**1989 FUEL
ECONOMY GUIDE**

Environmental News

EMBARGOED UNTIL FRIDAY, SEPTEMBER 23, 1988, A.M.S

EPA RELEASES
1989 FUEL-
ECONOMY RATINGS

The 1989 Geo Metro gets more miles per gallon of fuel than any other car listed in this year's U.S. Environmental Protection Agency fuel-economy estimates.

The Geo is the new marketing name for General Motors' imported-vehicle division. This is the third consecutive year that the Suzuki-made GM import topped the mileage list. The 1,875 pound, subcompact Metro is rated at 53 miles per gallon (mpg) for city driving and 58 mpg on the highway.

According to the EPA mileage figures, the cars that will use the most fuel per mile traveled are three Aston Martin models (the Lagonda with an automatic transmission and the Saloon/Vantage/Volante with both automatic and manual five-speed transmissions) with an eight city and 11 highway rating. Buyers of these cars will pay a \$3850 gas-guzzler tax. The Energy Tax Act of 1978 established the gas-guzzler tax to discourage the production and purchase of vehicles with poor fuel efficiency.

Other high-mileage vehicles include a Honda Civic CRX listed at 50 city and 56 highway mpg, a Geo Metro Lsi listed at 46 city and 50 highway mpg, a Honda Civic CRX HF listed at 45 city and 52 highway mpg, a Ford Festiva listed at 39 city and 43 highway mpg and a Daihatsu Charade listed at 38 city and 42 highway mpg. The Ford Festiva and the automatic transmission version of the Geo Metro Lsi are listed at 38 city and 40 highway mpg. The Isuzu I-Mark and Geo Spectrum are listed at 37 city and 41 highway mpg.

Fuel-economy estimates evolved as a by-product of the emission-certification testing required by EPA. Manufacturers submit their emission and fuel-economy test data, which are generated under controlled laboratory conditions using dynamometers and specific driving cycles, to EPA for confirmation. EPA confirms about 30 percent of the manufacturers' results in its Ann Arbor, Mich., laboratory. EPA has been reporting fuel-economy information since 1974.

(A list of the best and worst mileage ratings is attached.
The full list is available from the EPA Press Office.)

Partial List of 1989 EPA Fuel-Economy Estimates

NOTE: Fuel-economy values are listed for each combination of car-line name, engine and transmission. Other vehicles which share the same car-line names listed below may achieve higher or lower fuel economy due to different engines and/or transmissions.

MODEL	ENGINE DESCRIPTION (SIZE/NO. OF CYL.)	TRANSMISSION		
GEO Metro	1.0 liter/3	M5	53	58
Honda Civic CRX HF	1.5 liter/4	M5	50	56
GEO Metro Lsi	1.0 liter/3	M5	46	50
Honda Civic CRX HF	1.5 liter/4	M5	45	52
Ford Festiva	1.3 liter/4	M5	39	43
Daihatsu Charade	1.0 liter/3	M5	38	42
Ford Festiva	1.3 liter/4	M4	38	40
GEO Metro Lsi	1.0 liter/3	A3	38	40
Isuzu I-Mark	1.5 liter/4	M5	37	41
GEO Spectrum	1.5 liter/4	M5	37	41

MODEL	ENGINE DESCRIPTION (SIZE/NO. OF CYL.)	TRANSMISSION		
Aston Martin Lagonda	5.3 liter/8	L3	8	11
Aston Martin Saloon/Vantage/Volante	5.3 liter/8	L3	8	11
Aston Martin Saloon/Vantage/Volante	5.3 liter/8	M5	8	11
Rolls Royce Bentley Eight/Mulsan	6.8 liter/8	A3	10	12
Rolls Royce Silver Spirit/Silver Spur	6.8 liter/8	A3	10	12
Rolls Royce Cornich II	6.8 liter/8	A3	10	12
Rolls Royce Bentley-Continental	6.8 liter/8	A3	10	12
Rolls Royce Bentley Turbo R	6.8 liter/8	A3	10	13
Ferrari Testarossa	4.9 liter/12	M5	10	15
BMW M6	3.5 liter/6	M5	10	19

'A' indicates automatic transmission.

'L' indicates lock-up automatic transmission.

'M' indicates manual transmission.
