

Monthly Awards for Construction Grants for Wastewater Treatment Works

May 1979

DISCRIMINATION PROHIBITED

**Federal law prohibits discrimination
on the basis of race, color, religion, sex,
age, or national origin, in all programs and
activities receiving assistance from the
Environmental Protection Agency.**

The information contained in this publication has been extracted from EPA's Grants Information and Control System (GICS). New and continuation awards for wastewater treatment facilities construction under Public Law 92-500 are listed in this publication on a monthly basis. This publication provides the essential information on all awards made during the month listed on its cover. To minimize errors in this listing, the awards record is closed on the last day of each month. Over the next fifteen days the records are verified with the Regional Offices of the Environmental Protection Agency and the publishing format is prepared. The material is then sent to the National Technical Information Service for publishing and distribution.

A cumulative listing (tape) of awards for construction grants for wastewater treatment works, PL 92-500 is available on computer tape quarterly. This tape contains data on all of the U. S. Environmental Protection Agency's PL 92-500 WWT construction grant projects awarded since February 1973. Each record contains applicant name and geographic data, a general description of the project, and EPA funding data (for both the original EPA funds awarded to the project and the cumulative EPA funding).

The tapes are available either as a standing order subscription from the National Technical Information Service (NTIS) for \$425 per year, or single tapes may be purchased for \$175 each. NTIS order number is to be assigned.

Questions regarding the data reported in this publication should be addressed to:

Chief, Grants Information Systems and Reports Branch
Grants Administration Division (PM-216)
U. S. Environmental Protection Agency
Washington, DC 20460
(202) 755-0330

Further information about a project should be addressed to the appropriate EPA Regional Office. These offices are listed beginning on page 3.

Any general comments regarding the content of the publication should be forwarded to:

Director
Grants Administration Division (PM-216)
U. S. Environmental Protection Agency
Washington, DC 20460

All inquiries on the purchasing or the distribution of this publication should be directed to:

Subscriptions
National Technical Information Service
U. S. Department of Commerce
Springfield, VA 22161
(703) 557-4650

A copy of this publication is available for examination at the following address immediately upon distribution:

Library
U. S. Environmental Protection Agency
4th and M Streets, SW
Washington, DC 20460

With a minimum delay, copies are provided to each Regional Grants Office and each EPA library in order to allow the public the opportunity to examine this material.

GRANT TYPE**Definition:**

Each new wastewater treatment construction project within a grant awarded under PL 92-500 is considered a new project.

Each subsequent related wastewater treatment construction project within a grant awarded under PL 92-500 is considered a continuation project.

CENSUS POPULATION**Definition:**

Identifies the population grouping of the municipality (city, county, or other political jurisdiction) applying for a wastewater treatment construction grant. (In those states where grant applications may be originated in one central state office, the population data for the jurisdiction where the project is actually located is shown).

ELIGIBLE COST**Definition:**

The total project cost which qualifies as being eligible under Federal regulations used in determining the Federal share.

AWARD AMOUNT**Definition:**

The actual amount of EPA dollars awarded to the applicant.

APPLICANT STATE ABBREVIATION**Definition:**

The FIPS/U. S. Postal Service abbreviation for the name of the state in which the headquarters of the applicant is located.

AL - Alabama	NE - Nebraska
AK - Alaska	NV - Nevada
AR - Arkansas	NH - New Hampshire
AZ - Arizona	NJ - New Jersey
CA - California	NY - New York
CO - Colorado	NC - North Carolina
CT - Connecticut	ND - North Dakota
DE - Delaware	OH - Ohio
DC - District of Columbia	OK - Oklahoma
FL - Florida	OR - Oregon
GA - Georgia	PA - Pennsylvania
GU - Guam	PR - Puerto Rico
HI - Hawaii	RI - Rhode Island
ID - Idaho	SC - South Carolina
IL - Illinois	SD - South Dakota
IN - Indiana	TN - Tennessee
IA - Iowa	TX - Texas
KS - Kansas	UT - Utah
KY - Kentucky	VT - Vermont
LA - Louisiana	VA - Virginia
ME - Maine	VI - Virgin Islands
MD - Maryland	WA - Washington
MA - Massachusetts	WV - West Virginia
MI - Michigan	WI - Wisconsin
MN - Minnesota	WY - Wyoming
MS - Mississippi	SA - American Samoa
MO - Missouri	PI - Pacific Islands (Caroline, Mariana, and Marshall Islands)

