Mills That Produce Tissue Products Containing Recovered Paper

MILLS THAT PRODUCE TISSUE PRODUCTS CONTAINING RECOVERED PAPER

This list of manufacturers and suppliers of items containing recovered materials has been prepared to facilitate implementation of the U.S. Environmental Protection Agency's (EPA) Comprehensive Procurement Guideline (CPG) and to assist customers interested in the purchase and use of products containing recovered materials. Manufacturers can provide the names and locations of regional or local suppliers.

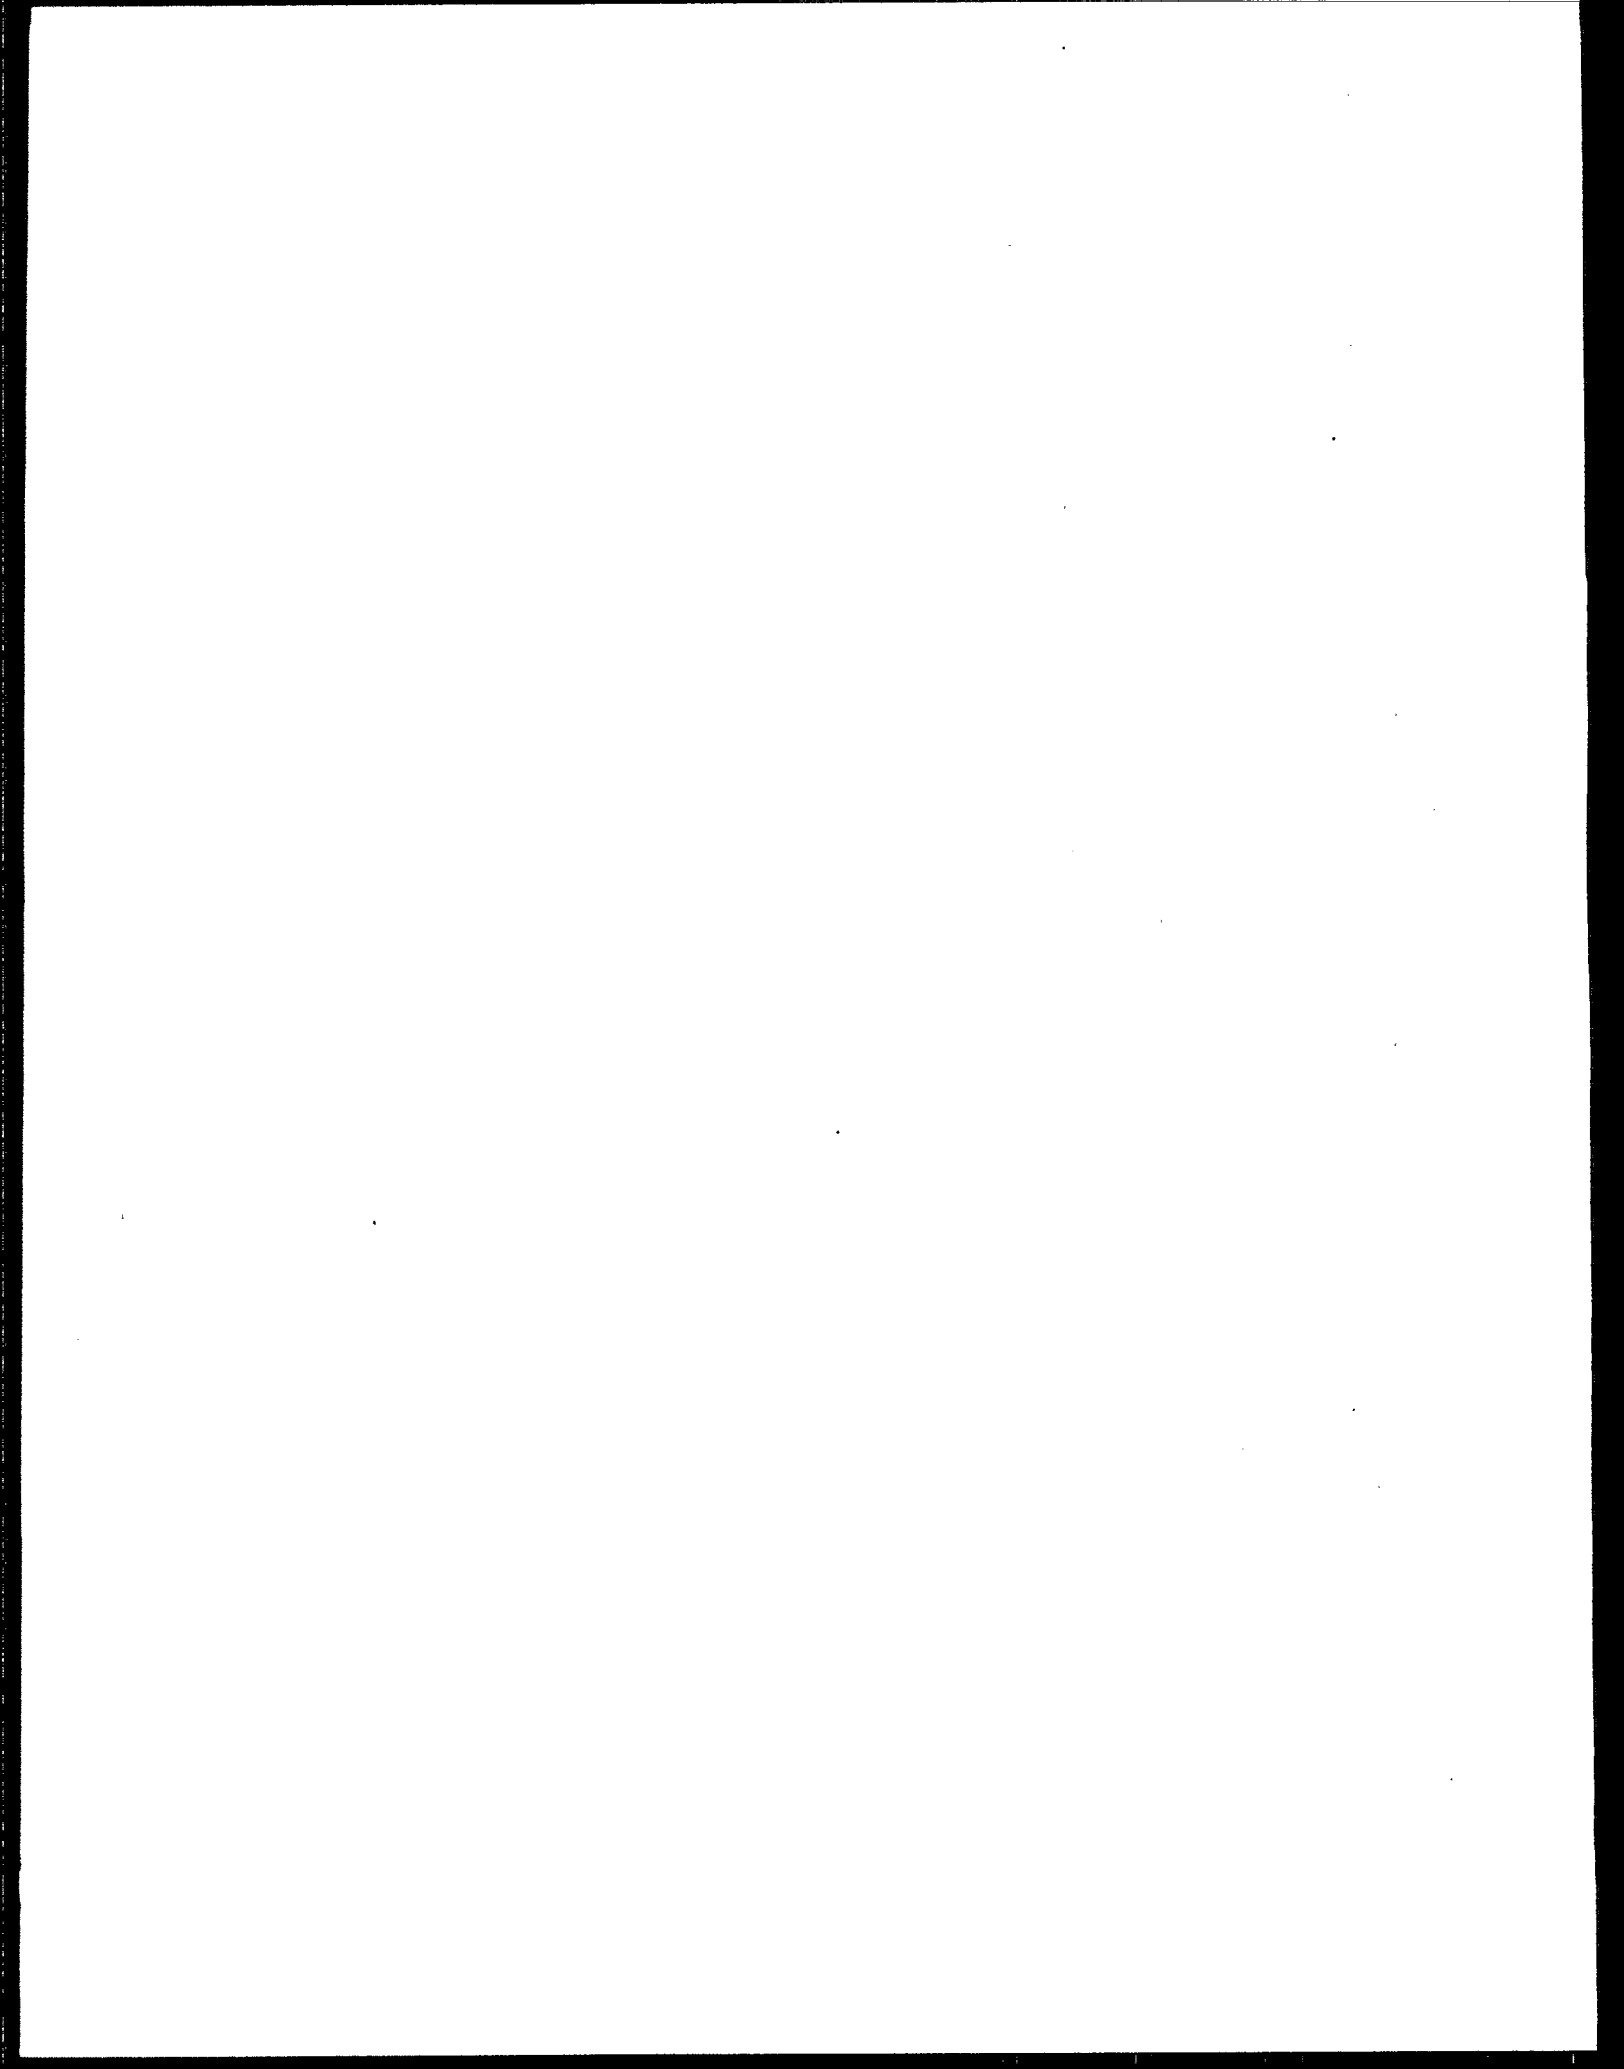

Each listing is based on information provided by the manufacturer. Product information has not been verified, and no guarantee, expressed or implied, is made as to the accuracy or completeness of the information provided. Inclusion in this listing does not represent an endorsement by EPA.

For information on, or copies of, the CPG, contact EPA's RCRA Hotline at 800 424-9346 or access EPA's Reduce, Reuse, Recycle...Through Procurement Website at www.epa.gov/epaoswer/non-hw/.

This list contains information on the following products or supplies:

TISSUE PRODUCTS

A list of definitions is included.

TISSUE PRODUCTS

The Park Avenue Plus line is 100 percent recycled with more than 30 percent postconsumer fiber, except for the napkins which are at least 10 percent postconsumer fiber.

DEFINITIONS

TISSUE PAPER

Category of papers characterized by extreme lightness and transparency. Used to manufacture a broad range of products including napkins, bathroom and facial tissue, sanitary products, wrapping material, protective packing paper, stock for waxing and twisting, etc.

TOWELLING PAPER

A class of highly absorbent paper with fairly good strength properties. It is made especially for industrial domestic, and institutional wiping purposes.
