HAZARDOUS WASTE SUPERFUND COLLECTION AND DATABASE

■ The Hazardous Waste Superfund Collection (HWSFC) is a special EPA Headquarters Library Collection on the subject of hazardous waste. Access to the Collection is enhanced by a Database (HWSFD) of bibliographic entries which correspond to each item in the Collection. The EPA Information Access Branch is responsible for the contents and maintenance of the Collection and Database.

GOALS

The Collection and Database:

- Provide a unified resource of major hazardous waste reports, books and journals available through the EPA Library Network.
- Provide current information to assist EPA staff in making timely and effective policy and regulatory policy decisions.
- Assist in the transfer of hazardous waste information from the EPA to the states as part of the Agency's technology transfer effort.

CONTENTS

- Continually growing, the Collection contains books and journals, legislation and regulations, reports from Federal agencies, Office of Solid Waste and Emergency Response (OSWER) policy and guidance directives and EPA reports from selected program offices.
- The Database mirrors the contents of the Collection. A user can search the Database with little or no computer experience.

ACCESS

■ The Hazardous Waste Superfund Collection is available for use in the EPA Headquarters Library. Selected documents from the Collection are distributed to the 10 EPA Regional libraries and laboratories in Ada, OK; Cincinnati, OH; Edison, NJ; Las Vegas, NV; Research Triangle Park, NC and the National Enforcement Investigations Center (NEIC) in Denver, CO.

■ The Database is updated quarterly and reflects ongoing acquisitions to the Collection.

■ The Database is available to the public through the EPA Online Library System (OLS) which resides on the EPA mainframe. To access it, the user will need a computer, modem and telecommunications software. The dial in number is (919) 549-0720. The parameters are as follows:

300-9600 baud rate
7 bits
1 stop bit
even parity

At the first prompt, the user types F to access "EPA OLS". The user then follows the prompts.
To log off, the user types Q and follows the prompts.
For user support, call: (800) 334-2405. For a user manual to OLS, call (919) 541-2777.

■ A PC version of the Database can be used at the HQ Hazardous Waste Superfund Collection Reference area. It is also on display at EPA's new Public Information Center.

For more information about the PC version call:

Felice Sacks (contractor)
Head Librarian of the HWSFC

INTRODUCTION

This publication, *Journals*, was developed to improve EPA staff access to current information in the Headquarters Library journals collection on hazardous waste Superfund topics. It is a revised edition of *Access to Journals*, April 1991.

The Headquarters Library Hazardous Waste Superfund Collection (HWSFC) provides information that supports the Office of Emergency and Remedial Response. Topics covered include Legal/Litigation, Right to Know, Superfund Sites, Regulations, Health Risks/Assessment and Technical/Chemical Information. The types of information frequently requested include current events, profiles of individuals in the news, summaries of new legislation, private sector developments and product evaluations.

Journals organizes available publications first by key subjects followed by a descriptive listing which provides: a summary of coverage, sample article titles, frequency of publication, publisher, and back issues available in the Headquarters Library. Types of journals include newsletters, bulletins, looseleaf services, and other public and private sector serials. The Appendix contains contact information for publishers listed.

In addition to journals, the Hazardous Waste Superfund Collection includes books, reports and directives necessary to the implementation of EPA's Superfund Program. Access to the full Collection is provided through the Hazardous Waste Superfund Database (HWSFD). The Database identifies and summarizes relevant information by keyword.

The Hazardous Waste Superfund Collection and Database are also available at EPA's ten Regional libraries and selected laboratory libraries. The collections at these sites may have different journals from those listed in this publication.

Other information services and products available through the Hazardous Waste Superfund Collection include bibliographies of topical subjects by keyword, orientation to information sources, current awareness updates and consultation on managing Program information.

For further information about this document or the Hazardous Waste Superfund Collection, contact the following librarians of the Hazardous Waste Superfund Collection: Felice Sacks, (contractor), Head Librarian, or Fabienne McGovern (contractor), Reference Librarian at 202/260-5934. The address is U.S. EPA Headquarters Library, Room 2904, Mail Code PM-211A, 401 M Street, SW, Washington, DC 20460.

This document is part of a series entitled Superfund Information Access Series. The series is a comprehensive guide to information resources available at the Environmental Protection Agency on the subject of the Superfund program and related hazardous waste topics. The individual publications comprising the series are as follows:

- *Guide to Key Documents and Information Sources* - describes individual document types forming the core of the Hazardous Waste Superfund Collection and categorizes the Collection according to reference type and subtopics. Provides information on obtaining publications.
- *Journals* - an annotated guide to journals and other serials covering hazardous waste topics.
- *Databases and Electronic Systems* - fact sheets on databases and bulletin board systems supported by EPA and containing data related to hazardous waste.
- *Hazardous Waste Superfund Database Users Manual* - a guide for using the online and PC versions of the Hazardous Waste Superfund Database.
- *Hazardous Waste Superfund Database Thesaurus* - a keyword guide for terms used to search the Hazardous Waste Superfund Database.
- *Legislation and Regulations* - information about legislative and regulatory sources within the Collection.
- *Building a Hazardous Waste Collection* - a "how to" book on acquiring basic items for a hazardous waste collection.

