AVAILABLE INFORMATION MATERIALS

on Solid Waste Management

Total listing, 1966 to 1979

This catalog (SW-203), listing all reports published by the Office of Solid Waste from January 1966 through March 1979, was prepared under contract and is reproduced as received from the contractor.

U.S. Environmental Protection Agency, 1979

U.S. Environmental Protection Agency

An environmental protection publication (SW-203) in the solid waste management series

Foreword

Collecting and making available information pertaining to solid-waste-related research, demonstration projects, and other activities was originally authorized by section 204(b) of the 1965 Solid Waste Disposal Act, Public Law 89-272. The collection and dissemination of solid waste information was more recently mandated by the Resource Conservation and Recovery Act of 1976 (Public Law 94-580), section 8003, which amends the Solid Waste Disposal Act. The following comprehensive catalog lists publications and other educational materials on solid waste that have been published or collected by the U.S. Environmental Protection Agency in response to these directives. The subject index reflects the entire scope of the work undertaken by EPA's solid waste program from 1966 to the present and is intended for researchers.

Introduction

Information Materials Available from EPA on Solid Waste Management

The solid waste management information materials from the U.S. Environmental Protection Agency are from various sources. Most of these publications and other materials result from research, development, and demonstrations authorized by the Solid Waste Disposal Act of 1965, as amended by the Resource Conservation and Recovery Act of 1976. Reports from grantees and contractors are published by EPA as soon as available. Presentations and policy statements by key personnel and results of technical investigations conducted by EPA staff are printed by EPA or submitted to professional journals, so that the reports will reach the most appropriate audience. Reprints of such technical reports often are purchased and distributed by EPA. Conference proceedings, findings of various commissions and study groups, and other collateral literature are also made available as supplies permit.

These materials from EPA are listed in three major sections of this catalog, and are covered in indexes by subject, author and title.

The section titled EPA's Solid Waste Publications lists documents available from EPA, from various library systems, or from the Superintendent of Documents.

The section titled EPA's Office of Research and Development Reports primarily lists journal articles reporting the research generated by the Solid and Hazardous Waste Research Division of EPA's Municipal Environmental Research Laboratory, 26 West Saint Clair Street, Cincinnati, Ohio 45268.

The section NTIS Reports lists over 630 publications on grant and contract activities relating to solid waste management that are avialable for purchase from the Department of Commerce, National

Technical Information Service (NTIS). These reports are issued through NTIS to make the data most readily available to the technical community.

A general overview is provided in the opening section, titled Guidelines, Regulations and Basic Information. The section Teaching Materials has lists of curriculum materials for junior and senior high schools, films, and technical training programs.

For the convenience of persons requesting out-of-print publications through organized libraries on interlibrary loan, U.S. Government Depository Libraries are listed near the back of this catalog.

Order forms for NTIS and EPA-issued materials are in the back of this volume.

In gathering and publishing the information materials on solid waste management, EPA hopes to assist those engaged in the task of finding ways to manage the Nation's solid wastes safely and efficiently while also contributing to efforts to conserve our natural resources.

Guidelines, Regulations, and Basic Information

Related to the Resource Conservation and Recovery Act of 1976

The following materials have been selected from this catalog to provide an orientation to some of the issues related to the national effort to improve solid waste management: resource/energy conservation, solid waste systems management and land protection, and hazardous wastes management. To order, see form for EPA solid waste publications in the back of this catalog. There is no charge for single copies of EPA publications.

motion pictures:

The big pickup. Environmental Protection Publication SW-100c. Describes America's $5-billion-a-year chore—collecting solid waste. Shows the garbage collector's problems and illustrates new techniques that can improve efficiency and effectiveness. (28 min, 16-mm, sound, color, 1975.) See films section for cost and availability information.

Reuse, recycle, renew. Focuses on solid waste management in New Mexico, concentrating on waste disposal methods and resource recovery from municipal, animal, and mining wastes. (18 min, 16 mm, sound, color, 1975.) See films section for cost and availability information.

technical training programs:

Operation responsible; safe refuse collection. 1972. A 3-part training package instructing refuse collectors in safe methods of collection, as they suffer 10 to 15 times as many injuries as the average worker. Directed to the solid waste collection industry, both public and private. Two programs: a one-day session to train supervisors and materials for supervisors to train collectors. See films section for cost and availability information.

Sanitary landfill — you're the operator. 1973. A 3-part training package illustrating the careful planning and precise techniques to achieve maximum standards and demonstrates that a sanitary landfill can be a good neighbor and a community asset. Two programs: one for instructors; one for trainees. See films section for cost and availability information.

motion pictures:

The village green. Environmental Protection Publication SW-8tg. Documents a successful and self-sustaining recycling center in New York City sponsored by the Environmental Action Coalition. (15 min, 16-mm, sound, color, 1974. Cleared for TV.) See films section for cost and availability information.

Resource recovery is . . . Describes major approaches and processes in resource recovery. Aimed at general audiences, it is a status report; it tells what recovery is and how it works, and examines the outlook for the conservation of natural resources through the widespread application of resource recovery. Produced by the National Center for Resource Recovery. (20 min, 16 mm, sound, color, 1977. Cleared for TV.) See films section for cost and availability information.

Reuse, recycle, renew. Focuses on solid waste management in New Mexico, concentrating on waste disposal methods and resource recovery from municipal, animal, and mining wastes. (18 min, 16 mm, sound, color, 1975.) See films section for cost and availability information.

b. Films

The films listed below are available from one or more of the following sources:

(MTP) Modern Talking Picture Service, 2323 New Hyde Park Road, New Hyde Park, New York 11042. Allow 4 weeks for scheduling. Available by free loan.

(NAC) National Audiovisual Center, Government Services Administration, Attention: Order Section/RR, Washington, D.C. 20409. Allow 4 weeks for scheduling. Available by rental or sale.

(NCRR) National Center for Resource Recovery, Incorporated, 1211 Connecticut Avenue, N.W., Washington, D.C. 20036.

(RHR) RHR Filmedia, Inc., 1212 Avenue of the Americas, New York 10036. Allow 6 weeks for scheduling. Available by free loan.

(SWI) Solid Waste Information, U.S. Environmental Protection Agency, Cincinnati, Ohio 45268. Allow 4 weeks for scheduling. Available by free loan.

The big pickup. Environmental Protection Publication SW-100c. Describes America's $5-billion-a-year chore — collecting solid waste. Shows the garbage collector's problems and illustrates new techniques that can improve efficiency and effectiveness. (28 min, 16-mm, sound, color, 1975.) NAC sale $162.50; RHR; SWI.

A day at the dump.* How open dumping and burning came to an end at the Kenilworth dump in Washington, D.C., and how the former cinder patch is becoming a garden spot. [15 min, 16-mm, sound, color, 1968.] SWI.

The green box. The residents of Chilton County, Alabama, switched from rat-infested open dumps to a trash collection system utilizing green containers that were emptied every second day. Portrays an approach specifically tailored for rural areas. (17 min, 16-mm, sound, color, 1970. Cleared for TV.) RHR; SWI.

Hazardous wastes, the gross national by-product. Environmental Protection Publication SW-502. Depicts damage from improper hazardous waste disposal on the land. Identifies sources of the waste, gives quantities and types of waste being generated, and explains the effect of exposure to hazardous materials. Available methods of management of hazardous wastes are described, as well as the status of hazardous waste programs. (18 min, 35-mm slide show, sound, color, 1976.) Script included. NAC sale $17.25.

In the bag.* Describes the advantages of the brown paper sack in refuse storage, collection, and disposal. Shows that the brown bag is versatile and easily handled by householders, collectors, and landfill or incinerator operators. [19 min, 16-mm, sound, color, 1969. Cleared for TV.] SWI.

An investment to protect. Generates an awareness of the environmental and economic dividends of efficient operation and management at waste treatment plants. Highlights career rewards of laboratory technicians, operators, and managers. (13 min, 16 mm, sound, color, 1977.) NAC sale $75.50.

Mission 5000. Describes the efforts of individual citizens and citizen groups to eliminate 5,000 of the nation's open dumps. (20 min, 35 mm, sound, color, 1973.) NAC sale $19.50.

Mount Trashmore.* A novel approach to the solid waste disposal problem. Virginia Beach decided to combine its trash with that from neighboring communities — and to build a large sanitary landfill on

*Of historic interest.

top of the ground. When finished, Mt. Trashmore will become a full-scale municipal recreation area providing boating, swimming, fishing, a 10,000-seat amphitheater, and even an official soapbox-derby coasting ramp. [4 min, 16-mm, TV news features, sound, color, 1974.] NAC sale $23.25; SWI.

Operation responsible; safe refuse collection, 1972. A 3-part training package instructing refuse collectors in safe methods of collection, as they suffer 10 to 15 times as many injuries as the average worker. Directed to the solid waste collection industry, both public and private. Two programs: one-day session to train supervisors; and, materials for supervisors to train collectors. NAC package sale $154.50.

Operation responsible; safe refuse collection. 16-mm motion picture (20 min, sound, color) NAC rental $12.50, sale $116; SWI.

Operation responsible, safe refuse collection. Instructor's course. A 30-page instruction manual included. (24 2 by 2 slides, color) NAC sale $12.50.

Operation responsible; safe refuse collection. Training course. A 144-page instruction manual included. (241 2 by 2 slides, color.) NAC sale $38.50.

The phoenix.* Explores the materials use cycle and its role in solid waste. Traces the collection, transportation, and disposal of waste in Kansas, and analyzes attempts to recover materials and energy from the solid waste stream. (22 min, 16-mm film, sound, color, 1975.) NAC rental $12.50, sale $127.50.

Portrait of the san-man. Environmental Protection Publication SW-6tgl. Actual interviews with the men who collect New York City's tons of garbage every day. (16 min, 16-mm, sound, 1975. Cleared for TV.) NAC sale $49.50; SWI.

