DIRECTORY OF OAQPS INFORMATION SERVICES

PREFACE

The EPA Office of Air Quality Planning and Standards (OAQPS) provides many types of information services to EPA Regional Offices, State and local agencies, consultants, industry, and the general public. The goal of this directory is to provide a brief listing of these services so that users can more easily determine what is available and how to obtain it.

A review of the table of contents should permit the reader to quickly locate where needed information may be found. Information is grouped into four major areas: pollutant/program services, technical support services, administrative support services, and compliance services. Each major area is further divided into sub-categories. For example, the area of pollutant/program services is subdivided into air toxics, new source review/prevention of significant deterioration (NSR/PSD), etc.

Within each sub-category, line items describing information services are categorized by the type of delivery mechanism used. These include electronic bulletin boards, clearinghouses, conferences, reports and manuals, newsletters, support centers, workshops, and direct training such as classroom and self-instructional courses. Each line item also contains a brief description of the information available and the name and telephone number of a contact person who will help you to obtain it.

We plan to update this directory at least annually. Comments and questions regarding it should be addressed to Bill Hamilton, US EPA (MD-15), Research Triangle Park, NC 27711. The telephone number is 919-541-5498 or (FTS) 629-5498. We are particularly interested in comments on how this directory might be better organized to make it more useful.

I. POLLUTANT/PROGRAM SERVICES				
NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON	
A. AIR TOXICS				
AIR RISC CENTER	Report/Manual, Support Center	The Air Risk Information Support Center (AIR RISC) supports State and local air pollution control agencies and EPA Regional Offices on technical matters pertaining to health, exposure, and risk assessment for toxic air pollutants. Information is disseminated through the AIR RISC Hotline and various hard copy reports.	Holly Reid (919) 541-5344	
AIR/SUPERFUND COORDINATION PROGRAM	Bulletin Board, Direct Training, Report/Manual	This program provides assistance to Regional Air/Superfund Coordinators and Superfund offices in evaluating Superfund sites, developing plans for site cleanup, and implementing cleanup actions. Support provided includes training, technical assistance, and National Technical Guidance (NTG) documents. Most information is available to State and local agencies.	Joe Padgett (919) 541-5589	
AIR TOXICS MODELING	Report/Manual	Guidance on screening procedures and refined modeling techniques for a variety of pollutant and source types has been released. This guidance and associated computer codes, as they relate to both long-term risk and short-term impacts, undergoes continuous review and updating.	Jim Dicke (919) 541-5682	
CROSSWALK/AIR TOXICS EMISSION FACTOR DATA BASE (XATEF)	Other Computerized Information Transfer, Report/Manual	The XATEF is a data base management system developed for use on personal computers. It contains crosswalk information consisting of pollutant/source association data and air toxics emission factor information. The system is distributed on one 1.2 MB 5.25" diskette and is accompanied by a user's manual. The XATEF can also be downloaded from the Clearinghouse for Inventories and Emission Factors (CHIEF) BBS described elsewhere in this Directory.	Anne Pope (919) 541-5373	
INCINERATION - HOSPITAL WASTE AND MUNICIPAL WASTE	Direct Training	This activity supports State and local programs that will be instituting private sector training programs. The OAQPS support at this time is limited to single copies of the course manual for reproduction by the State of local air pollution control agency requestor. Arrangements have been made through a contractor to provide copies to commercial concerns for a fee.	Charles Pratt (919) 541-2355	
LOCATING AND ESTIMATING EMISSIONS FROM SOURCES OF (SUBSTANCE) REPORTS	Report/Manual	A series of documents has been produced which provides information on how to locate sources of, and estimate emissions from, various toxic air pollutants as well as how to estimate emissions from several source categories of air toxics. The full list of documents currently available is contained in the brochure entitled "Tools for Estimating Air Emissions" described elsewhere in his Directory.	Anne Pope (919) 541-5371	
NATIONAL AIR TOXICS INFORMATION CLEARINGHOUSE (NATICH)	Bulletin Board, Clearinghouse, Newsletter, Report/Manual	The primary purpose of NATICH is to collect, classify, and disseminate air toxics information from State and local agencies, EPA, and other Federal and international agencies. Information is collected annually from forms submitted to EPA by the various agencies. Information is distributed both through a user-friendly computer data base that is accessible by users and through hard-copy reports issued on a regular basis.	Melissa McCullough (919) 541-5646	

