

ACCESS EPA

Library And Information Services

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

JUL -9 1991

OFFICE OF
ADMINISTRATION
AND RESOURCES
MANAGEMENT

TO: U.S. Citizens, EPA Staff and Partners:

ACCESS EPA is your guide to EPA information resources, services and products. Its purpose is to make environmental information useful for citizens, environmental organizations and businesses, as well as EPA staff.

We strongly believe that public access to information strengthens EPA's ability to fulfill its mission. Convenient access to information helps you to fully participate in critical environmental decisionmaking and gives EPA the feedback necessary to steer the development of programs.

ACCESS EPA includes pointers to the wealth of EPA information available through many access contacts. ACCESS EPA is available as both a consolidated guide and in the following series of individual titles:

- Public Information Tools
- Major EPA Dockets
- Clearinghouses and Hotlines
- Records Management Programs
- Major EPA Environmental Databases
- EPA Library and Information Services
- State Environmental Libraries

ACCESS EPA titles, updated annually, are for sale by the U.S. Government Printing Office and the National Technical Information Service. The titles are also available for reference at Federal Depository Libraries.

We very much welcome your comments on ACCESS EPA. There is a form at the back of each title to make it easy for you to help us further improve access to environmental information.

Sincerely,

Charles L. Grizzle
Assistant Administrator

EPA Metropolitan Washington Federal Telephone Number Changes

EPA Commercial (CML), Federal Telecommunications System (FTS), and Telecommunications Devices for the Deaf (TDD) phone numbers within the Washington Metropolitan area are scheduled to change after August 26, 1991.

Phone numbers prefaced by 245, 252, 382, 426, 475, and 755 will change to 260. Generally, the last four digits of the phone numbers will not change.

If you have difficulty reaching any of the phone numbers, or need additional assistance, call the EPA Headquarters Locator at:

	Before August 26, 1991	After August 26, 1991
Commercial:	(202) 382-2090 (CML)	(202) 260-2090 (CML)
Federal:	(8) 382-2090 (FTS)	(8) 260-2090 (FTS)

Toll Free (800) numbers will be unaffected by the change.

EPA Library Network

The U.S. Environmental Protection Agency (EPA) is comprised of a Headquarters Office in Washington, DC, 10 Regional offices, and specialized, scientific laboratories located throughout the country. There are 28 EPA network libraries located in Headquarters and Regional offices and laboratories to support this organizational structure. Other information services include:

- Environmental Criteria and Assessment Office
Technical Information Unit, Cincinnati, OH
- Legislative Reference Library, Washington, DC
- Public Information Center, Washington, DC

The libraries and other information services contain a combined collection of more than 136,000 books, 5,100 journal subscriptions, 364,000 hard copy reports, 3,200,000 documents on microfilm and microfiche, 9,000 journal article reprints, and 25,000 maps.

The information resources of the EPA library network are listed in the network's Online Library System (OLS). As a central library catalog for the system, it provides access to the wealth of information available from the 28 libraries. The OLS offers author, title and keyword access to documents and makes it possible to retrieve information relevant to almost any request. Abstracts of selected titles enhance the value of the OLS. The public can now access the OLS with a computer and modem. Billing and license agreements for public access to OLS may be obtained from the U.S. National Technical Information Service (NTIS) at (703) 487-4807. In addition to the network catalog, most of the EPA library network's holdings are cataloged on OCLC (Online Computer Library Center), a national cataloging system with 2700 member libraries.

Several libraries have special information products tailored to EPA Library needs and special collections on specific subjects. In 1986, the Headquarters Library developed the Hazardous Waste Superfund Collection for the entire network. Titles are held by 17 selected EPA libraries.

To facilitate ease of access to the documents in the Hazardous Waste Superfund Collection (HWSFC), the Hazardous Waste Superfund Database (HWSFD) was developed. The database, which is updated bimonthly, contains keywords and abstracts of all documents in the collection. The HWSFD is on OLS, and subscriptions to it may be purchased from NTIS by calling (703) 487-4807. (See Appendix D, Subject Index to Collections, for the specific locations of other special collections.)

In response to EPA staff requests for a way to automate access to small collections, EZ-REF, a database shell, was developed by the EPA Information Access Branch (IAB) and the Headquarters Library. EZ-REF is tailored to the individual needs of EPA program staff, and is designed to provide convenient access to books, reports, journal articles, and other information files within EPA program offices. EPA staff who are interested in obtaining a copy of EZ-REF may contact the Headquarters Library.

For further information on the EPA Library Network please contact Jonda Byrd, National Program Manager, at (8) 684-7133 (FTS) or (513) 569-7183 or at the following address:

How To Use Library and Information Services

Library and Information Services provides descriptive information on the collections of each of the EPA libraries and information centers and the wide range of services offered to EPA staff and other users. These services include acquisition of books, journals, reports; cataloging; circulation; access to the collections of other federal, academic, public and special libraries through interlibrary loan; and reference assistance including preparation of special subject bibliographies and database search services.

Library and Information Services is arranged by EPA organizational structure. Headquarters information services are listed first, followed by the ten Regions in which the network is located. Laboratory libraries and other information sources are listed after the entry for their Regional library.

Each of the network libraries has a unique three letter code (for example, EJB) used to identify libraries in the Online Computer Library Center (OCLC). The identifying codes have relevance within the library community. Please note that the Public Information Center (PIC), Legislative Reference Library, and Environmental Criteria and Assessment Office, Cincinnati do not have library codes.

The seven appendices in this publication describe:

- EPA/OCLC Library Codes
- U.S. City Index to EPA Libraries
- Regional/State Index to EPA Libraries
- Subject Index to Collections
- Databases Accessible Through EPA Libraries
- Name Directory
- EPA Library Network Holdings

Please direct questions and comments about *Library and Information Services* to ACCESS EPA, U.S. Environmental Protection Agency, 401 M Street SW, PM-211A, Washington, DC 20460. Telephone number: (202) 382-5922.

TECHNICAL SERVICES

Address: EPA Library Technical Services Center
401 M Street SW, PM-211B
Washington, DC 20460

Telephone: (202) 382-5358 (CML)
(8) 382-5358 (FTS)

Staff: Head Librarian/Technical Services Gretl Cox

Hours: 8:00 a.m. - 5:30 p.m.
Monday - Friday

The EPA Headquarters Library provides information services covering a wide range of environmental and related subjects of interest to EPA staff and the general public. Major areas include:

- Hazardous Waste
- Information Resources Management
- International
- Management
- Water

There is also a collection of materials on social, economic, legislative, legal, administrative, and management projects related to all aspects of environmental policy.

The Headquarters Library collection is comprised of 14,000 books; 625 current subscriptions to journals, abstracts and indexes, newsletters, and newspapers; 20,585 hard copy documents and technical reports generated by government sources or the private sector; 365,000 documents on microfiche, including technical reports produced by EPA and its predecessor agencies; and a microfilm collection that includes back files of newspapers, abstracts and indexes, and periodicals.

LIBRARY SERVICES

Acquisitions: The acquisitions unit processes orders for subscriptions and reference materials for the Headquarters Library only. The library also orders EPA documents, technical manuals, books, and journals from the National Technical Information Service (NTIS) and the U.S. Government Printing Office (GPO).

Cataloging: The cataloging unit processes books, journals, and other documents from all EPA libraries into the EPA Online Library System (OLS).

Circulation: Documents from the Headquarters Library collection are circulated to EPA employees.

Interlibrary Loan (ILL): The interlibrary loan unit maintains cooperative agreements with many academic, public, and special libraries to borrow books, journals, and other research materials not maintained in the Headquarters collection for the use of EPA staff. The average turnaround time for borrowing through interlibrary loan is approximately 3–7 working days.

Reference: On-site ready reference service is available to EPA staff and the public. More extensive reference service is provided to EPA staff as required.

Online Services: Computerized searching of commercial databases and selected EPA databases is performed for EPA employees to retrieve information for policy decisions, report preparation, data analysis, and background research and for preparation of special subject bibliographies.

Online Systems: Chemical Information System (CIS), DIALOG, Ground Water On-line, LEXIS/NEXIS, National Library of Medicine (NLM), NewsNet, CQ Washington Alert, Hazardous Waste Superfund Database (HWSFD), IRIS, Information Systems Inventory (ISI), Reuters, Econet, and Gemnet.

CD ROM Systems: MEDLINE (1983-present), NTIS (last five years), GPO, CHEMBANK, Books in Print Plus, Computer Library, Toxic Release Inventory (TRI), Occupational Safety and Health (OSH-ROM), and TOXLINE.

Bibliographies:

These are compiled based on special requests by EPA employees.

- Environmental Statistics
- Technology Transfer: Hotlines
- Wetlands Protection
- Marine Debris
- Management Bibliographies:
 - Managing in the Public Sector
 - Resistance to Change
 - Office of the Future: The Manager's Role
 - Effective Performance Appraisal
 - Total Quality Management
 - Strategic Planning
 - Project Management
 - Leadership: Quality Management for the Future
 - Management Transition
 - Managing a Diverse Work Force
 - Contract Management
 - Effective Conference Planning

Brochures:

- Interlibrary Loan Services of the Headquarters Library
- Introduction to Headquarters Library Services and Collections
- Searching for Answers, Guide to Database Searching at the EPA Headquarters Library
- Special Library Collection: Hazardous Waste
- INFOTERRA
- Translation Services

Bulletins:

- The Information Broker (monthly)
- Water Cycle (monthly)
- International Update (monthly)
- OERR Infoline (monthly)

Equipment: One photocopy machine for patrons, six microform reader/printers, two CD ROM players, one VCR, tape players, a large screen monitor, two patron IBM PC's, and a Macintosh computer with laser printers.

Bulletin Boards: Clean-Up Information Bulletin Board (CLU-IN), Pollution Prevention Information Exchange System (PIES) of the Pollution Prevention Information Clearinghouse (PPIC), Office of Research and Development (ORD) Bulletin Board System (BBS).

Audiovisual Materials: The library maintains a collection of audio and videotapes. The majority of the titles are about management related topics, although there is a growing collection on hazardous waste issues and general environmental issues. Audiovisual materials circulate overnight or over the weekend. Special arrangements can be requested if the materials are needed for longer periods of time, depending on the demand for the material.

Other Information Services:

The Information Management and Services Division is also the U.S. National Focal Point for the United Nations Environment Programme (UNEP)/INFOTERRA, and manager for the Agency's translation service.

U.S. National Focal Point—UNEP/INFOTERRA: The Environmental Protection Agency was designated as the United States National Focal Point for the UNEP/INFOTERRA Program by the U.S. Department of State in 1975. There are 135 countries participating as INFOTERRA National Focal Points. The network is designed to serve as an environmental referral organization providing sources, documents, and bibliographic information to inquirers.

Translations: The EPA translations service was established in 1972 to provide EPA employees with a mechanism for having scientific and technical documents translated from and into English. The Information Management and Services Division is the project manager for the service and maintains a microfiche collection of all items that have been translated through the program.

**PUBLIC INFORMATION CENTER (PIC)
WASHINGTON, DC**

Address:	U.S. Environmental Protection Agency Public Information Center, PM-211B 401 M Street SW, Southeast Garage Level Washington, DC 20460	
Telephone:	(202) 475-7751 (CML) (8) 475-7751 (FTS)

Hours:	8:00 a.m. - 5:30 p.m. Monday - Friday	

The Public Information Center (PIC) is one of EPA’s primary contact points for general information and responds to more than 5,000 inquiries per month on all major environmental topics. PIC responds to calls, letters, and visits from educators, students, community and environmental groups, and federal, state, and local agencies. PIC welcomes visitors and provides them with appropriate publications and information. PIC displays and maintains supplies of numerous EPA publications.

When technical questions are received they are referred to an appropriate technical contact in an EPA Program Office, clearinghouse, docket, or hotline. Some inquiries are also referred to other federal agencies for information on related issues.

PIC assists EPA Program Offices by distributing publications to a large national audience. EPA personnel can also arrange for the distribution of kits for teachers, students, civic groups, or conference attendees. PIC works with Program Offices to inform the public of environmental events and initiatives such as Earth Day, National Drinking Water Week, and National Radon Awareness Week.

Publications Currently Available: PIC distributes a variety of non-technical EPA publications on a range of topics, including acid rain, air quality, drinking water, gas mileage, pesticides, radon, recycling, Superfund and hazardous waste, and wetlands.

**LEGISLATIVE REFERENCE LIBRARY
WASHINGTON, DC**

Address: U.S. Environmental Protection Agency
Legislative Reference Library, A-102
401 M Street SW, Room 2439
Washington, DC 20460

Telephone: (202) 382-5425 (CML)
(8) 382-5425 (FTS)

Email Box ID: EPA1011
Email Box Name: J.Platten

Fax: (202) 475-8866 (CML)
(8) 475-8866 (FTS)

OCLC Code: N/A

Librarian: Joan Platten

Staff: Legislative Reference Assistant Pam Abraham

Hours: 8:30 a.m. - 5:00 p.m.
Monday - Friday

The Legislative Reference Library is maintained by the Associate Administrator for Congressional and Legislative Affairs, to provide federal environmental legislative information for the Agency.

The collection contains more than 8,000 documents produced by Congress, including copies of bills, reports, public laws, committee prints, committee hearings, legislative histories, the *Congressional Record* (3–4 years), Senate and House calendars and phone books, the *Congressional Directory*, and other congressional reports when possible. The collection also contains many reference guides and a number of periodicals.

The library tracks the status of current environmental, budget, and federal personnel legislation. The information is organized by subject, bill number, committee, and so forth. The library maintains a card catalog of the congressional hearings it retains.

The library compiles lists and reports on the status of bills pending before the current and past Congresses, and also prepares legislative histories and secures legislative histories from other sources. Abstracts of the *Congressional Record* are compiled each day Congress is in session and any individual may request to be placed on the mailing list for these abstracts.

LIBRARY SERVICES

Acquisitions: The Legislative Reference Library receives all congressional documents for the Agency.

Circulation: Copies of materials are provided to EPA employees as long as supplies last. When supplies are exhausted and can no longer be acquired, file copies of documents may be photocopied.

Reference Services: The library staff provides reference assistance to EPA employees as time permits. Assistance is provided to the public by phone.

Equipment: PCs, and a photocopier.

Online Systems: The library conducts searches on the LEGI-SLATE database.

Publications currently available:

- Congressional Publications (bills, reports, laws)
- Congressional Research Service Documents
- Office of Technology Assessment Reports
- EPA Laws

**LAW LIBRARY
WASHINGTON, DC**

Address: U.S. Environmental Protection Agency
Law Library, LE-130L
401 M Street SW, Room 2902
Washington, DC 20460

Telephone: (202) 382-5919 (CML)
(8) 382-5919 (FTS)

Email Box ID: EPA2808
Email Box Name: Library.Law

Fax: (202) 382-7883 or 7884
(8) 382-7883 or 7884

OCLC Code: EJC/03G

Librarian: Barbara Pedrini Morrison

Staff: Assistant Librarian/ILL

Hours: 8:00 a.m. - 5:30 p.m.
Monday - Friday

The Office of General Counsel (OGC) maintains the EPA Law Library to provide legal information services primarily to its staff, although services are also extended to the Agency's enforcement personnel, the Administrative Law Judges, the Chief Judicial Officer, program attorney-advisers, and Regional office employees.

The collection contains approximately 11,000 volumes of legal and law-related material concentrating on federal law, with special emphasis on administrative and environmental law. Included are statutes, codes, regulations, case reporters, digests, citators, and legal reference sources, as well as looseleaf services, newspapers, and 75 current law reviews and periodicals. In particular, the Law Library owns *Statutes at Large* from 1931 to the present and *U.S. Code Congressional and Administrative News* from 1946 to the present.

Of special interest are archival holdings, in hardcopy and microfiche, of Title 40 of the Code of Federal Regulations (Protection of the Environment) from 1972 to the present, as well as microfiche of other CFR titles from inception: T. 5, Administrative Personnel; T. 21, Food and Drugs; T. 33, Navigation and

Navigable Waters; T. 41, Public Contracts and Property Management; T. 42, Public Health; and T. 48, FAR System.

The microfiche collection also covers the *Congressional Record* (1969 to date), the *Federal Register* (1970 to date) and legislative histories of laws relevant to EPA's mission.

LIBRARY SERVICES

Acquisitions: The Law Library staff selects all new collection materials and processes orders for those items, as well as for the books and journals required by individual OGC offices.

Cataloging: New acquisitions are cataloged by the Law Library staff who enter records on the OCLC database for incorporation into the EPA Online Library System (OLS).

Circulation: Materials circulate to in-house Agency staff and, by messenger pickup, to the local community. Loan records are maintained manually.

Interlibrary Loan (ILL): Interlibrary loan is restricted to local borrowers able to utilize messenger services. Reproduced material is made available through fax or overnight mail delivery.

Reference Services: Services are provided to the Office of General Counsel (OGC), the Office of Enforcement, the Administrative Law Judges, the Chief Judicial Officer, the Regional Counsels, EPA legal staff at Headquarters, the EPA Library Network, private law firms, and law schools across the country.

Online Services: Searches are performed for attorneys, attorney-advisors, and judges who require citations for court decisions, full text of judicial opinions, law review articles, treaties, and related legal information.

Online Systems: Justice Retrieval and Inquiry System, (JURIS), Enforcement Document Retrieval System (EDRS), LEXIS, and OCLC.

Equipment: Photocopier and microform reader/printer are available for patron use.

OCCLC Code: EJE/03T

Librarian: Tim Schoepke

Staff:

Reference Librarian	Blanca Chou
Reference Librarian	Don Yong
Technical Information Specialist	Jim Bradshaw
Technical Information Specialist	Lisa Flemming
Library Technician	Isa Benson
Library Technician	Linda Bruner
Library Technician	Bettie Sterling
Library Technician	Kim Wilson
Information Management Specialist	Hattie Sykes

Hours: 8:00 a.m. - 4:30 p.m.
Monday - Friday

The Office of Toxic Substances (OTS) Chemical Library is in the Information Management Division, Office of Toxic Substances, Office of Pesticides and Toxic Substances (OPTS).

The library collection covers chemical literature in the following areas:

- Chemical Toxicity
- Toxicology
- Toxic Substances Control Act (TSCA)
- Environmental Health and Safety
- Emergency Planning and Community Right-to-Know Act (EPCRA)

The Library supports programs under TSCA and EPCRA.

The OTS Chemical Library has 5,000 books, 94 current journals, a collection of 20,660 technical reports (including those supported by OPTS), a microform collection of 140,074 scientific and technical journal articles, and three national newspapers.

LIBRARY SERVICES

Acquisitions: Acquisitions staff orders monographs, serials, and technical reports for the OTS Chemical Library.

Cataloging: All books, reports, and reference materials acquired are cataloged on-site and entered into the EPA Online Library System (OLS).

Circulation: Books and reports circulate to EPA employees. The library uses the EPA Online Library System circulation system module.

Interlibrary Loan (ILL): The Library loans circulating material and photocopies through Interlibrary Loan. The Library maintains cooperative agreements with other libraries to borrow books, reports, and photocopies for Office of Toxic Substances (OTS), Office of Research and Development (ORD), and Office of Solid Waste (OSW) staff. ILL transactions are usually conducted through OCLC.

Reference: Extensive reference service is provided for OTS, ORD, and OSW staff. Reference service is also available for other EPA employees, including regional EPA staff, contractors, industry, and the general public. Library staff handles requests from the Toxic Release Inventory User Support (TRI-US) line for EPA staff, industry, and the general public.

Online Services: Literature searches are compiled for OTS, ORD, and OSW staff.

Online Systems: CAS Online, Chemical Information System (CIS), DIALOG, LEXIS/NEXIS, National Library of Medicine (TOXLINE/TOXNET), Integrated Risk Information System (IRIS), Chemicals in Commerce Information System (CICIS), Toxic Release Inventory System (TRI), Facilities Index System (FINDS), and Roadmaps.

CD ROM Systems: MEDLINE, TOXLINE, CHEMBANK, Toxic Release Inventory.

Publications Currently Available:

- Tox Talk
- Biotechnology News
- Biotechnology Pathfinder

Equipment: One photocopier, two microfiche reader/printers, microfilm reader/printer, microfiche duplicator, six IBM compatible personal computers, and two CD ROM players.

Audiovisual Materials: The library has a small collection of audio cassettes that circulate with accompanying material.

**REGION 1 LIBRARY

Fax: (617) 573-9662 (CML)

Librarian: Fred Friedman

Hours: 8:00 a.m. - 4:00 p.m.
Monday - Friday

(Open to the public by appointment only)

The EPA Region 1 Library was established in 1967 at the New England Basins Office of the Federal Water Pollution Control Administration. The collection has been extensively developed in the areas of:

- Air Pollution and Control
- Environmental Law
- Health Effects
- Pesticides and Toxic Substances
- Solid and Hazardous Waste
- Test Methods (EPA)
- Water Pollution and Control
- Wetlands

When the Agency moved to Congress Street in 1990, the Law Library was combined with the main library and, responsibility and materials for the Public Affairs pamphlet and videotape/film collections were transferred to the Regional Library.

The library is operated by the Information Access Branch of the Planning and Management Division. The combined collections consist of approximately 10,000 books, 5,000 documents, 7,000 EPA reports, 90,000 microfiche, and 175 journal titles in two locations: Main Library and the New England Regional Laboratory Library in Lexington, MA.

Special collections include the Hazardous Waste Superfund Collection, Wetlands collection, EIC Envirofiche since 1980, subject files, the *Federal Register* on microfiche since 1970, and a collection of EPA Test Methods.

The library provides a full range of services to more than 700 EPA staff, plus other federal, state, and municipal agencies. It is open to the public.

The Research Library for Solid Waste was established in 1989 to collect, catalog, disseminate, provide research assistance, and publish information in the subject fields of nonhazardous solid waste and recycling, principally concerning the New England Region. It also handles information about innovative technological developments, case studies, and solid waste management programs internationally, concentrating on Europe, Japan, and the Third World. Typical requests cover the following subjects: recycling, disposal of types of waste materials, composting, and waste minimization.

LIBRARY SERVICES

Acquisitions: The library budgets for and orders most of the books and periodicals for the Region.

Cataloging: The library catalogs all books, documents and unnumbered EPA reports using the EPA Online Library System and adds holdings to OCLC. A printed book-catalog offers local subject headings and title access to the collection.

Circulation: All materials, except reference, circulate for a 2-week period to qualified borrowers. ILL materials circulate for 4 weeks.

Interlibrary Loan (ILL): Interlibrary loans (both lending and borrowing between libraries) are transacted primarily through OCLC, but American Library Association (ALA) forms or phone requests are accepted. Organizations (in the Region) without libraries may apply for Corporate Borrowing Privileges.

Reference: Both phone and on-site reference assistance are available to anyone.

Online Services: The Library maintains access to multiple computer database systems and will search for EPA and regional governmental agencies, but not the public. OLS and any systems available on CD ROM or the PC are accessible by the public.

Online Systems: Bibliographic Retrieval Service (BRS), CAS Online, Chemical Information System (CIS), Dun & Bradstreet, DIALOG, Ground Water On-line, National Library of Medicine (NLM), LEXIS/NEXIS; Integrated Risk Information System (IRIS), Enforcement Document Retrieval System (EDRS), Records of Decision System (RODS), and Department of Justice's Justice Retrieval and Inquiry System (JURIS).

CD ROM Systems: Kirk-Othmer Encyclopedia of Chemical Technology, McGraw-Hill Science and Technical Reference Set, CHEMBANK, OSH-ROM, Microsoft Bookshelf, Enviro/Energyline Abstracts Plus, and Toxic Release Inventory (TRI).

Publications currently available:

- What's New (monthly acquisitions)
- Index to EPA Test Methods
- CCAMP Bibliographies: Publications and Maps

Equipment: A microfiche reader/printer and a photocopy machine are available to all library patrons for the free reproduction of up to 20 pages. A CD ROM player was added in 1990, along with a public access PC workstation.

Bulletin Boards: Pollution Prevention Information Exchange System (PIES), Office of Research and Development Electronic Bulletin Board System (ORD BBS), and Alternative Technology Treatment Information Center (ATTIC).

Audiovisual Materials: There are approximately 45 titles in the combined film/videotape collection.

ENVIRONMENTAL RESEARCH LABORATORY LIBRARY NARRAGANSETT, RHODE ISLAND

Address: U.S. Environmental Protection Agency
Environmental Research Laboratory Library
27 Tarzwell Drive
Narragansett, RI 02882

Telephone: (401) 782-3025 (CML)

Librarian: Rose Ann Gamache

Library Aide: Eleanor McGee

Hours: 8:00 a.m. - 4:30 p.m.
Monday - Thursday

9:00 a.m. - 12:00 noon
Friday

The Environmental Research Laboratory Narragansett (ERLN), with its Field Station in Newport, Oregon, is the Agency's center for marine, coastal, and estuarine water quality research.

The library at ERLN is a highly specialized scientific and technical library, providing support services for the following research areas:

- Estuarine and marine disposal and discharge of complex wastes, dredged materials, and other wastes.
- Water use designation and quality criteria for estuarine and marine water and sediment.
- Environmental assessment of ocean discharge.

These research program areas involve the development, evaluation, and application of techniques and test systems for measuring and predicting the transport, fate, and biological and ecosystem effects of complex and other wastes in estuarine and marine systems.

The primary function of the library is to obtain and provide specialized reference materials and library services for technical and administrative personnel working at ERLN. Secondly, the library will service information requests from other EPA facilities and libraries. The library consists of a single centralized core library and numerous specialized individual libraries located physically as is convenient to the respective users. The library is comprised of 3,368 books, 38 journal subscriptions, abstracts, and bulletins. Also, a small document collection including EPA reports is held.

Subject areas are:

- Marine Biology
- Marine Organisms

LIBRARY SERVICES

Selection, acquisition, current awareness, circulation, reference, interlibrary loan, information retrieval, translations, and cataloging.

CD ROM Systems: Toxic Release Inventory (TRI), National Library of Medicine (NLM), Aquatic Sciences and Fisheries Abstracts.

Equipment: A photocopy machine, two personal computers, and a microform reader/printer are available for library use.

**REGION 2 LIBRARY
NEW YORK, NEW YORK**

Address: U.S. Environmental Protection Agency
Region 2 Library
26 Federal Plaza, Room 402
New York, NY 10278

Telephone: (212) 264-2881 (CML)
(8) 264-2881 (FTS)

Email Box ID: EPA9258
Email Box Name: LIBRARY.REG.2

Fax: (212) 264-5433 (CML)
(8) 264-5433 (FTS)

OCLC Code: EIA/02A

Librarian: Magi Malone

Staff: Library Technician Bessaida Vega

Hours: 8:30 a.m. - 5:00 p.m.
Monday - Friday

EPA Region 2 is comprised of New York, New Jersey, Puerto Rico, and the U.S. Virgin Islands. The Region 2 library was organized in 1965 under the auspices of the Federal Water Pollution Control Administration. It is currently part of the Information Systems Branch, within the Office of Policy and Management.

The library provides a range of reference services, primarily to EPA program staff and other federal, state, and municipal agencies. Secondary reference services and information support is provided to the general public, including consultants, private businesses, students, and citizen groups.

The Region 2 Library collection consists of 1,746 monographs and books; 4,887 federal, state, and local documents and technical reports; and 50 journals, as well as a microfiche collection of approximately 155,000 reports, mainly EPA.

LIBRARY SERVICES

Acquisitions: Books, technical reports, newsletters, and journal subscriptions are acquired for the library.

Cataloging: All books and library materials are cataloged into the EPA Online Library System (OLS), the national catalog, via OCLC.

Circulation: All materials, except the reference collection, circulate to EPA staff for a four week period, and to other libraries via interlibrary loan.

Interlibrary Loan (ILL): ILLs, for both lending and borrowing, are transacted mainly through OCLC, but requests using American Library Association ILL forms will also be accepted. Requests from EPA staff are accepted via telephone, in writing, or electronic mail.

Online Services: Online literature searches are performed for EPA staff only.

Online Systems: EPA Online Library System (OLS), DIALOG, Integrated Risk Information System (IRIS), Hazardous Waste Superfund Database (HWSFD) and Information Systems Inventory (ISI).

CD ROM Systems: The following CD ROM databases will be available via the local area network: 1987 Toxic Release Inventory, NTIS, GPO, Pol-Tox, and Chemline.

Reference Services: The library staff provides reference assistance to all library visitors, and assistance is also provided by phone.

Publications Currently Available:

- Library Acquisitions (monthly)
- Current Contents (twice a month)

Equipment: An IBM PC, a MAC PC, a microfiche reader/printer, microfiche reader, and a CD ROM player are available in the library.

Bulletin Boards: Office of Research and Development Electronic Bulletin Board System (ORD BBS).

Audiovisual Materials: The library has a small collection of audio and visual materials which are available to EPA staff. Materials circulate for 2 weeks.

REGION 2 FIELD OFFICE LIBRARY EDISON, NEW JERSEY

Address: U.S. Environmental Protection Agency
Region 2 Field Office Library, MS-245
2890 Woodbridge Avenue, Building 209
Edison, NJ 08837

Telephone: (201) 321-6762 (CML)
(8) 340-6762 (FTS)

Email Box ID: EPA9292
Email Box Name: *LIBRARY.ED

Fax: (201) 321-6622 (CML)
(8) 340-6622 (FTS)

OCLC Code: EIC/02B

Librarian: Dorothy Szefczyk

Hours: 8:00 a.m. - 4:30 p.m.
Monday - Friday

The library was organized in 1966 under the auspices of the Federal Water Pollution Control Administration. It was originally heavily oriented toward water, but now includes materials on all EPA programs:

- Air
- Hazardous Wastes
- Pesticides
- Radiation
- Solid Waste
- Toxic Substances
- Water

At present, the collection consists of 3,000 books, 5,000 technical reports, 60 journal subscriptions, and 100,000 reports on microfiche.

Library users include EPA staff, contractors, state agencies, academic institutions, consultants, students, and the general public.

LIBRARY SERVICES

Acquisitions: The library orders all books, reports, and periodicals for the Edison facility.

Cataloging: The library catalogs all books and reports and adds holdings to OCLC. A card catalog offers access to the collection.

Circulation: Books and reports circulate for 4 weeks, periodicals for 1 week to EPA staff and their contractors. No loans to the general public.

Interlibrary Loan (ILL): Publications not in the Region 2 collection are borrowed from other government, university, public, and corporate libraries. Requests are accepted in writing and by phone. Member of OCLC and New Jersey Library Network.

Reference Services: Reference service is available to EPA staff, contractors, and the general public.

Online Services: Online literature searches are performed for EPA staff only.

Computer Assisted Literature Search Service: DIALOG, Ground Water On-line, Integrated Risk Information System (IRIS), Hazardous Waste Superfund Database (HWSFD).

Publications Currently Available:

- Library Acquisitions (monthly)
- Current Contents (twice a month)

Equipment: A microfiche reader/printer and a photocopy machine are available for library users. Visitors are charged 10 cents per page.

Address:	U.S. Environmental Protection Agency Region 3 Information Resource Center, 3PM52 841 Chestnut Street Philadelphia, PA 19107

Librarian:	Diane McCreary	
Staff:	Interlibrary Loan	Joyce Baker
	Hazardous Waste Technical Information Center Librarian	Dawn Shellenberger
	Hazardous Waste Technical Information Center Library Tech	Kurt Schenk
Hours:	8:00 a.m. - 4:00 p.m. Monday - Friday (24 hour access to staff)	

The Region 3 Information Resource Center (IRC) provides information support for a wide range of environmental programs and activities conducted by the Regional office. It also serves as an information resource for the general public.

Subject areas include:

- Air Pollution
- Employee Development
- Environmental Law
- Hazardous Waste
- Management
- Wetlands
- Pesticides
- Radiation
- Toxic Substances
- Toxicology
- Water Pollution

There are special collections on wetland ecology and hazardous waste. In addition, a special effort is made to acquire published information on environmental conditions and trends within the five states and the District of Columbia which comprise Region 3.

The Region 3 IRC consists of 14,000 books, 225 subscriptions, and 8,000 technical reports in hard copy. There are 75,000 technical reports, 25,000 environmental impact statements, and 20,000 articles and other publications on environmental topics in microform.

LIBRARY SERVICES

Acquisitions: The Region 3 IRC coordinates the acquisition of published material throughout the Regional Office. This includes desk copies for individual use as well as library acquisitions.

Cataloging: The IRC is responsible for coordinating all publication acquisitions in the Regional Office. This includes desk copies for individual use as well as library acquisitions.

Circulation: EPA staff and contractors can borrow materials. The circulation system is automated.

Interlibrary Loan (ILL): Region 3 IRC loans items from its collection to other libraries. The loan period is 4 weeks and there is no charge.

Reference: The library staff provides reference assistance to EPA staff, state employees, and the general public.

Online Services: Literature searches are performed for EPA and state employees. CD ROM databases are available to the public for searching at no charge. Most searches are done on specific topics. Chemical data and full text searches are also requested.

Online Systems: Chemical Information System (CIS), DIALOG, Ground Water On-line, LEXIS/NEXIS, MEDLARS, TOXNET, Records of Decision System (RODS), and Alternative Technology Treatment Information Center (ATTIC), EPA Online Library System (OLS).

CD ROM Systems: NTIS, Toxic Release Inventory (TRI), and Compendex.

Publications Currently Available:

- New Acquisitions List (quarterly)
- Subject Bibliographies

Equipment: A photocopier and two microfiche reader/printers, microfilm reader/printer, microfiche duplicator, MacIntosh II with laser printer, IBM-AT with printer, IBM PS/2 Model 60 with laser printer, two IBM PS/2 Models 50 and CD-Net with nine drives are available.

Audiovisual Materials: Videos include topics on management and environmental education. Videos will be loaned out to EPA staff and other libraries, and also to educators upon written request. Audio cassettes are primarily on management/career development and are loaned to EPA staff and other libraries.

CENTRAL REGIONAL LABORATORY LIBRARY ANNAPOLIS, MARYLAND

Address: U.S. Environmental Protection Agency
Central Regional Laboratory (CRL) Library
839 Bestgate Road
Annapolis, MD 21401

Telephone: (301) 266-9180 (CML)
(8) 652-2103 (FTS)

Email Box ID: EPA93078
Email Box Name: ANN.JOHNSON

Fax: (301) 266-9180 (CML)
(8) 652-2198 or 2202 (FTS)

OCLC Code: EJD/03C

Librarian: Ann Johnson

Hours: 8:30 a.m. - 3:00 p.m.
Monday - Friday

The Central Regional Laboratory (CRL) library was established in support of the Regional Laboratory which started in Annapolis in 1964. The subjects in the collection focus on:

- Chesapeake Bay
- Chemistry
- Automated Laboratory Technology
- Estuarine Research
- Analytical Chemistry

To serve the highly diversified expertise of the laboratory scientists and engineers, material is provided in aquatic biology, analytical chemistry, automated laboratory techniques, industrial wastewater monitoring, toxic and hazardous substances, and mathematical modeling.

CRL holdings total 1,400 technical books, 5,000 reprints, 70 journal subscriptions, and a large collection of EPA reports. CRL reports deal with water quality management of the Chesapeake Bay and other estuaries of the Mid-Atlantic region, and the continental shelf off Maryland and Delaware.

Library services available are acquisition, interlibrary loan, literature searches, current awareness, and reference and information services.

The library users include the laboratory staff, EPA libraries, federal and state agencies, academic institutions, the scientific community, students, and the general public.

The library houses an extensive special collection on the Chesapeake Bay.

LIBRARY SERVICES

Acquisitions: Books and journals covering topics including chemical and automated laboratory technology for EPA staff only.

Circulation: Materials are checked out to EPA staff only and there is no automated system.

Interlibrary Loan (ILL): Materials are loaned out to the EPA Network via American Library Association (ALA) form or by telephone.

Reference: Reference assistance is available to EPA staff, the public, and federal and state agencies.

Online Services: The library performs computerized literature searches for CRL staff.

Online Systems: DIALOG, EPA Online Library System (OLS).

Publications currently available: *INFO Structure*, an internal library newsletter.

Equipment: One microfiche reader/printer.

Audiovisual Materials: All audiovisual materials are for CRL staff only.

**REGION 4 LIBRARY
ATLANTA, GEORGIA**

Address:	U.S. Environmental Protection Agency Region 4 Library, G6 345 Courtland Street, NE Atlanta, GA 30365-2401	
Telephone:	(404) 347-4216 (CML) (8) 257-4216 (FTS)	
Email Box ID:	EPA9415	
Email Box Name:	P.Pride	
Fax:	(404) 347-4486 (CML) (8) 257-4486 (FTS)	
OCLC Code:	EKA/04A	
Head Librarian:	Priscilla Pride	
Staff:	Superfund Librarian Library Technician Library Technician Library Aide	Beverly Fulwood Bill Marx Vacant Christopher Decker
Hours:	7:30 a.m. - 4:00 p.m. Monday - Friday (EPA Staff) 8:00 a.m. - 4:15 p.m. Monday - Friday (General Public)	

The Region 4 Library is operated by the Information Access Branch, Office of Information Resources Management. The Library was established in May, 1973, and provides a full range of library and information services, covering subjects from air and water pollution to toxics and hazardous waste with a variety of technical reports, reference books, journals, and online computer services.

Along with its large collection of environmental materials, the library offers reference/research services, online literature searches, interlibrary loan, selected chemical and pesticide files, and current awareness services.

At present the library owns approximately 4,000 reference books, 44,000 technical reports, 220 journals and newsletters, and an extensive microfilm collection of EPA reports, environmental impact statements and the *Federal Register*. Of special interest are the environmental problems of the Southeastern United States, namely, Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.

There are 15 major collections in the Region 4 Library consisting of: Audiovisual Materials, General Books on the Environment, Chemical Collection, EPA Documents, *Federal Register*, journals, law, maps, NTIS Reports, Environmental Impact Statements, *Federal Register* on microfiche, Public Display, Reference Collection, Soil Surveys, Special Collections (Pollution Prevention, Total Quality Management, Comparative Risk, Noise, Water), Superfund Documents, and United States Geological Survey Publications.

25,000 topographical, geographic, and wetlands inventory maps covering the eight states in the Region are available for staff and public use. Maps generally do not circulate. An engineering blueprint copier is available.

The Library also houses the Regional Public Information Center (PIC).

LIBRARY SERVICES

Acquisitions: Materials ordered include EPA documents, technical manuals, books, and journals. Subject areas include air, water, and hazardous waste which are ordered from several vendors. The library also orders from the National Technical Information Service (NTIS). The materials are ordered at the request of EPA program offices and through a collection development process of updating, replacing, and collection expansion.

Cataloging: Cataloging is done by library technical personnel on-site and the records are on the EPA Online Library System (OLS).

Circulation: Materials may circulate to all EPA personnel, contractors, and in some instances state and local governments. The public may borrow EPA documents, but not other materials (some items may be copied). Students may borrow only through their university library. Unless designated as reference books, most items circulate for three weeks.

Interlibrary Loan (ILL): Interlibrary loan is available to EPA staff only. Other libraries may borrow through ILL.

Online Services: Online literature searching is available to EPA staff only. Literature searches primarily cover toxicology and business information.

Online Systems: DIALOG, Dun & Bradstreet, LEXIS/NEXIS, National Library of Medicine (NLM), National Pesticide Information Retrieval System (NPIRS), Ground Water On-line, Records of Decision System (RODS), EPIC, National Sewage Sludge Survey Database, Computer Aided Environmental Legislative Data System (CELDS), and Integrated Risk Information System (IRIS).

CD ROM Systems: Databases available are Microsoft Bookshelf, National Technical Information Service Bibliographic Database, MEDLINE, CHEMBANK, Material Safety Data Sheets (MSDS), and PEST-BANK.

Reference Services: Ready reference and limited reference services are provided to all EPA staff and the general public. Public Information materials are provided to the public. Research services are available for EPA staff only.

Publications Currently Available:

- EPA Library Region IV Journal Holdings
- Library New Materials List
- Region IV Library United States Geological Survey Bibliography

Equipment: Includes four PS/2s connected to a LAN, CD ROM player jukebox, photocopier, engineering copier, and two microfiche reader/printers.

Bulletin Boards: Clean-Up Information Bulletin Board (CLU-IN).

Audiovisual Materials: Subject areas include pollution prevention, toxicology, technical, and management information. The collection is available for loan to EPA staff and limited usage by the public. Audiovisual materials generally circulate for three days. The library does not loan audiovisual equipment.

Public Information Center (PIC): The PIC is stocked with EPA brochures and literature on a variety of topics such as acid rain, global warming, and radon. The library provides schools, organizations, and individuals with general interest information through the PIC.