The realities of recycling.* Environmental Protection Publication SW-98c.3. Examines technology of recycling glass, aluminum, and steel containers; paper; and old car hulks. (39 min, 16-mm, sound, color, 1971. Cleared for TV.) NAC rental $15, sale $226.25; SWI.

Recycling.* Environmental Protection Publication SW-98c.4. Shows some emerging techniques on reuse, recovery, and recycling of resources — how materials now ending up as municipal solid waste may be used to extend the supply of natural resources. (21 min, 16-mm, sound, color, 1971. Cleared for TV.) NAC rental $12.50, sale $127.50; SWI.

Resource recovery is . . . Describes major approaches and processes in resource recovery. Aimed at general audiences, it is a status report; it tells what resource recovery is and how it works, and examines the outlook for the conservation of natural resources through the widespread application of resource recovery. Produced by the National Center for Resource Recovery. (20 min, 16-mm, sound, color, 1977. Cleared for TV.) MTP; NCRR sale $100.

Reuse, recycle, renew. Focuses on solid waste management in New Mexico, concentrating on waste disposal methods and resource recovery from municipal, animal, and mining wastes. (18 min, 16 mm, sound, color, 1975.) See films section for cost and availability information.

Sanitary landfill; one part earth to four parts refuse. Environmental Protection Publication SW-99c. Describes the well-planned landfill — from site selection to use of the completed fill. Designed with technical audiences in mind; includes consideration of equipment types, climate, operating procedures, and topographical and soil conditions. Concerns landfills with a capacity of at least 200 tons per day but allows for application of information to smaller facilities. (24 min, 16-mm, sound, color, 1969. Cleared for TV.) NAC sale $139.25; RHR; SWI.

Sanitary landfill — you're the operator. 1973. A 3-part training package illustrating the careful planning and precise techniques to achieve maximum standards and demonstrates that a sanitary landfill can be a

*Of historic interest.

good neighbor and a community asset. Two programs: one for instructors; one for trainees. NAC package sale $165; SWI.

Sanitary landfill — you're the operator. Through the device of an interview with a visiting newsman, a sanitary landfill foreman gives you an inside look at his job. Interesting to citizen groups and those concerned with improving conditions in the sanitation industry. NAC rental $12.50, sale $127.50; SWI.

Sanitary landfill — you're the operator. Instructor's package. Shows professional operating techniques and practices: workshops, case studies, etc. A 203-page manual is included, entitled: "Training sanitary landfill employees: instructor's manual." (206 2 by 2 slides, color.) NAC sale $38.25; SWI.

Sanitary landfill — you're the operator. Trainee's package. Discusses safety, letter control, public relations, equipment care and maintenance, etc. A 233-page manual is included, entitled: "Training sanitary landfill employees: trainee's manual." (10 2 by 2 slides, color). NAC sale $12.50; SWI.

The stuff we throw away.* Environmental Protection Publication SW-98c.2. Describes the enormous burdens that communities face in collecting and disposing of solid wastes. Covers in less detail the information included in "What's new in solid waste management." (23 min, 16-mm, sound, color, 1970. Cleared for TV.) NAC rental $12.50, sale $133.50; SWI.

The third pollution.* Describes 1966 solid waste disposal and the attendant problems of air and water pollution. Helped call attention to the waste problem in the early days of the environmental movement. (23 min, 16-mm, sound, color, 1966.) SWI.

The village green. Environmental Protection Publication SW-8tg. Documents a successful and self-sustaining recycling center in New York City sponsored by the Environmental Action Coalition. (15 min, 16-mm, sound, color, 1974. Cleared for TV.) RHR; SWI.

Waste away.* Describes the development and implementation of a comprehensive plan for solid waste management. (22 min, 16 mm, sound, color, 1969.) NAC sale $127.50.

What's new in solid waste management?* Environmental Protection Publication SW-98c.1. A look at solid waste management 5 years after initiation of the Federal research and demonstration program. Describes new techniques available for controlling and processing solid waste — equipment, management techniques, alternative systems, etc. (37 min, 16-mm, sound, color, 1970. Cleared for TV.) NAC rental $15, sale $208.75; SWI.

PB-284-716 State-of-the-art report: pesticide disposal research. R. R. Wilkinson, G. L. Kelso, and F. C. Hopkins [Midwest Research Institute]. U.S. Environmental Protection Agency, Aug. 1978. 247 p.

PB-284-927 Detoxification of Navy red dye by microwave plasma; summary report. L. J. Bailin [Lockheed Palo Alto Research Laboratory, Lockheed Missiles and Space Company, Inc.]. U.S. Environmental Protection Agency, June 1978. 34 p.

PB-284-937 A case study of hazardous wastes in Class I landfills. B. Eichenberger et al. [University of Southern California]. U.S. Environmental Protection Agency, Apr. 1978. 114 p.

PB-284-973 The use and fate of lubricants, oils, greases, and hydraulic fluids in the iron and steel industry. J. C. Serne and K. Wilson [Pacific Environmental Services, Inc.]. U.S. Environmental Protection Agency, May 1978. 360 p.