Reference herein to any specific commercial publisher or service does not constitute or imply endorsement, recommendation, or favoring by the EPA. ■

PART TWO

Descriptions of Journals

Descriptions

Bioremediation in the Field

- The Technology Innovation Office (TIO), an office within EPA's Office of Solid Waste and Emergency Response (OSWER), in conjunction with the Office of Research and Development's (ORD) Office of Technology Transfer and Regulatory Support, produces this bulletin on a regular basis to serve as the principal information transfer mechanism for the Agency's *Bioremediation Field Initiative*. The Initiative is designed to provide EPA and State project managers, consulting engineers, and industry with timely information on new developments in the application of bioremediation.
- *Sample articles:* Bioremediation Being Evaluated at the Brookhaven Wood Preserving Facility, 1991 Bioremediation Field Projects
- Quarterly Bulletin
- Issued by EPA's Technology Innovation Office
- Back Issues: 11/90-

BioCycle

- This journal presents waste recycling information, including management techniques, public policy, research, and commercial waste profiles. It also provides: abstracts on journal articles appearing in waste recycling literature; book reviews; market development/industry news and a regional roundup of recycling events.
- *Sample articles:* Yard waste composting enters a new dimension, Boston moves to end harbor dumping, The back end of steel can recycling
- Monthly Journal
- Publisher: The J.G. Press, Inc.
- Back Issues: 1/81- Irregular

Biotreatment News

- Covers the field of biotreatment including regulatory, policy and congressional actions impacting the technology, reports on cleanups and pilot demonstrations, and the international biotreatment market. Contains conference announcements and calls for papers.
- *Sample articles:* Lockheed Demonstrates New Oil Slick Control Process, BAC Releases Report on 132 Bioremediation Case Studies
- *Special Feature:* a "Perspective" column which presents papers on a variety of biotreatment topics.
- Monthly Newspaper
- Publisher: DEVO Enterprises, Inc.
- Back Issues: 1992-

Chemicals-in-Progress Bulletin

- Covers EPA policy for chemicals controlled under TSCA and SARA, Title III, including technical information and regulatory issues such as statutory reporting requirements.
- Monthly Newsletter
- Issued by EPA's Office of Toxic Substances
- Back Issues: Irregular

Chemical Substances Control

- A briefing on the impact of chemical regulation on industry policies and practices, including litigation and regulatory action. Contains State information.
- *Sample articles:* Superfund site cleanups delayed by budget cuts, Toxicity characteristic rule takes effect, Benzene standard for TSDFs is clarified
- Bi-weekly Newsletter
- Publisher: The Bureau of National Affairs, Inc.
- Back Issues: 5/88-

Community and Worker Right-To-Know News

- Reports on chemical disclosure requirements, hazardous communication and industry liability, as well as emergency response programs. Provides abstracts of regulations (State and Federal), legislation, notices of meetings and publications relating to right-to-know issues under SARA Title III.
- *Sample articles:* EPA announces 9 companies to reduce emissions, Citizen suits filed under Title III, NWF sees "phantom reductions" in TRI figures
- Bi-monthly Newsletter
- Publisher: Thompson Publishing Group
- Back Issues: Irregular

Dangerous Properties of Industrial Materials Report

- Supplements hard copy volumes of a similar title. Provides chemical reviews of hazardous substances. Data for each chemical typically includes: synonyms, properties, storage and handling, toxicity and statutory/Federal Register citations. Environmental impact information as well as bibliographic references are also presented.
- Bi-monthly Journal
- Publisher: Van Nostrand Reinhold Co., Inc.
- Back Issues: 1/88-

Defense Plant Wastes

- Provides short articles (event-related) on defense plant wastes, primarily focusing on DOE and DOD activities. Format similar to *Solid Waste Report* and *Nuclear Waste News*. Cites reports and contacts as well as grants and contracts.
- *Sample articles:* DOD making strides in environment, EPA signs letters of intent with

Florida Naval air stations, First site-specific plan released for Nevada test site

- Bi-weekly Newsletter
- Publisher: Business Publishers, Inc.
- Back Issues: 12/89- (*Also available through DIALOG and NEWSNET*)

Engineering Bulletin

- The Engineering Bulletins are a series of documents that summarize the latest information available on selected treatment and site remediation technologies and related issues. They provide summaries of and references for the latest information to help remedial project managers, on-scene coordinators, contractors, and other site cleanup managers understand the type of data and site characteristics needed to evaluate a technology for potential applicability to their Superfund or other hazardous waste site.
- Irregular Bulletin
- Publisher: EPA's Office of Research and Development
- Back Issues: 9/90- Irregular

Environmental Hotline

- A source for interpreting complex environmental regulations, including hazardous waste issues. Notes enforcement action, penalties and explains the impact of certain regulations.
- Monthly Newsletter (temporarily discontinued)
- Publisher: Prindle•Hinds Environmental, Inc.
- Back Issues: Irregular

