OFFICE OF WASTEWATER MANAGEMENT

The U.S. Environmental Protection Agency's (EPA) Office of Wastewater Management (OWM) oversees a range of programs contributing to the well-being of our nation's waters and watersheds. Through its programs and initiatives, OWM promotes compliance with the requirements of the Federal Water Pollution Control Act, commonly referred to as the Clean Water Act. Activities include:

- Direction of the National Pollutant Discharge Elimination System (NPDES) Permit Program, including storm water management, and control of combined sewer and sanitary sewer overflows.
- Oversight of a pretreatment program, emphasizing control and prevention of water pollution from industrial facilities.
- Management of the sludge (biosolids) permitting program, including promotion of the beneficial use of biosolids.
- Administration of the State Revolving Fund (SRF) and the Clean Water Act Section 106 and 104(b)(3) grant programs for environmental infrastructure investment.
- Completion and closeout of the wastewater Construction Grants Program.
- Provision of technical advice and training to industries and municipalities, in an effort to improve compliance with wastewater regulatory requirements.
- Support of the North American Free Trade Agreement (NAFTA) environmental infrastructure program in the U.S.-Mexico border area.

Clean Water Act Overview¹

The principal law governing pollution of the Nation's waterways is the Federal Water Pollution Control Act, or Clean Water Act. Originally enacted in 1948, it was totally revised by amendments in 1972 that gave the Act its current shape. The 1972 legislation spelled out ambitious programs for water quality improvement that are still being implemented by industries and municipalities. Congress made certain fine-tuning amendments in 1977, revised portions of the law in 1981, and enacted further amendments in 1987.

The Clean Water Act has as its objective the restoration and maintenance of the "chemical, physical, and biological integrity of the Nation's waters." Two goals also were established in the 1972 legislation: zero discharge of pollutants by 1985 and, as interim goals and where possible, water quality that is both "fishable and swimmable" by mid-1983. While those dates have passed, the goals remain, and efforts to attain the goals continue. Major parts of the Act are title II and title IV provisions which authorize Federal financial assistance for municipal sewage treatment plant construction and regulatory requirements, found throughout the Act, that apply to industrial and municipal dischargers.

The Act has been termed as a technology-forcing statute because of the rigorous demands placed on those who are regulated by it to achieve higher and higher levels of pollution abatement. Industries were given until July 1, 1977, to install "best practicable control technology" (BPT) to clean up waste discharges. The Clean Water Act required greater pollutant cleanup than BPT by no later than March 31, 1989, generally demanding that industry use the "best available technology" (BAT) that is economically achievable. In addition to the BPT and BAT national standards, States are required to implement control strategies for so-called "toxic hot spots" — waters expected to remain polluted by toxic chemicals even after industrial dischargers have installed the best available cleanup technologies required under the law.

The Environmental Protection Agency (EPA) issues regulations containing BPT and BAT effluent standards applicable to categories of industrial sources (such as iron and steel manufacturing, organic chemical manufacturing, petroleum refining, and others). Certain responsibilities are delegated to the States, and this Act, like other environmental laws, embodies a philosophy of Federal-State partnership in which the Federal government sets the agenda and standards for pollution abatement while States carry out day-to-day activities of implementation and enforcement. In addition, states are responsible for establishing water quality standards, which consist of a designated use (recreation, water supply, industrial, or other), plus a numerical or narrative statement identifying the maximum concentrations of various pollutants which would not interfere with the designated use. These standards serve as the backup to Federally set technology-based requirements, by indicating where additional pollution controls are needed to achieve the overall goals of the Act.

While the Act imposes great technological demands, it also recognizes the need for comprehensive research on water quality problems. This is provided throughout the statute, on topics including pollution in the Great Lakes and Chesapeake Bay, in-place toxic pollutants in harbors and navigable waterways, and water pollution resulting from mine drainage. The Act provides support to train personnel who operate and maintain wastewater treatment facilities.

HOW TO USE THIS CATALOG

General Information

Many publications in this catalog are distributed free of charge by the EPA's Office of Wastewater Management (OWM). The Office of Wastewater Management distributes documents through the EPA Office of Water Resource Center (WRC). The WRC distributes one free copy of each publication to each customer until supplies are depleted.

