ABOUT NTIS

The National Technical Information Service of the U.S. Department of Commerce is the central source for the public sale of Government-sponsored research, development and engineering reports and other analyses prepared by Federal agencies, their contractors or grantees, or by Special Technology Groups. NTIS also is a central source for Federally generated machine processable data files.

NTIS ships about 20,000 information products daily as one of the world's leading processors of specialty information. It supplies its customers with about four million documents and microforms annually. The NTIS information collection exceeds 900,000 titles and all are available for sale. About 105,000 titles are stocked in multiple copies. Current lists of best selling reports describe those most in demand.

NTIS is obligated by Title 15, U.S. Code 1151-7, to recover its cost from sales. The distribution of its information products and services is self-sustaining from the registration fees charged for information entering the system and from the sales of its products and services.

Customers may quickly locate summaries of interest from among some 480,000 federally sponsored research reports completed and published from 1964 to date, using the agency's on-line computer search service (NTISearch) or more than 1000 prepackaged bibliographies called Published Searches. About 60,000 new summaries and reports are added annually. An additional 180,000 descriptions of ongoing and recently terminated research projects, compiled by the Smithsonian Science Information Exchange, also are computer retrievable. Copies of the whole research reports, on which the summaries are based, are sold by NTIS in paper or microfiche.

The NTIS Bibliographic Data File (on magnetic tape) includes unpublished research summaries and is available for lease. The computer products of other Federal agencies also are sold or leased by NTIS.

Current summaries of new research reports and other specialized information in various categories of interest are published in some 26 weekly newsletters *(Weekly Government Abstracts)* and these are indexed. An all-inclusive biweekly journal *(Government Reports Announcements & Index)* is published for librarians, technical information specialists and those requiring all the summaries in a single volume.

A standing order microfiche service, *Selected Research In Microfiche* (SRIM), automatically provides subscribers with the full texts of research reports specially selected to satisfy individual requirements. Automatic distribution of paper copies also is available.

HOW TO ORDER

Three categories of order fulfillment are offered.

- **RUSH HANDLING** (replaces "Rush Order") is for customers who *must* have immediate delivery.

Rush Handling guarantees that a particular order will be filled within 24 hours of its receipt. *Rush Handling* orders receive immediate validation, verification of availability and individual hand processing through inventory control and the warehouse; priority printing if reproduction from film is required, and priority mailing.

Rush Handling orders for mailing rather than pickup are accepted only from customers having NTIS Deposit Accounts or American Express cards.

Rush Handling orders may be placed only by telephone, telegram, Telex, Telecopier or customers in person; **not by mail.**

Rush Handling for delivery to customers by priority mail costs $10 for each item ordered.

Rush Handling for pickup in Springfield or D.C. costs $6 for each item ordered.

- **PREMIUM SERVICE** is a 24-hour toll-free telephone ordering procedure ensuring priority mail delivery to NTIS Deposit Account customers within five to 12 days.

All Deposit Account customers will receive *Premium Service* identification numbers with which they may place telephone orders at any time. *Premium Service* benefits are toll-free calls with 24-hour availability, no busy signals, simplified ordering techniques (details with the identification number), postage savings, and priority delivery.

Premium Service costs $3.50 for each item ordered.

- **REGULAR SERVICE** will continue to operate with improved processing and stocking methods, optional priority mail delivery (slight additional cost) and optional pickup in Springfield or D.C. Current parcel post deliveries using the U.S. Postal Service are completed within nine to 30 days.

DOMESTIC AIRMAIL is $2 additional for each document shipped.

FOREIGN AIRMAIL is $3 for each document shipped.

PRICING

NTIS uses pricing codes instead of dollar amounts to display the cost of an individual document. To convert these codes to current prices, see your most recent issue of Government Reports Announcements & Index or Weekly Government Abstracts, or write to: NTIS, 5285 Port Royal Road, Springfield, VA 22161 for a current price code schedule.

FOREWORD

This bibliography provides a cumulative listing of all reports entered into the National Technical Information Service collection through 1976 by the United Stated Environmental Protection Agency and its predecessor agencies. The **EPA Cumulative Bibliography 1970-1976** consolidates into one publication all reports previously listed in the original bibliography (EPA-LIB-73-01; PB-223 693) dated July 1973, the first supplement (EPA-LIB-74-03; PB-234 215) dated August 1974, the second supplement (PB-238 800) dated December 1974, and issues of the EPA Reports Bibliography Quarterly published during 1975 and 1976. It is published in two parts. Part 1 contains bibliographic citations and abstracts, and a title index. Part 2 contains the subject, corporate source, author, contract number, and accession/report number indexes.

The **EPA Cumulative Bibliography,** should provide sufficient information for any user to identify any EPA report desired. Copies of the individual reports will be available from NTIS in either hard copy or on microfiche. NTIS will also provide the EPA reports in microfiche as a set; cost figures may be obtained from NTIS. EPA libraries contain complete sets of microfiche on all items included in this bibliography. In addition, a complete set has been made available to 25 foreign countries which now have, or are contemplating, the establishment of an environmental agency.
