INTRODUCTION

In 1971, Executive Order 11625 "...prescribed additional arrangements for developing and coordinating a national program for minority business enterprise." As a result, the Environmental Protection Agency established a Minority Business Enterprise (MBE) Program. Its purpose was to take steps to ensure that the procurement of goods and services by EPA afforded the opportunity to minority businesses to also bid and be involved in this process. Because of the size and scope of EPA's Construction Grants Program, this is an area that lends itself well to the participation by members of the minority community.

On December 26, 1978, EPA published the Policy for Increased Use of Minority Consultants and Construction Contractors in the Federal Register. This consolidated the policies and procedures for Architects and Engineers (A&E) published as 42 FR 10709 (February 23, 1977) and the proposed policies and procedures for construction contractors published as 43 FR 24908 (June 8, 1978). The current policy puts forth a goal-oriented system as a condition on all EPA-assisted grants for design and construction of wastewater treatment works.

On August 1, 1980, EPA published a Program Requirements Memorandum (PRM) in the Federal Register establishing a Women's Business Enterprise (WBE) policy for the Environmental Protection Agency's Construction Grants Program. The purpose of this policy is to increase participation of women-owned businesses in the construction of wastewater treatment works funded by EPA. This policy is scheduled to become effective June 1, 1981.

On August 7, 1980, EPA, Region 10, published its regional goals for the utilization of minority consultants and construction contractors in the four states of Region 10: Alaska, Idaho, Oregon and Washington. This action implements EPA's Policy for Increased Use of Minority Consultants and Construction Contractors as published in the Federal Register on December 26, 1978, and is based on the comments and testimony received at the public hearings held in each of the four states.

On January 19, 1981, EPA issued its proposed revisions to the Policy for Increased Use of Minority Consultants and Construction Contractors which was originally published on December 26, 1978, technical amendments to the Women's Business Enterprise (WBE) Policy which was originally published on August 1, 1980, and EPA's proposed procedures for implementing both MBE and WBE policies. The revisions of the MBE policy, however, are primarily clarifications of the existing policy. It remains EPA's policy to encourage increased participation of MBE's and, effective June 1, 1981, women owned businesses (WBE's).

To assist grantees, consultants and contractors meet the Regional MBE participation core goal of 13 to 15 percent (8% to 15% MBE participation for small sized projects under \$300,000 which are located in rural areas and 13% to 20% MBE participation for large projects over \$2,000,000 which are located in large urban areas) and the National WBE participation goal of 2 percent in all phases of the projects, the Office of Civil Rights has prepared a directory of minority and women owned businesses. Each firm listed in the directory has provided the necessary documentation as to ethnic or gender identity, proof of ownership and a description of the actual day-to-day management responsibilities of the minority or women's interest. If EPA finds as a result of a past contract review that any of the above information is not correct, EPA will take appropriate enforcement action against those firms for falsification of the documentation.

The Roster is not meant to be exhaustive, but only a list of those firms that have requested inclusion in the Roster. Also attached is a list of definitions which apply to both the MBE and WBE Programs. Other definitions and further explanations can be found in 40 CFR 30.135, 35.905, and 35.936 respectively.

DEFINITIONS

MINORITY BUSINESS ENTERPRISE is an independent business concern which is at least 51% owned and controlled by minority group members; is or has the potential to be an independent and continuing enterprise; and meets the following requirements:

1. The minority ownership interest must be real, substantial and continuing, and
2. A minority owner must have and exercise the authority to independently control the business decisions of the firm, and
3. The firm must perform a useful business function according to custom and practice in the industry.

WOMEN'S BUSINESS ENTERPRISE is a business which is at least 51 percent owned by a woman or women who also control and operate it.

1. Ownership determination of 51 percent shall be made without regard to community property laws, and
2. A woman owner must have and exercise the authority to independently make the policy decisions of the firm, and
3. A woman owner must operate the firm and be actively involved in the day-to-day management of the firm.

MINORITY GROUP MEMBER is an individual who is a citizen or permanent resident alien (as defined by the Immigration and Naturalization Service) of the United States, and is at least one of the following: American Indian or Alaskan Native, Asian or Pacific Islander, Black, or Hispanic.

AMERICAN INDIAN OR ALASKAN NATIVE is a person having origins in any of the original groups of North America including the Aleutian Islands, or who maintains cultural identification through tribal affiliation or community recognition, or who demonstrates at least one quarter descent from such groups.

ASIAN OR PACIFIC ISLANDER is a person having origins in any of the original groups of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. For example, this area includes China, India, Japan, Korea, the Phillippine Islands and American Samoa.

BLACK is a person having origins in any of the black groups of Africa:

HISPANIC is a person of Spanish culture with origins from Mexico, Puerto Rico, Cuba, Central America, South America or Spain

AFFIRMATIVE STEPS As used in this policy and implementing procedures refer to those activities to be taken by the grantee to assure MBE participation in the EPA construction grants program.

GOOD FAITH POSITIVE EFFORTS as used in this policy and implementing procedures refer to those activities to be taken by bidders/offerors and contractors during bid and proposed preparation to assure MBE participation in the EPA construction grants program.

CONTROL means exercising the power to make policy decisions.

OPERATE means being actively involved in day to day management.