PB-285-000 Kepone incineration test program. B. A. Bell and F. C. Whitmore [Design Partnership, and Versar, Inc.]. U.S. Environmental Protection Agency, May 1978. 148 p.

PB-285-072 Compilation and evaluation of leaching test methods. W. Lowenbach [Mitre Corporation]. U.S. Environmental Protection Agency, May 1978. 111 p.

PB-285-208 Identification and description of chemical deactivation/detoxification methods for the safe disposal of selected pesticides. S. S. Lande [Syracuse Research Corporation]. Environmental Protection Publication SW-165c. U.S. Environmental Protection Agency, May 1978. 183 p.

PB-285-228 A study of vegetation problems associated with refuse landfills. F. B. Flower et al. [Rutgers University, Cook College]. U.S. Environmental Protection Agency, May 1978. 142 p.

PB-285-230 Beneficial disposal of water purification plant sludges in wastewater treatment. J. O. Nelson et al. U.S. Environmental Protection Agency, 1978. 33 p.

PB-285-232 A study of forced aeration composting of wastewater sludge. W. F. Ettlich and A. E. Lewis [Culp/Wesner/Culp, Clean Water Consultants]. U.S. Environmental Protection Agency, May 1978. 63 p.

PB-285-250 A manual on: evaluation and economic analysis of livestock waste management systems. R. K. White and D. L. Forster [Ohio Agricultural Research and Development Center]. U.S. Environmental Protection Agency, May 1978. 317 p.

PB-285-437 A study of the feasibility of utilizing solid wastes for building materials; phase III and IV summary reports. Material Systems Corporation. U.S. Environmental Protection Agency, May 1978. 190 p.

PB-285-609 Environmental assessment of subsurface disposal of municipal wastewater treatment sludge. R. J. Lofy et al. [SCS Engineers, Inc.]. Environmental Protection Publication SW-167c. U.S. Environmental Protection Agency, June 1978. 360 p.

PB-285-783 Chlorolysis applied to the conversion of chlorocarbon residues. C. E. Shannahan et al. [Hoechst-Uhde Corporation]. U.S. Environmental Protection Agency, 1978. 65 p.

PB-285-797 Engineering and economic analysis of waste to energy systems. E. M. Wilson et al. [Ralph M. Parsons Company]. U.S. Environmental Protection Agency, May 1978. 458 p.

PB-286-095 Comparative cost analysis and environmental assessment for disposal of organochlorine wastes. C. C. Shih et al. [TRW, Inc.]. U.S. Environmental Protection Agency, Aug. 1978. 140 p.

PB-286-118 Reclamation of a landfill with digested sewage sludge. R. R. Rinkus, R. O. Carlson, and D. B. Wunderlich [Metropolitan Sanitary District of Greater Chicago]. U.S. Environmental Protection Agency, Aug. 1978. 62 p.

PB-286-360 Economics of municipal solid waste management: the Chicago case. G. S. Tolley, V. S. Hastings, and G. Rudzitis [University of Chicago, Department of Economics]. U.S. Environmental Protection Agency, June 1978. 118 p.

PB-286-836 Chemical and physical effects of municipal landfills on underlying soils and groundwater. Army Engineer Waterways Experiment Station, Environmental Effects Laboratory. U.S. Environmental Protection Agency, May 1978. 156 p.

PB-286-905 Guidance manual for minimizing pollution from waste disposal sites. A. L. Tolman et al. [A. W. Martin Associates, Inc.]. U.S. Environmental Protection Agency, 1978. 95 p.

PB-286-926 Analysis of state laws and regulations impacting animal waste management. G. A. Whetstone et al. [Texas Tech University]. U.S. Environmental Protection Agency, 1978. 235 p.

PB-286-936 Investigation of advanced thermal-chemical concepts for obtaining improved MSW-derived products. N. L. Hecht, D. S. Duvall, and B. L. Fox [University of Dayton Research Institute]. U.S. Environmental Protection Agency, Aug. 1978. 119 p.

PB-286-956 Land Disposal of Hazardous Wastes, Proceedings; 4th annual research symposium. D. W. Shultz, *ed.* [Southwest Research Institute, Department of Resource and Environmental Engineering]. U.S. Environmental Protection Agency, Aug. 1978. 438 p.

PB-286-973 Evaluation of economic benefits of resource conservation. R. C. Anderson [Environmental Law Institute]. U.S. Environmental Protection Agency, 1978. 51 p.

PB-286-982 Environmental assessment for residual oil utilization; second annual report. M. F. Tyndall et al. [Catalytic, Inc.]. U.S. Environmental Protection Agency, Sept. 1978. 183 p.

PB-286-995 Investigation of landfill leachate pollutant attenuation by soils. W. H. Fuller [University of Arizona]. U.S. Environmental Protection Agency, Aug. 1978. 239 p.

