Introduction

What Information Does This Catalog Contain?

This catalog lists hazardous and solid waste documents released by the U.S. Environmental Protection Agency's Office of Solid Waste (OSW). This is a select list of publications that are frequently requested and is not a comprehensive list of all documents available.

What Is New in This Edition of the Catalog?

This edition of the catalog contains newly released publications and is current through July 15, 1996.

How Can I Find Specific Information in the Catalog?

There are a number of ways to find a particular document or research a subject area through this catalog. The following examples should help you get started:

- ***If you have a document title,*** turn to the Alphabetical Listing of Abstracts (Section 1). There you will find the order number as well as the type of order form to use. Order forms and instructions can be found in Ordering Information and Forms (Section 5).
- ***If you have a document number,*** turn to the Numerical Listing of Publications (Section 3) to find the title. The section is divided into three different lists for documents distributed by OSW, the National Technical Information Service (NTIS), or the Government Printing Office (GPO).
- ***If you are interested in a particular subject area,*** turn to the Alphabetical Listing of Subjects (Section 2). There you will find a listing of documents on the topic you are interested in.
- ***If the document you're looking for is not included in the catalog,*** contact the RCRA Information Center (RIC) for more information (see below).

How Do I Order a Document?

Documents listed in this catalog can be ordered from one of three sources: OSW, NTIS, or GPO. You must use the appropriate order form and order number for each document as specified in the Alphabetical Listing of Abstracts (Section 1). The actual order forms can be found under Ordering Information and Forms (Section 5). In some cases, government agencies can receive documents free of charge.

Can I Access OSW Documents on the Internet?

Many OSW documents are now available on the EPA Public Access Server, which you can access via the Internet. You can reach this server in one of four ways:

- Via the World Wide Web (WWW): http://www.epa.gov/epaoswer
- Via gopher: gopher.epa.gov
- Via direct dialup: 919 558-0335
- Via File Transfer Protocol (FTP): ftp.epa.gov

If you are using the gopher or direct dialup method, once you are connected to the EPA Public Access Server, look for OSW documents in the following directory: EPA Offices and Regions/Office of Solid Waste and Emergency Response (OSWER)/Office of Solid Waste (RCRA). If you are using the FTP method, log in as **anonymous**, use your Internet address as your password, and look for OSW documents in the /pub/gopher/OSWRCRA directory.

The public reporting and recordkeeping burden for this collection of information is estimated to average 10 minutes per response annually. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques, to the Director, OPPE Regulatory Information Division, U.S. Environmental Protection Agency (2136), 401 M Street, SW., Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed survey to this address.

RCRIS Extract Tape

RCRIS is the national program management and inventory system of RCRA hazardous waste handlers. Handlers can be characterized as belonging to one or more of the following categories: treatment, storage, and disposal facilities (TSDFs); large quantity generators (LQG); small quantity generators (SQG); and transporters. RCRIS captures identification and location information for hazardous waste handlers and a wide range of information on TSDFs regarding permit/closure status, compliance with federal and state regulations, and cleanup activities.

The *RCRIS Extract Tape* is provided to NTIS on three IBM tape cartridges. There are a total of 23 EBCDIC flat files containing the RCRIS data. The tape includes all handler identification and permitting data available from the RCRIS National Oversight Database. The tape includes most of the Compliance Monitoring and Enforcement data except for data deemed enforcement sensitive by EPA.

Available OSW Electronic Services

The Office of Solid Waste (OSW) has placed a wide variety of information about hazardous and non-hazardous waste on the Internet and on Bulletin Board Systems (BBSs) for access and retrieval by the general public. The information posted includes consumer information, supporting materials for rulemakings, policy and guidance documents, and data files from EPA's hazardous waste databases.

Many OSW documents are now available on the EPA Public Access Server, which you can access via the Internet or via modem. You can reach this server in one of four ways:

- Via the World Wide Web (WWW): http://www.epa.gov/epaoswer
- Via gopher: gopher.epa.gov
- Via direct dialup: 919 558-0335
- Via File Transfer Protocol (FTP): ftp.epa.gov

If you are using the gopher or direct dialup method, once you are connected to the EPA Public Access Server, look for OSW documents in the following directory: EPA Offices and Regions/Office of Solid Waste and Emergency Response (OSWER)/Office of Solid Waste (RCRA). If you are using the FTP method, log in as anonymous, use your Internet address as your password, and look for OSW documents in the /pub/gopher/ OSWRCRA directory.

Federal Register notices relating to the Resource Conservation and Recovery Act (RCRA) and dating back to October 1994 are available on the EPA Public Access Server through the following route: Rules, Regulations, and Legislation/The FEDERAL REGISTER (FR) Environmental Subset/FEDERAL REGISTER (FR) - Waste/Year/Month/Day.

In addition, EPA maintains several free electronic mailing lists (Listservers). Subscribers receive electronically mailed copies of documents as they are published. Some OSW-related mailing lists are EPA-WASTE (hazardous and solid waste Federal Registers), HOTLINE_OSWER (RCRA/UST, Superfund and EPCRA *Monthly Hotline Report* and updates), and EPA-PRESS (Environmental Protection Agency press releases).

To learn more about OSW information available via the Internet and Bulletin Board Systems, and how to subscribe to electronic mailing lists, please order *Environmental Fact Sheet: Electronic Access to OSW* (EPA/530-F-96-006).

OSW also provides a Fax-on-Demand service, which enables users to receive selected fact sheets, newsletters, and other materials. To receive a list of available titles, dial 202 651-2060 from your fax machine and follow the options provided by the voice prompt.

Environmental Factor™ RCRA Hazardous Waste Handler Information on CD-ROM

Contains permit status, design capacity, and compliance history for facilities found in the EPA Resource Conservation and Recovery Information System (RCRIS) program tracking database. Provides detailed information on the generation, management, and minimization of hazardous wastes by companies that are large quantity generators. Furnishes data on the waste management practices of treatment, storage, and disposal facilities (TSDFS) from the EPA Biennial Reporting System (BRS). Developed and maintained independently by the Olewine Company of New York, the database retrieval system allows the user to search for RCRA facilities by permit type, SIC code, waste codes, corrective action or violation; view compliance information (dates of evaluation, violation, enforcement and corrective action); look up facilities by the waste processing categories of marketing, transporting, processing and energy recovery; browse detailed data on TSDFs' and large quantity generators' activities (e.g., onsite waste treatment, disposal, or recycling; offsite waste received; and waste generation and management). Gives a complete picture with cradle-to-grave waste tracking (generation, minimization, transportation, treatment, storage onsite or offsite, and disposal). Provides information on waste generation and disposition by 463,500 large and small quantity hazardous waste generators; 27,000 transporters; and 7,000 TSDFs. Product contains databases, search and retrieval software on two ISO 9600/Hogh Sierra format CD-ROMs, online help from any

Add $2.00 to the handling fee for orders sent outside the United States, Canada, and Mexico.

The fee does not apply to rush service, SRIM, subscriptions, standing orders, or pickup orders. Documents downloaded directly from FedWorld® are exempt, while all other documents ordered from FedWorld® are subject to the handling fee.