Environmental Progress

- Published by the American Institute of Chemical Engineers, this publication deals with multi-faceted aspects of the pollution problem. It provides coverage of abatement, control and containment of effluents and emissions within compliance standards. Progress and technological advances for the environmental engineer are reported.
- Quarterly Journal
- Publisher: American Institute of Chemical Engineers
- Back Issues: 5/92-

Environmental Regulation (formerly Waste Disposal and Pollution Control)

- An impartial analysis of State and municipal legislative and regulatory trends of nationwide significance in the area of air pollution, water quality, solid and hazardous waste. Includes contracts and company news.
- *Sample articles:* Alabama says hazardous waste fee isn't a tax, New York City fining recycling violators
- Published as part of the "State Capitals" series
- Monthly Newsletter
- Publisher: Wakeman/Walworth, Inc.
- Back Issues: 1/88-

Environmental Regulatory Advisor (formerly Hazardous Substances Advisor)

- An in-depth look at Congressional and regulatory activity to control, monitor or eliminate hazards created by hazardous and toxic substances. Issues are divided into Federal News; State Activity and Right-to-Know articles. Provides more extensive analysis on State and Federal regulations than most newsletters. Also cites references for obtaining documents.
- *Sample articles:* Ozone depleting chemicals added to 313, EPA issues corrections to rules for land disposal restrictions, RCRA implementation study available
- Monthly Report
- Publisher: J.J. Keller & Associates, Inc.
- Back Issues: 7/90-

Federal Facilities Environmental Journal

- Presents issues concerning environmental cleanups, techniques and regulatory matters associated with Federal facilities. Some journal articles are submitted by personnel actively involved at these sites.
- *Sample articles:* Rules, Risks, and Techniques of UST Closure, Strategies for Redeveloping Closed Bases
- *Special Features:* Regular columns on "Enforcement Actions", DOE Developments", and "DOD Developments"
- Quarterly Journal
- Publisher: Executive Enterprises Publications, Co., Inc.
- Back Issues: 1992-

Garbage

- Advertised as the "Practical Journal for the Environment", this magazine presents information for the household consumer on waste management in the U.S. focusing in particular on recycling and other practical decisions for disposing of wastes. Special features include a Reader Service which details company catalogs and brochures; Ask Garbage, a column which answers questions on everything from disposing chemical pesticides to recycling phone books; and Keepers, which discusses new products, games, books relating to "garbage."
- *Sample articles:* The making of markets for recyclables, Apartment recycling
- Bi-monthly Journal
- Publisher: Old House Journal Corp.
- Back Issues: 11/12/90 -

Hazard Communication Guide

- Provides a comprehensive reference source for compliance to Federal (OSHA Hazard Communication Standard) and State Right-to-Know standards. It includes SIC codes, substance lists, labeling and material safety data sheet requirements, and information on employee training programs.
- Looseleaf Service (Semi-annual update: Jan./July)

-
- Publisher: J.J. Keller & Associates, Inc.
 - Call Number: HW KF 3570 H39

Hazardous & Solid Waste Minimization & Recycling Report

- Presents more in-depth information than other newsletters on topics relating to waste minimization. Publication is divided into the following areas: National Scene, Federal Report, State Scene, Case Study, Recently Recognized (Corporations), Profile (interviews), Technical Notes, Waste Minimization Reflections (analysis of a topical issue), Waste Minimization Tips and a Calendar of events. Good for analysis of legislation.
- *Sample articles:* Senate hearings spark debate over Federal role in recycling, Louisiana ponders changes in waste reduction law, Mideast crisis: the energy-environment prevention connection
- Monthly Newsletter
- Publisher: Government Institutes, Inc.
- Back Issues: 8/87-

Hazardous Materials Control

- Provides in-depth, comprehensive analyses of current Superfund issues. Includes technical, legal and financial articles, new products and State focus.
- *Sample articles:* In situ vapor stripping: results of a year-long pilot study, Estimating the cost of remedial action, The Department of Energy's Cleanup: a look at the cost
- Bi-monthly Journal
- Publisher: Hazardous Materials Control Resources, Inc.
- Back Issues: 1/88-

Hazardous Materials Intelligence Report

- An international weekly on hazardous materials and hazardous wastes, presenting in-depth articles on regulatory, legislative, State and global issues relating to hazardous waste. Includes sources for documents cited, Federal regulatory summaries, notices of meetings, consent decrees, contract opportunities.
- *Sample articles:* Report finds surety bond problems raise Superfund costs, Largest bankruptcy settlement reached at Superfund site
- Weekly Newsletter
- Publisher: World Information Systems
- Back Issues: 11/87- (*Also available through NEWSNET*)

Hazardous Materials Technical Center (HMTC) Abstract Bulletin & Update

- HMTC, located in the Washington, DC. area, is a service of the Defense Logistics Agency and is under contract with the Dynamac Corporation.

Newsletter: primarily focuses on hazardous waste events, reports, regulatory information and technical subjects of interest to DOD personnel. Calendar of events is extensive. The Federal Register Report is a cross agency summary of final and/or

proposed regulations and notices concerning hazardous materials/hazardous waste.

Bulletin: contains abstracts of selected documents summarizing current scientific-technical literature on hazardous materials and wastes screened from a variety of journals and newsletters. It focuses on the practical aspects of safety, health, storage, transportation, disposal, environmental protection, and regulatory compliance in the management of hazardous materials and wastes. The Bulletin reflects the contents of the HMTC Bibliographic Database which can be searched upon request.

- Bi-monthly Newsletter and Quarterly Bulletin (Discontinued)
- Publisher: Dynamac Corporation
- Back Issues: Irregular

Hazardous Substances Advisor (see Environmental Regulatory Advisor)

Hazardous Waste & Hazardous Materials

- Provides economic and ecological methodology for the regulation and management of hazardous wastes. Brings together the technical disciplines of chemistry, chemical engineering, civil and sanitary engineering, health and environmental sciences, policy analysis, biology, and medicine and epidemiology. The purpose of the journal is to establish industrial waste technology as a firm scientific and engineering discipline.
- *Sample articles:* Pilot-scale studies of volatile chemical emissions to air from warm water in the absence of wind, Comparison of two methods for the solidification of oily pond sludge
- Quarterly Journal
- Publisher: Mary Ann Liebert, Inc.
- Back Issues: Spring/1988-

Hazardous Waste and Toxic Torts (Law and Strategy)

- Legal interpretive slant on information about hazardous waste and toxic substances; provides summaries on court cases, settlements, legislative and regulatory information, state and world events, and financial analyses as well as featured articles.
- *Sample articles:* EPA interprets CERCLA's secured creditor exemptions, Ten years of CERCLA, Two states get tough with environmental law
- Monthly Newsletter
- Publisher: Leader Publications
- Back Issues: 9/87-

The Hazardous Waste Consultant

- Presents regulatory, legal and legislative issues in the area of hazardous wastes. Also includes technical articles with bibliographic references. Contains a book and software review section. Provides in-depth analysis of Federal Regulations, including CFRs affected, comments to date and other background information. Summarizes all recent regulations and legal cases as well as current issues relating to hazardous waste.
- *Sample articles:* In situ vitrification update, Final rule restricts hazardous waste discharges to POTWs, Waste minimization case studies

-
- Bi-monthly Journal
 - Publisher: McCoy & Associates, Inc.
 - Back Issues: 1/87-

Hazardous Waste Guide for Generators, Transporters & TSD's (formerly Hazardous Waste Management Guide)

- This Guide provides information necessary to comply with RCRA/HSWA regulations in 40 CFR Parts 260-268, 270-272, 280-281; and Parts 116-117. The book is divided into 3 sections: 1) Management Guidelines section - which contains explanatory information on compliance; identification and listing of hazardous waste; records and reports; standards applicable to generators, transporters and owners and operators of treatment, storage and disposal (TSD) facilities; permit procedures for TSDs; State programs; financial responsibility; and underground storage tanks; 2) Regulations section - which contains the actual hazardous waste regulations; and 3) Reference section - which includes important information on waste exchanges and hazardous waste spills; and reprints of RCRA and HSWA.
- Looseleaf Service (Semi-annual update: May/Nov.)
- Publisher: J.J. Keller & Associates, Inc.
- Call Number: HW Ref. KF 3946 A33 1985

Hazardous Waste Management

- As the magazine of the National Association of Hazardous Waste Generators, the journal focuses on technologies in the area of waste management. Regular features include, legal and industry news, book reviews, technology focus, new products and literature, federal register highlights, State regulatory trends and a calendar.
- *Sample articles:* Recycling of soil contaminated with petroleum products by the Amrec process, New field applications of bioremediation prove promising, Improvements in sampling equipment
- Monthly Journal
- Publisher: The National Association of Hazardous Waste Generators
- Back Issues: Irregular

Hazardous Waste News

- Provides a good summary of events around the nation with respect to hazardous waste information. Includes a current enforcement report, State information, court cases, business and contract opportunities.
- *Sample articles:* EPA adds sites to NPL, Group asks Supreme Court to order cleanup studies, Mining industry opposes new EPA controls, Technical problems delay nerve-gas incineration, DOE laboratory to test tank decontamination
- Weekly Newsletter
- Publisher: Business Publishers, Inc.
- Back Issues: 1982- (*Also available through DIALOG*)

Hazardous Waste Regulatory Guide

- Provides meaningful information on State hazardous waste regulations to generators, transporters, and owners/operators of TSD facilities. The Guide focuses on State requirements that are more stringent than the Federal requirements, such as small quantity generator exclusions, identification and listing, manifests, labeling, transporter permits, liability insurance, groundwater monitoring, and required forms. The Guide also provides information on progress in receiving final authorization from EPA, the agency which administers the program and the law which authorizes a hazardous waste management program.
- Looseleaf Service (Semi-annual update: Mar./Sept.)
- Publisher: J.J. Keller & Associates, Inc.
- Call Number: HW Ref. KF 3945.Z95 H39 1986

Hazardous Waste Report

- Provides an in-depth look at regulatory issues, EPA reports, enforcement & litigation and highlighted topics. Includes State information, business news and a calendar of meetings and seminars.
- *Sample articles:* EPA reports to Congress on mineral waste regulation, Vermont enacts toxics use reduction law
- Bi-weekly Newsletter
- Publisher: Aspen Publishers, Inc.
- Back Issues: 11/79-

