

ORDERING INFORMATION ON UNDERGROUND STORAGE TANKS

- Go to EPA's Web site at <http://www.epa.gov/oust/pubs/> to order, read, or download documents online.
- Call EPA's toll-free RCRA/Superfund Call Center at 800-424-9346 and order free copies or ask questions.
- Write and ask for free publications by addressing your request to our publication distributor: National Service Center for Environmental Publications (NSCEP), Box 42419, Cincinnati, OH 45242.
- For free copies, call our publication distributor's toll-free number at 800-490-9198 or fax 513-489-8695.

TITLES

Catalog Of EPA Materials On USTs

An annotated list of UST materials, including ordering information. Most of the leaflets, booklets, videos, and software items listed provide UST owners and operators with information to help them comply with federal UST requirements (32 pages).

Operating And Maintaining Underground Storage Tank Systems: Practical Help And Checklists

Owners and operators of UST systems will find this manual contains checklists and information that will help them properly operate and maintain their USTs. UST inspectors can use the manual and its checklists to help educate UST owners and operators (49 pages).

Automatic Tank Gauging Systems for Release Detection: Reference Manual for Underground Storage Tank Inspectors

This manual can help State and EPA inspectors of underground storage tanks (USTs) evaluate how well UST owners and operators are using their automatic tank gauging (ATG) systems to comply with release detection requirements (134 pages).

Musts For USTs: A Summary Of Federal Regulations For Underground Storage Tank Systems

Plain language summary of federal UST requirements for installation, release detection, spill, overfill, and corrosion protection, corrective action, closure, reporting and recordkeeping. Updated & revised 1995 (36 pages).

Straight Talk On Tanks: Leak Detection Methods For Petroleum Underground Storage Tanks

Explains federal regulatory requirements for leak detection and briefly describes allowable leak detection methods. Updated & revised 1997 (28 pages).

Getting The Most Out Of Your Automatic Tank Gauging System

Trifold leaflet provides UST owners and operators with a basic checklist they can use to make sure their automatic tank gauging systems work effectively and provide compliance with federal leak detection requirements.

Doing Inventory Control Right: For Underground Storage Tanks

Booklet describes how owners and operators of USTs can use inventory control and periodic tightness testing to temporarily meet federal leak detection requirements. Contains recordkeeping forms (16 pages).

Manual Tank Gauging: For Small Underground Storage Tanks

Booklet provides simple, step-by-step directions for conducting manual tank gauging for tanks 2,000 gallons or smaller. Contains recordkeeping forms (12 pages).

Introduction To Statistical Inventory Reconciliation: For Underground Storage Tanks

Booklet describes how Statistical Inventory Reconciliation (SIR) can meet federal leak detection requirements (12 pages).

Closing Underground Storage Tanks: Brief Facts

Trifold leaflet presents "brief facts" on properly closing USTs in order to comply with federal closure requirements.

Underground Storage Tanks: Requirements And Options

Trifold leaflet alerts UST owners and operators who are "nonmarketers" (who do not sell stored petroleum) that they need either to find alternatives to managing their USTs or to make decisions about UST compliance.

Dollars And Sense: Financial Responsibility Requirements For Underground Storage Tanks

Booklet summarizes the "financial responsibility" required of UST owners and operators (16 pages).

List Of Known Insurance Providers For Underground Storage Tanks

Provides UST owners and operators with a list of insurance providers who may be able to help them comply with financial responsibility requirements by providing suitable insurance mechanisms (12 pages).

Controlling UST Cleanup Costs

Fact sheet series on the cleanup process includes: *Hiring a Contractor*, *Negotiating the Contract*, *Interpreting the Bill*, *Managing the Process*, and *Understanding Contractor Code Words* (10 pages).

Financing Underground Storage Tank Work: Federal And State Assistance Programs

Booklet identifies potential sources of financial assistance to cover the costs of upgrading, replacing, or closing an UST, or of cleaning up an UST release (23 pages). *Revised and updated, March 1999.*

Videos About UST Requirements

VIDEOS

TITLE/COST

AVAILABLE FROM

Tank Closure Without Tears: An Inspector's Safety Guide

Focuses on explosive vapors and safe tank removal (30 minutes).
Video and Booklet Cost: \$35; Booklet: \$5

What Do We Have Here?: An Inspector's Guide To Site Assessment At Tank Closure

Inspecting sites for contamination where tanks have been removed.
Part 1: Site Assessment Overview (30 minutes); Part 2: Field Testing Instruments At A Glance (14 minutes); Part 3: Soil And Water Sampling At A Glance (7 minutes). Video and Booklet Cost: \$45; Booklet: \$5

Searching For The Honest Tank: A Guide To UST Facility Compliance Inspection

Covers major aspects of UST inspections, including protocols, equipment, cathodic protection, and leak detection. Directed at inspectors, yet also helpful to owners and operators (30 minutes). Video and Booklet Cost: \$40; Booklet: \$5

Tank Time

Humorous presentation explains what UST owners and operators must do to comply with the December 1998 deadline to upgrade, replace, or close tanks installed before December 1988 (18 minutes). Cost: \$24

Doing It Right

Illustrates proper installation of underground tanks and piping for installation crews.
Part 1: Tanks (24 minutes); Part 2: Piping (16 minutes).

Doing It Right II: Installing Required UST Equipment

Illustrates installation of spill and overfill equipment, observation wells, and piping leak detection (23 minutes).

Keeping It Clean: Making Safe And Spill-Free Motor Fuel Deliveries

Making pollution-free deliveries to USTs. Includes Stage 1 vapor recovery, overfill prevention and spill containment. For fuel tanker drivers and UST owner/operators (25 minutes).

Petroleum Leaks Underground

How liquids and vapors move in the subsurface and why early response to leaked petroleum is so important. Part 1: How Liquids Move (14 minutes); Part 2: How Vapors Move (15 minutes).

Straight Talk on Leak Detection

Overview of the leak detection methods available for complying with federal regulations (30 minutes).

RBCA: Initial Site Assessment

Overview of risk-based corrective action process (25 minutes).