When OWM's supply of a publication is depleted, requestors are referred to either the National Technical Information Service (NTIS) or the Educational Resources Information Center (ERIC). These clearinghouses provide copies of OWM publications for a fee.

Catalog Organization

This catalog divides the documents into fifteen broad subject sections: 1) Biosolids; 2) Construction Grants; 3) Environmental Impact Statements; 4) Federal Registers; 5) Finance; 6) Needs & Assessments; 7) Operation and Maintenance; 8) Permitting Issues; 9) Pollution Prevention and Control; 10) Pretreatment; 11) Small Communities; 12) Storm Water/Combined Sewer Overflows; 13) Treatment; 14) Water Conservation & Efficiency; 15) Water Quality & Standards; 16) Miscellaneous.

The Office of Wastewater Management has assigned most documents a unique EPA number to assist in tracking the document. Documents without EPA numbers are tracked by title.

ORDERING DOCUMENTS FROM WRC

You may order EPA Office of Water documents from WRC the following ways:

- 1) Call the WRC voice mail request line at (202) 260-7786 and order the document by title and EPA number,
- 2) Mail your request to:

U.S. Environmental Protection Agency
Office of Water Resource Center
RC-4100
401 M St., SW
Washington, DC 20460
- 3) Place your order via Internet: waterpubs@epamail.epa.gov
- 4) Fax your request to WRC at (202) 260-0386.

ORDERING DOCUMENTS FROM NCEPI

You may order EPA documents from NCEPI the following ways:

- 1) Call NCEPI at (513) 891-6561 and order documents by EPA number,
- 2) Mail your request to:

National Center for Environmental Publications & Information
11029 Kenwood Rd.
Cincinnati, OH 45242

- 3) Fax your request to NCEPI at (513) 489-8695

Please allow 2-3 weeks for delivery. Documents may be sent by Federal Express at the requestor's expense.

ORDERING DOCUMENTS FROM NTIS

Extensive ordering information is provided on the NTIS order form on the following page. Orders should be placed using the NTIS# given in the catalog entry as the order number. Additionally, NTIS provides customized services to clients with special needs. Please inquire if you have any questions.

ORDERING DOCUMENTS FROM ERIC

Ordering Information is provided on the ERIC order form. Orders should be placed using the ERIC# given in the catalog entry as the order number. Additionally, you may order publications and search the ERIC publications catalog at its Internet Address: <<http://www.aspensys.com/eric>>.

Generalized Methodology for Conducting Industrial Toxicity Reduction Evaluations (TRES)	41
Generic Facilities Plan for a Small Community: Stabilization Pond and Oxidation Ditch	56
Generic Speech for Presentation on OMPC's Small-Community Outreach and Education Program (Memorandum)	56
Glossary of Environmental Terms and Acronym List	97
Grants and Loans for Municipal Water Supply and Wastewater Treatment Systems: Water Conservation Provisions--Final Report of Task Force 11, July 30, 1979	25
Grants Information and Control System Directory - GICS	25
Granular Activated Carbon Systems: Problems and Remedies [Brochure]	73
Guidance Document for Testing and Permitting Sewage Sludge Incinerators	2
Guidance for Conducting a Pretreatment Compliance Inspection (PCI)	51
Guidance for Developing Control Authority Enforcement Response Plans	41
Guidance for Evaluating the Adverse Impact of Cooling Water Intake Structures on the Aquatic Environment: Section 316(b) P.L. 92-500 (Draft)	41
Guidance for Implementing RCRA Permit-by-Rule Requirements at POTWs	51
Guidance for NPDES Compliance Inspectors: Evaluating Sludge Treatment Processes	41
Guidance for NPDES Compliance Inspectors: Verifying Compliance with Sludge Requirements	41
Guidance for Preparing A Facility Plan: Municipal Wastewater Treatment Works Construction Grants Program.....	51
Guidance for Reporting and Evaluating POTW Noncompliance with Pretreatment Implementation Requirements	51
Guidance for Sewer System Evaluation	73
Guidance for the Determination of Appropriate Methods for the Detection of Section 313 Water Priority Chemicals	61
Guidance for the Preparation of Discharge Monitoring Reports: Facilities Required to Report Semi-Annual Monitoring Results Under the NPDES Storm Water General Permits, April 1994 Rev.	61

