U.S. EPA Headquarters Library
Mail code 3201
1200 Pennsylvania Avenue NW
Washington DC 20460

Introduction:

This guide to videotapes at the EPA Information Resources Center provides EPA staff with a one-stop reference to the video collections. Each item has been assigned a temporary, local call number. These will be replaced with standard Library of Congress call numbers at a later date.

EPA Headquarters staff: Videos circulate for one day, with one-day renewal possible. Tapes must be picked up and returned personally by the borrower; they must not be returned through inter-office mail.

EPA regional and laboratory staff: Please ask your on-site library to reserve or borrow Headquarters Library videos. Regional and laboratory libraries may borrow tapes for three weeks, provided there are no prior reservations for the tapes.

Special requests: Videotape reservations for special workshops, seminars or retreats should always be made as far in advance as possible to avoid conflicts. Any requests to extend the normal circulation period must be approved by library staff.

For more information: contact the Headquarters Library Audio/Visual coordinator at (202) 260-5922.

Note: Unless otherwise indicated, all tapes are in 1/2-inch, VHS format.

Environmental Collection

Abandoned Wood-Treating Sites

SEE. Program #1 Fall 1992

Alabama Oil Burn

Environmental Protection Agency 1993; Run: 7:15

E A4333 1993

Describes a series of experiments studying oil burn emissions. Controlled oil spills, usually held special in holding tanks, are burned and the emissions are studied to determine the level of atmospheric contamination that can result from an oil burn. If the level of emissions is found to be within safe limits burning of oil spills may be the most effective means of dealing with spills

Alive in an Urban harbor

Marine Sciences Research Center 1991; Run: 28:34

E.A5584 1991

In close quarters with the intense development of the NY/NJ harbor estuary is an all-but-forgotten natural habitat. Interviews with numerous specialists outline the various approaches to remediating and conserving the estuary. Issues discussed include species diversity, dredging, port activities, clamming, Tourism, combined sewer overflows and floatables management. Produced by John J. Stevens Productions for The Marine Sciences Research Center and the NY/NJ Harbor Estuary Program

America's Sea: The Gulf Initiative

SEE: Gulf Initiative, America's Sea.

Anatomy of a Crisis

Environmental Protection Agency 1982; Run: 24:00

E.A5386 1982

Companion to Strategy for Crisis Response. This two-part program (this tape is the first part) is a documentary of an environmental catastrophe - a chemical freight train derailment, explosion and fire Extensive on-site footage and interviews with clean-up experts and government officials are aimed at anyone who may be called upon to deal with such a crisis

Asbestos Air Monitoring

Selection Productions 1987; Run: 38:00

E A8347 1987

Air monitoring is a crucial part of assessing and controlling asbestos hazards in building spaces. This program provides an overall orientation to the equipment and procedures involved in the collection and analysis of air samples. It was produced in and around a major asbestos testing laboratory in New Jersey.

Basket Creek

Environmental Protection Agency 1993; Run: 6:00

E.B3754 1993

Environmental Response Video

Basket Creek Site

SEE: Program #2 : Winter 1993

Bayou Bonfouca

SEE: Program #6 Summer 1995

Beyond Business as Usual: Meeting the Challenge of Hazardous Waste

See: Meeting the Challenge of Hazardous Waste

Bicycling to Work

Environmental Protection Agency 1982; Run: 16:00

E.B5393 1982

This tape presents the advantages of commuter bicycling and tips on how to promote it in your community

Big Apple Hot Apple: Emergency Removal of Toxic/Radioactive Waste in Q

Environmental Protection Agency 1990; Run: 30:00

E.B5403 1990

Serving as a general introduction to emergency remediation activities, this tape is a documentary of an emergency removal of radioactive/toxic waste at a site in the heart of New York City.

Boston Harbor Pollution

Divers Down, Inc. 1987; Run: 22:50

E.B6786 1987

Bob Michelson and Mark Stanton present an account of the pollution problems facing Boston Harbor. The tape features interviews with those heading the clean-up effort, and rare underwater photography documenting the pollution.

Car Smart

Atlantic Richfield Co. 1990; Run: 23:39

M.C3707 1990

Car Smart is a film designed to teach high school and junior high school students about the harmful effects of auto pollution. The program discusses how students can individually reduce the toxic pollutants emitted from their cars every day.

Causation and Causal Inference in Epidemiology: Radon and Lung Cancer

U.S. EPA Institute 1987

E.C3873 1987

Features Dr. Alice Whittemore. Dr. Whittemore, of Stanford University School of Medicine, addresses the 5th annual EPA Institute epidemiology meeting regarding the risks of cancer from radon and whether it is possible to draw causal conclusions from statistical associations.

CAV-OX Oxidation Process, Magnum Water Technology

PRC Environmental Management, Inc. 1993; Run: 14:00

E.C3806 1993

Clean Water, Clear Choices: The Challenge of Nonpoint Source Pollution

National Association of Conservation Dis 1991; Run: 15:00

E.C5436 1991

Rainwater runoff carrying chemicals, soil, debris and bacteria can lead to nonpoint source pollution of water bodies. This program describes a co-operative project to clean the Anacostia River. The problem is described in both urban and rural settings, and successful solutions in both settings are high-lighted.

Clean Water: Quest for Quality

Wastewater Institute 1986, Run: 25:00

E.C643 1986

U.S. Environmental Protection Agency & New England Regional Wastewater Institute, 1986 (25 minutes) This tape features case studies of several cities' and towns' quests for proper wastewater treatment. The intention is that concerned citizens can apply the lessons learned to their own communities.

Cleanup by the CRV

Environmental Protection Agency 1990; Run: 12:10

E.C5436 1990

Environmental Response Video. This video examines some of the difficulties related to the clean up of the Chemical Control company in urban New Jersey. Some of the hazardous materials at the site had to be stored on site for several years, in special containers, until an acceptable means of handling them was available. This is the Cylander Recovery Vessel, or the CRV.

Climate Simulations : Prediction of Global Change

Federal Republic of Germany 1995

E.C55 1995

A look at how computer simulations are helping to generate and examine information necessary to make decisions on environmental issues.

Co-operation Across Boundaries: The Acid Rain Dilemma

Umbrella Films 1986, Run: 32:00

M.C6747 1986

The relationship between two industrial powers is examined in the context of U.S. and Canadian attempts to solve the acid rain problem afflicting both countries.

Conversation: EPA's Past, Present and Future

Environmental Protection Agency 1990; Run: 60:00

M.C6684 1990

In recognition of EPA's 20th anniversary, Region 1 Administrator Julie Belaga moderates a panel discussion with former EPA administrators William Ruckleshaus, Russell Train, Lee Thomas and William Reilly and former Council on Environmental Quality chair James Gustave Speth, at the Arena Stage in Washington, DC. Topics addressed include the Agency's mission, its status 20 years into the future, cabinet-level status, a new headquarters building, Agency restructuring, creation of a culturally-diverse workforce, and the contributions of Region-level employees.

Development of Biological Criteria for Use in Water Quality Standards

Environmental Protection Agency 1992; Run: 19:30

E.D4845 1992

This program presents an overview of biological criteria, one of the three elements of water quality criteria for states and Indian tribes. The program emphasizes selection and evaluation of reference sites, measurement of biological structure and function, and objective analysis of results. [Water Quality Videos.]

Diamond in the Rough

Clean Lakes Program, 1991; Run: 23:00

E.D5366 1991

Wisconsin Department of Natural Resources, Clean Lakes Program, 1991 (23 minutes). Lake Delevan, a 2,000-acre lake in Wisconsin's Walworth County, serves as a demonstration of lake restoration technology. The video describes steps taken to address non-point source pollution: improvement of land-use practices, wetland restoration, modification of lake inflow and outflow, fish eradication and introduction of desirable species. 2 copies.

Divers Down

SEE: Boston Harbor Pollution

DIVEX: Response & Removal Action

See Program #5, Fall 1994

Don't Blow It: Asbestos Action Program

Environmental Protection Agency 1986; Run: 16:00

Collection: Environmental, E.D6680 1986

Protecting oneself from asbestos during brake servicing in automotive repair shops is the subject of this presentation. Dangerous behavior is demonstrated, followed by safe methods of asbestos removal.

Drum Site (Matthews, NC)

Environmental Protection Agency 1994; Run: 5:00

E.D786 1994

Ecotoxicologists at Oak Hill

Environmental Protection Agency 1992; Run: 5:00

Collection: Environmental; E.E3686 1992

Environmental Response Video. This video presents a brief overview of how field toxicologists access the toxicicity of an area the looks otherwise normal. Fish, insects, and other small animals are often good sources of environmental information.

eData Overview

Environmental Protection Agency; Run: 6:00

E.E4383

Environmental Response Video. e-Data Overview (Electronic Data Transfer and Validation System). This video provides a quick overview of a decentralized, module-based information exchange system used by the EPA.

Enumeration Methods for E. coli and Enterococci

Environmental Protection Agency 1986; Run: 29:50

E.E5864 1986

The presentation begins with a history of water quality standard regulations in the U.S. and the EPA determination that e. coli (freshwater) and enterococci (marine) are reliable measures of water quality for recreational use. The remainder of the tape is a detailed presentation of the test methods to be used for detecting and enumerating the bacteria. The end of the tape refers the viewer to the printed test methods available from the National Technical Information Service (NTIS).

Environmental Protection: Public Willing?

Harvard Video Services 1994

E.E58 1994

EPA's Energy Star

Environmental Protection Agency 1993; Run: 28:30

E.E6 1993

Environmental Showcase, VI "A New Age in Energy-Efficient Computing." This video looks at the environmental impacts of computers, and how some computer companies are making them more energy efficient

EPA's Eye in the Sky

Environmental Protection Agency; Run: 20:00

E.E6

EPA's Environmental Photographic Interpretation Center (EPIC), in Warrenton, Virginia, describes its mission and the services it can provide based on its expertise in, and collection of, aerial photography and remote sensing output. Historical air photo series allow site analysis, site-discovery inventories and litigation support. Emergency site reconnaissance missions, sensitive-area identification, map creation, photogeologic analysis, GIS expertise and training are also provided by EPIC, and the video shows some of these services in action

EPCRA: What it Means to You

Environmental Protection Agency 1990; Run: 18:00

E.E6373 1990

EPCRA (The Emergency Planning and Community Right-to-know Act) and how it affects citizens' right to information is the subject of this tape. Featured subjects include chemical inventory reporting requirements, toxic chemical release reporting requirements, state and local emergency planning commissions and committees, and the National Response Team. Actor Eddie Albert introduces the tape, and former EPA Administrator William Reilly concludes.

Epidemiology

EPA Institute 1988; Run: 105:00

E.E6534 1988

This video transcript of an EPA Institute seminar discusses issues of total human exposure to environmental pollution and the measurement of that exposure. Described are advances in measuring human exposure and the development of human activity pattern exposure models.

Estuary

Environmental Protection Agency 1972; Run: 28:00

E.E8891 1972

National Oceanic and Atmospheric Administration. Bold, dramatic cinematography highlights this presentation of the ecological and human significance of estuaries. Case studies of well-known water bodies illustrate a discussion of the importance of protecting all estuaries.

Firsthand Lesson in Secondhand Smoke

Environmental Protection Agency 1993; Run: 10:00

E.F5778 1993

This video looks at some of the effects of second hand smoke, from children who have been effected by it 2 copies

Floatables Problem

Environmental Protection Agency 1988; Run: 13:30

E.F6638 1988

In 1987, EPA investigated repeated occurrences of garbage deposition on beaches in the New York City metropolitan area. This program reports on that investigation. Findings include a taxonomy of floating garbage (dispersed small quantities, large coagulated slicks), principle sources of the garbage (combined sewer overflows, accidental and intentional dumping of garbage) and solutions (CSO diversions, incineration of hospital waste).

Flood Management in Prince George's County

Prince George's County, MD 1990; Run: 22:32

E.F666 1990

Overview of a county wide flood management program. Several hotlines for county residents are mentioned

Gifts

Environmental Protection Agency 1971; Run: 28:00
E.G5487 1971

Features Lorne Greene. This Oscar-nominated documentary is one of the most influential presentations of environmental pollution, and a landmark in advancing environmental awareness during the 1970s. Narrator Greene describes the harm that has come to the environment over a century-and-a-half of human impact.

Global View of Environmental Problems

Environmental Protection Agency 1988; Run: 59:58
E.G5633 1988

With Jacques Cousteau

Great Lakes: Troubled Waters

Umbrella Films 1984, Run: 48:00
E.G7438 1984

Produced by the Canadian Broadcasting Corp. First shown on CBC, the program looks at pollution in the Great Lakes and efforts that are underway to clean up the region, which is considered the most polluted region in North America.

Gulf Initiative: America's Sea

Environmental Protection Agency 1986; Run: 17:10
E.G8540 1986

The tape describes how human activities and population growth take an increasingly costly toll on the ecology of the Gulf of Mexico, resulting in algae blooms, nitrogen run-off, oxygen depletion and wetland loss. A prologue features former EPA Administrator Lee Thomas announcing the formation of the Gulf of Mexico Program (the Gulf Initiative), an ecological approach to addressing these problems and the inefficiencies caused by bureaucratic turf wars and media-based management. 2 copies. Produced by U.S. EPA Region 4, Region 6, and the Gulf of Mexico Program Office

Gulf of Mexico Program: Video II

Environmental Protection Agency; Run: 15:34
E.G854

The EPA-established, multi-agency Gulf of Mexico Program, headquartered at NASA's Stennis Space Center in Mississippi, helps co-ordinate citizens, business and government in a region-wide effort to stem the decline of the Gulf of Mexico. This video describes the program and the challenges it faces. William Reilly, former EPA Administrator, makes it clear that "the Gulf program is about people like you and me."

Hazardous Substance Research Center Program Infomercial

Environmental Protection Agency 1991; Run: 5:36
E.H3937 1991

Herbicide Trials

Cape Breton, Nova Scotia 1987; Run: 48:00

E.H4735 1987

Residents of Cape Breton, Nova Scotia, used the legal system to try to stop a paper company from initiating a herbicide spraying program on forest land near their homes. The story of their efforts is the subject of this documentary.

How the Waste Was Won: Source Reduction and Recycling in the West

Environmental Protection Agency 1990; Run: 12:00

E.H6908 1990

A Westerner offers tough talk about the future of landfills in EPA's Region 8 under the new Resource Conservation and Recovery Act requirements. The problem can be averted if people will "reduce, reuse, recycle and be creative." Each concept is explained, and tips for average consumers are suggested

Hozho Hooghan [Environmental Harmony at Home]

Environmental Protection Agency 1995; Run: 12:47

E.H6964 1995

Hozho Hooghan speaks to the realities of today's personal safety and environmental problems through traditional Dine values and culture to benefit all the Dine. Filmed in the Dine language near Shiprock, New Mexico, with English captions. 2 copies.

Hozho Keyah [Environmental Harmony in Business]

Environmental Protection Agency 1995; Run: 10:00

E.H6965 1995

Hozho Keyah speaks to the realities of today's personal safety and environmental problems through traditional Dine values and culture to benefit all the Dine. Filmed in the Dine language near Shiprock, New Mexico, with English captions. 2 copies.

I Need the Earth and the Earth Needs Me

General Motors Corp. 1990; Run: 20:00

E.I064 1990

Features Colleen Dewhurst. Designed for the nation's school- children, this educational video delivers the message that the earth is our home. All living things on earth depend on each other, and all need a quality environment 2 copies.

Investigation and Cleanup of Wood-Treatment Sites

Environmental Protection Agency 1992; Run: 7:00

E.I5847 1992

Environmental Response Video, EPA Region 4. This video looks at some of the issues related to soil contamination at older, or inactive wood treatment centers.

Investigation of Denny Farm Site (Verona, MO)

Environmental Protection Agency 1991; Run: 22:00

E.I6847 1991

Using the Denny Farm site as an example, this video details the step-by-step process EPA follows in investigating a toxic waste site. This site was contaminated by dioxin which was dumped without consent of the owner. EPA monitored the farm to ascertain if the contamination spread. 2 copies

Lake Restoration: An Investment that Pays Off

Environmental Protection Agency 1991; Run: 20:00

E.L4354 1991

Nonpoint source pollution is the number one killer of lakes in Iowa, according to this video, produced in co-operation with the Iowa Department of Natural Resources and the Carroll County Conservation Board. A case study of Swan Lake demonstrates the economic benefits of restoration, showing that treatment of existing pollution and prevention of further pollution is cost-effective. Recommended solutions include adjustment of watershed size, erosion control and enlightened agricultural practices.

Legal Winds of Change: Business and the New Clean Air Act

Environmental Protection Agency 1990; Run: 123:00

E.L4435 1990

Discusses important provisions of the Clean air act as they apply to small and mid-sized businesses.

Listening to the Caribbean

Huddle Productions 1992, Run. 60:00

E.L5 1992

Video report of a special meeting of several environmental scientists from Caribbean countries, each pointing out different issues that need to be addressed for sustaining the Caribbean ecosystem.

Low Temperature Thermal Stripping

US Army 1992

E.L6 1992

Demonstration of a two-step process to dipose of volatile organic compounds (VOC's).

LUST - Leaking Underground Storage Tanks

University of Wisconsin 1989; Run: 10:37

E.L8780 1989

This video looks at some of the issues related to leaking underground storage tanks, such as contaminated soil and ground water. Some of the financial aspects are addressed as well.

Major Rivers

Lower Colorado River Authority; Run: 6:35

E.M

Semi-cartoon style overview of how water is distributed throughout Texas.

U.S. EPA Headquarters Library
Mail code 3201
1200 Pennsylvania Avenue NW
Washington DC 20460

Managing Asbestos in Place

Environmental Protection Agency 1992

E.M3 1992

A "how to" type of program describing how to set up a program of managing asbestos in buildings.

Meeting the Challenge of Hazardous Waste

Environmental Protection Agency 1988; Run: 29:00

E.M4485 1988

The national strategy for cleaning up and reducing hazardous waste is the subject of this program. It describes: (1) the background to passage of CERCLA and RCRA legislation, (2) the role of government, industry and community in reducing waste at the source, (3) successful recycling efforts and "waste clearinghouses," and (4) available treatment technologies. 2 copies

Montana Groundwater

SEE: Program #3, Summer 1993

Montana Post & Pole Groundwater Treatment Facility

Environmental Protection Agency 1993; Run: 7:00

E.M6 1993

Overview of a system set up to extract groundwater contaminants from the area around an old wood processing plant near Butte, Montana.

Mt. Trashmore

Environmental Protection Agency 1982; Run: 7:00

E.M8087 1982

Efforts to transform a problem-ridden landfill into a community resource are described in this video. The result is a new park.

National Lake Survey

Environmental Protection Agency 1984; Run: 14:27

E.N3856 1984

The EPA's work to learn about and prevent acidification of lakes is described in this program.

Navajo Vats: Bioremediation of Pesticide Sites at the Navajo Nation

Environmental Protection Agency 1993; Run: 9:30

E.N383 1993

Oak Hill PCB Site

SEE: Ecotoxicolgists at Oak Hill

Oil Burn Update

SEE: Program #4 Winter 1994

Operation Border Crossing

Environmental Protection Agency 1991; Run: 7:00

E.O6473 1991

Environmental Response Video. Overview of lessons learned from a simulated toxic waste spill.

Operation Contra Costa Shore

Environmental Protection Agency 1993; Run: 7:30

E.O6473 1993

Environmental Response Video Overview of lessons learned from a simulated toxic waste spill

Operation Inland Response

Environmental Protection Agency 1992; Run: 6:10

E.O6473 1992

Environmental Response Video. Overview of lessons learned from a hazardous materials field exercise

Operation Wildfire

Environmental Protection Agency 1989; Run: 13:15

E.O6473 1989

Environmental Response Video EPA Region 9. This video examines the lessons learned from a hazardous material spill simulation.

Overview of the United States Environmental Protection Agency

Environmental Protection Agency 1986; Run: 16:26

E.O9478 1986

This program presents an overview of the structure and operations of the EPA. Scenes of exceptional landscapes, environmental degradation and functioning ecosystems convey the importance of public protection of the environment.

Ozone : Double Trouble

Environmental Protection Agency 1993

E.O96 1993

Planning Wastewater Facilities for Small Communities

See: Survey of Wastewater Technology

President's 90 Day Moratorium on Federal Regulations

Environmental Protection Agency 1992; Run: 4:38

E.P7475 1992

Problem is Perc: Compliance Within the Dry Cleaning Industry

ECO Source International 1992; Run: 18:03

E.P7635 1992

This video addresses some of the environmental effects of Perculathine, a chemical commonly used in the dry cleaning industries.

Program #1 : Fall 1992

Environmental Protection Agency 1992; Run: 27:00

E.P7647 n.1

Environmental Response New Magazine. * Abandoned Wood-Treating Sites; * Operation Inland Response; * Site: Unseen (Pickett Road, Part 1); * Eco-Toxicologists at Oak Hill

Program #2 : Winter 1993

Environmental Protection Agency 1993; Run: 27:00

Special Edition: * Lorain County Pesticide; * ERTP Training

Protozoa and Enteric Virus Sample Collection Procedures

Environmental Protection Agency 1995; Run: 40:00

E.P7686 1995

Demonstrates the monitoring requirements and sample collection procedures for detecting Giardia cysts and Cryptosporidium oocysts in drinking water.

Radiation and our Environment

Atomic Energy Control Board, Canada 1992; Run: 21:05

E.R3353 1992

This video explains some of the physical aspects of radiation; where it comes from and how it can effect people; how it can be detected and measured.

Radioactivity and Drinking Water

Environmental Protection Agency 1983; Run: 44:00

E.R3356 1983

A 2-tape, 2-part series. Part 1-Radioactivity, 1983 (24 minutes) Provides basic concepts of nuclear physics for the non-scientist. Part 2-Health Effects, 1984 (20 minutes) Discusses the health effects of radioactivity to the human body, including radioactivity occurring in water.

Small Diameter Effluent Sewers
See: Survey of Wastewater Technology

SOS for America's Streams: A Guide to Water-Quality Monitoring
Izaak Walton League of America 1990; Run: 20:00
M.S6704 1990
The tape describes the history of the Izaak Walton League from its founding in 1914 to today, and the Save our Streams program, a voluntary network of activists who adopt stream segments, clean them, and monitor their water quality. The tape's emphasis is on the field work the volunteers perform, and the idea that you can't tell if a stream is clean by just looking at it.

State of the World with Lester Brown
Public Affairs Television, Inc. 1990; Run: 28:00
E.S7384 1990
An episode of A World of Ideas With Bill Moyers. PBS, WNET-New York, WTTW-Chicago, WTVS-Detroit. Features Bill Moyers and Lester Brown. Moyers has a probing conversation with Brown, founder of the World Watch Institute, about the condition of the planet and what can be done to close the gap between what we are doing to it and what needs to be done.

Straight Talk on Leak Detection
Environmental Media Center 1990; Run: 30:00
E.S7735 1990
An introduction spotlights underground storage tank (UST) owners and operators, who share their comments on strengthened UST regulations. Next, imaginary Joe Thursday, Leak Detective, describes numerous methods to detect leaks in underground storage tanks and pipes, including

internal (inventory control, tightness testing, manual and automatic tank gauging), external (installation of monitoring wells and detection units), and interstitial (secondary containment with interstitial monitoring)

Strategy for Crisis Response

Environmental Protection Agency 1983; Run: 23:00
E S7738 1983

Companion to Anatomy of a Crisis. This two-part program (this tape is the second part) is a documentary of an environmental catastrophe-a chemical freight train derailment, explosion and fire. Extensive on-site footage and interviews with clean-up experts and government officials are aimed at anyone who may be called upon to deal with such a crisis.

Summitville Mine

Environmental Protection Agency 1994; Run: 9:00
E S866 1994

Survey of Wastewater Technology

Environmental Protection Agency 1988; Run: 60:00
E S8784 1988

Video contains 4 programs Small Diameter Effluent Sewers, 1988 (15 minutes) Andrea Berry describes, in detail, the use, cost efficiency, effectiveness and practicality of the small diameter effluent sewer in comparison to conventional sewers.

Take Pride Gulf-Wide

Gulf of Mexico Program, EPA 1991; Run: 18:00
E T3540 1991

This program describes the growing pollution problems in the Gulf, especially focusing on off-shore ship dumping and beach littering. The video introduces the Gulf of Mexico Program's Take Pride Gulf-Wide campaign, an attempt to find "regional solutions to a regional problem" involving the Federal government, the 5 Gulf states, the public and industry. The tape outlines regulatory responses (new maritime treaty language) and community-based public involvement (beach clean-ups, boater pledges, consciousness-raising).

Technical Considerations Regarding the Enpoint of SVE Operations

Risk Reduction laboratory, EPA 1994; Run: 90:00
E.T4 1994

Technology Update, ISV

See Program #5, Fall 1994

Tire Fires

Environmental Protection Agency 1987; Run: 15:00
E T5740 1987

Environmental Response Video. This video looks into the environmental hazards of burning tires, specifically the toxic fumes emitted, and the chemical components released as the tires break down.

Treating the Land, Protecting the Water: The Heber Valley Story

Mountainland Association of Governments 1992; Run: 10:00

E.T7438 1992

The tape describes how, during the late 1970s and '80s, the Deer Creek Reservoir, near Salt Lake City, suffered from phosphorus oversupply and algal blooms. In 1979, an inter-disciplinary, co-operative team was assembled to work with land owners on cleaning up the watershed.

Volume Reduction Unit (VRU)

Environmental Protection Agency 1994; Run: 13:07

E.V6586 1994

Site demonstration of the EPA's volume reduction unit.

Warnings on the Wind: Air Toxics and the Great Lakes

Center for Environmental Study 1987; Run: 28:30

E.W3765 1987

Watch Your Waste

King County Solid Waste Division; Run: 6:18

E.W3834

"How your business can profit from waste reduction and recycling." This video looks at some of the long-term financial benefits of recycling. This video is specifically targeted to businesses that use a lot of paper.

Water Follies

Environmental Protection Agency 1980; Run: 7:00

E.W3847 1980

A creative and amusing animated feature which will provoke both thoughts and actions about the need to conserve water resources and how to go about doing so.

Water Quality Standards on Indian Lands

Environmental Protection Agency 1992; Run: 18:39

E.W3847 1992

Water Quality Videos

* Antidegradation Policy: A Means to Maintain and Protect Existing Uses and Water Quality
* Development of Biological Criteria for Use in Water Quality Standards; * Development of Water Quality Criteria and Its Relationship to Water Quality Standards; * Enumeration Methods for E. coli and Enterococci; * Introduction to Water Quality Standards; * Water Quality-Based Approach to Pollution Control; * Water Quality Standards and 401 Certification; * Water Quality Standards on Indian Lands

Watersheds

Winsonsin Public Television 1990
E.W38477 1990

Wealth in Wetlands

National Association of Conservation Dis 1991; Run: 23:00
E.W4358 1991

This co-operatively-produced video includes interviews with five farmers who believe there is a place for wetlands on their farms. Each explains personal convictions on the values of wetlands, in terms of both the farming operation and personal satisfaction. Also included are brief overviews of wetlands losses, restoration methods, and sources of help in wetlands conservation and resources in the United States.

Wetlands

Wetlands Research Inc 1989; Run: 9 42
E.W4853 1989

450 acres of former farmland 35 miles north of Chicago, on the Des Plaines river in Lake County, Illinois, are the site of a project to demonstrate wetland restoration. Restoration will ve carried out through the instillation of shallow basins, pumping stations, monitoring stations, a rerouted river, tree removal and controlled fires to maintain prairie conditions.

Wetlands Water Quality Standards

Environmental Protection Agency 1996; Run: 28:00
E.W4853 1996

Discusses the functions and values of wetlands that can be protected by water quality standards, and how standards are developed under the Clean Water Act. Presents case studies from Nebraska, Washington, Minnesota, and Wisconsin.

What if We Could Start Over?

U.S. Forest Service 1988; Run: 39:50
E.W5380 1988

Features Dale Robertson. Adapted from a speech given at EPA on June 17, 1988, by Robertson, Chief, U.S Forest Service, the program documents how his agency is caring for the land and serving people with renewed commitment and energy. It describes how the Forest Service initiated a program directed at improving effectiveness by capitalizing on the real strength of the organization, its people 2 copies

What is Happening to Our Climate?

Federal Republic of Germany 1995; Run: 25:00
E.W5385 1995

German made video giving a brief look at how human activity has changed the ecosystem of the Earth

Witch's Brew: Secondhand Smoke in the Workplace

American Heart Association; Run: 10:38

E.W5844

This video looks at the various chemicals and physical effects associated with second hand smoke. Statements from several companies that went smoke free are included. 2 copies

Wonderful World of Recycle

Denver Dubbing, Inc. 1989; Run: 13:08

E.W6 1989

Brief look at the benefits of recycling; meant for children.

Worker Protection Standards

Environmental Protection Agency 1992; Run: 21:00

E.W6754 1992

Environmental Response Video. Provides an overview of OSHA and EPA coverage of worker protection and training programs.

Wrench Tectonics in the Chuckchi Sea

TCS Video Production Center 1990; Run: 29:00

E.W7463 1990

Xeriscape

National Xeriscape Council 1989; Run. 13:40

E.X4757 1989

This program describes aspects of xeriscaping-landscaping for a dry climate: planning and design, appropriate turf use, irrigation efficiency, soil improvement, mulching, use of water-conserving plants, and maintenance.