**LIBRARY SERVICES OFFICE
RESEARCH TRIANGLE PARK, NORTH CAROLINA**

Address: U.S. Environmental Protection Agency
Library Services Office, MD-35
Research Triangle Park, NC 27711

Telephone: (919) 541-2777 (CML)
(8) 629-2777 (FTS)

Email Box ID: EPA3025
Email Box Name: R.THORN

Fax: (919) 541-1405 (CML)
(8) 629-1405 (FTS)

OCLC Code: EKB/04B

Library Manager: John Knight
(919) 541-2794 (CML)

Librarian: Rosemary Thorn

Staff:

Air Information	Rosemary Thorn
Center Reference	Sharon Arnette
Interlibrary Loan	Elizabeth Villeponteaux
Literature Searching	Creighton Wellman
Photocopy Operator	

Hours: 8:00 a.m. - 4:30 p.m.
Monday - Friday

The Research Triangle Park (RTP) Library provides support to the Environmental Research Center, the Office of Air Quality Planning and Standards (OAQPS), the Environmental Criteria and Assessment Office, the National Computer Center, and local Agency contractors.

Collection concentration is on chemical toxicity, all aspects of air pollution as well as the basic sciences, with some coverage of business and economics. The collection's historical coverage of air pollution is particularly strong. Hard copies of obscure materials from Air Pollution Abstracts (1966-1976) are maintained.

The Library operates an Air Information Center (AIC) for the OAQPS. This Center handles requests for air pollution information and documents from all over the world. The AIC provides free literature searches to state and local air pollution agency employees and environmental groups.

Services include extensive literature searching; interlibrary loan utilizing a combination of off-site photocopying, truck delivery service from local libraries, and blanket purchase agreements with major research libraries in this country and abroad; and reference and acquisitions.

The Library is staffed with government personnel and through a contract with the University of North Carolina Graduate School of Library Science. Contractor personnel are primarily library school graduate students.

LIBRARY SERVICES

Acquisitions: Purchase books and documents on request for researchers and purchase journals based on ILL-use statistics.

Cataloging: The library staff does copy cataloging on OCLC and sends original cataloging to the EPA National Cataloging Center (NCC).

Circulation: Materials circulate to EPA employees and on-site contractors. A manual circulation system is being used at the present but the library has purchased an automated circulation system from Follett.

Interlibrary Loan (ILL): The library participates in free loans and copies to all institutions' libraries.

Reference: Services are provided for everyone who calls or contacts via mail.

Online Services: All on-site federal and contractor employees are granted literature searches. Topics generally requested include chemical and biological data, all aspects of air pollution, legal or legislative information, and current events affecting EPA.

Online Systems: DIALOG, National Library of Medicine (NLM) Hazardous Waste Superfund Database (HWSFD), and the EPA Online Library System (OLS).

CD ROM Systems: TOXLINE, MEDLINE, NTIS, PC-SIG, Material Safety Data Sheets, Computer Library, Lotus CD-Prompt, CHEMBANK, PEST-BANK, Toxic Release Inventory (TRI), OSH-ROM, GPO, EINECS Plus-CD, Microsoft Bookshelf, and City and County Data Book, Books in Print, and Ulrichs' SCI TECH Reference Plus.

Publications: Information Center and Library Services.

Equipment: A public photocopier, CD ROM, two microfiche reader/printers, a microfiche duplicator, and a public access terminal.

Bulletin Boards: Any that are available through the Information Center services.

In October, 1985, the EPA opened an Information Center (RIC 11) in the RTP Library. The Center is designed to handle questions, one-on-one training, demonstrations, and assistance for Agency personnel using personal computers and software packages.

ENVIRONMENTAL RESEARCH LABORATORY LIBRARY
GULF BREEZE, FLORIDA

Address: U.S. Environmental Protection Agency
Environmental Research Laboratory (ERL) Library
Sabine Island
Gulf Breeze, FL 32561-5299

Telephone: (904) 934-9218 or 9318 (CML)

Email Box ID: EPA8478
Email Box Name: E.Pinnell

Fax: (904) 934-9201 (CML)
(8) 228-9201 (FTS)

OCLC Code: EKC/04H

Librarian: Liz Pinnell

Staff: Library Technician/ILL Sonya Doten
Library Aide Vacant

Hours: 7:30 a.m. - 4:00 p.m.
Monday - Friday

The Gulf Breeze Environmental Research Laboratory (GBERL) Library, established in 1967, provides information services to GBERL employees and the general public. The library collection comprises approximately 5,000 volumes; 165 journals, bulletins, abstracts, and indexes; 1,500 documents; and 38,000 microform titles. Subject areas include:

- Aquatic Toxicology
- Estuarine Research
- Genetic Engineering
- Marine Ecology
- Microbiology
- Pathobiology
- Pesticide Science

LIBRARY SERVICES

Library services include selection, acquisition, and cataloging of new materials; circulation of materials to laboratory staff and interlibrary loan to other libraries; manual and online literature searches of commercial and government databases; and on-site reference service to laboratory staff and the public as well as telephone-ready reference.

The library archives and distributes copies of all laboratory publications. Computer-generated bibliographies of this collection, complete with author and keyword indexes, are available on request.

Online Systems: DIALOG, Ground Water On-line, National Library of Medicine (NLM), STN, Integrated Risk Information System (IRIS), and the EPA Online Library System (OLS).

Equipment: A photocopy machine and microform reader/printer are available to laboratory staff for the reproduction of material not covered by copyright. The library uses an Epson PC and a VT220 terminal to access the laboratory VAX 11/785 minicomputer and other external databases.

Bulletin Boards: Office of Research and Development Electronic Bulletin Board System (ORD BBS).

ENVIRONMENTAL RESEARCH LABORATORY LIBRARY ATHENS, GEORGIA

Address: U.S. Environmental Protection Agency
Environmental Research Laboratory Library
College Station Road
Athens, GA 30613-7799

Telephone: (404) 546-3302 (CML)
(8) 250-3302 (FTS)

Email Box ID: EPA8431
Email Box Name: *ERL/Athens

Fax: (404) 546-2018 (CML)
(8) 250-2018 (FTS)

OCLC Code: EKD/04D

Librarian: Janice Sims

Hours: 8:15 a.m. - 4:45 p.m.
Monday - Thursday

8:15 a.m. - 11:30 a.m.
Friday

The Athens Environmental Research Laboratory (ERL) library provides information services covering a wide range of environmental and management subjects of interest to EPA staff and the general public. Providing the necessary information sources to meet the needs of the Laboratory research staff is of utmost importance. Subject areas include:

- Aquatic Toxicology
- Biology
- Chemistry
- Engineering
- Mathematical Modeling
- Microbiology
- Pesticides
- Water Quality

The Athens Library collection comprises: 8,500 books; 80 current subscriptions to journals and bulletins; 7,600 documents and technical reports generated by

government sources or the private sector; 52,000 documents on microfiche, including technical reports produced by EPA; and a microfilm collection that includes back files of abstracts and indexes, and periodicals.

LIBRARY SERVICES

Acquisitions: Books, newsletters, journal subscriptions, and technical reports are ordered by the librarian for the Athens ERL staff.

Cataloging: Partial cataloging is done through OCLC; no original cataloging is performed.

Circulation: Documents from the Athens ERL Library collection are circulated to EPA staff and the general public. The library does not have an automated circulation system.

Interlibrary Loan (ILL): Interlibrary loan services are available to other EPA, government, and university libraries. The library uses the OCLC interlibrary loan subsystem to borrow books, journals, and other research materials not maintained in the library collection for the use of EPA staff.

Reference: On-site reference service is available to EPA staff and the public. More extensive reference service is provided to EPA staff as required.

Online Services: Computerized searching of databases is performed for Athens ERL employees to retrieve information for report preparation, data analysis, and background research and for preparation of special subject bibliographies.

Computer Assisted Literature Services: CAS Online, Chemical Information System (CIS), and DIALOG, EPA Online Library System (OLS).

Equipment: Photocopy machine and microform reader/printers are available to library patrons.

Bulletin Boards: Office of Research and Development Electronic Bulletin Board System (ORD BBS).

Audiovisual Materials: The library has audio cassettes and video cassettes. Videos are related to computer software programs and human resources topics. Audios are related to management and self-help topics.

**OFFICE OF AIR QUALITY PLANNING AND STANDARDS LIBRARY
(OAQPS)
RESEARCH TRIANGLE PARK, NORTH CAROLINA**

Address: U.S. Environmental Protection Agency
Office of Air Quality Planning and Standards
Library, MD-16
523 Mutual Plaza
Research Triangle Park, NC 27711

Telephone: (919) 541-5514 (CML)
(8) 629-5514 (FTS)

Email Box ID: EPA3025
Email Box Name: *R.THORN

OCLC Code: EKE/04G

Librarian: University of North Carolina Library School
Graduate Student

Hours: 8:00 a.m. - 5:00 p.m.
Monday - Friday

Librarian's hours vary

The Office of Air Quality Planning and Standards (OAQPS) Library was established as a unit of the Department of Health, Education, and Welfare and was transferred from Cincinnati, Ohio, to Durham, North Carolina, in 1968. Since then it has undergone several parent organization changes and in April, 1971, was designated as part of the Environmental Protection Agency.

In 1981, the library began to be staffed by student interns as part of the contract between Library Services/Research Triangle Park (RTP) and the University of North Carolina-Chapel Hill. The University provides student help on a half-time basis. The OAQPS library is a branch of the Library Services/RTP. Reference questions related to air pollution and research can be directed to that library (see pages 32-34).

The library consists of approximately 200 books, 45 journals and bulletins, and a complete collection of EPA/OAQPS reports. The subject focus is on air pollution and control technology, including material on costs, chemical technology, and minerals. The reference collection emphasizes chemistry and engineering.

LIBRARY SERVICES

Acquisitions: The library procures new materials for the use of OAQPS personnel, including monographs, journals, and government reports.

Cataloging: Records are being entered into the EPA Online Library System (OLS).

Circulation: Materials from the collection are circulated to EPA employees and contractors.

Interlibrary Loan (ILL): ILL requests by EPA personnel are forwarded to Library Services/RTP if the material cannot be supplied from OAQPS materials. ILL requests from other libraries for OAQPS materials are completed by the OAQPS librarian.

Reference: On-site reference service is available to EPA staff and the public. Because of limited in-house facilities, the librarian may contact Library Services/RTP or local universities to obtain necessary information.

Online Systems: With the addition of a computer, library staff can access the EPA Online Library System (OLS) and obtain printouts for EPA staff.

Equipment: A microfiche reader/printer and a photocopier are available.

**ATMOSPHERIC SCIENCES MODELING DIVISION LIBRARY
(AREAL LIBRARY)
RESEARCH TRIANGLE PARK, NORTH CAROLINA**

Address: U.S. Environmental Protection Agency
Atmospheric Research and Exposure Assessment
Laboratory (AREAL)
Atmospheric Sciences Modeling Division
Library, MD-80
Research Triangle Park, NC 27711

Telephone: (919) 541-4536 (CML)
(8) 629-4536 (FTS)

Email Box ID: EPA8491
Email Box Name: *ESRL/MAD

OCLC Code: EKF/04L

Staff : Evelyn Poole-Kober, Technical Publication Editor

Hours: 7:30 a.m. - 5:00 p.m.
Monday - Friday

The Atmospheric Sciences Modeling Division Library is unique in that it is included in both the Environmental Protection Agency (EPA) and the National Oceanic and Atmospheric Administration (NOAA) library networks. Originating in 1958 at the Robert S. Taft Sanitary Engineering Center in Cincinnati, OH and becoming in 1971 part of the EPA at Research Triangle Park, NC and NOAA Silver Spring, MD, the Library is located in the ASMD Office of Director.

The library's major field of interest is the meteorological aspects of air pollution, including numerical and physical model development and application, climate change analysis, and geophysical studies.

The collection contains approximately 50,000 documents, including books, journals, technical reports, microfiche of climatic data reports, film of synoptic data, surface and vorticity charts, and topographic maps and atlases.

The library is staffed by NOAA, and a full range of services are provided NOAA personnel on assignment to the EPA and ASMD, and reference services are provided to the EPA staff and on-site contractors.

LIBRARY SERVICES

Acquisitions: The library processes orders for new and renewal journal subscriptions, books, equipment, and other essential materials to enhance the collection.

Cataloging: The library processes books into the EPA and NOAA national library catalogs through the EPA National Cataloging Center, Washington, DC.

Circulation: The library circulates books, journals, and documents to the ASMD, EPA, and NOAA personnel, and on-site contractors.

Interlibrary Loans (ILL): The library is a member of OCLC and provides ILL to requesting member institutions and others, including academic, public, and special libraries.

Reference: The library provides reference services to ASMD and laboratory staff, on-site contractors, EPA and NOAA libraries, and the public.

Literature Searches: Literature searches are limited to ASMD and laboratory staff, and on-site contractors.

Online Systems: No online search services are available, except through the EPA Online Library System (OLS), NOAA Network, and the Triangle Area Network. Extensive searches are requested through EPA or NOAA libraries.

CD ROM Systems: NOAA LINC library network collection.

Equipment: The library has a microfiche reader; one microfiche reader/printer; CD ROM for the NOAA network, a photocopier, and one PC (for library staff use only).

Bulletin Boards: The library has access to local bulletin boards through OMNET Electronic Mail Services subscribed to through NOAA.

**REGION 5 LIBRARY
CHICAGO, ILLINOIS**

Address:	U.S. Environmental Protection Agency Region 5 Library 230 South Dearborn Street, Room 1670 Chicago, IL 60604	
Telephone:	(312) 353-2022 (CML) (8) 353-2022 (FTS)	
Email Box ID:	EPA9559	
Email Box Name:	Library.Reg5	
Fax:	(312) 886-9096 (CML) (8) 886-9096 (FTS)	
OCLC Code:	ELA/05A	
Librarian:	Lou W. Tilley	
Staff:	Librarian Great Lakes National Program Office Librarian Library Technician Library Technician Library Aide	Penny Boyle Barbara Hagerman David Wulatin Carol H. Gist Cheryl Wright
Hours:	10:00 a.m. - 5:00 p.m. Monday - Friday (Only regional staff may use the library before 10:00 a.m.)	