DIRECTORY OF OAQPS INFORMATION SERVICES

I. POLLUTANT/PROGRAM SERVICES			
NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON
B. NSR/PSD			
NSR BULLETIN BOARD	Bulletin Board	The purpose of the NSR Bulletin Board is to facilitate the timely transfer of up-to-date NSR guidance and technical information within the NSR permitting community. A user of the bulletin board may download or read the full text of recent NSR policy and guidance material, view summaries of past guidance material, and solicit or provide information to others in a given area of new source permitting.	Dennis Crumpler (919) 541-0871
NSR/PSD GUIDANCE NOTEBOOK	Report/Manual	The EPA has available a NSR Prevention of Significant Deterioration and Nonattainment Area Guidance Notebook. The notebook is a compilation of EPA NSR guidance material and is available to interested members of the public through the Air and Waste Management Association.	Dennis Crumpler (919) 541-0871
NSR WORKSHOPS	Workshop	The EPA has developed an updated draft version of its 1980 PSD Workshop Manual to reflect current regulatory requirements and policy guidance. The updated training material forms the basis for EPA NSR Workshops for State and local agencies and the public.	David Solomon (919) 541-5375
RACT/BACT/LAER CLEARINGHOUSE	Clearinghouse, Other Computerized Information Transfer, Report/Manual	The purpose of the Reasonably Available Control Technology/Best Available Control Technology/Lowest Achievable Emission Rate (RACT/BACT/LAER) Clearinghouse is to assist State and local air pollution control agencies in selecting RACT, BACT, or LAER control levels in a nationally consistent manner. It provides information on a case-by-case basis in order to promote communication, cooperation, and sharing of control technology information among various agencies. Information is distributed through the RACT/LAER Information System (BLIS), which is a user-friendly computer data base, and hard-copy reports distributed periodically by EPA.	Joe Steigerwald (919) 541-2736
C. OZONE/CO/NOx			
OZONE CTC/ACT	Report/Manual	In FY 1991 EPA will begin development of control technology documents to assist State and local agencies in the development of control strategies for attainment of the ozone national ambient air quality standard. The documents will provide guidelines for the determination of Reasonably Available Control Technology for various sources of volatile organic compounds.	Bob Rosensteel (919) 541-5608 Jim Berry (919) 541-5605
OZONE RACT REGULATIONS BLUE BOOK	Report/Manual	The Clean Air Act requires States to make corrections to certain volatile organic compound (VOC) regulations contained in their ozone SIPs. The Blue Book describes in detail the kinds of problems that currently exist in the VOC regulations as well as the appropriate correction.	John Silvasi (919) 541-5666
D. PARTICULATE MATTER/LEAD/VISIBILITY			
FUGITIVE DUST WORKSHOPS	Workshop	In FY 1991, EPA will provide workshops, as requested by Regional Offices, to assist State and local control agencies in the development of PM-10 SIP's. This activity is designed to discuss and explain control measures applicable to area fugitive sources and is based upon EPA-450/3-88-008, Control of Open Fugitive Dust Sources.	Robin Dunkins (919) 541-5335

DIRECTORY OF OAQPS INFORMATION SERVICES

NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON
PM-10 SIP DEVELOPMENT WORKSHOPS	Workshop	The 1990 Clean Air Act Amendments provide for modified requirements, procedures, and schedules for activities ensuring attainment of PM-10 standards. During FY 1991, EPA will provide an opportunity, as requested by Regional Offices, to clarify and discuss these requirements and processes with State and local control agency officials.	Ken Woodard (919) 541-5697
RESIDENTIAL WOOD COMBUSTION WORKSHOPS	Workshop	In FY 1991, EPA will provide workshops, as requested by Regional Offices, to assist State and local control agencies in the development of PM-10 SIP's. This activity is designed to discuss and explain control measures for residential wood combustion and is based on EPA-450/2-89-015, <u>Guidance Document for Residential Wood Combustion Control Measures</u> .	Chris Stoneman (919) 541-0823
E. SULFUR DIOXIDE			
SO ₂ BULLETIN BOARD	Bulletin Board	The SO ₂ Bulletin Board, which will be part of the more inclusive AQMD Bulletin Board, will provide various information related to SO ₂ SIP development. The SO ₂ Bulletin Board will be operational in FY 1992.	Laura McKelvey (919) 541-5497
SO ₂ GUIDELINE	Report/Manual	The SO ₂ Guideline is a document that contains an overview of current SO ₂ policy and guidance that can be used for SO ₂ SIP development.	Gretchen Hume (919) 541-0642
SO ₂ SIP DEVELOPMENT WORKSHOPS	Workshop	The 1990 Clean Air Act Amendments impose new obligations to correct existing SO ₂ nonattainment situations and to correct outstanding SIP deficiencies which could impede success of the operating permit program and the acid deposition program. In FY 1991, EPA will present workshops, as requested, to review current SIP requirements and to train State and local control agency personnel in the preparation of SIP revisions.	Eric Ginsburg (919) 541-0877
SO ₂ YELLOW BOOK	Report/Manual	The SO ₂ Yellow Book is a State-by-State compilation of SO ₂ SIP enforceability deficiencies. This information provides the basis for undertaking efforts to correct SO ₂ SIPs as necessary.	Laura McKelvey (919) 541-5497
STACK HEIGHT RULES WORKSHOPS	Workshop	The EPA expects to revise its stack height rules in early FY 1992 as a result of legal remand. Once the rules are revised EPA plans to hold workshops to focus on changes to the rules and to train staff to implement the stack height rules in general.	Gwen Jacobs (919) 541-5295

NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON
A. AIR QUALITY MODELING			
AIR QUALITY MODELING GUIDELINE	Direct Training, Report/Manual	The Air Quality Modeling Guideline was originally issued in 1978 in response to various provisions of the Clean Air Act. The purpose of the guideline is to provide standardized modeling techniques and guidance for regulatory applications. The Guideline is periodically updated through workshops with Regional Office modeling contacts and through regulatory work groups. The EPA's Air Pollution Training Institute (APTI) also offers courses pertaining to air quality modeling.	Joe Tikvart (919) 541-5562 (General information) Sara Cole (919) 541-3724 (APTI courses)
MODEL CLEARINGHOUSE	Clearinghouse, Report/Manual	The purpose of the EPA Model Clearinghouse is to promote consistency in air quality modeling techniques. The audience for the Clearinghouse are modelers in the EPA Regional Offices and in state and local air pollution control agencies. Annual reports are distributed which summarize Clearinghouse activities and major issues resolution.	Dean Wilson (919) 541-5683
MODELING WORKSHOPS	Direct Training, Workshop	Annual workshops are held with EPA Regional Office modeling contacts in order to transfer information on new techniques, resource-intensive modeling issues, and ensure consistency in application. Meetings with States at the Regional Office level are also supported. The EPA's Air Pollution Training Institute (APTI) also offers courses pertaining to air quality modeling.	Joe Tikvart (919) 541-5562 (General information) Sara Cole (919) 541-3274 (APTI courses)
REGIONAL OZONE MODELING FOR NORTHEAST TRANSPORT II (ROMNET II)	Report/Manual, Other Computerized Information Transfer	ROMNET II is a joint EPA/State project to provide necessary information and coordination to support consistent urban ozone modeling applications and resulting SIPs in the Northeast Corridor. EPA provides regional modeling results for use by States and assists States in coordinating urban analyses by different State agencies in the Corridor.	Norm Possiel (919) 541-5692
SURFACE IMPROVEMENT MODELING SYSTEM (SIMS)	Other Computerized Information Transfer, Report/Manual	The SIMS is as personal-computer software package for estimating air emissions from surface impoundments or waste water collection devices. The software and documentation are available from the Clearinghouse for Inventories and Emission Factors (CHIEF) BBS described elsewhere in this Directory or from the OAQPS Control Technology Center, also described elsewhere in this Directory.	Mary Ann Stewart (919) 541-4340

B. AIR QUALITY MONITORING/EMISSIONS/EMISSION FACTORS			
AEROMETRIC INFORMATION RETRIEVAL SYSTEM (AIRS)	Conference/Work Group, Direct Training, Newsletter, Report/Manual, Workshop	The AIRS is an integrated data system developed by EPA to replace existing databases, files, and software used by EPA for storing and retrieving ambient air quality data, stationary source emissions data, and facilities compliance data. A five-volume users manual is available for AIRS users. A quarterly newsletter is published by EPA to share information pertaining to AIRS. EPA holds a conference each year which is open to all AIRS users, including those in State and local agencies. This conference is in addition to the annual meeting held with AIRS users in the Regional Offices in order to exchange information and share methods. Workshops/classes at users sites are sponsored by EPA on the air quality portion of AIRS and for training users on the facility portion of AIRS.	Sam Colon-Velez (919) 541-5548 (Users manual, conferences, RO meeting, workshop) Gary Wilder (919) 541-5447 (Newsletter) Mark Antell (703) 308-8675 (Compliance)
AIR EMISSIONS SPECIES DATA BASE (SPECIATE)	Other Computerized Information Transfer	The Air Emissions Species Data Base provides speciation factors for volatile organic compounds and particulate matter. It was developed for use on personal computers. It consists of speciation factors which are weight percentages of the compounds that make up total VOC's or total PM and are presented by source category for approximately 300 source types. SPECIATE is distributed on a 1.2 MB 5.25" diskette. A hard disk system with approximately 5 MB of available space is required. A users guide is included.	Anne Pope (919) 541-5373
AIR QUALITY TRENDS REPORT	Report/Manual	This annual report summarizes national trends in air quality and emissions for criteria (i.e. NAAQS-related) pollutants. A table of air quality levels with respect to the NAAQS is presented for the most recent year of data for all areas greater than 50,000 population.	Tom Curran (919) 541-5558
BIOGENIC EMISSIONS INVENTORY SYSTEM	Bulletin Board	The personal computer version of the Biogenic Emissions Inventory System (PC-BEIS) has been developed in order to allow users to estimate hourly emissions of biogenic nonmethane hydrocarbons for any county in the contiguous United States. The software and documentation will be available in June 1991 from the Clearinghouse for Inventories and Emission Factors (CHIEF) BBS described elsewhere in this Directory.	Keith Bauges (919) 541-5366
EMISSION FACTOR CLEARINGHOUSE	Clearinghouse, Newsletter	The purposes of the Emission Factor Clearinghouse are to exchange emission factor information and to provide guidance to emission factor and inventory users. Information is disseminated through a quarterly newsletter to EPA Regional Offices and to State and local air pollution control agencies.	Dennis Shipman (919) 541-5477 Whitnel Joyner (919) 541-5493
EMISSIONS CD-ROM (AIR CHIEF)	Other Computerized Information Transfer	This pilot project, to be completed in the summer of 1991, will provide all toxic and criteria emission factor documents in an electronic CD-ROM format which can be searched almost instantly by word or by emission factor.	Anne Pope (919) 541-5373
NATIONAL EMISSIONS TRENDS REPORT	Report/Manual	The National Emission Trends 1940-199x document is published each year with detailed analyses of the national emissions of criteria air pollutants. In FY 1991, emphasis will be placed on producing the report on an accelerated schedule, including Regional trends information, and including average VOC emissions for a typical summer day.	John Bosch (919) 541-5583

DIRECTORY OF OAQPS INFORMATION SERVICES
MAY, 1991

II. TECHNICAL SUPPORT SERVICES			
NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON
OAQPS/REGIONAL OFFICE MONITORING WORKSHOPS	Workshop	The EPA regularly conducts workshops to share air monitoring information, data, and plans. Two meetings for EPA Headquarters and Regional Office air monitoring contacts are generally held each year.	Joe Elkins (919) 541-5653
STATE IMPLEMENTATION PLAN EMISSION INVENTORY PC SYSTEM	Direct Training, Other Computerized Information Transfer, Report/Manual, Workshop	The SIP Emission Inventory System (SAMS) consists of PC disks and a users manual that enable users to compile emission inventories (EI) for ozone and carbon monoxide nonattainment areas. Enhanced software for the system is distributed by EPA. In addition, EPA plans to hold workshops on the development of emission inventories for SIP purposes to focus on the emission inventory implications of the 1990 Clean Air Act Amendments. The EPA's Air Pollution Training Institute (APTI) also offers courses on this topic.	Dave Misenheimer (919) 541-5473 (Emission Inventories) John Ackerman (919) 541-5687 (PC system information) Betsey Dodson (919) 541-2401 (APTI courses)
TOOLS FOR ESTIMATING AIR EMISSIONS	Other Computerized Information Transfer, Report/Manual	Available tools for estimating air emissions consist of reports and data base management systems designed for use on personal computers. A periodically-updated brochure describing each air emission estimation tool and containing information on how to order the tools is available upon request.	Anne Pope (919) 541-5373
C. CONTROL TECHNOLOGY - GENERAL			
CONTROL TECHNOLOGY CENTER	Support Center	The purpose of the Control Technology Center is to assist State and local air pollution control agencies and EPA Regional Offices in their implementation of programs to control air toxics, volatile organic compounds, and other pollutant emissions. Three levels of support are provided - a hotline for rapid response to questions, direct engineering assistance for more in-depth support, and technical guidance projects for dissemination of information of broad national interest.	Bob Blaszczyk (919) 541-5432 Hotline (919) 541-0800
D. OAQPS TECHNOLOGY TRANSFER NETWORK			
AIR POLLUTION TRAINING INSTITUTE (APTI) BBS	Bulletin Board, Other Computerized Information Transfer	The APTI BBS provides complete information on all air pollution-related EPA-sponsored lectures and laboratory courses offered by the Institute. Information on course types, prerequisites, training locations, and costs are also provided.	Betty Abramson (919) 541-2371 Bulletin Board (919) 541-5742
CLEAN AIR ACT AMENDMENTS (CAAA) BBS	Bulletin Board, Other Computerized Information Transfer	The CAAA BBS is designed to provide access to information on the 1990 Clean Air Act Amendments. Through this electronic information dissemination vehicle, the CAAA BBS allows regulators, the regulated community, and members of the general public to easily obtain access to that information that is relevant to the 1990 Amendments. In this manner, the task of understanding, implementing, and complying with the requirements of the new Act will be made easier.	Jerry Mersch (919) 541-5635 Bulletin Board (919) 541-5742
CLEARINGHOUSE FOR INVENTORIES AND EMISSION FACTORS (CHIEF) BBS	Bulletin Board, Other Computerized Information Transfer, Support Center	The CHIEF BBS provides access to tools for estimating emissions of air pollutants and performing air emission inventories. CHIEF will serve as EPA's central clearinghouse for the latest information on air emission inventories and emission factors. Emission estimation data bases, newsletters, announcements, and guidance on performing inventories will be included in CHIEF.	Mike Hamlin (919) 541-5232 Bulletin Board (919) 541-5742

DIRECTORY OF OAQPS INFORMATION SERVICES
MAY, 1991

II. TECHNICAL SUPPORT SERVICES			
NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON
EMISSION MEASUREMENT TECHNICAL INFORMATION CENTER (EMTIC) BBS	Bulletin Board, Other Computerized Information Transfer, Support Center	The EMTIC BBS provides technical guidance on stationary source emission testing issues, particularly to people who conduct and/or oversee emissions tests in support of the development and implementation of emission standards, emission factors, and State Implementation Plans (SIPs).	Dan Bivens (919) 541-5244 Bulletin Board (919) 541-5742
SUPPORT CENTER FOR REGULATORY AIR MODELS (SCRAM) BBS	Bulletin Board, Other Computerized Information Transfer, Support Center	The SCRAM has been developed in order to implement the transfer of air quality models to the modeling community and to facilitate communications by providing a forum for ideas and information. All regulatory models including several screening models are available for retrieval by the dispersion model user community. Most models are compatible with personal computers. A quarterly newsletter provides the general public with current information on SCRAM activities.	Hersch Rorex (919) 541-5637 Bulletin Board (919) 541-5742
E. TRAINING - GENERAL			
AIR POLLUTION FELLOWSHIPS, TRAINEESHIPS	Direct Training	This activity provides support for graduate study in air pollution control to employees of State and local air agencies. Study should be at one of EPA's University Area Training Centers, or another approved university program. Support may be full time or part-time.	Leo Stander (919) 541-2402
AIR POLLUTION SELF-STUDY COURSES	Direct Training	A variety of self-study courses in air pollution control are available from EPA's Air Pollution Training Institute (APTI). These are provided on a loan basis at no cost. Applicants must submit a completed APTI course application.	Sara Cole (919) 541-3724
AIR POLLUTION SHORT COURSES	Direct Training	Some 25 specialized courses in air pollution topics are offered. Courses are scheduled at several locations across the country. Applicants should submit a completed APTI course application for approval. Fees may apply.	Sara Cole (919) 541-3724
AIR POLLUTION TRAINING - GENERAL	Direct Training	The Air Pollution Training Institute also presents a number of workshops and specialized courses on various topics. Contact APTI for latest schedule.	Jerry Yarn (919) 541-2354
AIR POLLUTION VIDEOS	Direct Training	Video tapes are sometimes produced as a part of the self-study program, or to address special topics. Selected topics may be available upon request.	Jerry Yarn (919) 541-2354

