

# Monthly Awards for Construction Grants for Wastewater Treatment Works

March 1979

**DISCRIMINATION PROHIBITED**

Federal law prohibits discrimination  
on the basis of race, color, religion, sex,  
age, or national origin, in all programs and  
activities receiving assistance from the  
Environmental Protection Agency.

The information contained in this publication has been extracted from EPA's Grants Information and Control System (GICS). New and continuation awards for wastewater treatment facilities construction under Public Law 92-500 are listed in this publication on a monthly basis. This publication provides the essential information on all awards made during the month listed on its cover. To minimize errors in this listing, the awards record is closed on the last day of each month. Over the next fifteen days the records are verified with the Regional Offices of the Environmental Protection Agency and the publishing format is prepared. The material is then sent to the National Technical Information Service for publishing and distribution.

A cumulative listing (tape) of awards for construction grants for wastewater treatment works, PL 92-500 is available on computer tape quarterly. This tape contains data on all of the U. S. Environmental Protection Agency's PL 92-500 WWT construction grant projects awarded since February 1973. Each record contains applicant name and geographic data, a general description of the project, and EPA funding data (for both the original EPA funds awarded to the project and the cumulative EPA funding).

The tapes are available either as a standing order subscription from the National Technical Information Service (NTIS) for \$425 per year, or single tapes may be purchased for \$175 each. NTIS order number is to be assigned.

Questions regarding the data reported in this publication should be addressed to:
