or enforce cleanup under other laws, thus preserving CERCLA funds for sites not covered by other laws. EPA has chosen not to use CERCLA for certain types of sites regulated by Subtitle C of the Resource Conservation and Recovery Act (RCRA) and the Nuclear Regulatory Commission (NRC). However, if EPA later determines that sites not listed as a matter of policy are not being properly responded to, it may consider placing them on the NPL.

RCRA-Related Sites

When the first final NPL was promulgated in September 1983, EPA announced certain listing policies relating to sites that might qualify for the NPL. One of these policies involved facilities subject to Subtitle C. EPA's policy was generally not to place on the NPL, RCRA "regulated units" (for example, land disposal units that received hazardous waste after the effective date of the RCRA land disposal regulations) because EPA can require the owner/operator to clean them up under RCRA. The RCRA cleanup process and standards are similar to those under CERCLA, ensuring that all actions taken will protect human health and the environment. Not including such sites on the NPL also preserves CERCLA funds for sites not covered by other laws.

In November 1984, the Hazardous and Solid Waste Amendments (HSWA) to RCRA were enacted, expanding EPA's authority to require corrective measures under Subtitle C. As a result of this broadened RCRA authority, EPA revised its policy for placing non-Federal RCRA-regulated sites on the NPL, and on June 10, 1986 (54 FR 21109) announced that facilities subject to RCRA Subtitle C corrective action authorities would be placed on the NPL if one or more of these conditions exist:

- The facilities are owned by persons who have demonstrated an inability to finance appropriate corrective action by invoking bankruptcy laws.

- The facilities have lost authorization to operate (also known as the Loss of Interim Status, or LOIS provision), and there are additional indications that the owner or operator is unwilling to undertake corrective action.

- The facilities have not lost authorization to operate but have a clear history of unwillingness to undertake corrective action. These situations are determined on a case-by-case basis.

On June 24, 1988 (53 FR 23978) and October 9, 1989 (54 FR 41000), EPA announced additional components of the NPL/RCRA policy. As a matter of policy, EPA will list four additional categories of RCRA-related sites:

- Facilities that were treating, storing, or disposing Subtitle C hazardous waste after November 19, 1980, but that did not file a "Part A", the initial part of the permit application, by that date as required and have little or no history of compliance with RCRA. EPA believes that these <u>non- or late filers</u>, although they are technically subject to RCRA, are not likely to be cleaned up expeditiously under RCRA and so should be on the NPL. However, if such facilities have complied with RCRA, EPA may consider whether listing is necessary.

- Facilities with permits for the treatment, storage, or disposal of hazardous waste issued before enactment of HSWA, and whose owners/operators will not voluntarily modify the permit. <u>Pre-HSWA permittees</u> are not required to take corrective action for releases. Under RCRA Section 3004(u), EPA does not have the authority to modify a pre-HSWA permit for corrective action until the permit is reissued. Many pre-HSWA permits are for 10 years. Since the last pre-HSWA permit was issued prior to November 8, 1984, it could be 1994 before EPA could modify some permits to include corrective action. In these cases, EPA believes CERCLA authorities will result in the most expeditious cleanup.

- Facilities that filed a Part A permit application for treatment, storage, or disposal of Subtitle C hazardous waste as a precautionary measure only. Such facilities -- for example, generators, transporters, or recyclers of hazardous waste -- are not subject to Subtitle C corrective action authorities. These are referred to as <u>protective filers</u>.

- Facilities that at one time treated or stored Subtitle C hazardous waste but have since converted to generator-only status (i.e., facilities that now store hazardous waste for 90 days or less) or any other hazardous waste activity not requiring Interim Status. These facilities, whose Part A permit applications have been withdrawn with EPA or State approval, are referred to as converters. EPA believes it has the authority under RCRA Section 3008(u) to compel corrective action at such facilities. However, RCRA's corrective action program currently focuses primarily on treatment, storage, and disposal facilities (due to permitting deadlines in RCRA). Therefore, this category should be on the NPL to ensure expeditious cleanup. However, if a consent order requiring remedial action is in effect, a converter need not be listed.

Federal Facility Sites

CERCLA Section 120 (a) requires that Federal facilities be subject to and comply with CERCLA in the same manner as any nongovernmental entity. CERCLA Section 111(e)(3), however, generally prohibits use of the Trust Fund for remedial actions at Federally owned facilities. Thus, Federal agencies must use their own funds for cleanup. Federal facility sites are placed in a separate section of the NPL.