DOCUMENT TITLE INDEX

Guidance for Writing Case-by Case Permit Requirements for Municipal Sewage Sludge	3
Guidance for Writing Permits for the Use or Disposal of Sewage Sludge (Final Draft)	3
Guidance Manual for Conducting RCRA Facility Assessments at Publicly Owned Treatment Works	51
Guidance Manual for Control of Slug Loadings to POTWs	53
Guidance Manual for Developing Best Management Practices (BMP)	41
Guidance Manual for POTW Pretreatment Program Development	52
Guidance Manual for POTWs to Calculate the Economic Benefit of Noncompliance	42
Guidance Manual for Preparation and Review of Removal Credit Applications	42
Guidance Manual for Preventing Interference at POTWs	42
Guidance Manual for the Identification of Hazardous Wastes Delivered to Publicly Owned Treatment Works by Truck, Rail, or Dedicated Pipe	61
Guidance Manual for the Preparation of NPDES Permit Applications for Storm Water Discharges Associated with Industrial Activity	61
Guidance Manual for the Preparation of Part 1 of the NPDES Permit Applications for Discharges from Municipal separate Storm Sewer Systems, April 1991	61
Guidance Manual for the Preparation of Part 2 of the NPDES Permit Applications for Discharges from Municipal Separate Storm Sewer Systems, November 1992	61
Guidance Manual for the Use of Production Based Pretreatment Standards and the Combined Wastestream Formula	52
Guidance Manual on the Development and Implementation of Local Discharge Limitations Under the Pretreatment Program -	52
Guidance Manual on the Development and Implementation of Local Discharge Limitations Under the Pretreatment Volume 1	52
Guidance Manual on the Development and Implementation of Local Discharge Limitations Under the Pretreatment Program - Volume 2 - Appendices	52
Guidance Manual on the Development and Implementation of Local Discharge Limitations Under the Pretreatment Program	52
Guidance on the Use of Section 504 of the Clean Water Act (the Emergency Powers Provision)	98
Guidance to POTWs for Enforcement of Categorical Standards, November 5 1984, Memorandum	52
Guidance to Protect POTW Workers from Toxic and Reactive Gases and Vapors	52
Guide for States on the Proposed Consolidated Permit Regulations	41
Guide Manual on NPDES Regulations for Concentrated Animal Feeding Operations; Final	91
Guide to Discharging CERCLA Aqueous Wastes to Publicly Owned Treatment Works (POTWs)	52
Guide to Federal Environmental Requirements for Small Governments	56
Guide to Regulations and Guidance for the Utilization and Disposal of Municipal Sludge	3

DOCUMENT TITLE INDEX

Guide to Septage Treatment and Disposal	3
Guide to Soil Suitability and Site Selection for Beneficial Use of Sewage Sludge	3
Guide to Technical Resources for the Design of Land Disposal Facilities	73
Guide to the Biosolids Risk Assessments for the EPA Part 503 Rule	3
Guide to the Consolidated Application Form (Draft)	42
Guide to the Consolidated Application Form	42
Guide to the Federal Part 503 Rule for the Use or Disposal of Sewage Sludge (Draft)	3
Guide to the Proposed Consolidated Permit Regulations	42
Guide to the Selection of Cost-Effective Wastewater Treatment Systems	73
Guidelines and Requirements for Applying for Grants from the Indian Set-Aside Program.	25
Guidelines for Implementing the Hardship Grants Program for Rural Communities, March 1997.	25
Guidelines for Over viewing Construction Grant Activities Conducted under the Interagency Agreement with the Corps of Engineers, February 1984.	25
Guidelines for Water Reuse	88
Guidelines for the Culture of Fathead Minnows Pimephales Promelas for Use in Toxicity Tests	92
Guides to Pollution Prevention: Non-Agricultural Pesticide	46
Guides to Pollution Prevention: The Commercial Printing Industry	46
Guides to Pollution Prevention: The Fabricated Metal Products Industry	46
Guides to Pollution Prevention: Wood Preserving Industry	46
Guides to Pollution Prevention: Municipal Pretreatment Programs	88
