

Drinking Water State Revolving Fund (DWSRF) Annual State Allotments

Summary

Beginning with fiscal year 1998 appropriations, section 1452(a)(1)(D)(ii) of the Safe Drinking Water Act (SDWA), requires the Environmental Protection Agency (EPA) to allot funds to each state based on the state's proportional share of total eligible needs reported for the most recent Drinking Water Infrastructure Needs Survey conducted under section 1452(h) of the SDWA. The minimum proportional share that each state can receive is one percent of funds available for allotment to all of the states.

Background

The funds available for allotment to the states for capitalization grants are those funds appropriated by Congress under section 1452 of the SDWA less the national set-asides. These national set-asides include: Indian Tribes/ Alaska Native Villages, health effects studies, unregulated contaminant monitoring, small system technical assistance, and operator training reimbursement.

About the Needs Survey

The Drinking Water Infrastructure Needs Survey, First Report to Congress (EPA 812-R-97-001) was presented to Congress on January 29, 1997. Prior to finalizing this January 1997 report, EPA solicited public comment on six options for using the results to determine the allotment formula for fiscal year 1998, 1999, 2000, and 2001 appropriations and finalized the allotment formula in the **Federal Register** (62 FR 12900) on March 18, 1997. Subsequent Drinking Water Infrastructure Needs Surveys are due to Congress every four years after the January 1997 report. The state allotment formula for fiscal year 2002 appropriations and subsequent appropriations will be adjusted to reflect the needs identified in the most recently published report.

Allotment to Other Jurisdictions and the District of Columbia

Section 1452(j) of the SDWA requires the Administrator to reserve up to 0.33 percent of the funds available for allotment to the states to provide grants to the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, and Guam. Section 1452(a)(1)(D) of the SDWA requires the Administrator to reserve one percent of the funds available for allotment to the states to provide grants to the District of Columbia. These grants are administered by the EPA Regional Offices.

How to Get Additional Information

Information about the Drinking Water State Revolving Fund Program, including reports on recent annual allotments to the states can be found at: <http://www.epa.gov/safewater/dwsrf.html#Facts>