On June 10, 1986 (51FR 21054), EPA announced components of a policy for several categories of non-Federal sites subject to RCRA Subtitle C corrective action authorities. Because most Federal facilities have RCRA-regulated units within their boundaries, EPA determined that a separate NPL/RCRA policy should be adopted for Federal facilities. As a result, on March 13, 1989 (54 FR 10520), EPA announced it would place on the NPL those sites located on Federally owned or operated facilities that meet the NPL eligibility requirements -- e.g., HRS scores of 28.50 or greater -- even if the Federal facility also is subject to the corrective action authorities of RCRA Subtitle C. Cleanup, if appropriate, could then proceed at those sites under either CERCLA or RCRA. The policy is based on several considerations:

- Congress clearly intended that Federal facility sites should be on the NPL.

- Strict application of the non-Federal NPL/RCRA policy would exclude virtually all Federal facility sites from the NPL because they would not likely meet any of the criteria necessary for listing (inability to pay as evidenced by invocation of bankruptcy laws or demonstrated unwillingness to comply with RCRA).

- Placing RCRA-regulated Federal sites on the NPL serves the primary purpose of listing Federal facility sites: to advise the public of the status of Federal government cleanup efforts.

- Listing these sites helps Federal agencies set priorities and focus cleanup efforts on those sites that present the most serious problem.

Radioactive Release Sites

CERCLA Section 101(22) excludes several types of releases of radioactive materials from the statutory definition of "release." These releases are therefore not eligible for CERCLA response actions or the NPL. The exclusions apply to (1) releases of source, by-product, or special nuclear material from a nuclear incident if these releases are subject to financial protection requirements under Section 170 of the Atomic Energy Act, and (2) any release of source, by-product, or special nuclear material from any processing site designated under the Uranium Mill Tailings Radiation Control Act of 1978. Accordingly, such radioactive releases have not been considered eligible for the NPL.

As a policy matter, EPA has also chosen not to list releases of source, by-product, or special nuclear material from any facility with a current license issued by the Nuclear Regulatory Commission (NRC), on the grounds that the NRC has full authority to require cleanup of releases from such facilities. EPA will, however, list releases from facilities that hold a current license issued by a State pursuant to an agreement between the State and the NRC under Section 274 of the Atomic Energy Act. Facilities whose licenses are no longer in effect are also considered for listing.

DELETING SITES FROM FINAL NPL

EPA may delete a final NPL site if it determines that no further response is required to protect human health or the environment. Under Section 300.425(e) of the NCP (55 FR 8845, March 8, 1990), a site may be deleted where no further response is appropriate if EPA determines that one of the following criteria has been met:

- EPA, in consultation with the State, has determined that responsible or other persons have implemented all appropriate response actions required.
- EPA, in consultation with the State, has determined that all appropriate Superfund-financed response actions under CERCLA has been implemented, and that no further response by responsible parties is appropriate.
- A remedial investigation has shown that the release poses no significant threat to public health or the environment, and, therefore, remedial measures are not appropriate.

Since 1986, EPA has followed these procedures for deleting a site from the NPL:

- The Regional Administrator approves a "close-out report" which establishes that all appropriate response action has been taken or that no action is required.
- The Regional Office obtains State concurrence.
- EPA publishes a notice of intent to delete in the *Federal Register* and in a major newspaper near the community involved. A public comment period is provided.
- EPA responds to the comments and, if the site continues to warrant deletion, publishes a deletion notice in the *Federal Register*.

Sites that have been deleted from the NPL remain eligible for further Superfund-financed remedial action in the unlikely event that conditions in the future warrant such action.

As of February 11, 1991, 33 sites have been deleted from the NPL (see page 54). The first five were deleted as follows:

- December 30, 1982 (47 FR 58476): 5 sites previously announced were not included in first proposed NPL, 1 of which (Butler Mine Tunnel, Pittston, PA) was later reproposed and added to the NPL.
- September 8, 1983 (48 FR 40658): 1 site in first proposed NPL was not included in the original NPL.

The remaining sites were deleted in subsequent final rules.

PLACING SITES IN CONSTRUCTION COMPLETION CATEGORY OF FINAL NPL

The Preamble to the revised NCP (55 FR 8699, March 8, 1990) announced EPA's intention to create "Construction Completion" as a new category of the final NPL. The category consists of:

- Sites awaiting deletion.
- Sites awaiting deletion but for which CERCLA Section 121(c) requires a 5-year review of the remedy following achievement of the cleanup levels specified in the Record of Decision (the official document formalizing the remedy selected).
- Sites undergoing long-term remedial action-- for example, pumping and treating of contaminated ground water until cleanup levels are achieved.

EPA established this category to better communicate to the public the status of cleanup progress among sites on the NPL. EPA activated the Construction Completion category of the NPL on February 11, 1991 (56 FR 5634)

by identifying 14 sites (see page 56) that have satisfied the requirements for listing in this category. EPA has approved Interim or Final Close-Out Reports for each site. The Close-Out Report provides a brief demonstration of how the implemented remedy at the site satisfies the technical and other requirements.

REMOVING PROPOSED SITES FROM NPL

As of February 11, 1991, 79 sites (see page 57) have been proposed for the NPL but subsequently removed from further consideration, most of them because their final HRS scores were below the 28.50 cutoff or the sites are subject to RCRA Subtitle C. The first seven were removed as follows:

- December 30, 1982 (47 FR 58476): 2
- September 8, 1983 (48 FR 40658): 6, 1 of which (Van Dale Junkyard, Marietta, OH) was later reproposed and added to the NPL

DESCRIPTIONS OF LISTS

Sites on the NPL are ordered according to their scores on the HRS, except for top-priority sites, which must apear in the first 100, and sites involving an ATSDR advisory, which appear at the end. The Federal facility sites are in a separate section. The HRS is a screening tool designed to take into account a standard set of factors related to risks from potential or actual migration of substances through ground water, surface water, and air. Ordering by HRS scores serves primarily informational purposes. EPA and the States use the scores along with other information to determine priorities for conducting detailed investigations to determine if further response actions are needed.

The sites on the NPL are in groups of 50 (except for the last group). The range within most of the groups is less than 2 points. EPA considers sites within a group to represent approximately the same potential threat to public health, welfare, or the environment. For convenience, the sites are numbered. In the Federal section of the NPL, the sites are ordered by groups corresponding to the groups of 50 on the NPL. That is, a Federal facility site designated as Gr 12 would have an HRS score within the range of scores covered by the 12th group of 50 sites on the final NPL.

NPL PROPOSALS/PROMULGATIONS UNDER ORIGINAL HRS

EPA promulgated the first NPL of 406 hazardous waste sites on September 8, 1983 (48 FR 40658). It was the result of EPA's consideration of comments received on the 419 sites proposed in December 1982 and March 1983. Before rulemaking was instituted, EPA had announced two preliminary lists — the Interim Priorities List (IPL) in October 1981 and the Expanded Eligibility List (EEL) in July 1982. CERCLA requires the NPL to be updated annually. Except for the IPL and EEL, all NPL actions have been published in the *Federal Register* (see page 72). The disposition of sites on each proposal is described below, starting with the last proposal under the original HRS.

Proposed Update #10 (October 1989)

NPL Update #10, proposed on October 26, 1989 (54 FR 43778), consisted of 25 sites, including 2 Federal facility sites. Nevada proposed its first site.

Subsequent actions:

- March 14, 1990 (55 FR 9688)
  - -- United Heckathorn Co., Richmond, CA was added to the final NPL in a separate rulemaking
  - -- 24, including 2 Federal facility sites, remained proposed

- August 30, 1990 (55 FR 35502)

  -- 22 sites, including 2 Federal facility sites, were added to the final NPL
  -- 1 was removed from further consideration because its final HRS score was below the 28.50 cutoff
  -- 1 remained proposed

- February 11, 1991 (56 FR 5598)

  -- 1 site was removed from further consideration because its final HRS score was below the 28.50 cutoff

Special Proposed ATSDR Update (August 1989)

A special update, proposed on August 16, 1989 (54 FR 33846), consisted of two sites involving health advisories issued by ATSDR.

Subsequent actions:

- November 21, 1989 (54 FR 48184)

  -- 2 sites were added to the final NPL
  -- 0 remained proposed

Proposed Update #9 (July 1989)

NPL Update #9, proposed on July 14, 1989 (54 FR 29820), consisted of 52 Federal facility sites. It also proposed the expansion and renaming of Mather Air Force Base (AC & W Disposal Site), Sacramento, CA.

Subsequent actions:

- November 21, 1989 (54 FR 48184)

  -- 27 sites were added to the final NPL
  -- 25 remained proposed
  -- Mather Air Force Base (AC & W Disposal Site), Sacramento, CA, was expanded and renamed Mather Air Force Base

- February 21, 1990 (55 FR 6154)

  -- 8 sites were added to the final NPL
  -- 17 remained proposed

- August 30, 1990 (55 FR 35502)

  -- 17 sites were added to the final NPL
  -- 0 remained proposed

Proposed Update #8 (May 1989)

NPL Update #8, proposed on May 5, 1989 (54 FR 19526), consisted of 10 sites.