PB-286-997 Tires: decreasing solid wastes and manufacturing throughput; markets, profits, and resource recovery. R. R. Westerman [California State University at Sacramento]. U.S. Environmental Protection Agency, July 1978. 151 p.

PB-287-080 Land cultivation of industrial wastes and municipal solid wastes: state-of-the-art study. v.1. Technical summary and literature review. T. Phung et al. [SCS Engineers, Inc.]. U.S. Environmental Protection Agency, 1978. 220 p.

PB-287-081 Land cultivation of industrial wastes and municipal solid wastes: state-of-the-art study. v.2. Field investigations and case studies. T. Phung et al. [SCS Engineers, Inc.]. U.S. Environmental Protection Agency, 1978. 173 p.

PB-287-140 Attenuation of pollutants in municipal landfill leachate by clay minerals. R. A. Griffin and N. F. Shimp [Illinois State Geological Survey]. U.S. Environmental Protection Agency, 1978. 159 p.

PB-288-236 Animal waste composting with carbonaceous material. W. S. Galler et al. [North Carolina State University]. U.S. Environmental Protection Agency, Sept. 1978. 108 p.

PB-288-406 Microbial degradation of petroleum hydrocarbons. D. W. S. Westlake, F. D. Cook, and A. M. Jobson [University of Alberta]. U.S. Environmental Protection Agency, 1978. 79 p.

PB-288-513 Assessment of bacteria and virus emissions at a refuse derived fuel plant and other waste handling facilities. D. E. Fiscus et al. [Midwest Research Institute]. U.S. Environmental Protection Agency, 1978. 220 p.

PB-290-126 Energy conservation through source reduction. G. W. Reid and C. H. Khuong [University of Oklahoma]. U.S. Environmental Protection Agency, Nov. 1978. 63 p.

title index

Numbers following entries are order numbers, by which the publications are listed in this catalog.

Abandoned automobile removal, PB-268-327
Abstracts; selected patents on refuse handling facilities for buildings, 1, PB-216-888
Accounting system for incinerator operations, 111, PB-217-821
Accounting system for sanitary landfill operations, 86, PB-215-907
Accounting system for solid waste collection, 153
Accounting system for solid waste management in small communities, 176, PB-213-492
Accounting system for solid waste shredders, 451
Accounting system for transfer station operations, 182
Acid hydrolysis of cellulose in refuse to sugar and its fermentation to alcohol, PB-221-239
Action on the solid wastes problem, 71
Activities in managing solid wastes, 197
Ad hoc conference on solid waste training, 72
Advanced techniques for incineration of municipal solid wastes, PB-256-355
Aerial and automotive reconnaissance of solid waste disposal sites in a rural county, 277
Aerobic treatment of livestock wastes, 297, PB-230-386
Agricultural benefits and environmental changes resulting from the use of digested sewage sludge on field crops; an interim report on a solid waste demonstration project, 229
Agricultural benefits and environmental changes resulting from the use of digested sludge on field crops, PB-230-402
Air classification for reclamation processing of solid wastes, 102
Air classification of solid wastes; performance of experimental units and potential applications for solid waste reclamation, 256, PB-214-133
Alsterberg (AZID) modification of the Winkler method for the determination of the BOD of incinerator quench water and the calibration of the Weston and Stack DO analyzer model 300-B, PB-256-953
Alternate methods of manure handling, PB-283-389
Alternatives for hazardous waste management in the inorganic chemicals industry, PB-274-565
Alternatives for hazardous waste management in the organic chemical, pesticides and explosives industries, PB-278-059
Alternatives to the management of hazardous wastes at national disposal sites, PB-225-164
Alternatives to the management of hazardous wastes at national disposal sites, v. 2. Appendices, PB-237-264
Alum addition and step-feed studies in oxygen-activated sludge, PB-272-892
Aluminum as a component of solid waste and a recoverable resource, PB-235-770
Amendments to interim grant regulations to implement the Resource Conservation and Recovery Act of 1976, 724
America the beautiful; a collection of the nation's trashiest humor, 131
American composting concepts, 169, PB-213-376
Ames; progress and problems continue, 711
Anaerobic digestion of solid waste and sewage sludge to methane, 458, PB-261-091
Analysis models for solid waste collection, v. 1, PB-239-117
Analysis models for solid waste collection, v. 2, Appendices and documentation, PB-239-494
Analysis of airport solid wastes and collection systems; San Francisco International Airport, PB-219-372
Analysis of demand and supply for secondary fiber in the U.S. paper and paperboard industry, v. 1, sect. 1-8,10, PB-250-798
Analysis of demand and supply for secondary fiber in the U.S. paper and paperboard industry, v. 2, sect. 9, Process economics, PB-250-905
Analysis of demand and supply for secondary fiber in the U.S. paper and paperboard industry, v. 3, Appendices, PB-250-802
Analysis of Federal programs affecting solid waste generation and recycling, PB-213-311
Analysis of institutional solid wastes, 237, PB-213-939
Analysis of scrap futures markets for stimulating resource recovery, PB-291-882
Analysis of solid waste composition; statistical technique to determine sample size, 97, PB-216-584
Analysis of source separate collection of recyclable solid waste; collection center studies [v. 2], PB-239-776
Analysis of source separate collection of recyclable solid waste; separate collection studies [v. 1], PB-239-775
Analysis of state laws and regulations impacting animal waste management, PB-286-926
Analysis of the abandoned automobile problem, PB-221-879
Analysis of the current impact of plastic refuse disposal upon the environment, PB-238-654
Animal waste composting with carbonaceous material, PB-288-236
Animal Waste Management; Proceedings; National Symposium on Animal Waste Management, the Airlie House, Warrenton, Va., Sept. 28 through 30, 1971, PB-257-311

Applicability of existing methods for the determination of the biochemical oxygen demand (BOD) of incinerator quench water, PB-256-946
Applying technology to unmet needs; report on the solid waste problem, 2
Appraisal of marine disposal of solid wastes off the west coast: a preliminary review and results of a survey, 130
Appraisal of powdered activated carbon processes for municipal wastewater treatment, PB-272-933
Assessment of bacteria and virus emissions at a refuse derived fuel plant and other waste handling facilities, PB-288-513
Assessment of hazardous waste practices in the petroleum refining industry, PB-259-097
Assessment of industrial hazardous waste management petroleum re-refining industry, PB-272-267
Assessment of industrial hazardous waste practices--electronic components manufacturing industry, PB-265-532
Assessment of industrial hazardous waste practices; electroplating and metal finishing industries--job shops, PB-264-349
Assessment of industrial hazardous waste practices in the metal smelting and refining industry. v.1. Executive summary,, PB 276-169
Assessment of industrial hazardous waste practices in the metal smelting and refining industry. v.2. Primary and secondary nonferrous smelting and refining, PB-276-170
Assessment of industrial hazardous waste practices in the metal smelting and refining industry. v.3. Ferrous smelting and refining, PB-276-171
Assessment of industrial hazardous waste practices in the metal smelting and refining industry. v.4. Appendices, PB-276-172
Assessment of industrial hazardous waste practices-- inorganic chemicals industry, PB-244-832
Assessment of industrial hazardous waste practices--leather tanning and finishing industry, PB-261-018
Assessment of industrial hazardous waste practices--organic chemicals, pesticides, and explosives industries, PB-251-307
Assessment of industrial hazardous waste practices--paint and allied products industry contract solvent reclaiming operations, and factory application of coatings, PB-251-669
Assessment of industrial hazardous waste practices--special machinery manufacturing industries, PB-265-981
Assessment of industrial hazardous waste practices--storage and primary batteries industries, PB-241-204
Assessment of industrial hazardous waste practices--textiles industry, PB-258-953
Assessment of techniques for detoxification of selected hazardous materials, PB-272-783
Assessment of wet systems for residential refuse collection; summary report, PB-236-085
Atlanta household refuse compactor demonstration project, PB-234-605
At-sea incineration of Herbicide Orange onboard the M/T Vulcanus, PB-281-690
Attenuation of pollutants in municipal landfill leachate by clay minerals, PB-287-140
Automatic amino acid analyses for determining the amount and quality of protein in fungal protein and in other protein sources, 312
Automobile cycle; an environmental and resource reclamation problem, 275, PB-213-718
Automobile dismantling industry, a survey of solid waste management practices in four cities, PB-227-000
Automobile scrapping processes and needs for Maryland; a final report on a solid waste demonstration, 106
Available information materials; solid waste management, 203

Bacteriological study of the New Orleans East incinerator, PB-256-389
Balancing environment, economic, and resource conservation issues in the implementation of RCRA, 643
Baling solid waste to conserve sanitary landfill space; a feasibility study, PB-214-960
Baltimore; a lesson in resource recovery, 712
Baltimore demonstrates gas pyrolysis; resource recovery from solid waste, 431
Baltimore pyrolysis and waste-fired steam generator emissions; Resource recovery technology update from the U.S.E.P.A. (In Waste Age), 537
Baltimore's municipal solid waste management system; a case study, PB-228-161
Base line forecasts of resource recovery, 1972 to 1990: final report, PB-245-924
Basic issues on solid waste management affecting county government, 373
Bay area solid waste management implementation project, PB-234-808-Set
v. 1. Project report, PB-234-809
v. 2. Environmental evaluation for the Bay delta recovery demonstration project, PB-234-810
v. 3. Technical report on levee stabilization and composting, PB-234-811
Beneficial disposal of water purification plant sludges in wastewater treatment, PB-285-230
Beverage container problem; analysis and recommendations, 326, PB-213-341
Beverage containers; proposed solid waste management guidelines. See Solid Waste management; guidelines for beverage containers
Beverage containers: the Vermont experience, 487
Big pickup--a new publication from the Office of Solid Waste Management Programs [Flyer], 485
Biological consequences of plant residue decomposition in soil, PB-222-113

Biological conversion of animal wastes to nutrients, PB-221-171
Biological treatment, effluent reuse, and sludge handling for the side leather tanning industry, PB-280-676
Bird/aircraft hazards at airports near solid waste disposal sites, 355
Braintree, Massachusetts, municipal incinerator, PB-226-960

Buffalo's crusher facility for bulky solid waste, PB-225-159
Building an amphitheater and coasting ramp of municipal solid waste, PB-225-346
Bureau attacks nation's solid waste, 109
Burn, bury or what? [Film narrative], 271
Burning waste chlorinated hydrocarbons in a cement kiln, PB-280-118

Cadmium additions to agricultural lands via commercial phosphate fertilizers; a preliminary assessment, 718
California solid waste management study (1968) and plan (1970), 175
Can engineering cope with the debris of affluence? 3
Can Federal procurement practices be used to reduce solid wastes? PB-229-727
Can Nashville's story be placed in perspective? 605
Careful management: key to resource recovery, 604
Case study and business analysis of the scrap industry, PB-229-220
Case study of hazardous wastes in Class I landfills, PB-284-937
Case study of the Los Angeles County Palos Verdes landfill gas development project, PB-272-241
Catalytic conversion of hazardous and toxic chemicals: catalytic hydrodechlorination of polychlorinated pesticides and related substances; final report, PB-262-804
Catalytic hydrodechlorination of polychlorinated pesticides and related substances; an executive summary, PB-272-603
Cattaraugus County, New York, solid waste disposal system, PB-266-562

Cellulolytic activity in municipal solid waste composting, 126
Cellulose degradation in composting, PB-215-722
Characteristics of municipal solid wastes, 4
Characterization and utilization of municipal and utility sludges and ashes, PB-244-309-Set
v. 1. Summary, PB-244-310
v. 2. Municipal sludges, PB-244-311
v. 3. Utility coal ash, PB-244-312
v. 4. Municipal incinerator residues, PB-244-313
Chemical and physical effects of municipal landfills on underlying soils and groundwater, PB-286-836
Chemical conversion of solid wastes to useful products, PB-233-178
Chemical conversion of wood and cellulosic wastes, PB-229-246
Chemical waste land disposal facility demonstration grant application, PB-249-747
Chemical waste swapping: promising, but no panacea, 554
Chlorolysis applied to the conversion of chlorocarbon residues, PB-285-783
Cities and the nation's disposal crisis, 331, PB-257-309
Cities' rubbish woes grow as volume rises, dumping sites fill up, 5
Citizen participation and the Resource Conservation and Recovery Act, 585
Citizen support for solid waste management, 138
Clean and green, 291
Clean and green solid waste system in Alabama is widely copied, 150, 238
Closing open dumps, 156
Codification of solid waste management authority in Kentucky; appendix A, PB-201-205
'Co-disposal' for solid wastes and sewage sludge: Resource recovery technology update from the U.S.E.P.A. (In Waste Age), 667
Co-disposal of sewage sludge and solid wastes--it works, 687
Collection and disposal of solid waste for the Des Moines metropolitan area; a systems engineering approach to the overall problem of solid waste management; an interim report, 6
Collection and disposal of solid waste for the Des Moines metropolitan area; the planning phase, 249
Collection, reduction, and disposal of solid waste in high-rise multifamily dwellings, PB-197-623
COLMIS; a new solid waste management information system [Flyer], 389
COLMIS. See also User's manual for COLMIS, 370-371
Color sorting waste glass at Franklin, Ohio, 558
Columbus' municipal solid waste management system; a case study, PB-236-659
Combustion power unit-400, CPU-400; a technical abstract, 7, PB-187-299
Combustion products from the incineration of plastics, PB-222-001

Committee findings and staff papers on national beverage container deposits; 2d report to the President and Congress of the United States mandated by the Resource Conservation and Recovery Act of 1976 (Public Law 94-580), 733
Comparative cost analysis and environmental assessment for disposal of organochlorine wastes, PB-286-095
Comparative estimates of post-consumer solid waste, 443, PB-256-491
Comparing conventionally landfilled solid waste with processed landfilled solid waste; final report on a solid waste demonstration grant report, PB-253-304
Compilation and evaluation of leaching test methods, PB-285-072
Complete disposal-recycle scheme for agricultural solid wastes, PB-271-714
Compost studies; part 1, 204
Compost studies; part 2, 205
Compost studies; part 3, 206
Composted municipal refuse as a soil amendment, PB-222-422
Composting at Johnson City; final report on joint USEPA-TVA composting project with operational data, 1967 to 1971, 488, PB-261-047
Composting developments in the United States, 8, PB-215-299
Composting dewatered sewage sludge, 115
Composting of municipal solid wastes in the United States, 212, PB-213-478
Composting of organic wastes; an annotated bibliography, PB-215-202
Composting of organic wastes; an annotated bibliography; suppl. 1, PB-147-220
Composting of organic wastes; an annotated bibliography; suppl. 2, PB-148-097
Composting sewage sludge by high-rate suction aeration techniques; an interim report, 614
Comprehensive studies of solid waste management; first and second annual reports, 128, PB-218-265
Comprehensive studies of solid waste management; third annual report, 178
Comprehensive study of solid waste disposal in Cascade County, Montana; final report on a solid waste demonstration 178
Comprehensive summary of sludge disposal recycling history, PB-269-352
Computer planning for efficient solid waste collection [Condensation], 283
Concept and design of the joint U.S. Public Health Service--Tennessee Valley Authority Composting Project, Johnson City, Tennessee, 9
Conservation and common sense, 515
Conservation of resources in municipal waste, PB-228-165
Construction of a chemical-microbial pilot plant for production of single-cell protein from cellulosic wastes, 186, PB-203-620

