Dockets	8
Records, Libraries, and Public Information Contacts	9

ACCESS Express, a quick reference guide to major EPA information contacts, was developed as a pocket guide for convenient access to EPA information services throughout the country.

The sections on EPA Clearinghouses and Dockets are organized by primary environmental topics. The Records, Libraries, Public Information Contacts section is organized by EPA office location, and includes contacts at EPA Headquarters, Regional Offices, Laboratories, and Field Offices. Many of the information resources listed are contractor-operated.

ACCESS Express is a brief version of *ACCESS EPA*, a comprehensive directory to major information services and collections of EPA and other public sector organizations. *ACCESS EPA* includes many online information resources such as bulletin boards, databases, and EPA scientific models. For each contact point, *ACCESS EPA* provides descriptions of services and products and is enhanced with a detailed name, title, and subject index. Ordering information for *ACCESS EPA* is on the inside back cover.

ACCESS Express is available at no charge while supplies last from EPA's Public Information Center:

EPA VISITORS CENTER

On Earth Day 1992, EPA opened a new Public Information Center to welcome visitors with an engaging presentation of our mission and programs. The Center features interpretive displays, including photographic exhibits, a slide show, access to databases, and a theater area with videotapes. These features explain EPA's programs and environmental issues to children and adults from all over the world. There are also pamphlets and factsheets for further information. The Center, at EPA Headquarters, 401 M Street, SW, Washington, DC 20460, is at the Metro's Green Line Waterfront station and is open from 9:00 am to 4:30 pm on Federal workdays.

Visitors Center Appointments: (202) 260-1077

The majority of documents, reports, and technical material generated by EPA can be found in one of the following locations:
