

The National Radon Contractor Proficiency (RCP) Program

Proficiency Report Supplement

EPA 520/1-90-033

**National Radon Contractor
Proficiency Program**

Proficiency Report: Supplement

Radon Division (ANR-464)
Office of Radiation Programs
U.S. Environmental Protection Agency
Washington, DC 20460

Prepared by:
ICF Incorporated
9300 Lee Highway
Fairfax, VA 22031

Under the Direction of:
G. Lee Salmon
Program Manager
National RCP Program

For use only by States and EPA Regional Offices

October 1990

Preface

This report, a supplement to the RCP Proficiency Report, will further assist governmental officials in providing advice to the public on the selection of proficient radon mitigation contractors. These reports list 1,020 contractors who have met the requirements of the RCP Program as of August 18, 1990. The Proficiency Report provides information on each contractor's name, RCP identification number, company name, address, phone number, and geographic service area.

This report provides two additional tables, indexed by company name and by RCP identification number. This report is intended to help users quickly identify a proficient contractor if only the company name is known, or to verify which contractor is associated with a particular ID number.

Table of Contents

	Page
Preface	iii
Table of Contents	v
1. How To Use The Tables	1
Table S-1. RCP Program Proficiency Report by Company Name	3
Table S-2. RCP Program Proficiency Report by Identification Number	55
Table S-3. Newly Listed Contractors from May 20, 1990 - August 18, 1990	107

1. HOW TO USE THE TABLES

This report lists proficient radon mitigation contractors in two tables. Table S-1 is an alphabetical list of all companies who have one or more proficient contractors, and includes the name of the proficient individual contractor(s), ID number(s), company name, company address, telephone number, and geographic service area. Table S-2 is a list of all proficient contractors, indexed by ID number, and includes the name of the contractor, company name, company address, telephone number, and geographic service area. Table S-3 is newly listed contractors from May 20, 1990 - August 18, 1990. These tables can be used as supplements to the three listings provided in the main Proficiency Report and can be used to more quickly identify proficient mitigation contractors if only a company name or RCP identification number is known.

Note that the RCP Program measures the proficiency of an individual contractor, not the company. Therefore, users of these lists should select a mitigation firm and ensure that the services are provided by the listed contractor.

Table S-1. RCP Program Proficiency Report by Company Name

Proficiency listing expires July 1991
