ACKNOWLEDGEMENTS

A sincere thank you is extended to John E. Knight, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, for developing the computer software for this bibliography, and to Mary E. Patterson and Darlene D. Booth, Library Systems, U.S. Environmental Protection Agency, Washington, D.C., for the data input. Their invaluable assistance and efforts contributed greatly to this project.

INTRODUCTION

This bibliography was prepared to identify recent publications on various aspects of ACID RAIN. It contains 900 citations covering journal articles, published bibliographies, books, reports, conference and symposium proceedings, audio visual materials, newsletters, and pamphlets. The project is a continuing effort and will be updated periodically.
