How to Use This Catalog

What Information Does This Catalog Contain?

This catalog lists hazardous and solid waste documents released by the U.S. Environmental Protection Agency's (EPA's) Office of Solid Waste (OSW). This is a select list of publications that are frequently requested and is not a comprehensive list of all documents available. This catalog does not list documents originating in other EPA offices. For information on accessing additional publications on hazardous and solid waste, see the "Other EPA Resources" section.

What Is New in This Edition of the Catalog?

This edition of the catalog contains newly released publications and is current through June 15, 1998. These new titles appear in bold.

How Can I Find Specific Information in the Catalog?

There are a number of ways to find a particular document or research a subject area through this catalog. The following examples should help you get started:

- **If you have a document title**, use the Alphabetical Listing of Titles. There you will find the order number as well as information on what organization provides the publication. Ordering instructions can be found in the Ordering Information section.
- **If you have a document number**, use the Numerical Listing of Publications to find the title. The section is divided into three different lists for documents distributed by OSW, the National Technical Information Service (NTIS), or the U.S. Government Printing Office (GPO).
- **If you are interested in a particular subject area**, use the Alphabetical Listing of Subjects. There you will find a listing of documents on the topic you are interested in.
- **If the document you're looking for is not included in the catalog**, contact the RCRA Information Center (RIC) for more information (see below).

How Do I Order a Document?

Documents listed in this catalog can be ordered from one of three sources: OSW, NTIS, or GPO. You must use the appropriate order number for each document as specified in the Alphabetical Listing of Titles. Ordering information can be found under Ordering Information section. In some cases, government agencies can receive documents free of charge.

Can I Access OSW Documents on the Internet?

OSW has placed a wide variety of information about hazardous and nonhazardous waste on the Internet and on Bulletin Board Systems (BBSs) for access and retrieval by the public. The information posted includes consumer information, supporting materials for rulemakings, policy and guidance documents, and data files from EPA's hazardous waste databases.

You can access the EPA Public Access Server in one of two ways:

- Via the World Wide Web (WWW):
www.epa.gov/epaoswer/osw
- Via File Transfer Protocol (FTP): [ftp.epa.gov](ftp://ftp.epa.gov)

If you are using the FTP method, log in as anonymous, use your Internet address as your password, and look for OSW documents in the `/pub/epaoswer` directory. *Federal Register* notices relating to the Resource Conservation and Recovery Act (RCRA) and dating back to October 1994 are available on the EPA Public Access Server at www.epa.gov/fedrgstr.

In addition, EPA maintains several free electronic mailing lists (list servers). Subscribers receive electronically mailed copies of documents as they are published. Some OSW-related mailing lists are EPA-WASTE (hazardous and solid waste Federal Registers), REUSABLE-NEWS (Reusable News) HOTLINE_OSWER (RCRA/UST, Superfund and EPCRA Monthly Hotline Report and updates), and EPA-PRESS (Environmental Protection Agency press releases).

How to Use This Catalog

To learn more about OSW information available via the Internet and BBSs, and how to subscribe to electronic mailing lists, please order Environmental Fact Sheet: Electronic Access to OSW (EPA530-F-97-017).

OSW also provides a Fax-on-Demand service, which enables users to receive selected fact sheets, newsletters, and other materials. To receive a list of available titles, dial 202 651-2060 from your fax machine and follow the options provided by the voice prompt.

Additional EPA Sources of Hazardous and Solid Waste Information

EPA Publication Numbering System

Hazardous and solid wastes are managed by several different statutes. EPA is organized into offices reflecting the major statutes. Thus, waste management information is available from several different offices. The primary source of hazardous waste information is the Office of Solid Waste and Emergency Response (OSWER), which is divided into several major offices. The Office of Solid Waste (OSW) produces this catalog and the documents described in it. All documents produced by OSW are assigned EPA publication numbers in the 530 series.

The EPA publications numbering system provides easy identification, tracking, and dissemination of EPA documents. Each publication number tells you which office is responsible for producing it, and includes a specific office/division within the organization, an alpha descriptor of the document type, and the publication year.