Subsequent actions:

- October 4, 1989 (54 FR 41000/41015)

  -- 4 sites were added to the final NPL
  -- 1 was removed from further consideration because it is subject to Subtitle C of the Resource Conservation and Recovery Act (RCRA)
  -- 5 remained proposed

- August 30, 1990 (55 FR 35502)

  -- 5 sites were added to the final NPL
  -- 0 sites remained proposed

RCRA Notices (June-August 1988)

In mid-1988, EPA published two Federal Register notices involving the listing of sites subject to RCRA Subtitle C, which regulates facilities involved in hazardous waste activities. On June 24, 1988 (53 FR 23978), EPA:

- Reproposed 13 sites previously proposed for the NPL during 1983-85 in the first 4 NPL updates:

  -- Motorola, Inc. (52nd Street Plant), Phoenix, AZ
  -- Fairchild Semiconductor Corp. (formerly Fairchild Camera & Instrument Corp.) (South San Jose Plant), South San Jose, CA
  -- J.H. Baxter Co., Weed, CA
  -- Lorentz Barrel & Drum Co., San Jose, CA
  -- City Industries, Inc., Orlando, FL
  -- Prestolite Battery Division, Vincennes, IN
  -- Union Chemical Co., Inc., South Hope, ME
  -- Kysor Industrial Corp., Cadillac, MI
  -- Conservation Chemical Co., Kansas City, MO
  -- National Starch & Chemical Co., Salisbury, NC
  -- Lindsay Manufacturing Co., Lindsay, NE
  -- Culpeper Wood Preservers, Inc., Culpeper, VA
  -- Buckingham County Landfill (formerly Love's Container Service Landfill), Buckingham, VA

- Proposed to remove 30 previously proposed RCRA sites from the NPL:

  -- Fairchild Semiconductor Corp. (formerly Fairchild Camera & Instrument Corp.) (Mountain View Plant), Mountain View, CA
  -- FMC Corp. (Fresno Plant), Fresno, CA
  -- Hewlett-Packard, Palo Alto, CA
  -- IBM Corp. (San Jose Plant), San Jose, CA
  -- Marley Cooling Tower Co., Stockton, CA
  -- Rhone-Poulenc, Inc./Zoecon Corp., (formerly Zoecon Corp. / Rhone-Poulenc, Inc.) East Palo Alto, CA
  -- Signetics, Inc., Sunnyvale, CA
  -- Southern Pacific Transportation Co., Roseville, CA
  -- Van Waters & Rogers, Inc., San Jose, CA
  -- Martin Marietta (Denver Aerospace), Waterton, CO
  -- Pratt & Whitney Aircraft/United Technologies Corp., West Palm Beach, FL
  -- Olin Corp. (Areas 1, 2 & 4), Augusta, GA
  -- A.Y. McDonald Industries, Inc., Dubuque, IA
  -- Chemplex Co., Clinton/Camanche, IA
  -- Frit Industries (Humboldt Plant), Humboldt, IA
  -- John Deere (Dubuque Works), Dubuque, IA
  -- U.S. Nameplate Co., Mount Vernon, IA
  -- Sheffield (U.S. Ecology, Inc.), Sheffield, IL
  -- Firestone Industrial Products Co., Noblesville, IN
  -- National Industrial Environmental Services, Furley, KS
  -- Hooker (Montague Plant), Montague, MI
  -- Lacks Industries, Inc., Grand Rapids, MI
  -- Findett Corp., St. Charles, MO
  -- Burlington Northern Railroad (Somers Tie-Treating Plant), Somers, MT
  -- Monroe Auto Equipment Co., Cozad, NE
  -- Matlack, Inc., Woolwich Township, NJ
  -- General Electric Co. (Coshocton Plant), Coshocton, OH
  -- Rohm & Haas Co. Landfill, Bristol Township, PA
  -- IBM Corp. (Manassas Plant Spill), Manassas, VA
  -- Mobay Chemical Corp. (New Martinsville Plant), New Martinsville, WV

- Expanded and clarified the categories of RCRA sites that should be placed on the NPL

On August 9, 1988 (53 FR 30002/30005), EPA published two NPL/RCRA policy notices that:

- Expanded and clarified how EPA determines that the owner/operator of a RCRA facility is unwilling to perform corrective action, and therefore the facility should be placed on the NPL

- Requested comments on additional criteria for EPA to determine when an owner/operator of a RCRA facility is unable to pay for corrective action, and therefore the facility should be placed on the NPL

Subsequent actions:

- October 4, 1989 (54 FR 41000)

  -- 13 reproposed sites were added to the final NPL
  -- 26 of 30 sites proposed for removal were removed from further consideration because they are subject to RCRA Subtitle C
  -- 4 remained proposed

- February 11, 1991 (56 FR 5598)

  -- 1 site proposed to be removed from further consideration was added to the final NPL to avoid the transfer of authority from CERCLA to RCRA, which would have delayed the overall cleanup
  -- 3 proposed sites were removed from further consideration because they are subject to RCRA Subtitle C

Proposed Update #7 (June 1988)

NPL Update #7, proposed on June 24, 1988 (53 FR 23988), consisted of 229 sites, including 14 Federal facility sites. Alaska proposed its first site.