Hazardous Waste Services Directory

- Provides generators with a comprehensive listing of services provided by for-hire hazardous waste disposers/treaters, transporters, consultants and laboratory facilities. Listings are organized alphabetically by state/city/name of firm. Each section begins with an index of listings.
- *Features the following sections:* Disposal/Treatment; Transporters; Laboratories; Consultants/Engineers; Specialized Services.
- Looseleaf Service (Semi-annual update: May/Nov.)
- Publisher: J.J. Keller & Associates, Inc.
- Call Number: HW Ref. TD 786 K44 1986

HAZCHEM Alert

- Provides information on hazardous chemical news throughout the world. Divided into the following areas: Washington update, News briefs, Industry talk, Toxicology report, International forum, environmental report, occupational alert, Legal briefs, HazChem reference shelf, HazChem software, Meeting news. Includes abstracts on books. References made to NEWSNET, journals, newspapers, and other citations.
- Bi-weekly Newsletter
- Publisher: Van Nostrand Reinhold
- Back Issues: 8/87-

HAZMAT News

- Advertised as “the authoritative news resource for hazardous materials control and waste management,” this newsletter provides information on CERCLA, OSHA, DOT and RCRA related activities. Provides news of publications, roundup of events in the 10 EPA regions, calendar, software review, technical articles, contracts and awards, business news, and regulatory information.
- *Sample articles:* Oak Ridge criticizes pump-&-treat policy, OSHA Revises HAZCOM
- Semi-monthly Newsletter
- Publisher: Industry Publications, Inc. (Stevens Publishing)
- Back Issues: 1/1/91-

HazMat Transport News (formerly Toxic Materials Transport)

- Provides information at the federal level: liability under the Motor Carrier Acts environmental restoration requirement--and especially the “potential for future damage” clause; the new uniform hazardous waste manifest required under RCRA and all the EPA rules; and complete coverage of DOT including the Bureau of Motor Carrier Safety, and RSPAs Office of Hazardous Materials Transportation.
- Bi-weekly Newsletter
- Publisher: Business Publishers, Inc.
- Back Issues: 1987- (*Also available through DIALOG*)

HAZMAT World

- Presents hazardous waste management issues, including technical articles, industry profiles as well as financial focus. Regular features include: Products and Services, Glossary, News and Analysis, Legal Matters, Regional news.
- *Sample articles:* Business and Hazmat management, Salt formations offer disposal alternatives, UV-Oxidation technology
- Monthly Journal
- Publisher: Tower-Borner Publishing, Inc.
- Back Issues: 10/88-

HAZNews

- Primarily international in scope, it focuses on hazardous waste management. Issues are divided into Europe, North America, World. Provides calendar of meetings and seminars, commentaries on a particular topic, people in the news, news items on products for innovative technologies
- *Sample articles:* Australian incinerator plan starts public protests, U.S. companies to reduce emissions of air toxics, French environment agency proposal criticized
- Monthly Newsletter
- Publisher: Profitastal Ltd.
- Back Issues: 10/90-

HazTECH News

- Examines waste management technologies across the country, including technical equipment, construction and operating costs, regulatory compliance, capacities and contact names.
- *Sample articles:* Spent Acids Recovered During Tests of Distillation System, Seven Technologies Selected for SITE Demonstration Program
- Bi-weekly newsletter
- Publisher: HazTECH News, Cathy H. Dombrowski, Publisher
- Back Issues: Irregular

HMCRI Focus

- Produced by the Hazardous Materials Control Research Institute, this newsletter presents conference and workshop information sponsored by the Institute. Sprinkled throughout the newsletter are current EPA news items relating to hazardous waste issues.
- Monthly Newsletter
- Publisher: Hazardous Materials Control Research Institute
- Back Issues: Irregular

Infectious Wastes News

- Provides information for generators and handlers of bio-hazardous wastes. Produced by the editors of Waste Age Magazine. Includes regulatory information.
- *Sample articles:* Medical wastes market will reach \$2.7 billion by 1996, EPA investigates complaint about out-of-state waste, AHA says waste risks are occupational
- Bi-weekly Newsletter
- Publisher: National Solid Wastes Management Association
- Back Issues: 2/89-

Inside EPA's Superfund Report

- This publication provides timely tracking of Superfund regulation, litigation and legislative policies including updated charts. The publisher sells copies of many documents cited. Each issue typically contains excerpts from the text of a topical document. The newsletter is divided as follows: Health Risks, Cleanup, Congress, States, Litigation, Contractors, Technology.
- *Sample articles:* Waste-to-fuel developer gets funding, Energy department cleanups threatened by liability rule
- Bi-weekly Newsletter
- Publisher: Inside Washington Publishers
- Back Issues: 9/87-

International Hazardous Materials Transport Manual

- Provides a comprehensive guide to regulations affecting the transport of hazardous materials internationally. Includes hazardous materials tables, and classifications, as well as information on labeling, placarding, packing and other export and import regulations.

- *Special Features:* List of Hazardous Materials by UN Number and Name; International Regulatory Bodies, BNA Combined List which provides guidance to select the proper shipping name.
- Looseleaf Service (Discontinued; updated as of 6/88)
- Publisher: The Bureau of National Affairs, Inc.
- Call Number: HW T 55.3.H3158 1987

Journal of Hazardous Materials

- Covers review papers, project reports and short communications dealing with all aspects of hazardous materials arising from their inherent physical properties. The scope of articles is wide, ranging from basic handling of hazardous materials to risk assessment and the presentation of case histories of incidents involving real hazards to employees and the public. Also included: properties of hazardous materials, safety and health hazards, legislation, assessment, including insurance, test methods, technical aspects, reliability and consequence modelling. Book reviews are also presented.
- *Sample articles:* Dense gas removal from a valley by crosswinds, Approach to a leak on an LNG tank bottom, A reciprocating pump check valve designed for supercritical water oxidation of sludges
- Bi-monthly Journal
- Publisher: Elsevier Science Publishing Co., Inc.
- Back Issues: 12/78-

Management of World Wastes (see World Wastes)

Metals Week

- A review of events, legal, financial, industry news, relating to precious metals, lead and zinc, aluminum, ferroalloys, tin, copper and light metals.
- Weekly Newsletter
- Publisher: McGraw-Hill, Inc.
- Back Issues: 1982-1991 (Subscription discontinued)

The Minimizer

- A newsletter designed to serve and inform Pennsylvania's small quantity generators of issues relating to hazardous waste. Covers events, publications, profiles, seminar and training notices and regulatory information. Includes information on recycling.
- Quarterly Newsletter
- Publisher: Ctr. for Hazardous Materials Research, U. of Pittsburgh Applied Res. Center
- Back Issues: Irregular

Monthly Hotline Report: RCRA/SF/OUST/ EPCRA

- Compilation of reports from EPA's RCRA/Superfund Hotline. Announces new publications. Issued by EPA's Office of Solid Waste.
- Monthly Looseleaf Service
- Back Issues: 1991-
- Call Number: EPAX 9202-0006

Nuclear Waste News

- Provides short articles on generation, packaging, transportation, processing, and disposal of nuclear wastes, including meetings, exhibits and seminars.
- *Sample articles:* Bill to revoke BRC policy clears House Interior Committee, Radioactive phosphorous slag creates headaches in Idaho
- Weekly Newsletter (Subscription discontinued)
- Publisher: Business Publishers, Inc.
- Back Issues: 9/87- (*Also available through DIALOG and NEWSNET*)

Oil Spill Intelligence Report

- World news briefs on events relating to oil spills. Provides references to reports and meetings.
- *Sample articles:* Exxon completes summer cleanup of Valdez, Enviro-Tech markets new effluent TOC monitor
- Weekly Newsletter
- Publisher: Cutter Information Corp.
- Back Issues: 1987- (*Also available through NEWSNET*)

OSHA Compliance Advisor

- A comprehensive roundup of events, issues and regulatory matters associated with OSHA. Features state events and Washington highlights, a Federal Register digest, a calendar of conferences and seminars, a compliance report and special articles. Provides information on toxic substances.
- Semi-monthly Newsletter
- Publisher: Business & Legal Reports, Inc.
- Back Issues: 10/8/90-

Re News Digest (Renewable Energy News Digest)

- A digest of renewable energy news. Offers interesting information on alternative energy projects, education and state activity in this area.
- Monthly Newsletter
- Publisher: Sun Words
- Back Issues: Irregular

Real Estate/Environmental Liability News

- This newsletter provides information on regulatory developments concerning commercial transactions of contaminated property. Covers EPA activities, industry practices, and lending concerns on property containing underground storage tanks. *Sample articles:* Lessee that functioned as 'owner' cannot invoke defenses under CERCLA, State of Connecticut appeals order in "innocent owner" suit
- Bi-weekly Newsletter
- Publisher: Buraff Publications
- Back Issues: 1992-

Recycling Times

- A newspaper reporting on issues related to recycling, primarily for industry. Contains notices of recycling meetings, stock and market prices and letters to the editor. Touted as the "newspaper of recycling markets."
- *Sample articles:* U.S. Recycles 34% of Steel Cans, Congress Examines the Challenges of Paper Recycling
- Bi-weekly Newspaper
- Publisher: National Solid Wastes Management Association
- Back Issues: Irregular

Recycling Today

- A journal of information on all aspects of recycling, including international, State, Federal, municipal perspectives. Provides information on products, market trends, financial analyses, meetings, people and special articles.
- *Sample articles:* America's scrap broker, Year-end aluminum outlook, Gold: riding a roller coaster
- *Special Feature:* Annual Equipment and Services Directory
- Monthly Journal
- Publisher: GIE, Inc. Publishers
- Back Issues: 1978-