Continental margin data collection pilot project, PB-256-928
Control of domestic rats and mice, 155
Controlling S02 emissions from coal-fired steam-electric generators: solid waste impact. v.1. Executive summary, PB-281-099
Controlling S02 emissions from coal-fired steam-electric generators: solid waste impact. v.2. Technical discussion, PB-281-100
Conversion of cattle feedlot manure to ethylene and ammonia synthesis gas, PB-280-189
Conversion of existing municipal sludge incinerators for codisposal, 743
Conversion of organic solid wastes into yeast; an economic evaluation, 91, PB-217-834
Corrosion studies in municipal incinerators, PB-213-378
Cost assessment for the emplacement of hazardous materials in a salt mine, PB-276-730
Cost estimating handbook for transfer, shredding and sanitary landfill of solid waste, PB-256-444
Cost of landspreading and hauling sludge from municipal wastewater treatment plants; case studies, 619
Cost of residential solid waste collection, 228
Costs of hauling and land spreading of domestic sewage treatment plant sludge, PB-227-005
Creating a countywide solid waste management system; the case study of Humphreys County, Tennessee, 255, PB-214-073
Criteria for regional solid waste management planning, PB-239-631
Curbing trash; community guide, 671
Current concepts in the disposal of solid wastes, 110
Current views on solid waste management; recommended reading, 544

Dairy manure management methods, PB-233-441
Dairy waste management, PB-225-160
Dallas' municipal solid waste management system; a case study, PB-234-140
Damage incidents from improper land disposal, 494

Data base for standards/regulations development for land disposal of flue gas cleaning sludges, PB-280-135
Debris accumulation in ancient and modern cities, 404
Decentralized solid waste collection facilities, 146
Decision trees in solid wastes planning, 10
Decision-makers guide in solid waste management, 390, PB-258-266
Deep-sea disposal of liquid and solid wastes, 162
Degradation mechanisms: controlling the bioaccumulation of hazardous materials, PB-240-748
Degradation of selected pesticides in soil: a review of the published literature, PB-272-353
Degradation of waste paper to protein: research in microbial fermentations, PB-228-617
Demonstrating multimaterial source separation in Somerville and Marblehead, Massachusetts, 510
Demonstrating resource recovery; Resource recovery technology update from the U.S.E.P.A. (In Waste Age), 528
Demonstration of a leachate treatment plant, PB-269-502
Demonstration of pyrolysis and materials recovery in San Diego, California; Resource recovery technology update from the U.S.E.P.A. (In Waste Age), 582
Demonstration of systems for recovering materials and energy from solid waste, 388
Demonstration of waste flow reduction from households, PB-236-904
Des Moines story; a report on the implementation of the solid waste management plan for the Des Moines Metropolitan Area Solid Waste Agency, PB-233-873
Design and control of incinerators, PB-223-626
Design and simulation of equalization basins, PB-222-000
Design considerations for a pilot process for separating municipal refuse, PB-242-136
Design considerations for pulp and paper-mill sludge landfills, PB-264-032
Design criteria for solid waste management in recreational areas, 284, PB-258-597
Design of a sanitary landfill in Floyd County, Georgia, PB-256-945
Design of a solid waste management system for the Eastern Appalachia Health Region of North Carolina, PB-214-089
Design of a water-disposable glass packaging container, 236
Design of consumer containers for re-use or disposal; Proceedings; Solid Waste Resources Conference, [Columbus], May 12-13, 1971, 261
Despite higher costs than expected, this Iowa city's refuse-to-energy project is still going strong after 18 months of operation, 711
Destroying chemical wastes in commercial scale incinerators; Facility Report No. 1--the Marquardt Company, PB-265-541
Destroying chemical wastes in commercial scale incinerators; Facility Report No. 2--Surface Combustion Division, Midland-Ross Corporation, PB-268-232
Destroying chemical wastes in commercial scale incinerators; Facility Report No. 3--systems technology, PB-265-540
Destroying chemical wastes in commercial scale incinerators; Facility Report No. 4--Zimpro, Inc, PB-267-987
Destroying chemical wastes in commercial scale incinerators; Facility Report No. 6--Rollins Environmental Service, Inc., Deer Park, Texas, PB-270-897
Determination of heat of combustion of solid wastes from ultimate analysis, PB-256-383
Determination of incinerator operating conditions necessary for safe disposal of pesticides, PB-251-131