The Region 5 Library was established in January 1972 and is a part of the Region’s Office of Public Affairs. Much of the initial collection was acquired from pre-EPA offices in Chicago in the Department of Health, Education, and Welfare’s Public Health Service and the Department of the Interior’s Federal Water Pollution Control Administration (later Federal Water Quality Administration).

The library is staffed by U.S. EPA and contractor personnel and provides services to U.S. EPA staff and, on a more limited basis, to the general public.

Subject areas are:

- Air Pollution
- Air Quality
- Ground Water
- Hazardous Wastes
- Noise
- Pesticides
- Recycling and Resource Recovery
- Solid Waste Management
- Toxic Substances
- Water Pollution
- Water Quality
- Water Supply (drinking water)

The emphasis is on the Great Lakes and the six states in the Region: Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.

The current collection consists of 18,000–20,000 technical documents and reports in paper copy generated by international, federal, interstate, state, regional, and local government agencies (including the U.S. EPA) and by private endeavors. There are currently about 7,500 book titles in the collection and about 325 journal subscriptions (including abstracts/indexes, bulletins, newspapers, and so forth) in effect. There are some 110,000 microfiche items in the collection, including a fairly complete collection of U.S. EPA and predecessor agency reports, the *Federal Register*, and so forth .

There is a sizable collection of the U.S. Geological Survey Water Supply Papers and a fairly complete collection of the Water Resources Data for Region 5 states and other contiguous states. Paper copy of proceedings of most of the Great Lakes enforcement conferences held in the Region 5 states is available in the library.

Other special collections include EIC Statefiche, EIS microfiche (1973–1985) with indexes, 85,000 APTIC items in microfiche, and about 75 videocassette tapes. A law library collection in the Office of the Regional Counsel (ORC) is staffed by a Regional Counsel employee halftime each day, and a Great Lakes library collection in the Great Lakes National Program Office is staffed by a full-time contract employee. (This facility will be absorbed into the Regional Library facility as a separate entity by the end of this calendar year.)

There is a vertical file collection of pamphlet/reprint/brochure materials, a Women's Collection, and a special collection of Hazardous Waste material (computer-searchable in an online database).

LIBRARY SERVICES

Acquisitions: Processes procurement actions for subscriptions (new/renewal), books, documents, technical reports, microforms, and so forth, as requested by program staff in the Region and to enhance the library/reference collections.

Cataloging: Processes books, documents, and other materials for the Regional collection and staff in the program offices.

Circulation: Materials from the Regional collection are loaned or routed to Regional Office staff as requested or for SDI (Selective Dissemination of Information).

Interlibrary Loan: Materials not in the Regional collection are borrowed on loan for Regional staff from other U.S. EPA libraries or other libraries as requested. Loans are made routinely to other U.S. EPA libraries, other types of libraries, and other authorized borrowers.

Reference: On-site ready reference is available to Regional staff and, on a more limited basis, to the general public.

Online Services: Computerized searching of online databases is performed for U.S. EPA staff.

Online Systems: BRS, CIS (Chemical Information System), DIALOG, Hazardous Waste Superfund Database (HWSFD), LEXIS/NEXIS, MEDLARS (including TOXNET), Translations Database and RODS Database. The Law Library has access to the EDRS and JURIS systems, EPA Online Library System (OLS).

Publications Currently Available: *Library Information Link:* Selected Acquisitions List.

Equipment: Microform readers and reader/printers are available to patrons for reading/reproducing microforms. There are limitations on printer usage by non-U.S. EPA staff.

**ANDREW W. BREIDENBACH ENVIRONMENTAL RESEARCH CENTER

Monday - Friday

The Andrew W. Breidenbach Environmental Research Center (AWBERC) Library is a composite of the holdings, dating from 1950, of the Public Health

Service and the Federal Water Pollution Control Administration. The facility, established in 1971, served at one time as the scientific and technical focal point for all EPA libraries. It was moved to its present location in 1976.

The major subjects areas include:

- Bacteriology
- Biotechnology
- Toxicology
- Wastewater Treatment
- Water Pollution
- Hazardous Waste
- Risk Assessment
- Water Quality

The library is operated by the Information Access Branch. The holdings consist of 17,000 books; 7,000 bound periodicals; 600 current journal and newsletter subscriptions; 4 newspapers; 1,600 hard copy documents; over 300,000 technical reports on microfiche produced by EPA and other government agencies; and a microfilm collection that includes back files of abstracts and periodicals.

Special collections include the Risk Assessment Collection, Hazardous Waste Superfund Collection, Total Quality Management, Solid Waste Reports, Legal Collection, and the Environment Canada Reports.

LIBRARY SERVICES

Acquisitions: Books, journals, and documents are ordered for the AWBERC Library only.

Cataloging: Books, documents, and journals are cataloged into the EPA Online Library System (OLS).

Circulation: Materials are circulated to EPA personnel only; all other requests are handled through interlibrary loan (ILL). Books will be loaned, journal articles and technical reports will be reproduced.

Interlibrary Loan (ILL): The interlibrary loan department participates in the OCLC ILL subsystem. They maintain cooperative agreements with many federal, academic, and special libraries and are a member of the Greater Midwest Regional Medical Libraries Network.

Reference: Reference assistance is available to EPA staff and to the public as time permits.

Online Services: The library performs computerized literature searches of commercial databases for EPA personnel in Cincinnati, as well as any EPA library that does not have online searching capabilities. The library also provides end-user searching of several CD ROM databases to EPA staff.

Online Systems: Bibliographic Retrieval Service (BRS), CAS Online, Chemical Information System (CIS), DIALOG, Dun & Bradstreet, Ground Water On-line, LEXIS/NEXIS, National Library of Medicine (NLM), OLS, and Hazardous Waste Superfund Database (HWSFD).

CD ROM Systems: CHEMBANK, MEDLINE, TOXLINE, BIOSIS, GeoRef, and NTIS on Silver Platter, Occupational Health Services Material Safety Data Sheets (OHS MSDS), Enflex, ABI/Inform, and the Computer Library.

Publications currently available:

- Guide to Using the CD-NET (CD-ROM Databases on the LAN)
- Information Online
- Inside IRMD (monthly)
- Introduction to the AWBERC Library Services and Collection
- Literature Searches You Can Do Yourself on Compact Disc
- Tips for Visitors Using the EPA Library

Equipment: A photocopy machine and microform reader/printers are available to library patrons for the reproduction of library materials. There are limitations on usage by non-EPA staff.

Bulletin Boards: Office of Research and Development Electronic Bulletin Board System (ORD BBS).

Audiovisual Materials: The library has a large collection of EPA training seminars conducted in the 1970's on videocassette, general environmental films, and two updated methods from the Technical Support Division, Office of Drinking Water, on VHS. Materials circulate to EPA staff and the public.

**ENVIRONMENTAL CRITERIA AND ASSESSMENT OFFICE
TECHNICAL INFORMATION UNIT (TIU)
CINCINNATI, OHIO**

Address: U.S. Environmental Protection Agency
Environmental Criteria and Assessment Office
Technical Information Unit, G44
26 West Martin Luther King Drive
Cincinnati, OH 45268

Telephone: (513) 569-7598 (CML)
(8) 684-7598 (FTS)

Email Box ID: EPA30105
Email Box Name: S.ARENTSEN

Librarian: Sue Arentsen

OCLC Code: N/A

Staff:

Reference Librarian	Pat Sunshine
Library Technician	Linda Ketcham
Library Technician	Luella Kessler
Library Aide	Chuck Tabri
AARP Employee	Hila Foley

Hours: 7:30 a.m. - 4:30 p.m.
Monday - Friday

The Technical Information Unit (TIU) was established in December, 1986. It provides technical support to Environmental Criteria and Assessment Office—Cincinnati (ECAO-Cin) scientists, and is responsible for acquiring, processing, and maintaining a collection of documents and references related to the risk assessment of environmental pollutants in human health. Special collections include the ECAO slide library, ECAO's Selected Risk Assessment Publications/References, and the Core Collection (commonly cited references). TIU also oversees the hardcopy background documents for the IRIS database

TIU's collection consists of more than 1,000 ECAO reports and documents, and more than 100,000 hardcopies of references cited in those reports and documents.

TIU provides literature searches, current awareness, and circulation services to the ECAO scientific staff and to other EPA staff as necessary. It is responsible for maintaining and organizing records used in the production of documents, and for the appropriate disposition of documents and references no longer needed by ECAO.

Special Collections:

- Core Collection of “commonly cited” references and other research materials of current interest to ECAO staff.
- IRIS hardcopy files for more than 800 chemicals. Used to support the information contained in the IRIS database.

LIBRARY SERVICES

Acquisitions: Acquisitions are primarily the documents developed and/or reviewed by ECAO staff.

Cataloging: TIU is currently automating its collection of hardcopy references, including those references and documents in the IRIS hardcopy files.

Circulation: Materials are circulated to ECAO staff.

Interlibrary Loan (ILL): TIU does not loan material through ILL. TIU utilizes the main library's ILL services.

Reference: Reference services are provided to ECAO staff.

Online Services: Online literature searches are performed for ECAO-Cin staff on the DIALOG and NLM systems. TIU staff typically search for information on the toxicity of chemical substances.

Online Systems: DIALOG, MEDLINE, TOXLINE, TOXLIT, HSDB, RTECS.

Publications Currently Available: New Research Material.

Equipment: IBM-compatible PCs, MacIntosh computer system, and WANG computer system.

Bulletin Boards: Office of Research and Development Electronic Bulletin Board System (ORD BBS).

**MOTOR VEHICLE EMISSION LABORATORY LIBRARY (MVEL)
ANN ARBOR, MICHIGAN**

Address: U.S. Environmental Protection Agency
Motor Vehicle Emission Laboratory Library
2565 Plymouth Road
Ann Arbor, MI 48105

Telephone: (313) 668-4311 (CML)
(8) 374-8311 (FTS)

Email Box ID: EPA6476
Email Box Name: *OMS/AMS

Fax: (313) 668-8368 (CML)
(8) 374-8368 (FTS)
(202) 382-3944

OCCLC Code: ELC/05D

Librarian: Debra Talsma

Hours: 8:00 a.m. - 5:00 p.m.
Monday - Friday

Material belongs to:
Office of Toxic Substances Library
U.S. Environmental Protection Agency
1215 Constitution Avenue, N.W. TS-793
Washington, D.C. 20460

The Motor Vehicle Emission Laboratory (MVEL) Library is operated by the Administrative Management Staff. It provides information services concentrated on automotive engineering to EPA staff and the general public. Subject areas include:

- Air Pollution From Mobile Sources
- Alternative Alcohol Fuels
- Motor Vehicle Retrofit Devices

The MVEL collection comprises: 400 books, 50 current subscriptions to journals, abstracts and indexes, bulletins, and newspapers; 20,000 hard copy documents and technical reports generated by government sources or the private sector; 10,000 documents on microfiche, including technical reports produced by EPA and its predecessor agencies; and a microfiche collection that includes back issues of the *Federal Register* and Applications for Certification. The Library also has 10,000 Society of Automotive Engineers papers related to topics in automotive emissions, fuel economy, and new automotive technology.

The library also contains unique information pertinent to the MVEL. This includes such information as Engineering Operations Division (EOD) test procedures, Advisory Circulars, Applications for Certification of Light and Heavy-Duty Vehicles, Fuel Economy Guides (1974 to present) and Rulemaking Analysis.

LIBRARY SERVICES

Acquisitions: In addition to procuring new materials for the library, the librarian processes orders for subscriptions and reference materials ordered by MVEL division offices.

Cataloging: The librarian processes books, journals, and other documents into the EPA Online Library System (OLS).

Circulation: Documents from the MVEL library collection are circulated to EPA employees. Permission must be obtained from the librarian to circulate to outside users.

Interlibrary Loan (ILL): The library provides ILL services to all libraries in accordance with copyright law and existing agreements. Requests are accepted from EPA libraries either in writing or by telephone; other libraries must submit an ILL form.

Reference: On-site reference service is provided to EPA staff and to users from the university community, industry, and the general public, unless extensive. The Librarian also acts as the MVEL public information source and handles the MVEL records management program.

Online Services: The EPA library located in Cincinnati, OH, performs literature searches for the MVEL Library. EPA employees requesting literature searches must contact the MVEL librarian.

Publications Currently Available:

- EPA MVEL Technical Report List
- EPA MVEL Final Report List
- MVEL Fact Sheets

Equipment: Photocopy machine, microfiche reader/printer, and a binding machine. Copying facilities are available to the public, with a limit of 25 pages.

Bulletin Boards: MichNet (University of Michigan online database).

ENVIRONMENTAL RESEARCH LABORATORY LIBRARY DULUTH, MINNESOTA

Address: U.S. Environmental Protection Agency
Environmental Research Laboratory Library
6201 Congdon Boulevard
Duluth, MN 55804

Telephone: (218) 720-5538 (CML)
(8) 780-5538 (FTS)

Email Box ID: EPA8451
Email Box Name: *ERL/Duluth

Fax: (218) 720-5539 (CML)
(8) 780-5539 (FTS)

OCLC Code: ELD/05C

Librarian: John Bankson

Staff: Library Aide Amy Pieren

Hours: 8:00 a.m. - 4:30 p.m.
Monday - Friday

The Environmental Research Laboratory (ERL) and its field stations, Large Lakes Research Station, Grosse Isle, MI, and Monticello Ecological Research Station, Monticello, MN, are the Agency's center of expertise for research and technical support on freshwater toxicology and ecology. ERL-Duluth has four research branches: Toxic Substances, Pesticides, Hazardous Waste, and Water Quality.

The library was founded in 1967 for the purpose of assisting the research staff and other government scientists dealing with freshwater pollution problems.

The library contains 3,094 books, 164 journal subscriptions, an extensive reprint collection, microfiche reports, and more than 2,658 federal, state, and local documents and technical reports.

Its major fields of interest are:

- Analytical Chemistry
- Aquatic Toxicology
- Biology
- Comparative Toxicology
- Effluent Testing
- Mechanisms of Toxic Action
- Predictive Models
- Water Pollution

The library indexes and distributes copies of all laboratory journal publication reprints. Computer-generated bibliographies of these reprints are available upon request.

LIBRARY SERVICES

Acquisitions: The library orders books, reports, and articles for in-house staff.

Cataloging: The library staff does their own cataloging but does not enter records on the EPA Online Library System (OLS). They are now cataloging on OCLC.

Circulation: Materials circulate to in-house staff only. There is no automated circulation system.

Interlibrary Loan (ILL): Photocopies of articles are free of charge and books are lent for 1 month through ILL. Requests are accepted through OCLC and Minitex.

Reference: Reference services are provided to ERL staff and the public.

Online Services: Computerized literature searching is performed for ERL-Duluth scientists.

Online Systems: Bibliographic Retrieval Service (BRS) and OCLC.

Equipment: Includes a microfiche reader, computer, and a printer.

Bulletin Boards: EPA Bulletin Boards.

Audiovisuals Materials: American Audio Courses.

**REGION 6 LIBRARY
DALLAS, TEXAS**

Address: U.S. Environmental Protection Agency
Region 6 Library
1445 Ross Avenue
First Interstate Bank Tower
Dallas, TX 75202-2733

Telephone: (214) 655-6444 (CML)
(8) 255-6444 (FTS)

Email Box ID: EPA9692
Email Box Name: R6 .Library

Fax: (214) 655-2146 (CML)
(8) 255-2146 (FTS)

OCCLC Code: EMA/06A

Library Coordinator: Linda McGlothlen

Staff: Library Technician Leticia Lane
Computer Specialist Vandana Dutia
Audra Fountain
Student Wynette Walker

Hours: 8:00 a.m. - 4:30 p.m.
Monday - Friday

Reference materials for water quality planning constituted the beginning of the collection which became the EPA Region 6 library in July, 1971. The library includes materials on all EPA programs:

- Air Pollution
- Hazardous Waste
- Noise
- Pesticides
- Radiation
- Soil Science
- Solid Waste
- Toxic Substances
- Water Pollution
- Water Quality

This material particularly relates to the states within the Region: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

The Region 6 library collection consists of more than 2,000 books; 76 journal subscriptions including newsletters; 13,646 documents; and 56,248 technical reports. The library has a collection of U.S. Department of Agriculture/Soil

Conservation Surveys by counties covering the five-state region; a microfiche collection that includes Air Pollution Technical Information Center (APTIC) items; and back issues of the *Federal Register* (1971–present).

LIBRARY SERVICES

Acquisitions: The library technician processes orders for new and renewal journal subscriptions and books. The technician also assists and approves procurement requests for Region 6 program staff as the material is added to the library collection.

Cataloging: The library processes books, documents, EPA reports, and journals into the EPA Online Library System (OLS).

Circulation: Documents from the Region 6 library collection are circulated to EPA employees, local contractors, and state offices through the EPA Region 6 Library Circulation System.

Interlibrary Loan (ILL): The library provides ILL services to all EPA libraries. Requests are accepted in writing, by telephone, and through the OCLC ILL subsystem. It borrows publications from other government agencies and local public libraries.

Reference: The library serves EPA staff and their contractors. The library also assists the general public with reference information.

Online Services: The library performs literature searches for the Region 6 employees.

Online Systems: Ground Water On-line, National Library of Medicine (NLM), Hazardous Waste Superfund Database (HWSFD), StarText (local Fort Worth Star Telegram Newspaper).

Publications Currently Available:

- Journal Listing
- Current Acquisitions
- Guide to Region 6 Library

Equipment: A photocopier and microfiche reader/printer are available to library users.

Bulletin Boards: CEAMBB, EIESBB, HMIXBB, OSWERBB.

**ROBERT S. KERR ENVIRONMENTAL RESEARCH LIBRARY
ADA, OKLAHOMA**

Address: U.S. Environmental Protection Agency
Robert S. Kerr Environmental Research Library
P.O. Box 1198, Kerr Lab Road
Ada, OK 74820

Telephone: (405) 332-8800 (CML)
(8) 743-2241 (FTS)

Email Box ID: EPA8603
Email Box Name: RSKERL•Library

Fax: (405) 332-8800 (CML)
(8) 743-2256 (FTS)

OCLC Code: EMB/06B

Librarian: Joyce Williams Bergin

Staff: Library Technician Lily Mae Cagle
Library Technician Jessie Choate
Library Aide Louise Hester

Hours: 8:00 a.m. - 5:00 p.m.
Monday - Friday

The Robert S. Kerr Environmental Research Laboratory (RSKERL) Library is operated by the Administrative Support Staff. The laboratory, one of the 14 major research laboratories of EPA's Office of Research and Development, is the Agency's center of expertise for investigation of the soil and subsurface environment. Important areas of research at RSKERL include the study of the chemical and microbial contamination of ground water and the mathematical and computer modeling of both the movement of ground water and the influence of various contaminants in this area of the environment. Sources of pollution, as well as migration and degradation of pollutants, are topics of investigation at RSKERL.

The library, established in 1966 as part of the Federal Water Pollution Control Administration, functions in support of the research programs of the laboratory by providing access to scientific and technical information relevant to the laboratory's mission.

Major subject areas covered are:

- Agriculture
- Biology
- Chemistry
- Hydrology
- Modeling
- Soil Science
- Ground Water Pollution
- Subsurface Environments

The holdings consist of approximately 4,060 books, 60 journal subscriptions, 2,000 maps, and 76,241 documents, either in hardcopy or on microfiche, including technical reports produced by EPA and its predecessor agencies, and a comprehensive collection of U.S. Geological Survey Water Supply Papers.

Library services include acquisitions, circulation, reference, literature searching, interlibrary loan, computer assisted literature searches, and current awareness. Reference services are available to the neighboring university community and the general public.

LIBRARY SERVICES

Acquisitions: Items are ordered for the research scientists including NTIS research reports, dissertations, books, and serials.

Cataloging: The library does copy cataloging only.

Circulation: There is no automated circulation system. Materials are checked out to the scientists, laboratory staff, faculty of East Central University, Oklahoma State University, and the University of Oklahoma.

Interlibrary Loan (ILL): All material excluding reference tools and journals are loaned out.

Reference: Services are provided for lab scientists and personnel, local university faculty and students conducting research, the public, state agencies, and the librarians of the Oklahoma Department of Libraries via telephone.

Online Services: Online database searches are performed for the research scientists. New research reports in the area of Ground Water are frequently requested. The staff assists with CD ROM database searches.

Online Systems: DIALOG.

CD ROM Systems: Books in Print Plus, Groliers Electronic Encyclopedia, Sigma Aldrich Material Safety Data Sheets (MSDS), Silverplatter's TOXLINE, NTIS, and PEST-BANK, Data World Info Disc, Water Resources Abstracts, Microsoft Stat Pack, Environmental Periodicals Bibliography, and Compact Cambridge's Life Sciences

Publications Currently Available:

- RSKERL Library User's Guide
- Serials Holding List
- Acquisitions Focus Sheet (announcement of new additions)

Equipment: A photocopy machine, two microform reader/printers, three microfiche readers, one microfilm reader, one CD ROM workstation, and one Merlin express lettering machine, are available to the users.

Audiovisual Materials: The library houses seven video cassettes which contain promotional information on the Lab and EPA. They are checked out to staff who conduct Lab tours and community outreach programs.

**REGION 7 LIBRARY
KANSAS CITY, KANSAS**

Address: U.S. Environmental Protection Agency
Region 7 Library
726 Minnesota Avenue
Kansas City, KS 66101

Telephone: (913) 551-7358 (CML)
(8) 276-7358 (FTS)

Email Box ID: EPA9743
Email Box Name: Library.Reg7

Fax: (913) 551-7467 (CML)
(8) 276-7467 (FTS)

OCLC Code: ENA/07A

Librarian: Barbara MacKinnon

Staff: Steven Wyman

Hours: 8:30 a.m. - 5:00 p.m.
Monday - Friday

The Region 7 library is operated by the Facilities Management Support Branch of the Office of Policy and Management.

The Library provides information on a wide range of environmental subjects, but especially on:

- Air Pollution and Control
- Environmental Law
- Hazardous Waste
- Pesticides
- Solid Waste Management
- Water Pollution and Control
- Wetlands

The library's holdings consist of 1,400 books, 15,000 documents and technical reports, 150,000 documents on microfiche, and approximately 110 periodical subscriptions.

LIBRARY SERVICES

Acquisitions: The Library staff orders books and subscriptions for the Region.

Cataloging: The library staff catalogs according to OCLC and enters the records onto the EPA Online Library System (OLS)

Circulation: Library materials, with the exception of reference, are circulated to Region 7 staff for 1 month. Reference materials may be borrowed until close of business that day.

Interlibrary Loan (ILL): Interlibrary loans are transacted primarily through OCLC.

Reference Services: Full reference and search services are provided to EPA staff. Help in locating EPA publications is provided to the public. State and local government agencies also receive reference services.

Online Services: Searches are performed for Region 7 staff.

Online Systems: DIALOG, Records of Decision System (RODS), Hazardous Waste Superfund Database (HWSFD). Chemical Information Service (CIS), National Library of Medicine (NLM), and LEXIS/NEXIS are available in the region, but not in the library.

Publications Currently Available:

- List of Journal Subscriptions
- Description of Services Available to the Public
- Description of Services Available to EPA Staff

Equipment: A photocopy machine, microfiche reader/printer, and three LAN workstations are available in the library.

**REGION 8 LIBRARY
DENVER, COLORADO**

Address:	U.S. Environmental Protection Agency Region 8 Library, 8PM-IML 999 18th Street, Suite 500 Denver, CO 80202-2405	
Telephone:	(303) 293-1444 (CML) (8) 330-1444 (FTS)	
Email Box ID:	EPA9869	
Email Box Name:	Library.Reg.VIII	
Fax:	(303) 293-1647 (CML) (8) 330-1647 (FTS)	
OCLC Code:	EOA/08A	
Librarian:	Barbara L. Wagner	
Staff:	Library Technician, Technical Services	Allison Kenney
	Library Technician, Outreach Services	Kim Mercer
	Library Assistant, Public Services	Carrie Chou
Hours:	10:00 a.m. - 4:00 p.m. Monday - Thursday (Only EPA staff may use the library before 10:00 am)	
	10:00 a.m. - 2:00 p.m. Friday	

Organized in 1973, the Region 8 library includes materials on all EPA programs: air, water, hazardous and solid waste, pesticides, toxic substances, and radiation, particularly as they relate to the states within the Region; Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming. To support other Agency programs, the collection incorporates publications relating to economics, management, and employee development.

General library services including reference, research, database searching, and interlibrary loan are available to Regional office staff. Second copies of EPA reports are available for loan to other libraries, government agencies, businesses, and organizations in the Region.

LIBRARY SERVICES

Cataloging: Cataloging records are input to the EPA Online Library System (OLS) using OCLC.

Circulation: Materials circulate to anyone, except students.

Interlibrary Loan (ILL): Loan and borrow for EPA staff only. Library staff follow BCR ILL code and ALA code when requesting materials through ILL.

Reference: Reference services are provided to everyone who comes to the library. Service is not provided by phone to those who are in the Denver-Boulder Metropolitan Area or outside Region 8.

Online Services: Done for EPA staff and state government employees.

Online Systems: CARL (Colorado Association of Research Libraries), DIALOG, and Hazardous Waste Superfund Database (HWSFD).

Publications Currently Available: New Titles (monthly).

Equipment: Two microfiche reader/printers, three computer terminals, and one PC.

Audiovisual Materials: Audio cassettes on staff development topics are loaned to EPA staff only. Videotapes are loaned to anyone, except students.

The library is a member of the Central Colorado Library System which provides courier services for the libraries in the region.

**NATIONAL ENFORCEMENT INVESTIGATIONS CENTER

	PRP Searches	Tina Wilson

Hours: 8:00 a.m. - 4:00 p.m.
Monday - Friday

The library of the National Enforcement Investigations Center (NEIC) of EPA's Office of Enforcement was established in Denver in January, 1972.

The collection comprises case files, technical reports, data compilations and background information used to develop the basis for field studies and enforcement actions; research and development reports on municipal, industrial and agricultural pollution abatement practices; enforcement conference documents and environmental law materials; technical reference materials covering chemistry, pesticides, toxic substances, air technology and hazardous wastes. Holdings include 2,000 books, 100 journals, and numerous paper and microfiche documents. The Consent Decree Repository holds more than 1,000 consent judgments with related documents.

The library distributes technical and enforcement reports produced by the NEIC staff. The library shares its resources through interlibrary loan services via OCLC, telephone, and mail requests. All services are provided without charge.

LIBRARY SERVICES

Acquisitions: The library orders books, journals, and documents including the Code of Federal Regulations (CFR).

Cataloging: Cataloging is done on OCLC.

Circulation: Materials circulate to staff only, and the library has an automated system.

Interlibrary Loan (ILL): Materials are loaned and copies are made at no charge. Staff also make fiche-to-fiche copies.

Reference Services: Provide reference services in support of the NEIC mission to staff and other environmental enforcement personnel. Staff also answer requests and provide referral to the public by phone.

Online Services: Searches are done primarily for EPA staff, Regional offices, and state personnel. Topics include chemical, legal, and business.

Online Systems: Chemical Information System (CIS), Scientific and Technical Information Network (STN), DIALOG, National Library of Medicine (NLM), Hazardous Waste Superfund Database (HWSFD), Integrated Risk Information System (IRIS), EDRS, and the EPA Online Library System (OLS), Datatimes, LEXIS/NEXIS, Westlaw, CARL.

Publications Currently Available: The library is the source for all NEIC reports. NEIC library also publishes a monthly newsletter.