Remediation

- The journal of environmental cleanup costs, technologies and techniques. Can be used as a practical as well as educational tool on remediation information.
- *Sample articles:* Treating Contaminated Groundwater Using a Fluidized-Bed Reactor, Successful Slid-Phase Bioremediation of Petroleum-Contaminated Soil
- *Special Features:* Regular columns are a "Review of Recent Publications" and "Recent Developments in Cleanup Technologies."
- Quarterly Journal
- Publisher: Executive Enterprises Publications, Co., Inc.
- Back Issues: Winter 1990/91-

Resource Recovery Report

- Provides short reviews of resource recovery progress around the nation.
- *Sample articles:* Landfill regs due soon, Product liability may elicit Senate vote, Clean Air Act - Prognosis
- Monthly Newsletter
- Publisher: Resource Recovery Report, Frank McManus, Publisher
- Back Issues: 1985--

Reuse Recycle

- The focus is on resource recycling. Articles are brief and present all facets of information on recycling of plastics, paper, cans and other packaging materials.
- *Sample articles:* A new west coast recycler of post-consumer plastic bottles, polyethylene grocery sacks will be made from recycled post-consumer polyethylene bottles
- Monthly Newsletter
- Publisher: TECHNOMIC Publishing Company, Inc.
- Back Issues: 1988- (Subscription discontinued)

Sludge

- Format similar to *Nuclear Waste News*. Covers stories on generators, treatment, utilization and disposal of sludge material. Includes legislative and regulatory items. Cites EPA reports. Scope of newsletter is federal, state and local news as well as industry highlights. Includes a calendar of upcoming events and occasionally a quote of the week.
- *Sample articles:* Measure to ban out-of-state waste killed, End of ocean dumping means pain for Long Island village
- Bi-weekly Newsletter
- Publisher: Business Publishers, Inc.
- Back Issues: 1982- (*Also available through DIALOG*)

Solid Waste & Power

- An industry-oriented journal featuring articles on recycling and waste-to-energy programs and other solid waste issues. Includes industry/product news, a calendar, and special articles.
- *Sample articles:* Designing for a changing fuel stream; The power of waste-to-energy, WTE plays a leading role overseas
- Bi-monthly Journal
- Publisher: HCI Publications
- Back Issues: 10/90-

Solid Waste Report

- Format similar to *Nuclear Waste News*. Provides brief news items on solid waste topics including resource recovery, recycling, collection and disposal. Scope is State and Federal. Provides legislative and regulatory information, profiles of people in the news and reference sources to obtain additional information.
- *Sample articles:* Liability language upheld in Pennsylvania law, DOE draft promotes waste incinerators to save on energy
- Weekly Newsletter
- Publisher: Business Publishers, Inc.
- Back Issues: 1982- (*Also available through DIALOG and NEWSNET*)

State Regulation Report - Toxic Substances & Hazardous Waste

- Brief news items similar in format to other publications by Business Publishers, Inc., provides information on State regulation of toxic substances and hazardous waste.
- *Sample articles:* Slants and Trends, Industry files suit over Alabama waste fees, EPA pondering tighter State RCRA oks, Federal rail rules prevail over Ohio
- Bi-weekly Newsletter
- Publisher: Business Publishers, Inc.
- Back Issues: 6/88- (*Also available through DIALOG*)

Superfund (see Superfund Week)

Superfund Design and Construction Update

- Covers contract information, i.e., bid tabulations, negotiated procurement, indemnification issues.
- Monthly Newsletter
- Issued by EPA's Hazardous Site Control Division to EPA Regional Offices
- Back Issues: Irregular

Superfund Records of Decision Update

- Covers information about recent Records of Decision.
- Monthly Newsletter
- Issued by EPA's Hazardous Site Control Division to EPA Regional Offices
- Back Issues: Irregular

Superfund Week (formerly Superfund)

- Summarizes recent events relating to Superfund. Contains information on consent agreements, EPA guidance issues, court cases, public hearings and pending Superfund legislation.
- *Sample articles:* PCBs guidance issued, Court nixes lender's liability, EPA panel to urge national lab accreditation program.
- Weekly Newsletter (issues before June 19, 1992 were bi-weekly)
- Publisher: Pasha Publications, Inc.
- Back Issues: 3/88- (*Also available through NEWSNET*)

Tech Trends

- Designed to be the applied technologies journal for Superfund removals, remedial actions and RCRA corrective actions.
- *Sample articles:* Innovations in monitoring and measurement, On-site bioremediation at Scott Lumber under a performance contract, In-situ vapor extraction at Hinson chemical site
- Monthly Newsletter
- Back Issues: Irregular
- Issued by EPA's Technology Innovation Office

Toxic Materials Transport (see HazMat Transport News)

Toxics Law Reporter

- A review of toxic torts, hazardous waste, and insurance litigation. Each issue typically is divided as follows: *Toxic Torts*: Environmental Exposure, Product Liability; *Hazardous Waste Law*: Criminal Liability, Federal Policy, Superfund Litigation; *Analysis & Perspective*: (feature article); Conferences and Seminars, Federal Legislation; *Table of Cases* reported. The journal is particularly comprehensive on pending litigation, court decisions, enforcement and settlements in areas relating to hazardous and toxic substances.
- *Sample articles*: Property fell within prior [NPL] listing, court says, Purchaser may be liable for response costs as "continuing enterprise", trial court says
- Weekly Newsletter
- Publisher: The Bureau of National Affairs, Inc.
- Back Issues: 2/89-

Underground Storage Tank Guide

- The Guide presents interpretations of EPA's final regulations, summaries of State tank programs, insights from experts, and the text of the law and regulations with respect to underground storage tanks. It is designed to assist in the development of a comprehensive compliance and management program for underground storage tanks. Updates are issued monthly which include a bulletin and revisions to the core text.
- *Table of Contents includes*: Overview, Petroleum Tanks, Hazardous Materials Tanks, Corrective Action, Tank Closure, Financial Requirements, Trust Funds, Enforcement and Penalties, State Programs. Appendices provide source documents relating to legislative and regulatory history, industry standards, and guidance.
- Looseleaf Service (Monthly updates)
- Publisher: Thompson Publishing Group
- Call Number: HW TD 811.5 U57 (2 vols.)

Waste Age

- Featured as the authoritative voice of waste systems and technology, this trade journal presents current issues in waste management, recycling and other related issues. Includes professional services guides, news items and special viewpoints.
- *Sample articles*: The refuse truck body buyers guide, A 'growing' interest in wastewater plants, Cincinnati's quick-start recycling program
- *Special Feature*: Waste Systems and Services Industry Yellow Pages, a complete source of waste industry services and equipment issued yearly in a separate volume.
- Monthly Journal (Not current)
- Publisher: National Solid Wastes Management Association
- Back Issues: 1/73-6/90 Irregular (Subscription discontinued)

Waste Alternatives

- Published by the editors of Waste Age, this journal provides information on disposal options. Topics cover hazardous wastes landfills and disposal, on-site treatment, disposal technology, Superfund clean-up, environmental liability, regulations, education and reference.
- Quarterly Journal (Subscription discontinued)
- Publisher: National Solid Wastes Management Association
- Back Issues: Irregular

Waste Disposal and Pollution Control (see Environmental Regulation)

Waste Management & Research

- This is the journal of the International Solid Waste and Public Cleansing Association (ISWA). It provides research papers, reports, book reviews, and forthcoming events on waste management.
- *Sample articles:* Ash disposal from incinerators, Leachate from land disposal of coal fly ash
- Bi-monthly Journal
- Publisher: Academic Press, Harcourt Brace Jovanovich Publishers
- Back Issues: 12/87-

Waste Management Today

- Consists of two journals: *News Journal* and *Bibliographic Journal*. International in scope. Subject areas include: management of non-radioactive solid, sludge, liquid and gaseous wastes including sewage sludges and domestic refuse; their disposal and recovery; and environmental hazards. Legislative and policy aspects of waste management are also covered. Order form is provided for obtaining photocopies of documents.
- *Sample articles:* Microbial removal of organic sulphur could free oil reserves, Iceland designs portable refrigerant reclaim unit, Reduced pollution claimed by Silicon Valley companies
- *Special Features:* *News Journal* summarizes events and cites references. An annotated reading list is included as well as a calendar of events. *Bibliographic Journal* is annotated, includes papers from international conferences and has a subject index.
- Monthly Journal (2 vols.)
- Publisher: AEA Technology, United Kingdom
- Back Issues: 1/89-

Waste Tech News

- A newspaper for waste and pollution control industries, including those engaged in the collection, hauling, analysis, treatment and disposal of hazardous, solid, liquid and medical wastes. Topics covered include conversion of waste to energy, site remediation, recycling, resource recovery, asbestos abatements and other forms of waste management as well as information on related manufacturing and supply industries. Includes calendar of events,

literature section (reviews), trade show events, new product review, stock watch, contracts and business briefs, roundup of State events.

- *Sample articles:* Iraqi crisis worries waste industries, Cleanup costs at 7,300 DOD sites \$25 billion
- Bi-weekly Newspaper
- Publisher: Schouweiler Communications Group
- Back Issues: 12/89- Irregular

Waste Treatment Technology News

- Provides information on technologies, critical developments and analysis of new concepts in clean-up, control, recycling, and disposal necessary for effective management of industrial waste generated in the processing of energy, chemical and minerals. Covers acid rain, water, nuclear, toxic solid wastes.
- Monthly Newsletter (Discontinued)
- Publisher: Business Communications Co., Inc.
- Back Issues: 12/87-6/88 (*Also available through DIALOG and NEWSNET*)

Wastes Management

- Provides news from the perspective of a trade association, mainly in the area of recycling and reclamation
- Journal of the Institute of Wastes Management
- *Sample articles:* UK relationship to world waste management, Role of the regulation authorities on recycling
- Monthly Journal
- Publisher: Institute of Wastes Management
- Back Issues: 1/82-

World Wastes (formerly Management of World Wastes)

- Advertised as the voice of the industry, this journal looks at the waste management industry worldwide. Special features include: a calendar of events, profiles on people and products, a professional directory, news articles and reviews of references.
- *Sample articles:* From energy to roads: new uses for old tires, Long hauling waste by rail, Taxing the solid waste stream
- Monthly Journal
- Publisher: Communication Channel, Inc.
- Back Issues: 1/88- Irregular