Subsequent actions:

- March 13, 1989 (54 FR 10512) (Federal facility sites only) and March 31, 1989 (54 FR 13296)

  -- 64 sites, including 2 Federal facility sites, received no comments and were added to the final NPL
  -- 165, including 12 Federal facility sites, remained proposed

- October 4, 1989 (54 FR 41000/41015)

  -- 55 sites, including 7 Federal facility sites, were added to the final NPL
  -- 2 were removed from further consideration because their final HRS scores were below the 28.50 cutoff
  -- 108, including 5 Federal facility sites, remained proposed

- February 21, 1990 (55 FR 6154)

  -- 52 sites, including 3 Federal facility sites, were added to the final NPL
  -- 56, including 2 Federal facility sites, remained proposed

- August 30, 1990 (55 FR 35502)

  -- 44 sites, including 1 Federal facility site, were added to the final NPL
  -- 5, including 1 Federal facility site, were removed from further consideration because their final HRS scores were below the 28.50 cutoff
  -- 3 were removed from further consideration because they are subject toRCRA Subtitle C
  -- 4 remained proposed

- February 11, 1991 (56 FR 5598)

-- 2 sites were added to the final NPL
-- 2 were removed from further consideration because their final HRS scores were below the 28.50 cutoff

Proposed Rule (July 1987)

On July 22, 1987 (52 FR 27643), EPA reproposed seven Federal facility sites because it appeared that the areas evaluated for the NPL included areas subject to the corrective action authorities of RCRA Subtitle C. The RCRA units can still be included in calculation of the HRS scores for these sites, which is consistent with the RCRA/ Federal facilities policy proposed on May 13, 1987 (52 FR 17991). The seven reproposed Federal facility sites are:

- Anniston Army Depot (Southeast Industrial Area), Anniston, AL
- Dover Air Force Base, Dover, DE
- Joliet Army Ammunition Plant (Load-Assembly-Packing Area), Joliet, IL
- Savanna Army Depot Activity, Savanna, IL
- Louisiana Army Ammunition Plant, Doyline, LA
- Letterkenny Army Depot (Property Disposal Office Area), Franklin County, PA
- Air Force Plant #4 (General Dynamics), Fort Worth, TX

EPA also proposed to expand the Rocky Mountain Arsenal, in Adams County, CO, to include a lagoon known as "Basin F."

Subsequent actions:

- March 13, 1989 (54 FR 10512)

  -- 6 reproposed sites were added to the final NPL; Air Force Plant #4 (General Dynamics) in Fort Worth, TX, remained proposed
  -- Rocky Mountain Arsenal, Adams County, CO, was expanded to include "Basin F"

- August 30, 1990 (55 FR 35502)

  -- Air Force Plant #4 (General Dynamics), Fort Worth, TX, was added to the final NPL
  -- 0 remained proposed

Proposed Update #6 (January 1987)

NPL Update #6, proposed on January 22, 1987 (52 FR 2492), consisted of 64 sites, including 1 Federal facility site.

Subsequent actions:

- July 22, 1987 (52 FR 27620)

  -- 24 sites, including the Federal facility site, received no comments and were added to the final NPL
  -- 40 remained proposed

- June 24, 1988 (53 FR 23988)

  -- Chem-Solv, Inc., Cheswold, DE, and Paoli Rail Yard, Paoli, PA, were reproposed

- March 31, 1989 (54 FR 13296)

  -- 12 sites were added to the final NPL
  -- 1 was removed from further consideration because its final HRS score was below the 28.50 cutoff
  -- 27 remained proposed

- October 4, 1989 (54 FR 41015)

  -- 11 sites were added to the final NPL
  -- 3 were removed from further consideration because their final HRS scores were below the 28.50 cutoff
  -- 13 remained proposed

- February 21, 1990 (55 FR 6154)

  -- 6 sites were added to the final NPL
  -- 7 remained proposed

- August 30, 1990 (55 FR 35502)

  -- 5 sites (including 2 reproposed sites) were added to the final NPL
  -- 1 was removed from further consideration because its final HRS score was below the 28.50 cutoff
  -- 1 remained proposed

- February 11, 1991 (56 FR 5598)

  -- 1 site was added to the final NPL

Proposed Update #5 (June 1986)

NPL Update #5, proposed on June 10, 1986 (51 FR 21099), consisted of 45 sites, including two Federal facility sites.