Equipment: Includes a photocopier, microfiche reader/printer, a microfilm reader/printer, and a microfiche copier. The library provides a common use area to allow NEIC staff access to computer, graphics, and word processing equipment.

Bulletin Boards: Office of Research and Development Electronic Bulletin Board System (ORD BBS).

Audiovisual Materials: A number of audio cassettes and some video cassettes that are loaned to NEIC staff. Topics include management and personnel.

**REGION 9 LIBRARY
SAN FRANCISCO, CALIFORNIA**

Address:	U.S. Environmental Protection Agency Region 9 Library 75 Hawthorne Street San Francisco, CA 94105	
Telephone:	(415) 744-1510 (CML) (8) 484-1510 (FTS)	
Email Box ID:	EPA9956	
Email Box Name:	Library.Reg9	
Fax:	(415) 744-1474 (CML) (8) 484-1474 (FTS)	
OCLC Code:	ERA/09A	
Librarian:	Linda Sunnen	
Staff:	Pollution Prevention Superfund Librarian Superfund Technician Library Technician Library Assistant	Bernadette Adams Deborra Samuels Deatra Cohen Kevin Molander Mary Winn
Hours:	8:00 a.m. - 4:30 p.m. Monday - Friday 9:00 a.m. - 4:00 p.m. Reference desk hours	

The Region 9 library is part of the Information Resources Management Branch. The library provides a full range of reference services to the EPA staff, as well as providing EPA Program information and reference services to the general public. The collection includes the following major subject areas:

- Air Pollution
- Hazardous Waste
- Law
- Pesticides
- Pollution Prevention
- RCRA/Superfund
- Water Pollution
- Environmental Health and Safety

The library collection includes more than 7,000 books, more than 70,000 reports (EPA, federal, and private sector), approximately 250 journals, and more than 450,000 reports on microfiche. The library also maintains a collection of topographical maps published by the U.S. Geological Survey and a collection of wetland maps. The library maintains a collection of OSWER directives, Records of Decision, and the Hazardous Waste Superfund Collection.

LIBRARY SERVICES

Acquisitions: The library processes all requests for books, reports and journal subscriptions submitted by the staff, in addition to ordering items needed to enhance the collection.

Cataloging: The technical services staff catalogs books, unnumbered EPA reports, and other Agency publications and adds the holdings to OCLC. Access to the collection is provided by using a microfiche catalog or the EPA Online Library System (OLS), the EPA online catalog. Staff add records to the Region 9 catalog on the OLS for items not found on OCLC.

Circulation: All materials, except those in the reference collection or specified by library policies, circulate to staff for a four week period and to other libraries via interlibrary loans. A DBase III program is currently being used for circulation.

Interlibrary Loan (ILL): The Region 9 library maintains cooperative agreements with many academic, public, and special libraries as well as being a member of OCLC. Books, journals, and other research materials may be borrowed from other libraries for EPA staff members.

Literature searches: The library has access to a wide variety of databases and can perform searches for the EPA staff or state government employees.

Online Systems: Chemical Information System (CIS); DIALOG; EDRS (Enforcement Document Retrieval System); Ground Water On-line; TOXNET (National Library of Medicine); Integrated Risk Information System (IRIS); Hazardous Waste Superfund Database (HWSFD); and Records of Decisions (RODS).

CD ROM Systems: GPO, NTIS, CHEMBANK, TRI, PESTBANK.

Reference: Two reference librarians and three library assistants are available to answer telephone and on-site inquiries from the EPA staff and the public. Reference support includes use of the reference collection, access to other libraries and information sources, and instruction on use of the catalog, indexes, and directories.

Publications Currently Available: The library publishes a bimonthly Newsletter/Acquisitions List, The Library Line, which informs the EPA staff of additions to the collection and highlights services and new databases. Another publication, Journal Holding List, is an annual list of periodical holdings.

Equipment: Two microfiche reader/printers and a copy machine are available to library patrons. The public is charged \$10 per page in excess of 10 pages. The library also has two PC's which may be used by the staff to search the HWSFD or access the OLS. The library has three Telex terminals, one for use by the technical services section and one to be available to the public as the system permits for searching EPA databases.

Bulletin Boards: Pollution Prevention Information Exchange System (PIES), Econet, Office of Research and Development Electronic Bulletin Board System (ORD BBS), OSWER.

Audiovisual Materials: Collection of audio cassettes and some video cassettes circulate to EPA staff and other state agencies for a 2-week period.

Special Collection: The library is a repository for all the printed exhibits generated from all phases of the State Water Quality Review being conducted by EPA and the State Water Resources Control Board. These hearings will be conducted over a 3 year period. A terminal has been installed in the library which provides online access to the full-text testimonies of the Water Hearings, as well as access to the printed exhibits. The system is menu driven, user friendly, and available to the EPA staff and the public.

The library has started special collections for RCRA/Superfund documents and Pollution Prevention.

Tours: Library tours are conducted monthly. This is a good way for new employees to familiarize themselves with library services and for long-term employees to acquaint themselves to new services.

**ENVIRONMENTAL MONITORING SYSTEMS
LABORATORY LIBRARY (EMSL)
LAS VEGAS, NEVADA**

Address: U.S. Environmental Protection Agency
Environmental Monitoring Systems Laboratory
Library
(P.O. Box 93478, Zip 89193-3478)
944 E. Harmon Avenue
Las Vegas, NV 89119

Telephone: (702) 798-2648 or 2646 (CML)
(8) 545-2648 or 2646 (FTS)

Email Box ID: EPA8598
Email Box Name: M. Forrester

Fax: (702) 798-2637 (CML)
(8) 545-2637 (FTS)

OCCLC Code: ERB/09B

Librarian: Camille Clark

Staff: Library Technician Mary K. Forrester

Hours: 7:00 a.m. - 4:30 p.m.
Monday - Friday

The Environmental Monitoring Systems Laboratory (EMSL) library is operated by the Office of Program Support of the Office of Program Management. The library was established in 1966 as part of the Public Health Service, Southwestern Radiological Health Laboratory. Materials were primarily oriented toward nuclear science at that time. When the facility became part of EPA in 1970, the collection was broadened to include all aspects of environmental science.

At present, the holdings include monographs, serials, a basic environmental law collection, the EPA Hazardous Waste Superfund Collection, and an extensive environmental pollution and control microfiche collection of EPA and other government agency reports.

The mission of the Environmental Monitoring Systems Laboratory is to develop, evaluate, and apply methods and strategies for monitoring the environment. The present collection supports this mission.

LIBRARY SERVICES

Acquisitions: The library orders all books, periodicals, and reports for the EMSL-LV

Cataloging: All incoming library materials are processed for rapid retrieval. Books are cataloged into the EPA Online Library System (OLS) and entered into the library database for inventory, rapid retrieval, and circulation purposes.

Circulation: All materials, except reference, circulate to EPA employees on a loan basis. The library has an automated circulation system.

Interlibrary Loan (ILL): The EMSL Library uses OCLC as the primary source for ILL's, but phone calls and American Library Association forms are accepted.

Reference Services: Reference services are available to EPA employees and on-site contractors. Limited service is available to the public.

Online Services: Literature searches are conducted for EPA personnel and on-site contractors.

Computer Assisted Literature Search Service: The library has access to multiple EPA systems and DIALOG.

Publications Currently Available:

- New from the EMSL-LV Library (monthly acquisitions)
- EMSL-LV Library brochure

Equipment: A photocopy machine, microform reader/printer, and a duplicator printer and developer are available to library users. The library also has access to a fax machine and two computer terminals.

**REGION 10 LIBRARY
SEATTLE, WASHINGTON**

Address:	U.S. Environmental Protection Agency Region 10 Library, MD-108 1200 Sixth Avenue Seattle, WA 98101	
Telephone:	(206) 553-1289 or 1259 (CML) (8) 399-1289 or 1259 (FTS)	
Email Box ID:	EPA9085	
Email Box Name:	Library.Reg.X	
Fax:	(206) 553-4672 (CML) (8) 399-4672 (FTS)	
OCLC Code:	ESA/10A	
Librarian:	Julienne Sears	
Staff:	Assistant Librarian Library Technician Library Technician Library Aide	Patricia Carey Darci Dudel Ann Klofas-Hinger Sarah Fox
Hours:	8:30 a.m. - 4:30 p.m. Monday - Friday	

The library, established in 1971, currently includes materials on all EPA programs. Holding include about 7,300 books, 36,000 reports in hard copy, 16,000 documents, 95,000 microforms, and 150 journal subscriptions.

Special collections include Region 10 reports, Office of Puget Sound materials, the Hazardous Waste Superfund Collection, and documents pertaining to the Region 10 states: Alaska, Idaho, Oregon, and Washington.

Library staff provide a full range of services to approximately 475 Regional staff, including those at their Laboratory and in Region 10's five state operations offices. Other federal, state, and municipal agency employees, as well as outside users, have on-site access to the collection, as well as limited reference service and borrowing privileges.

LIBRARY SERVICES

Acquisitions: All requests for books, reports, and journals submitted by staff (including Laboratory and Operations offices) are processed by the library, in addition to materials selected by library staff.

Cataloging: All incoming items are processed for rapid retrieval. Most are cataloged using OCLC.

Circulation: All materials circulate to Regional office staff. EPA technical reports are circulated to all Region 10 requestors. Region 10 EPA reports are available for loan throughout the country.

Interlibrary Loan (ILL): Interlibrary loans are transacted primarily through OCLC, but phone requests and American Library Association forms are also accepted. The library also participates in the University of Washington Library's Resource Sharing Program and utilizes the Washington Library Network (WLN), as well.

Reference: On-site ready reference service, both phone and walk-in, is available to EPA staff and others. In depth reference service is provided to EPA staff as required.

Online Services: The library accesses a wide variety of databases and performs searches for Regional office staff.

Online Systems: Chemical Information System (CIS), DIALOG, Ground Water On-line, LEXIS/NEXIS, National Library of Medicine (NLM), TOXNET, TOXLINE; the Department of Justice's Justice Retrieval and Inquiry System (JURIS), EPA's Enforcement Document Retrieval System (EDRS), Hazardous Waste Superfund Database (HWSFD), Information Systems Inventory (ISI), and Integrated Risk Information System (IRIS), EPA Online Library System (OLS).

CD ROM Systems: NTIS, TRI.

Publications Currently Available:

- Puget Sound Bibliography
- Wetlands Bibliography
- PC's Bibliography
- Valdez Bibliography
- Periodicals List
- Audio-Visual List
- Recent Additions List
- Hanford Bibliography
- Library Services Brochure
- Online Searching Brochure

Equipment: Two microform reader/printers, portable microfiche reader, microfiche duplicator, CD ROM player, three LAN stations, one MacIntosh, and an Epson.

Bulletin Boards: Alternative Treatment Technology Information Center (ATTIC), Pollution Prevention Information Exchange System, (PIES), Office of Research and Development Electronic Bulletin Board System (ORD BBS), Solid Waste, and FEDLINK.

Audiovisual Materials: The library maintains a collection of over 200 16mm films, videos, and slide/tape shows which circulate to Regional residents at no charge.

**ENVIRONMENTAL RESEARCH LABORATORY
LIBRARY—CORVALLIS (ERL-C)
CORVALLIS, OREGON**

Address: U.S. Environmental Protection Agency
Corvallis Environmental Research Laboratory
Library
200 SW 35th Street
Corvallis, OR 97333

Telephone: (503) 757-4731 or 4740 (CML)
(8) 420-4731 or 4740 (FTS)

Email Box ID: EPA8497
Email Box Name: R.McVeety

Fax: (503) 757-4799 (CML)
(8) 420-4799 (FTS)

OCLC Code: ESB/10B

Librarian: Renie C. McVeety

Staff: Library Technician Carol Robertson
Air Ecology and Acid Rain
Collections Barbara Hagler

Hours: 8:00 a.m. - 4:30 p.m.
Monday - Friday

The Environmental Research Laboratory-Corvallis (ERL-C) Library was established in 1966, when the Pacific Northwest Water Laboratory of the Federal Water Pollution Control Administration was opened. ERL-C is the U.S. Environmental Protection Agency's national research center for:

- Terrestrial and Watershed Ecology
- Ecological Effects of Global Climate Change
- Stratospheric Ozone Depletion
- Atmospheric Pollutants, Including Acid Rain
- Loss of Biological Diversity
- Wetlands
- Ecological Consequences of Genetically Engineered Organisms
- Effects of Chemicals on Wildlife and Terrestrial Resources
- Landscape and Regional Ecology

Laboratory research programs address several broad areas: the ecological effects of airborne pollutants, such as ozone, acid rain, and air toxics; the effects of toxic

chemicals on plants, animals, and ecological systems; the assessment and restoration of contaminated or degraded environments; characterization and assessment of the vulnerability of ecological systems, such as wetlands, to human impacts; the ecological risks from the terrestrial release of bio-engineered organisms and other biological control agents; and the ecological effects of global climate change, stratospheric ozone depletion, and loss of biological diversity.

The mission of the library is to support the information needs of Laboratory scientists and managers. The library collection consists of 4,000 books, more than 150 subscriptions to journals and bulletins, and an extensive file of government documents, including EPA reports and state and federal research reports. A comprehensive reprint collection on acid precipitation and air ecology is maintained in a nearby location.

LIBRARY SERVICES

Acquisitions: Books are purchased at the request of laboratory employees to support ongoing research.

Cataloging: All books and library materials are cataloged into the EPA Online Library System (OLS).

Circulation: Library materials are loaned to EPA staff and on-site contractors. Local university staff also borrow materials. Students and private citizens may use the materials in the library.

Interlibrary Loan (ILL): Books not available in the ERL-C library or through the Oregon State University Library are obtained using a network of interlibrary loan resources, including the computerized facilities of OCLC.

Reference: Ready reference service is available for EPA staff and the general public. The library also networks with other EPA and special libraries extending the resources for reference requirements that go beyond the on-site collection.