Year in the Life of a River

Girard Video 1991; Run: 28:27

E.Y4 1991

This tape looks at a campaign to clean up the Anacostia River, in Prince George's County, Maryland.

HIV/AIDS Collection

America at Work : Living with HIV

American Red Cross 1994; Run: 13:45

H.A4475 1994

Epidemic of Fear: AIDS in the Workplace

San Francisco AIDS Foundation; Run: 27:00

H.E6

Brief look at some of the more common questions about AIDS in the workplace. Most importantly, weather or not it can be contracted via casual contact.

Living with HIV: Conversations with Long Term Survivors

Burroughs Welcome Inc 1992

H.L5856 1992

Information Resources Collection

Building Environmental Partnerships through Information Sharing
Environmental Protection Agency 1989
Resource: I.B8 1989
Proceedings: November 13-16, 1989, Kansas City, MO. 2 copies

Computer Security: Make the Commitment
Emhart ATI 1989; Run: 14:00
I.C6678 1989
Actors depict computer security problems in a government office. Weaknesses in hardware and data integrity, virus protection and data backup procedures are diagnosed, and then, in a follow-up, prescriptions for improvement are made.

Copyright Awareness: Do you copy right or copy wrong?
Knight-Ridder 1994, Run: 6:06
I.C6697 1994
This video provides a brief overview of copyright law and it's applicability to commercial information. It does not deal extensively with academic or scientific materials. This video is in many ways a commercial for the Dialog information service; keep this in mind when viewing it.

Disaster Recovery in Motion
Environmental Protection Agency 1989
I.D5 1989
Overview of how environmental information can be recovered in the event of a disaster.

From the American Revolution to the Information Revolution
Environmental Protection Agency 1992; Run: 20:00
I.F7668 1992
Benjamin Franklin visits the late 20th-century to address some of the benefits, controversies and opportunities available through the use of new information technology to build a national consensus for environmental protection. He stresses the importance of careful communication of scientific knowledge to clarify issues and avoid misunderstanding.

GIS/Key Environmental Data Management System
Environmental Protection Agency 1994; Run: 15:51
Collection Information Resource; I.G57 1994

KGB, the Computer and Me
Coronet Film & Video 1990; Run: 58:00
I.K430 1990
Produced by WGBH Educational Foundation and WGBH-TV, Boston Mass. Based on a true story by Cliff Stoll in his book: *The Cuckoo's egg: tracking a spy through the maze of computer espionage*.

Originally broadcast as a segment of *Nova*. "6372CVHS"--Container/cassette label. Astronomer-turned computer scientist, Clifford Stoll traced a 75-cent error to an international computer espionage ring by using the scientific method.

National Environmental Information Conference, Video Summary

Environmental Protection Agency 1989

LN3 1989

Building environmental partnerships through information sharing.

Paving the Way: A Digital Drive on the Information Superhighway

Dialog Information Services 1994; Run: 4:00

LP3856 1994

Produced by Dialog Information Services for Members of the Quantum Program.

What is the National Computer Center?

Environmental Protection Agency 1970; Run: 21:25

LW5380 1970

Explains the overall functions of the NCC to its end users and new users. 2 copies.

Management/Human Resources Collection

Abilene Paradox

McGraw-Hill Training Systems 1984; Run: 27:00

M.A2554 1984

Management consultant Jerry B. Harvey illustrates the paradoxical nature of mismanaged agreement, describes symptoms of the paradox, probes the reasons behind the behavior, and offers strategies for eliminating collective decision-making confusion. 2 copies

Achieving Excellence

CareerTrack Publications 1986; Run: 90:00

M.A3454 1986

Business trainer Lou Heckler describes elements of excellence-oriented management. His topics cover creating quality, productivity through people, making things happen and achieving personal excellence

After All, You're the Supervisor!

Rank Roundtable Training, Inc. 1990; Run: 24:00

M.A3847 1990

The first tape presents the typical day of a supervisor as related by Richard Floss in an interview with a business reporter. The Discussion Tape is meant to be used as a stimulant: Mr. Flores's supervisor groups 17 supervisory activities into four major functions of management and poses basic questions about supervisory roles. The leader's guide presents options for creating workshops around the tapes.

All Change: Change for the Better

Video Arts Incorporated 1988; Run: 29:00

M.A550 1988 v1

John Cleese stars in this half of the two part : All Change: The Management of Change" video series that illustrates that change must be built into the heart of any organization. This series features three managers who fail to plan ahead, to make change or to respond to changes which will be forced on them by competition, technology or the market. Each is visited by H.G. Wells in his Time Machine. In this video Wells shows each manager two alternative futures.

All Change: The Shape of Things to Come

Video Arts Incorporated 1988; Run: 20:00

M.A550 1988 v2

In the second half of the two-part "All Change: The Management of Change," John Cleese continues illustrating that change must be a central value of any organization. H.G. Wells pays a second visit in his time machine to three formerly-change-resistant managers to see the impact of their new attitudes.

Bolero

Pyramid 1973; Run: 26:00

M B6547 1973

Zubin Mehta conducts the Los Angeles Philharmonic Orchestra in a stirring performance of Ravel's "Bolero". The film humanizes the orchestra by showing the musicians as individuals with their on problems and pleasures in their craft and careers.

Bottom-Up Marketing

McGraw-Hill 1989

M B68 1989 au

Brain Power

UCA Video/Films 1982; Run: 12:00

M B7356 1982

John Houseman discusses three key principles of perception: recognition of data, interpretation, and expectation. He relates these to the context of a meeting. 2 copies

Business and the environment: Lean, Clean + Green

Video Publishing House, Inc. 1991; Run: 46:45

M.B8756 1991

Addresses environmental issues regarding safety, litter control, pollution prevention, waste reduction, and clean up programs in order to help business and government leaders recognize that there is a big profit behind cleaning the environment in the 90's.

Case of the Missing Person

CRM/McGraw-Hill Films 1983; Run: 15:00

M.C3740 1983

Uses a case study format to explore the effect of a manager's expectations on the performance of an employee. Points out the importance of positive attitude in a manager.

Case of Working Smarter not Harder

CRM/McGraw-Hill Films 1982; Run: 15:00

M.C3740 1982

This video describes one manager's development from an overworked, compulsive problem solver to an innovator whose unique system draws public attention. It focuses on delegation of authority, decision making, planning, employee development, time management and team development.

Clear as Mud

Bosustow 1979; Run 8:00

M.C6437 1979

Animation and puppetry are used to highlight important points about communication with a special emphasis on the importance of speaking clearly so as to be understood.

Conducting a Performance Appraisal

MTI Film & Video 1985; Run: 13:00

M.M3634 1985 v7

"Management Basics in Action." This program discusses one of the fundamental tasks of management, covering the principal points to be included in a performance appraisal with particular emphasis on future goals and objectives.

Conducting a Salary Discussion

MTI Film & Video 1985; Run: 10:00

M.M3634 1985 v9

Dealing with one of the fundamental tasks of management, this video focuses on conducting salary discussions with employees. Forthrightness is required to make sure that it is clear to the employee that salary changes are related to performance.

Crosby on Quality

BBC training Videos. Films Inc. 1989; Run: 50:00

M.C7673 1989

Features Phillip Crosby. In Part 1 (18 minutes), Crosby describes his Four Absolutes of Quality and relates much anecdotal evidence for his conclusions of quality. In Part 2 (32 minutes), three case studies demonstrate the impact of Crosby's ideas on Bama Pies, Inc., Winter Park Memorial Hospital and Cameron Iron Works, USA, Inc. The lessons to be learned are equality applicable to public sector organizations.

Customer is Always Dwight

Video Arts., Ltd. 1989; Run: 22:00

M.C8786 1989

This video is about achieving %100 quality in all areas of work; not just production but sales, accounts, distribution, administration - every department or section of the organization

Data Quality Objectives: A Tool for achieving total quality

Environmental Protection Agency 1990; Run: 9:12

M.D3830 1990

Produced by: JWK International Corp. and Video Software Associates

Defining the Job

MTI Film & Video 1985; Run: 9:00

M.M3634 1985 v1

Illustrating a basic task of management, this program notes that poor performance can often be traced to not knowing what the boss expects. One the job is clearly defined, it can be used as a later measure of performance and as a basis for more formal discussions should future problems arise

Delegating

CRM McGraw-Hill Films 1981; Run: 28:00

M.D4544 1981

One of the most important organizational skills is the manager's ability to delegate authority among those who work for him. This film examines this issue and provides some basic steps that will aid the manager in easing his own workload, improving performance, and building a stronger and more efficient organization

EPA Quality

Henninger Video 1988; Run: 8:29

M.E6307 1988

Total quality management techniques as applied to the EPA.

Examples in Improvement

US Chamber of Commerce 1995; Run: 120:00

M.E936 1995

Excellence in the Public Sector

Enterprise Media, Inc. 1989; Run: 534:00

M.E9345 1989

Originally broadcast on PBS in Aug. 1989. "Made possible by a grant from Motorola." A Martin-Sandler production. Viewer's guide written by Toody Healy. The organizations profiled in this documentary on managerial excellence in the public sector are the Naval Aviation Depot, Alameda, CA; Dept. of Juvenile Justice, New York City; City of Phoenix, AZ; National Theatre Workshop of the Handicapped, New York City; and Ochoco National Forest, OR.

Finding Time

CRM/McGray Films 1980. Run: 28:00

M.F5635 1980

Managing a schedule properly can be challenging. This program discussed some of the reason why personal and organizational time scheduling is so difficult and gives some guidelines for effective time management.

Gaining Control: Five Steps to Freedom and Success

US Chamber of Commerce 1995; Run: 120:00

M.G35 1995

Getting Things Done: Mastering Goals, Priorities and Time-Wasters

CareerTrack Publications, Inc. 1989

M.G4885 1989 v1

Featured Edwin Bliss. CareerTrack's live version of Getting Things Done addresses dozens of commonly asked time-management questions. Here, Ed Bliss, a popular author and speaker, gives specific advice on getting more done in a day. His topics range from setting goals and defining priorities to increasing personal energy and hour-by-hour output.

Getting Things Done: Mastering Paperwork, Deadlines and Delegation

CareerTrack Publications, Inc. 1989

M.G4885 1989 v2

Time's slipping away. Stop the clock... and take a moment to learn Ed Bliss's tried-and-true time saving strategies in Volume Two of CareerTrack's live video seminar Getting Things Done. You'll learn how to focus on the "big picture" - and assume your long-term goals get done. You'll discover the common pitfalls of too much paperwork, bottlenecks and meeting multiple deadlines.

Giving Positive Feedback

MVI Film & Video 1985; Run: 7:00

M.M3634 1985 v3

Taking time to tell someone they did a good job will lean to continued good performance. This installment of a series dealing with basic management tasks discusses the importance of recognizing a job well done.

Handling Personal Problems

MTI Film & Video 1985; Run: 10:00

M M3634 1985 v5

This review of a basic management task discussed how to deal with an employee's personal problems such as excessive drinking, drug abuse or serious economic or family trouble. A manager's responsibility in such situations is to offer an opportunity to seek outside help, with the implication that failing to do so will result in termination.

Helping Hand: Coaching Skills

Video Arts, Inc. 1990; Run: 38:00

M H4575 1990

John Cleese presents the essentials of coaching in an easy to understand manner. The tape is divided into two parts: "Why Coach?" and "How to Coach." In both sections there are three characters: an employee who is to be coached, a manager who does the coaching, and Cleese, who guides and supports the manager. 2 copies.

How to Deal with Difficult People

CareerTrack Publications 1987; Run: 6 aud cas

M H6 1987 au

How to Define Goals and Objectives

McGraw-Hill Training Systems 1986; Run: 18:00

M H6908 1986

The subject of this program is a discussion of the clearly defined goals that enable organizations to focus on the effective use of resources and to chart a course for future development. Defining goals and objectives is a continuous process that requires a high degree of skill from each member of the organization.

How to Influence Motivation

CRM McGraw-Hill Films 1986; Run: 31:00

M H690 1986

With this tape, managers can learn how to foster employee motivation at three crucial stages of job performance: before a new task is begun, while the task is in progress, and after a task has been completed.

How to Lead Effectively

McGraw-Hill Publishers 1986; Run: 18:45

M H6908 1986

The selection of an appropriate leadership style is the key to using power effectively. The four leadership styles modeled in this program are directing, consulting, delegating and participating.

How to Listen Powerfully

CareerTrack Publications 1990

M H6908 1990

Ron Meiss provides an overview of how to improve one's listening skills. He points out that listening

isn't a passive activity, and that it can be learned and improved. 2 volumes

How to Manage Time
Talico Productions 1993
M H6909 1993

How to Prepare a Winning Proposal
CareerTrack Publications 1992
M H6910 1992 au
An effective system to sell your product, project or idea, by Pat Cramer.

How to Solve Problems
McGraw-Hill Training Programs 1986; Run: 22:19
M H6907 1986
Presents a systematic, step-by-step method of problem solving that allows the manager to apply both logic and creativity to the problem-solving process.

How to Win in Retirement or the Second Career
Time Out 1988; Run 4 tapes
M H6919 1988
2 copies. Series of tapes giving advice to people entering retirement, or starting a second career. Volume 1: Healthy Retirement ; Volume 2: Legal Aspects of Retirement ; Volume 3: Maximizing your potential , Volume 4: Place to Live

Humor is Not a Luxury
Video Arts, Inc 1989; Run 40:00
M H8667 1989
John Cleese illustrates that humor, far from being a luxury, is an essential ingredient of business life that makes an organization more competitive and open to change. If work is fun, employees will enjoy their work and wore more effectively. Humor can facilitate learning, change people's behavior, and help release stress.

I Told Them Exactly How to Do It
McGraw-Hill Films 1985; Run: 12:00
M I08 1985
An animated film about the manager in every company who is having communication problems with both his employees and his boss. Mitt Mittel learns the necessity of active listening.

Imagineering: Team Up to Think up New Ideas
MTI Film & Video 1986; Run: 16:00
M I4 1986
The viewer is instructed in pooling collective imagination to spark new ideas, unleash creativity, engineer ideas into problem-solving strategies, and build team spirit which will fuel co-operation and

productivity at all levels.

Improving Employee Performance

MTI Film & Video 1985; Run. 10:24

M.M3634 1985 v2

This discussion of a basic management task illustrates how to deal with common performance problems: absenteeism, tardiness, personality conflicts, problems with paperwork and an inability to handle job responsibilities.

Intrapreneurs

CRM McGraw-Hill Films 1988; Run: 55:00

M I5873 1988

To encourage employees to devote the energy and effort to come up with innovative ways of doing business, managers must learn to nurture the entrepreneurial spirit within their departments and within the entire organization. This video focuses on four examples of "intrapreneurship."

Intuitive Manager

MTI Film & Video 1986, Run: 34:00

M I5885 1986

Roy Rowen's work focuses on the concept of intuition as a management tool. Intuition is knowledge gained without rational thought. New ideas spring from a mind that organizes experiences, facts, and relationships to discern a path that has not been taken before. Intuition compresses years of learning and experience into an instantaneous flash.