Subsequent actions:

- July 22, 1987 (52 FR 27620)

  -- 16 sites received no comments and were added to the final NPL
  -- 29, including the 2 Federal facility sites, remained proposed

- June 24, 1988 (53 FR 23988)

  -- Apache Powder Co., St. David, AZ, and Combustion, Inc., Denham Springs, LA, were reproposed

- March 31, 1989 (54 FR 13296)

  -- 15 sites were added to the final NPL
  -- 14, including the 2 Federal facility sites, remained proposed

- October 4, 1989 (54 FR 41015)

  -- 6 sites, including the 2 Federal facility sites, were added to the final NPL
  -- 8 remained proposed

- February 21, 1990 (55 FR 6154)

  -- 4 sites were added to the final NPL
  -- 4 remained proposed

- August 30, 1990 (55 FR 35502)

  -- 2 reproposed sites were added to the final NPL
  -- 2 remained proposed

- February 11, 1991 (56 FR 5598)

  -- 1 site was added to the final NPL
  -- 1 was removed from further consideration because it is subject to RCRA Subtitle C

Proposed Update #4 (September 1985)

NPL Update #4, proposed on September 18, 1985 (50 FR 37950), consisted of 41 sites, including 3 Federal facility sites.

Subsequent actions:

- June 10, 1986 (51 FR 21054)

  -- 13 sites received no comments and were added to the final NPL
  -- 28, including the 3 Federal facility sites, remained proposed

- October 17, 1986: as required by Section 118(p) of SARA, the Silver Creek Tailings Site, Park City, UT, was removed from the proposed NPL

- July 22, 1987 (52 FR 27620)

  -- 12 sites, including 1 Federal facility site, were added to the final NPL
  -- 15, including 2 Federal facility sites, remained proposed

- June 24, 1988 (53 FR 23978)

  -- 10 RCRA sites were reproposed

- March 31, 1989 (54 FR 13296)

  -- 2 sites were added to the final NPL
  -- 13, including 2 Federal facility sites, remained proposed

- October 4, 1989 (54 FR 41000)

  -- 2 sites were added to the final NPL
  -- 8 were removed from further consideration because they are subject to RCRA Subtitle C
  -- 3, including 2 Federal facility sites, remained proposed

- February 21, 1990 (55 FR 6154)

  -- 3 sites, included 2 Federal facility sites, were added to the final NPL
  -- 0 remained proposed

Proposed Update #3 (April 1985)

NPL Update #3, proposed on April 10, 1985 (50 FR 14115), consisted of 32 sites, including six Federal facility sites.

Subsequent actions:

- September 16, 1985 (50 FR 37630)

  -- The Lansdowne Radiation Site in Lansdowne, PA, was added to the NPL on the basis of a health advisory issued by ATSDR

- June 10, 1986 (51 FR 21054)

  -- 7 sites received no comments and were added to the final NPL
  -- 24, including 6 Federal facility sites, remained proposed

- July 22, 1987 (52 FR 27620)

  -- 14 sites, including 2 Federal facility sites, were added to the final NPL
  -- 10, including 4 Federal facility sites, remained proposed

- March 13, 1989 (54 FR 10512)

  -- 2 Federal facility sites were added to the final NPL
  -- 8, including 2 Federal facility sites, remained proposed

- October 4, 1989 (54 FR 41000/41015)

  -- 5 sites, including 1 Federal facility site, were added to the final NPL
  -- 2 were removed from further consideration because they are subject to RCRA Subtitle C
  -- 1 Federal facility site remained proposed

- February 21, 1990 (55 FR 6154)

  -- 1 Federal facility site was added to the final NPL
  -- 0 remained proposed

Proposed Update #2 (October 1984)

NPL Update #2, proposed on October 15, 1984 (49 FR 40320), consisted of 244 sites, including 36 Federal cility sites.

Subsequent actions:

- February 14, 1985 (50 FR 6320)

  -- Two New Jersey sites (Glen Ridge Radium and Montclair/West Orange Radium) were added to the final NPL in a separate rulemaking
  -- 242 sites remained proposed

- September 18, 1985 (50 FR 37950)

  -- Pratt & Whitney Aircraft in West Palm Beach, FL, was reproposed as part of Update #4

- June 10, 1986 (51 FR 21054)

  -- 149 sites were added to the final NPL
  -- 6 were removed from further consideration because their final HRS scores were below the 28.50 cutoff

- -- 86 remained proposed, including 36 Federal facility sites and extension of comment periods on 5 sites

- July 22, 1987 (52 FR 27620)

  - -- 33 sites, including 28 Federal facility sites, were added to the final NPL
  - -- 53, including 8 Federal facility sites, remained proposed

- July 22, 1987 (52 FR 27643)

  - -- Rocky Mountain Arsenal, Adams County, CO, was proposed for expansion to include a lagoon known as "Basin F"

- June 24, 1988 (53 FR 23978)

  - -- 27 RCRA sites were reproposed

- June 24, 1988 (53 FR 23988)

  - -- Weldon Spring Quarry (USDOE/Army), St. Charles County, MO, was proposed for expansion and renaming

- March 13, 1989 (54 FR 10512) (Federal facility sites only) and March 31, 1989 (54 FR 13296)

