# Labeling Alert

Number 1

July 1996

**TO:** Manufacturers, Formulators, Producers and Registrants  
of Pesticide Products

**FROM:** The Labeling Unit 7505W  
Protecting Life Through Better Pesticide Labeling

**SUBJECT:** *Availability of Supplemental Labeling Under  
FIFRA §24(c)*

**Background:** As provided by EPA's regulation [40 CFR 162.153(e)] the 24(c) supplemental label must accompany the federally (FIFRA section 3) registered product. When the state issues the Special Local Needs, 24(c) registration, the SLN registrant should assure that the 24(c) label is made available to purchasers who wish to use the product for the SLN use.

**Alert:** If you have been issued a 24(c) registration supplemental label in any state, you should take necessary steps to assure that the supplemental label is made available to purchasers who wish to use the product for the SLN use. If you do not hold a 24(c) state registration supplemental label, but plan to register one in the future, you should be aware of your obligation to provide supplemental labels to purchasers and users of the product.