LEGEND

- C. D.** - Congressional District
- CENS POP** - Census Population Grouping of the Community
- Eligible Cost** - The cost for the project shown only. Not the combined cost for all planning, engineering and construction of the facility (all steps).
- Grant Number** - First two digits identify the state, the next four digits identify the need and/or grant objective; following the first dash is the project sequence; following the second dash is the amendment designator which identifies the number of administrative augmentations or revisions executed on a given funded project.
- ORIG FUND AWD** - The funds awarded for this project only. Is 75 percent of the eligible cost except for "innovative" projects.
- State** - State codes are listed on Page 6.
- Step** - The planning and construction of a Federally financed waste treatment works is generally accomplished in three steps:
- Step One - Facilities plans and related elements.
- Step Two - Preparation of construction drawings and specifications.
- Step Three - Fabrication and building of the treatment works.
- Step Four - Steps two and three may be funded concurrently in a combined award under certain circumstances.

TYPE OF CONSTRUCTION

Definition:

Identifies whether the planned project action is to construct a new wastewater treatment system or to modify an already existing system, and the impact of a modification upon the capacity and treatment level of such an existing system.

PLANT TREATMENT PROCESS

Definition:

Identifies the last process in the treatment chain to be used in a new wastewater treatment plant or in the modification of the treatment process at an already existing plant. (This field will be blank if the treatment process at an already existing plant will not be changed as a result of this grant).

THESE PROCESSES ARE:

- Activated Sludge Treatment
- Trickling Filters
- Application of Liquid Treatment Effluents to Land
- Lagoons or Ponds
- Physical-Chemical Processes
- Other Processes

SLUDGE DISPOSAL TECHNIQUES

Definition:

Identifies the principal sludge disposal technique to be used at a new wastewater treatment plant or in the modification of the sludge disposal techniques at an already existing plant. (If more than one technique is to be used, the technique by which the largest percentage of sludge will be handled is shown).

WASTEWATER TREATMENT PLANNED WORKS

Definition:

A series of codes identifying any major wastewater treatment works to be constructed as part of the construction project.

Outfall	Outfall Sewer
Intercept	Interceptor Sewer
Collect	Collector Sewer
Force	Force Main
Pump	Pumping Station
Infilt	Sewer Infiltration Corrections
Sewers	Separation of Combined Storm/Sanitary Sewers
Plant	Treatment Plant
Other	Other Works

For each works included in the project, an "X" or the number of such works is reported.

PLANT TREATMENT LEVEL

Definition:

Identifies the level of treatment of wastewater to be attained at the completion of a wastewater treatment construction grant project when such project will result in a change from the current level of treatment. (This field will be left blank if the treatment level at an already existing plant will not be changed as a result of this grant).

THESE LEVELS ARE:

Secondary treatment, as defined in Title 40, Chapter 1, subchapter D, Part 133, Secondary Treatment Information (Federal Register, August 17, 1973).

Best practical treatment suitable for the proposed project, where the treatment approved by EPA will be at the secondary level.

Best practical treatment suitable for the proposed project, where the treatment process used will result in a level higher than secondary. This can include biological or physical-chemical treatment with discharge to receiving waters, treatment and reuse, land application techniques and land utilization practices, or any other type of tertiary treatment or advanced waste treatment (AWT).

CONSULTANT

Definition:

The engineering consulting firm employed by the municipality for this project.