  - -- 6 sites, including 4 Federal facility sites, were added to the final NPL
  - -- 3 were removed from further consideration because their final HRS scores were below the 28.50 cutoff
  - -- Weldon Springs Quarry (USDOE/Army), St Charles County, MO, was expanded and renamed Weldon Springs Quarry/Plant/Pits (USDOE/Army)
  - -- Rocky Mountain Arsenal, Adams County, CO, was expanded to include "Basin F"
  - -- 44, including 4 Federal facility sites, remained proposed

- July 14, 1989 (54 FR 29822)

  - -- Mather Air Force Base (AC & W Disposal Area), Sacramento, CA, was proposed for expansion and renaming

- October 4, 1989 (54 FR 41000/41015)

  - -- 9 sites, including 1 Federal facility site, were added to the final NPL
  - -- 15 were removed from further consideration because they are subject to RCRA Subtitle C
  - -- 20, including 3 Federal facility sites, remained proposed

- November 21, 1989 (54 FR 48184)

  - -- Mather Air Force Base (AC&W Disposal Area), Sacramento, CA, was expanded and renamed Mather Air Force Base

- February 21, 1990 (55 FR 6154)

  - -- 1 site was added to the final NPL
  - -- 19, including 3 Federal facility sites, remained proposed

- August 30, 1990 (55 FR 35502)

  - -- 8 sites were added to the final NPL
  - -- 11 remained proposed

- February 11, 1991 (56 FR 5598)

  -- 2 sites were added to the final NPL
  -- 3 were removed from further consideration because they are subject to RCRA Subtitle C
  -- 6 were removed from further consideration pending development of EPA's pesticide policy

Proposed Update #1 (September 1983)

NPL Update #1, proposed on September 8, 1983 (48 FR 40674), consisted of 133 sites.

Subsequent actions:

- May 8, 1984 (49 FR 19480)

  -- 4 sites in San Gabriel Valley, CA, were added to the final NPL in a separate rulemaking
  -- 129 remained proposed

- September 21, 1984 (49 FR 37070)

  -- 123 sites were added to the final NPL
  -- 2 were removed from further consideration because their final HRS scores were below the 28.50 cutoff
  -- 4 remained proposed

- June 10, 1986 (51 FR 21054)

  -- 1 site was added to the final NPL
  -- 1 was removed from further consideration because its final HRS score was below the 28.50 cutoff
  -- 2 remained proposed

- June 24, 1988 (53 FR 23978)

  -- 1 RCRA site was reproposed

- March 13, 1989 (54 FR 10512)

  -- W.R. Grace & Co., Inc. (Wayne Plant), Wayne, NJ, was reclassified as a Federal facility site and renamed W.R. Grace & Co. Inc./Wayne Interim Storage Site (USDOE)

- October 4, 1989 (54 FR 41000)

  -- 1 site was removed from further consideration because it is subject to RCRA Subtitle C
  -- 1 remained proposed

- February 11, 1991 (56 FR 5598)

  -- 1 site was removed from further consideration because ATSDR rescinded the health advisory that was the basis for its proposal

Original Proposed NPL (December 1982)

The original NPL, proposed on December 30, 1982 (47 FR 58476), consisted of 418 sites, including 153 sites of the 160 sites announced previously before formal rulemaking — the 115 sites announced on October 23, 1981 as the Interim Priorities List and 45 announced on July 23, 1982 as the Expanded Eligibility List. Five of the seven sites not included in the original proposed NPL were deleted because response actions had been completed:

- Luminous Processes, Inc., Athens, GA
- Chemical Metals Industries, Inc., Baltimore, MD
- Walcotte Chemical Co. Warehouses, Greenville, MS
- Chemical and Minerals Reclamation, Cleveland, OH
- Butler Mine Tunnel, Pittston, PA (later reproposed and placed in the NPL)

Two of the seven sites were removed from further consideration for the NPL. The HRS score on this site was recalculated, dropping it below the 28.50 cutoff:

- Allen Transformer, Fort Smith, AR

This site was a Federal facility site and thus not eligible for the NPL at the time:

- Fort Lincoln Barrel Site, Washington, DC

Subsequent actions:

- September 8, 1983 (48 FR 40658)
  - -- 406 sites comprised the original NPL. Among the sites were Times Beach, MO, proposed in a special rule on March 4, 1983 (48 FR 9311) and Vestal Water Supply Well 1-1 and Vestal Water Supply Well 4-2, Vestal, NY, proposed as one site under the name Vestal Water Supply
  - -- 6 were removed from further consideration:
    - ~ 5 had final HRS scores below the 28.50 cutoff
    - ~ 1 had its top-priority designation withdrawn by the State, and its HRS score was below the 28.50 cutoff
  - -- 1 was deleted because the responsible party had implemented all appropriate response action
  - -- 7 remained proposed
- September 21, 1984 (49 FR 37070)
  - -- 5 sites were added to the final NPL
  - -- 2 were removed from further consideration:
    - ~ 1 had a final HRS score below the 28.50 cutoff
    - ~ 1 had contamination that occurred naturally
- June 10, 1986 (51 FR 21099)
  - -- Silver Bow Creek, Silver Bow/Deer Lodge Counties, MT, was proposed for expansion and renaming
- July 22, 1987 (52 FR 27620)
  - -- Silver Bow Creek, Silver Bow/Deer Lodge Counties, MT, was expanded and renamed Silver Bow Creek/Butte Area