ISO 9000 for the Global Marketplace

Perry Johnson, Inc. 1993; Run 33:00

M.I8609 1993

The ISO 9000 standard describes the minimum requirements for an effective quality system. Video discusses the myths and facts of the system and how it is implemented.

Lead the Field

Nightingale Conant 1972, Run: 6 au cas

M L43 1972 au

Twelve audio self-training session for success in any endeavor. The magic word - Acres of diamonds - A worthy destination - Miracle of your mind - Destiny in the balance - See for achievement - It's easier to win - How much are you worth? - Let's talk about money - One thing you can't hide - Today's greatest adventure - Man on the white horse.

Leader Within

Video Publishing House, Inc. 1989; Run: 64:00.

M L433 1989

Features Dr. Warren Bennis. Bennis gives his perspectives on the different types of leaders that can be found in these volatile times. He profiles several managers and tells why, to be a good manager,

you must first be a good leader.

Leadership and the One Minute Manager

CBS/Fox Video 1985; Run: 85:00

M.L4334 1985

Features Kenneth Blanchard. Blanchard shares his views on "situational leadership." Included are discussions of four leadership styles: directing, coaching, supporting, and delegating; choosing an appropriate leadership style; and managing expectations and reaching agreements with people you manage about the leadership style they need from you in order to be able to accomplish the goals you set.

Leadership Secrets of Attila the Hun

MTI Film & Video 1989; Run: 27:00

M.L4334 1989

History's most aggressive entrepreneur is the role model for this fundamental yet revolutionary approach to people management. You'll learn to embody the timeless and effective leadership qualities of Attila the Hun; qualities that you, your managers and your executives may need to meet the challenges of today's organizations.

Leadership Secrets of Attila the Hun: The Monologues

MTI Film & Video 1989; Run: 18:00

M.L4335 1989

This shortened version of Leadership Secrets... keeps the vignettes featuring Attila, but cuts the interpretive material in between. This is useful if you are planning your own short-course around the video.

Leadership: Style or Circumstances

CRM McGraw-Hill Films 1975, Run: 28:00

M.L4334 1975

This video focuses on the specific leadership theory developed by management psychologist Fred E. Fielder called "contingency model," which asserts that anyone, given the right circumstances, can be a good leader. This involves changing the organization - not an easy proposition - to create a circumstance that will stimulate a person's positive leadership potential.

Learning to Think Like a Manager

CRM McGraw-Hill Films 1983; Run: 25:00

M.L4376 1983

Watch this discussion of the mistakes commonly made by new managers and learn how to avoid them. The video suggests that upper management plays an active role in training new managers. The central message is that becoming an effective manager takes time.

Let's Talk Quality

McGraw-Hill Publishing 1989

M L48 1989 au

Listening Leaders

Video Arts Inc 1989; Run: 30:00

M L5784 1989

Customers are a vital source of information about quality. This video shows you how to tap into that source by creating a 'customer listening loop,' a continuing two-way conversation that will fundamentally improve your product or service. In visits to the GE Answer Center, the J.C. Penney store in Plano, Tx., Riverside Hospital in Columbus, Oh., and Polaroid's Customer Resource Center in Cambridge, Mass., you will see how an effective customer listening system works.

Making Advances: What Organizations Must Do About Sexual Harassment

MTI Film & Video 1988; Run 36:00

M M3556 1988

Features Bill Kurtis. Hosted by TV news anchorman Kurtis, this video makes use of interviews with top EEOC officials and Affirmative Action professionals in the business environment to explore the EEOC definition of sexual harassment and how its most recent guidelines apply in today's workplace.

Management Basics in Action

For titles in this series, see: Conducting a Performance Appraisal ; Conducting a Salary Discussion ; Conducting a Termination ; Defining the Job ; Discussing Career Goals ; Giving Positive Feedback ; Handling Personal Problems ; Improving Employee Performance ; Taking Disciplinary Action.

Manager to Manager: Dealing with Difficult People

MTI Film & Video 1987; Run 10:00

M M3634 1987 v3

Features Jack Noon. Noon, in one of five programs, describes critical steps in gaining control and reducing the stress of working with aggressive or authoritarian people. He suggests that you remain calm and emotionally detached, keep the conversation job-related, and appeal to the other person's competence.

Manager-to-Manager: Gaining Cooperation From Peers

MTI Film & Video 1987; Run 12:00

M M3634 1987 v2

In one of five programs, Noon provides detailed guidance for obtaining cooperation from peers, including suggestions such as appealing to the broader company or department goals, offering and committing to reciprocal cooperation in the future, setting up schedules and following up ahead of deadlines to reinforce the need for assistance. 2 copies.

Manager-to-Manager: Getting Approval from Authorized Department

MTI Film & Video 1987; Run 12:00

M.M3634 1987 v4

Features Jack Noon. Noon discusses steps to promote greater understanding between staff managers and line managers. In one of five programs, he suggests that interactions between managers will be more effective if the managers are prepared, exchange written rationales for various projects, accept that there will be differences, try to understand the other's point of view and agree on the solution of problems.

Manager-to-Manager: Helping Colleagues Handle Problems

MTI Film & Video 1987; Run: 13:00

M.M3634 1987 v5

Features Jack Noon. Noon, in one of five programs, describes the steps managers can follow when helping other managers work out effective solutions. The steps include finding out about the problem objectively, outlining ways you can help, working out a plan of action, implementing and planning commitments, and providing feedback.

Manager-to-Manager: Overcoming Resistance to Change

MTI Film & Video 1987; Run: 12:00

M.M3634 1987 v1

Features Jack Noon. In one of five programs, Noon describes critical steps to diffuse natural fear and resistance to change in organizations, including outlining benefits of change, anticipating rational and irrational objections and offering solutions, uncovering real concerns and offering time to adapt to change. 2 copies.

Managers with Impact: Versatile and Inconsistent

MTI Video and Film 1986; Run: 30:00

M.M3638 1986

The Harvard Business Review Video Series. Wickham Skinner and Earl Sasser's work shows that managers with impact are versatile and inconsistent. This video provides a profile of managers who make a difference. For each managerial situation such managers make an individual analysis, set a short-term goal, and maintain flexibility

Managing Problem People

Video Arts, Inc. 1988; Run. 85:00

M.M3634 1988

Features John Cleese. Cleese stars in this video consisting of six separate films, in each of which the manager, the problem person and the manager's mentor are introduced. Then each specific problem that faces the manager is discussed, the mentor analyzes the problem and makes suggestions, and finally a number of lessons are highlighted over flashback scenes. The Behavioral Approach is used to focus on the particular behavior that is giving rise to the problem.

Managing Projects : Taking the Critical Path

BBC Training Videos, Films Inc. 1988; Run: 25:00

M.M3635 1988

Features Paul Vaughn. Vaughn explores the uses of project management in general, and Critical Path Analysis (also known in the United States as Critical Path Method) in particular. Case studies include a British motor rally, the Calgary Winter Olympics, Lucas Girling Ltd., and Woolworth pic.

Managing the Journey: Understanding and Implementing Change

Video Publishing House 1989; Run: 75:30

M.M3634 1989

Features Kenneth Blanchard. Part of the One-Minute Manager series, this video deals with the implementation of change in going to the one-minute manager system and the new relationship between manager and employee that results from this new process.

Managing Up

MTI Film & Video 1986; Run: 17:00

M M3634 1986

Learn the skills employees need to effectively manage their own behavior, resulting in successful employee-boss relationships. An employee succeeds when his or her boss succeeds, and that means success for the entire organization.

Managing Your Boss

MTI Film & Video 1986; Run: 32:00

M M3639 1986

Using the Boston-based fast-food specialty chain, Au Bon Pain, as a model, the program focuses on how subordinates manage their relationships with their boss, stressing the importance of "managing up" to help companies improve their productivity and employees improve their job satisfaction.

Massey Triad

Video Publishing House, Inc. 1986; Run: 150:00

M.M3774 1986

3 volume set, features Morris Massey. This series of 3 tapes consists of the following: What You Are is Where You Were When - Massey tells how deep-seated values, reflecting generational roots, guide adult behavior and determine responses to people and situations. What You Are is Not What You Have to Be - Massey divulges how to deal with those outside your own generation, be they parents, children, managers, employees, leaders or citizens. What You Are is Where You See - Massey relates how an open mind can overcome the pre-conditioned response to the future based on your generational values, and how that open mind can help you create your own future.

Meetings, Bloody Meetings

Xicom Video Arts 1976, Run: 30:00

M M4485 1976

Features John Cleese. Cleese illustrates the skills of handling people in the heat of a discussion, including practical advice and tips for chairmen of meetings. Planning, pre-notification, preparation, processing, and putting it on record are emphasized.

Middle Manager As Innovator

MTI Film & Video 1984; Run: 34:00

M.M5335 1984

Features Rosabeth Moss Kanter. Kanter defines the scope of innovation, focusing on its mechanics: how it is to be achieved, and by whom. From documented case histories of two companies general principles common to any innovation project are developed.

More Bloody Meetings

Xicom Video Arts 1984; Run: 27:00

M.M6740 1984

Features John Cleese. Cleese plays the manager who has learned and is applying the lessons of his previous film, Meetings, Bloody Meetings, but learns in a dream sequence that he is still a poor meeting leader. It is brought home to him that he is doing things badly, and we watch him put his new lessons to practice.

Motivation: The Classic Concepts

CRM McGraw-Hill Films 1985; Run 20:00

M.M6858 1985

Five classic motivational theories are this program's subject: McGregor's Theory X and Theory Y, Maslow's needs hierarchy, Herzberg's "hygienes" and "motivators," McClelland's motivational profiles, and Skinner's behavior reinforcement. How these theories operate in the workplace is illustrated.

Multicultural Workplace

WGBH Boston, MTI Film and Video 1990; Run: 32:00

M.M8585 1990

This tape features five episodes involving characters in a variety of business settings. The scenes present typical interactions among colleagues involving promotions, working styles and project management. The goal is to uncover how cultural context affects the interaction.

National Leadership Conference on Building Public-Private Partnerships

Environmental Protection Agency 1988; Run: 45:00

M.N3856 1988

One Minute Manager

Video Publishing House, Inc. 1982; Run: 50:00

M.O5406 1982

Features Kenneth Blanchard. Behavioral scientist Blanchard examines the three secrets of the people side of management: goal setting, praising and reprimanding. The education process starts at the beginning: what makes people behave the way they do and how are poor performers effectively redirected to reach their goals?

Passion for Excellence

Video Publishing House, Inc. 1985; Run: 63:03

M.P3775 1985

Features Tom Peters. Peters describes how successful organizations create and sustain their competitive edge. He discusses how the care of customers, constant innovation and reliance on creative contributors of the staff distinguishes successful organizations from mediocre ones

Peak Performance: The Winner's Guide to the Top

Nightingale-Conant Corporation 1985; Run: 58:00

M.P4350 1985

Features Charles Garfield. Garfield discusses skills which are common to all peak performers: motivation through mission, ability to innovate, team-playing to empower others, orientation toward results and continuous self-development. 2 copies.

Power Talking Skills

Career Track Publications 1991, Run: 2 aud cas

M.P69 1991 au

"How to say what you mean and get what you want," by George R. Walther

Psychology of Winning in Action

Nightingale-Conant Corporation 1986; Run: 58:00

M.P7834 1986

Features Dennis Waitley. Waitley describes action steps for self-development and attaining high performance. These include enhancing self-esteem and expectations, and recognizing the importance of moderation and setting attainable goals. 2 copies.

Putting the One Minute Manager to Work

Video Publishing House, Inc 1984, Run: 59:43

M.P8885 1984

Features Kenneth Blanchard, Robert Lorber. Blanchard and Lorber, in this chapter from their One-Minute-Manager series, discuss the secrets of putting the one-minute-manager to work. They explain the ABC's of management (A-Activator, B-Behavior and C-Consequence) and give examples of how to use them

Quality Revolution

MTI Film & Video 1989, Run 38:25

M.Q8355 1989

Narrated by Collin Siedor This program asks the question: How did American manufacturers lose their competitive edge and worldwide dominance in the years following World War II? It answers that question by telling the stories of Ford Motor Company, Globe Metallurgical, Inc., and Eastman Kodak Copier Products Division

Race & Sex Discrimination in the Workplace: What you Need to Know
MTI Film & Video 1990; Run: 20:58
M.R3330 1990
Gain an understanding of racial and sexual discrimination as they occur at work. The program addresses options you may have if you suffer from discrimination.

RCRA/CERCLA Integration Videoconference
Environmental Protection Agency 1987; Run: 175:55
M.R4733 1987
2 tapes

Reading Dynamics : for Speed, Comprehension and Retention
Emerican Learning Corporation 1988; Run: 6 aud

Taking Disciplinary Action
MVI Film & Video 1985, Run. 23:00
M.M3634 1985 v4
Management Basics in Action series. Another look at a basic management task, this tape discusses what to do when an employee's problem has been discussed before and changes have not been made. The tape outlines a step-by-step approach for dealing quickly and firmly with problems as they arise.

Team Building: How to Motivate and Manage People
CareerTrack Publications 1989; Run: 1989
M.T4360 1989
2 volume set, features Mark Sanborn. In the first volume of this package, Mark Sanborn shows how teamwork leads to greater productivity and creativity. He examines how to find the best team members and lead them to be their best. In Volume Two, Sanborn explores ways to motivate a team to achieve manager and company goals, how to communicate effectively with co-workers and clients, and how to evaluate a team.

Ten Vital Rules for Giving Incredible Speeches
Video Publishing House 1990; Run: 32:02
M.T4608 1990
"10 Vital Rules for Giving Incredible Speeches, and why they're irrelevant." Tom Peters offers five guidelines to successful speech making and points out ten vital rules about speechmaking that you can ignore. Includes exercise booklet

Transactional Analysis

CRM McGraw-Hill Films 1974; Run: 22:00

M.T7367 1974

Features Linda Phillips. Phillips proposes transactional analysis as a method of dealing with interpersonal problems, communication breakdowns, and the "playing of games," the big energy waster of all organizations. Transactional analysis is a type of psychotherapy developed by Dr. Eric Berne that emphasizes effective communication.

True Colors

MTI Film & Video 1991; Run: 19:00

M T7840 1991

An episode of ABC News "Prime Time," features Diane Sawyer. Sawyer follows two "testers," one white and the other black, as they place themselves into identical mundane situations. In the majority of situations, the white man is given opportunities that are not offered to the black man.

Unorganized Manager

Video Arts 1983, Run: 4 tapes

M U5674 1983

4 volume set, features John Cleese Manager Cleese reveals errors in organizing himself and others and then demonstrates time management and effective delegation. Also explained is how a manager can organize his or her workers and help them understand their responsibilities, performance standards and goals

What You Are Is Not What You Have To Be