DIRECTORY OF OAQPS INFORMATION SERVICES
MAY, 1991

III. ADMINISTRATIVE SUPPORT SERVICES			
NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON
A. GENERAL			
AIR PROGRAMS CONTACTS DIRECTORY	Report/Manual	The Air Programs Contacts Directory provides a listing of individuals in the EPA Regional Offices and in OAQPS who are responsible for specific program areas and who are capable of responding to questions in these areas.	Johnnie Pearson (919) 541-5691
AIR PROGRAMS POLICY AND GUIDANCE NOTEBOOK	Report/Manual	The Air Programs Policy and Guidance Notebook is a collection of policy and guidance memorandums and other documents that can be used as a reference for anyone who is involved in the implementation of air pollution control programs. The Notebook currently contains over 250 documents and is periodically updated. Efforts are currently underway to computerize the Notebook and to have future documents entered on a real-time basis.	Butch Stackhouse (919) 541-5208
AIR PROGRAMS REPORTS AND GUIDELINES INDEX	Report/Manual	The Air Programs Reports and Guidelines Index is a compilation of selected air pollution control documents published by EPA in the past several years. It is primarily intended for use by State and local air pollution control agencies and lists by subject area current EPA reports on various aspects of air pollution control.	Butch Stackhouse (919) 541-5208
AQMD BULLETIN BOARD	Bulletin Board, Report/Manual	The AQMD Bulletin Board is a PC-based system that provides information by pollutant and by EPA Region to EPA Headquarters and Regional Offices. It allows for interactive data transfer and also has file transfer capabilities.	Butch Stackhouse (919) 541-5208
OAQPS/RO TRAINING WORKSHOP	Workshop	Each year OAQPS sponsors a workshop that is intended to serve as a training opportunity for individuals involved in air quality management within EPA. All facets of the air quality management programs are presented. Workshop attendees are EPA personnel from the Regional Offices and from Headquarters.	Johnnie Pearson (919) 541-5691
STATUS OF SELECTED AIR POLLUTION CONTROL PROGRAMS	Report/Manual	Approximately every 6 months, EPA publishes a document which contains 1-2 page summaries of the status of over 75 air pollution control programs. The report is distributed to those individuals who are involved with the implementation of air pollution control programs at the Federal, State, and local levels.	Johnnie Pearson (919) 541-5691
WORK ASSIGNMENT GUIDANCE MANUAL	Report/Manual	The EPA provides Regional Offices and other Headquarters offices with contractual support for the implementation of air quality management programs. The Work Assignment Guidance Manual provides information on how to prepare, submit, and monitor work assignments issued under this contract.	Allan Jones (919) 541-5356
B. SIP PROCESSING			
SIP PROCESSING PROCEDURES MANUAL	Report/Manual	The SIP Processing Procedures Manual describes the procedures for development of Federal Register notices which announce EPA's actions on State-submitted changes to their federally-approved State implementation plans. The document also explains the processing procedures used by EPA in reviewing such actions.	Denise Certh (919) 541-5550
SIP TRAX II	Bulletin Board, Workshop	SIP TRAX II is a PC-based data system that contains information on the status of EPA review of State-submitted changes to the federally-approved State implementation plans. Access to SIP TRAX II is limited to EPA Regional Offices and to certain EPA Headquarters offices.	Johnnie Pearson (919) 541-5691

IV. COMPLIANCE SERVICES			
NAME	DELIVERY MECHANISM	DESCRIPTION	CONTACT PERSON
A. ASBESTOS			
ASBESTOS-NATIONAL REGISTRY SYSTEM	Conference/Work Group, Report/Manual	The National Asbestos Registry System is a national database which provides selected asbestos information to EPA Regional Offices and to delegated State agencies.	Mark Antell (703) 308-8675
ASBESTOS PROGRAM NETWORK SUPPORT	Conference/Work Group	This work group provides asbestos-related technical and case development support, development of workshop materials and policy documents, emission data maintenance, and technical feasibility analyses.	Osayza Salgado (703) 308-8728
B. PARTICULATE MATTER/OPACITY/WOODHEATERS			
PM-10 PROGRAM NETWORK SUPPORT	Conference/Work Group	This activity provides PM-related technical and case development support, development of workshop materials and policy documents, emission data maintenance, and technical feasibility analyses.	Karen Randolph (703) 308-8726
REFERENCE METHOD 9 OPACITY WORK GROUP	Conference/Work Group, Report/Manual	This work group is the focal point for the coordination of technical information in support of enforcement, training, case development, research, and guidance development related to EPA Reference Method 9 opacity provisions.	Kirk Foster (919) 541-4571
WOODHEATER APPLICABILITY DETERMINATIONS	Other Computerized Information Transfer	This activity provides woodheater applicability determinations and provides a mechanism for OAQPS to exchange information and methods related to woodheater controls to EPA Regional Offices and to accredited Federal laboratories.	Bob Lebens (703) 308-8683
WOODHEATER COMPLIANCE CALENDAR	Report/Manual	This activity consists of a calendar which provides compliance information to woodheater retailers and manufacturers.	Cletis Nixon (703) 308-8693
WOODHEATER PROGRAM INFORMATION	Conference/Work Group, Report/Manual	This activity is a mechanism for OAQPS to share information with the general public, woodheater manufacturers, retailers, and other parties. Information provided includes a certified list of woodheaters.	Craig Haas (703) 308-8682
WORKSHOP FOR LABS	Conference/Work Group	This activity consists of information exchange and feedback through a network of contacts, an annual workshop, and written materials for EPA-accredited woodheater testing laboratories.	Craig Haas (703) 308-8682
C. SULFUR DIOXIDE			
SO ₂ COMPLIANCE SUPPORT WORK GROUP	Conference/Work Group, Report/Manual	This work group provides SO ₂ -related technical and case development support, development of workshop materials and policy documents, emissions data maintenance, and technical feasibility analyses.	Lou Palay (703) 308-8723

