

MAR 30 1998

NOTICE

Please note that Table 11-8 and Table 11-9 in Chapter 11 of the "Development Document for Proposed Effluent Limitations Guidelines and Standards for the Landfills Point Source Category" (EPA-821-R-97-022) published in January 1998 are incorrect. The numbers in the last two columns of these tables should have been reversed. Please refer to the following revised Tables 11-8 and 11-9 for the correct versions of the tables. We apologize for the error.

Table 11-8: Annual Pollutant Discharge Before and After the Implementation of BPT for Subtitle D Municipal Solid Waste Landfill Facilities in the Non-Hazardous Subcategory

Pollutant Group	Current Annual Pollutant Discharge (pounds)	Annual Pollutant Discharge After Implementation of BPT (pounds)	Annual Amount of Pollutants Removed by BPT (pounds)
Conventional Pollutants	810,000	132,600	677,400
Nonconventional Pollutants	17,700,000	14,670,000	3,030,000
Metal Pollutants	6,300	2,000	4,300
Organic Pollutants	23,800	900	22,900
Pesticides	40	28	12
Dioxins/ Furans	0.0	0.0	0.0

Table 11-9: Annual Pollutant Discharge Before and After The Implementation of BPT for Subtitle D Non-Municipal Landfill Facilities in the Non-Hazardous Subcategory

Pollutant Group	Current Annual Pollutant Discharge (pounds)	Annual Pollutant Discharge After Implementation of BPT (pounds)	Annual Amount of Pollutants Removed by BPT (pounds)
Conventional Pollutants	204,000	46,000	158,000
Nonconventional Pollutants	13,500,000	7,900,000	5,600,000
Metal Pollutants	11,900	1,100	10,800
Organic Pollutants	208	74	134
Pesticides	1,500	730	770
Dioxins/ Furans	0.0	0.0	0.0
