INTRODUCTION

This is the fourteenth edition of the Journal Holdings Report for the United States Environmental Protection Agency Library Network. The purpose of the Report is to improve access to journal articles, and to encourage resource sharing.

The approximately 3,600 titles and 12,000 holdings represent a wealth of data available from the libraries at EPA Headquarters, Regions and Laboratories. All EPA network libraries reported their journal holdings for inclusion in this report.

Journals are listed alphabetically by title. After each title the libraries that own the journal are listed alphabetically by their OCLC symbol, showing their holdings.

A legend for these libraries and a sample entry appear on the next few pages. The report also contains the Interlibrary Loan policies for the 28 EPA libraries. This will serve to increase the use of our collections and aid our efforts to cooperate as a network.