D. TRAINING			
ADVANCED COMPLIANCE INSPECTOR TRAINING PROGRAM	Conference/Work Group, Report/Manual	This activity consists of a network of EPA Regional Office and Headquarters staff who identify and develop specialized materials and workshops related to compliance training for EPA and State use. Emphasis is placed on quality and national consistency.	Joyce Chandler (703) 308-8713
AGENCY-WIDE INSPECTOR TRAINING PROGRAM WORK GROUP	Conference/Work Group, Report/Manual	This work group provides input to the development of OAQPS policies and programs related to inspector training through an advisory board and informal State/local work groups. Innovative delivery mechanisms such as on-the-job training are utilized. Emphasis is placed on coordination among EPA media programs for consistency.	Mark Siegler (703) 308-8673
INSPECTOR TRAINING PROGRAM MODULE DEVELOPMENT	Conference/Work Group, Report/Manual, Workshop	This activity is concerned with program and policy issues related to the development, coordination, delivery, and evaluation of uniform training under EPA Order 3500.1	Kirk Foster (919) 541-4571
E. VOLATILE ORGANIC COMPOUNDS			
VOC PROGRAM NETWORK SUPPORT	Conference/Work Group, Report/Manual	This activity provides VOC-related technical and case development support, development of workshop materials and policy documents, emissions data maintenance, and technical feasibility analyses.	Vishnu Katari (703) 308-8717
F. OTHER			
CEMS PROGRAM NETWORK SUPPORT	Conference/Work Group, Report/Manual	This activity provides continuous emission monitoring systems (CEMS)-related technical and case development support, development of workshop materials and policy documents, emissions data maintenance, and technical feasibility analyses.	Lou Paley (703) 308-8723
CFC PROGRAM SUPPORT	Conference/Work Group	This activity provides chlorofluorocarbon (CFC)-related technical and case development support, development of workshop materials and policy documents, recordkeeping/reporting, and applicability determinations.	Keith Brown (703) 308-8676
FUTURE DIRECTIONS INFORMATION	Conference/Work Group, Report/Manual	This activity provides current program policy and technical information on operating guidance, monitoring strategy, enforcement guidance, technology transfer, inspections, continuous compliance, and communications.	Mark Siegler (703) 308-8673
INSPECTION/CONTROL/ COMPLIANCE TECHNICAL INFORMATION CLEARINGHOUSE	Clearinghouse, Direct Training, Report/Manual	This activity provides various compliance-related materials on procedures, methods, evaluations, and analyses including operation and maintenance techniques, particulate matter, continuous enforcement monitoring, stack sampling, and training.	Kirk Foster (919) 541-4571
POLLUTION PREVENTION COMPLIANCE SUPPORT	Conference/Work Group, Report/Manual	This activity provides policy and technical support for the use of pollution prevention conditions in enforcement settlements and compliance negotiations. Activities include distribution of guidance and management of Regional/State pilot programs.	Mark Siegler (703) 308-8673