WA	Seattle Municipal Landfill (Kent Highlands)	Kent	Private
WI	Algoma Municipal Landfill	Algoma	Municipal
WI	City Disposal Corp. Landfill	Dunn	Private
WI	Hechimovich Sanitary Landfill	Williamstown	Private
WI	Janesville Old Landfill	Janesville	Municipal
WI	Lauer I Sanitary Landfill	Menomonee Falls	Private
WI	Lemberger Landfill, Inc. (once listed as Lemberger Fly Ash Landfill)	Whitelaw	Private
WI	Mid-State Disposal, Inc. Landfill	Cleveland Township	Private
WI	Muskego Sanitary Landfill	Muskego	Private
WI	Omega Hills North Landfill	Germantown	Private

State	Site Name	City/County	Ownership
WI	Onalaska Municipal Landfill	Onalaska	Municipal
WI	Sauk County Landfill	Excelsior	County
WI	Spickler Landfill	Spencer	Private
WI	Stoughton City Landfill	Stoughton	Municipal
WI	Tomah Armory	Tomah	Municipal
WI	Tomah Fairgrounds	Tomah	Municipal
WI	Tomah Municipal Sanitary Landfill	Tomah	Municipal
WI	Waste Management of Wisconsin, Inc. (Brookfield Sanitary Landfill)	Brookfield	Private

Total Number of Municipal Landfill Sites: 231

[1] For NPL purposes, a "municipal landfill" is a site, public or private, that has received municipal waste. The list is based on limited information available at time sites are added to the NPL and so sites may have conducted activities other than receiving municipal waste.

Types of Activities at NPL Sites

March 14, 1991
(Effective Date of Revised HRS)

Activity	Total
Surface impoundments	437
Landfills, commercial/industrial	418
Containers/drums	301
Other manufacturing/industrial	235
Landfills, municipal	231
Spills	196
Chemical processing/manufacturing	168
Leaking containers	117
Waste piles	116
Tanks, above ground	111
Tanks, below ground	81
Ground-water plumes	70
Electroplating	69
Military testing & maintenance	62
Wood-preserving	55
Open burning	54
Waste-oil processing	47
Ore processing/refining/smelting	47
Military ordnc. prod./stor./disp.	40
Outfall, surface water	37
Solvent recovery	34
Landfarm, land treatment/spreading	33
Battery recycling	25
Incinerators	19
Mining sites, surface	17
Drum recycling	14
Underground injection	13
Sand and gravel pits	10
Explosive disposal/detonation	10
Road oiling	9
Mining sites, subsurface	9
Laundries/dry cleaners	9
Sinkholes	7
Tire storage/recycling	2

Total Sites[a] : 1189

[a]Since each site may have more than one activity, the number of activities is greater than the number of sites.

Substances Found Most Frequently at NPL Sites[1]
March 14, 1991

(Effective Date of Revised HRS)

Substance	Number of Sites
1, 1, 2-Trichloroethylene	401
Lead	395
Chromium and Compounds	310
Toluene	281
Benzene	249
Tetrachloroethylene	210
1,1, 1-Trichloroethane	202
Chloroform	196
Arsenic	187
Polychlorinated Biphenyls (PCBs)	185
Cadmium	179
Zinc and Compounds	159
Copper and Compounds	150
Xylene	136
Trans-1,2-Dichloroethylene	134
Ethylbenzene	130
Phenol	126
1, 1-Dichloroethane	124
Methylene Chloride	107
1, 1-Dichloroethylene	106
Mercury	97
Vinyl Chloride	92
Cyanides (Soluble Salts)	90
Nickel and Compounds	83
Carbon Tetrachloride	81
1, 2-Dichloroethane	77
Chlorobenzene	65
Pentachlorophenol	62
Naphthalene	60
Methyl Ethyl Ketone	56
DDT	50
Trichloroethane	49
More than 15 Substances Listed	48
Barium	47
Manganese and Compounds	44
Phenanthrene	41
Acetone	40
Heavy Metals	40
Benzo(a)pyrene	37
Chlordane	33
Iron and Compounds	33

[1]Only substances used to document HRS scores, not a complete inventory of all substances at all sites. Based on preliminary information available at time sites were screened using the HRS. May change on basis of more detailed studies that follow listing.