Online Systems: DIALOG, National Library of Medicine (NLM), and EPIC databases.

CD ROM Systems: Eight CD ROM databases are available to staff and users including Agricola, Arctic and Antarctic Regions, Fish and Wildlife Worldwide, and Water Resources Abstracts.

Equipment: A public access area includes a Mac IIcx, VAX terminal, and IBM PC XT with CD ROM, slidemaking capabilities, microfilm/fiche printer, and a photocopier. Staff equipment includes two Mac IIcx, an IBM PC XT and two VAX terminals.

Appendices

APPENDIX A

EPA/OCLC LIBRARY CODES

This index is listed by OCLC library code. These codes are useful when identifying the various EPA libraries on the OCLC Network for cataloging or interlibrary loan.

To assist in calling the various EPA locations, time zones have been included. The relationship is:

Eastern	(E)	Noon
Central	(C)	11:00 am.
Mountain	(M)	10:00 am.
Pacific	(P)	9:00 am.

APPENDIX D

SUBJECT INDEX TO COLLECTIONS

All EPA libraries have some information on all of EPA's programs: air, noise, water, solid waste, hazardous waste, toxic substances, pesticides and radiation. Several of the libraries also have collections on major subject areas in their organization or region. Listed below are major subject areas covered by individual libraries:

Acid Rain

Environmental Research Laboratory Library,
Corvallis, OR74

Administration

Environmental Research Laboratory Library,
Corvallis, OR74

Administrative Law

Law Library,
Washington, DC 9

Air Ecology

Environmental Research Laboratory Library,
Corvallis, OR74

Air Pollution—Control

APPENDIX E

DATABASES ACCESSIBLE THROUGH EPA LIBRARIES

Bibliographic Retrieval Service (BRS)

A commercial vendor of databases, provides access to more than 80 databases in science, technology, business economics, humanities, social sciences, and other areas.

Region 1 Library	Boston, MA
Region 5 Library	Chicago, IL
AWBERC Library	Cincinnati, OH
Environmental Research Laboratory Library	Duluth, MN

Chemical Information System (CIS)

A commercially available collection of scientific and regulatory databases. It contains numeric, textual, and some bibliographic information in the areas of toxicology, environment, regulations, spectroscopy, chemical and physical properties, and nucleotide sequences.

Region 1 Library	Boston, MA
Region 3 Information Resource Center	Philadelphia, PA
Headquarters Library	Washington, DC
Office of Toxic Substances Chemical Library	Washington, DC
Environmental Research Laboratory Library	Athens, GA
Region 5 Library	Chicago, IL
AWBERC Library	Cincinnati, OH
Region 7 Library	Kansas City, KS
National Enforcement Investigations Center Library	Denver, CO
Region 9 Library	San Francisco, CA
Region 10 Library	Seattle, WA

Colorado Association of Research Libraries (CARL)

An online bibliographic database which contains the holdings of six major Colorado research libraries.

Region 8 Library	Denver, CO
NEIC Library	Denver, CO

Compliance Data System (CDS)

An EPA management information system that stores, sorts, and reports compliance data for approximately 30,000 stationary sources of air pollution that are subject to air quality regulations.

National Enforcement Investigations Center Library

Denver, CO

Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS)

An EPA database, contains an inventory of potential hazardous waste sites and serves as a vehicle for the EPA Regions to report to Headquarters on the status of major stages of cleanup at sites.

National Enforcement Investigations Center Library

Denver, CO

Consent Decree Tracking System

An EPA National Enforcement Investigations Center-operated and maintained system consisting of a hardcopy library of consent decrees to which EPA is a party, a computerized inventory of that library, and computerized summaries of the contents of decrees by facility. Also available full text on JURIS.

National Enforcement Investigations Center Library

Denver, CO

CQ Washington Alert

Provides detailed information on the status of bills in Congress; text of bills as printed by GPO; legislative reports from the *Congressional Record*; floor and committee schedules up to 3 months in advance including late changes, and agendas.

Headquarters Library

Washington, DC

DIALOG

A commercial vendor of databases, has more than 200 databases available through its system. The type of information varies with the database accessed; database records may be bibliographic citations, abstracts, directory listing, or statistical tables. Some of the DIALOG databases commonly used by EPA libraries are Pollution Abstracts, ENVIROLINE, Chemical Regulations and Guidelines, Social SciSearch, and The National Technical Information Service (NTIS). The majority of libraries in the EPA Library Network access DIALOG.

Dun & Bradstreet

A credit-reporting firm, provides business information reports for privately and publicly owned companies and government activity reports which list Federal contracts, grants, fines, and debarments for specific companies.

Region 1 Library	Boston, MA
Region 4 Library	Atlanta, GA
AWBERC Library	Cincinnati, OH

Enforcement Document Retrieval System (EDRS)

An automated database that contains the full text of enforcement documents (i.e., policy, guidance, consent decrees). Documents are fully indexed; the user searches the database for applicable documents and text by specifying words or phrases of interest.

Law Library	Washington, DC
Region 1 Library	Boston, MA
Region 5 Library	Chicago, IL
National Enforcement Investigations Center Library	Denver, CO
Region 9 Library	San Francisco, CA
Region 10 Library	Seattle, WA

E-Z REF

A database shell developed by the EPA Information Access Branch (IAB) and the Headquarters Library in response to EPA staff requests for an easy way to automate access to small collections of information. E-Z REF may be tailored to individual needs and is designed for convenient access to books, reports, journal articles, and other files of reference information.

Facility Index System (FINDS)

An EPA database, it provides descriptive information on facilities/establishments which are of interest to EPA programs, with a cross reference to EPA programmatic information systems which have information on these facilities/establishments.

National Enforcement Investigations Center Library	Denver, CO
--	------------

Ground Water On-line

A bibliographic database, it contains references on the occurrence and utilization of surface and ground water, and on water well technology. Indexed titles include trade and technical journals and newsletters, books, and government documents. Because EPA established the Center, there is special emphasis in the database on EPA-sponsored reports.

Region 1 Library	Boston, MA
Region 2 Field Office Library	Edison, NJ
Region 3 Information Resource Center	Philadelphia, PA
Environmental Research Laboratory Library	Gulf Breeze, FL
Region 4 Library	Atlanta, GA
AWBERC Library	Cincinnati, OH
Region 6 Library	Dallas, TX
Region 8 Library	Denver, CO
National Enforcement Investigations Center Library	Denver, CO
Region 9 Library	San Francisco, CA
Region 10 Library	Seattle, WA

Hazardous Waste Superfund Database (HWSFD)

An EPA system, contains references to key materials on hazardous waste in the EPA library network. Bibliographic descriptions, keywords, abstracts, locations and other information are listed for books, EPA reports, Office of Solid Waste and Emergency Response (OSWER) policy and guidance directives, periodicals and commercial databases containing information on hazardous waste. All libraries in the EPA Library Network have access to the Hazardous Waste Superfund Database. Hard copies of the documents are available in the Headquarters and Regional libraries, the National Enforcement Investigations Center, Denver, CO, and the laboratory libraries in Cincinnati, OH; Edison, NJ; Research Triangle Park, NC; Ada, OK; and Las Vegas, NV. A list of the documents is available at all other laboratory libraries.

Information Systems Inventory (ISI)

An EPA database listing some 500 EPA information systems and environmental models. The database includes a description of each environmental system/model and can be accessed several ways, including by system name, acronym, associated Congressional act or law, keywords and responsible personnel. Available to all libraries in the EPA Library Network.

Integrated Risk Information System (IRIS)

An E-mail based system containing EPA data on a chemical by chemical basis. Data include, when available, oral reference doses, carcinogenicity assessments, acute health hazard data, and risk management summaries. Available to all EPA libraries in the EPA Library Network.

JURIS (Justice Retrieval and Inquiry System)

A computerized full-text legal information retrieval system designed and maintained by the Department of Justice (DOJ) for use by the federal legal community. The database contains federal and state case materials; federal statutes and regulatory materials; administrative decisions; Presidential documents; treaties; DOJ briefs; Shepard's Citations; and special litigation support files.

Region 1 Library	Boston, MA
Law Library	Washington, DC
Region 5 Library	Chicago, IL
Region 10 Library	Seattle, WA

LEGI-SLATE

An online service that contains synopses of every bill and resolution introduced in Congress since the beginning of the 96th Congress in 1979. It contains committee and subcommittee actions, House and Senate floor actions, and all votes taken. Also covers all announcements in the *Federal Register* including Presidential documents, rules and regulations, proposed rules, and notices of proposed rule making.

Legislative Reference Library	Washington, DC
-------------------------------	----------------

LEXIS is the largest full-text legal database in existence, containing federal and state cases, administrative decisions, U.S. Code, CFR, selected state statutes, law reviews, ABA materials, and separate libraries dealing with federal issues: Admiralty; Banking; Bankruptcy; Energy; Environment; Federal Communications; Federal Securities; Federal Tax; International Trade; Labor; Patent, Trademark and Copyright; Public Contracts; and Trade Regulation. Auto-Cite and Shepard's Citations are also available.

NEXIS is a full-text database that contains general and business news. NEXIS sources include magazines, newspapers, wire services, newsletters, and government documents.

Region 1 Library	Boston, MA
Region 3 Information Resource Center	Philadelphia, PA
Headquarters Library	Washington, DC
Law Library	Washington, DC
Office of Toxic Substances Chemical Library	Washington, DC
Region 4 Library	Atlanta, GA
Region 5 Library	Chicago, IL
Region 7 Library	Kansas City, KS
AWBERC Library	Cincinnati, OH
NEIC Library	Denver, CO
Region 10 Library	Seattle, WA

National Library of Medicine (NLM)

Consists of bibliographic citations on biomedical literature, including health care services and administrative, clinical, and policy topics. Special files on population, cancer, and toxic substances are also available on the NLM database. The NLM is the basis for virtually all medical information.

TOXLINE, a product of the National Library of Medicine, contains citations and abstracts to the worldwide literature in all areas of toxicology, including chemicals and pharmaceuticals, pesticides, environmental pollutants, and mutagens.

TOXNET is a computerized system of toxicologically oriented data banks operated by the National Library of Medicine.

Region 1 Library	Boston, MA
Region 3 Information Resource Center	Philadelphia, PA
Headquarters Library	Washington, DC
Office of Toxic Substances Chemical Library	Washington, DC

Region 9 Library
Region 10 Library
Environmental Research Laboratory Library

San Francisco, CA
Seattle, WA
Corvallis, OR

National Pesticide Information Retrieval System (NPIRS)

Developed by Purdue University, contains information that describes the key characteristics of pesticides, including approximately 50,000 products registered by EPA, as well as State registrations.

Region 4 Library

Atlanta, GA

NewsNet

A full-text database of newsletters, press releases, and wire services. Subject areas in NewsNet include the environment, chemicals, government and regulation, public relations, farming and food, research and development, and electronics and computers.

Headquarters Library

Washington, DC

OCLC (Online Computer Library Center)

Supports resource sharing among more than 2,700 member libraries. Participants use the OCLC Cataloging module to catalog books, serials, and various other library materials and the Interlibrary Loan module to facilitate interlibrary lending. All 28 EPA libraries have access to OCLC.

Online Library System (OLS)

The holdings of the EPA library network are listed in the network's Online Library System (OLS), an electronic card catalog. It improves access to the wealth of information available from the 28 libraries at Headquarters, the Regional Offices and laboratories. The system may be searched using numerous access points in addition to title, author, and keyword. The OLS lists all EPA reports in the network holdings and those available from the U.S. National Technical Information Service (NTIS). Descriptive summaries are available for selected EPA reports and other titles.

ORBIT

An online service which provides access to more than 70 databases in science, technology, business, economics, humanities, social sciences, and other areas.

Region 5 Library

Chicago, IL

Permit Compliance System (PCS)

An EPA management information system for tracking permit, compliance, and enforcement status for the National Pollutant Discharge Elimination System program under the Clean Water Act.

National Enforcement Investigations Center Library

Denver, CO

Records of Decision System (RODS)

A database that contains the records of decisions at hazardous waste sites. The system can be used to reference previous treatments chosen at sites to determine treatment at current sites.

Region 1 Library

Boston, MA

Region 3 Information Resource Center

Philadelphia, PA

Region 4 Library

Atlanta, GA

Region 5 Library

Chicago, IL

National Enforcement Investigations Center Library

Denver, CO

Region 7 Library

Kansas City, KS

Region 9 Library

San Francisco, CA

Scientific and Technical Information Network (STN)

STN is a scientific and technical online information network. The databases included in STN include bibliographic, full text, and numeric files. A variety of subjects are covered including chemistry, biology, energy, engineering, patents, construction materials, textiles, math, physics, petroleum, biotechnology, and metallurgy. Sponsored and offered jointly by the Chemical Abstract Service (CAS).

CA Online, a product of STN, contains records for the documents covered since 1967 in the printed version of Chemical Abstracts. Journals, patents, technical reports, books, conference proceedings, and dissertations from all areas of chemistry and chemical engineering are abstracted and the file is updated biweekly.

AWBERC Library

Cincinnati, OH

Office of Toxic Substances Chemical Library

Washington, DC

National Enforcement Investigations Center Library

Denver, CO

Region 1 Library

Boston, MA

StarText (Fort Worth Star Telegram Newspaper)

Region 6 Library

Dallas, TX

Toxic Release Inventory (TRI)

This database contains estimated releases of toxic chemicals to the environment based upon data collected by the EPA. TRI is available to all EPA libraries. For detailed information on the information in TRI, the Office of Toxic Substances Library, Washington, DC can provide assistance.

TOXLINE (see National Library of Medicine)

TOXNET (see National Library of Medicine)

WESTLAW

A full-text database containing statutory and case law, citator services, administrative materials, and legal literature indexes.

National Enforcement Investigations Center Library

Denver, CO
