QUARTERLY LIST
POLLUTION PREVENTION RESOURCES
Spring 2002

The Clearinghouse is primarily a distribution center for EPA documents and fact sheets dealing with source reduction and pollution prevention. It also provides a reference and referral service for pollution prevention questions.

Note: Resources for which URLs are provided should be accessed online. Documents without URLs listed may be ordered with the order form at the end of this list.

Order documents by writing the EPA Publication Number on the attached order form. Mail, call, fax, or e-mail requests to the address and numbers above. Documents can also be ordered online at www.epa.gov/opptintr/library/ppicdist.htm. EPA documents and fact sheets are provided at no cost based on availability.

Many older pollution prevention documents no longer distributed in hard copy are available on the PPIC Archive web page, at: <http://www.epa.gov/opptintr/library/ppicarchive.htm>.

**PLEASE ALLOW 3 WEEKS FOR DELIVERY AND LIMIT YOUR REQUEST TO A
TOTAL OF TEN (10) ITEMS.**

P2 STATE GRANTS

EPA's **P2 Grants** promote P2 at the state, tribal, and local levels. Grant programs include Pollution Prevention Incentives for States (PPIS), Environmental Justice through Pollution Prevention (EJP2), and the Pollution Prevention Resource Exchange (P2RX).

<http://www.epa.gov/p2/programs/grants.htm>

Pollution Prevention Incentives for States (PPIS)

The **Pollution Prevention Incentives for States** grants program is announced each year in the Federal Register. EPA provides about \$5 million annually through PPIS to help develop and sustain state P2 program activities and to pioneer new P2 approaches in the states.

COMPLIANCE ASSISTANCE

(Sector Notebooks - P2 & Enforcement - Federal Facilities -
Assistance Centers)

SECTOR NOTEBOOKS

The EPA's Office of Compliance has developed a series of profiles or **Industry Sector Notebooks** containing information on selected major industries, including dry cleaning, printing, and wood furniture. Each notebook provides comprehensive industrial process information, regulatory requirements, and pollution prevention techniques. These documents may be viewed online, or printed copies can be ordered for a fee (between \$6 and \$25, depending on length) from the Government Printing Office by calling 202-512-1800.

<http://es.epa.gov/oeca/sector/>

P2 & ENFORCEMENT

Supplemental Environmental Projects (SEPs) are environmental projects that a violator voluntarily agrees to as part of the settlement of an enforcement action. EPA's **Supplemental Environmental Projects web site** provides guidance documents and a database of information on cases that have included SEPs.

ASSISTANCE CENTERS

The U.S. Environmental Protection Agency, in partnership with industry, academic institutions, environmental groups, other federal and state agencies and local governments, has established ten sector specific **Compliance Assistance Centers**. Visit the Centers for comprehensive, easy to understand compliance information targeted specifically to each sector's needs. Includes centers for Automotive Service and Repair, Paints and Coatings, Chemical Manufacturing, Printed Wiring Boards, Local Government, Printers, Agriculture, Transportation, Metal Finishing, and Federal Government.

<http://www.assistancecenters.net/>

Visit EPA's **National Compliance Assistance Clearinghouse** for additional links to compliance assistance resources on the Internet, provided by EPA, other federal agencies, State and local governments, Tribal agencies, and other online sources.

TOXICS IN THE ENVIRONMENT

(PBT Strategy - Hospitals for a Healthy Environment)

PBT STRATEGY

EPA's cross-program **Persistent, Bioaccumulative, and Toxic (PBT) Pollutants Program** is working to further reduce risks to human health and the environment from existing and future exposure to priority PBT pollutants. While the Program emphasizes prevention as a means to stop the transfer of PBT pollutants across environmental media, it is designed to utilize all of the Agency's tools.

HOSPITALS FOR A HEALTHY ENVIRONMENT

Hospitals for a Healthy Environment (H2E) is an effort led by the American Hospital Association and the U.S. EPA to advance pollution prevention efforts in our nation's hospitals. Through activities such as the development of best practices, model plans for total waste management, resource directories, and case studies, the project hopes to provide hospitals and healthcare systems with enhanced tools for minimizing the volumes of waste generated and the production of persistent, bioaccumulative and toxic pollutants.

GENERAL DfE INFORMATION

Design for the Environment is an example of EPA-industry partnerships which promote the design of safer products and processes in areas such as dry cleaning, screen printing, and electronics.
