HOTLINE QUESTIONS AND ANSWERS

RCRA

1. Regeneration Versus Reclamation for Spent Lead-Acid Batteries

In order to encourage environmentally sound recycling, EPA has promulgated special standards for some recyclable materials and exempted others from hazardous waste regulation. For example, reclaimed spent lead-acid batteries are subject to the special requirements of Part 266, Subpart G (§261.6(a)(2)(iv)). On the other hand, batteries returned to a battery manufacturer for regeneration are exempt from hazardous waste regulation (§261.6(a)(3)(ii)). Are spent lead-acid batteries returned to a battery manufacturer for regeneration regulated under Subpart G of Part 266, or are they exempt from all hazardous waste regulation?

Spent lead-acid batteries returned to a battery manufacturer for regeneration are not Subject to Subpart G of Part 266, nor to any other Subtitle C regulations. While the term "reclamation," when used in a regulatory context, typically includes both materials recovery and regeneration (§261.1(c)(4)), the standards governing the reclamation of spent lead-acid batteries in Subpart G of Part 266 do not apply to the regeneration of these batteries. Subpart G regulates materials recovery, which involves the extraction from spent lead-acid batteries of distinct end-products, such as scrap metal, lead values, ammonium sulfide, and

plastic. Regeneration, on the other hand, involves processing to remove contaminants in a way that restores a product to its original, usable condition. Because EPA determined that battery regeneration is similar to the recycling of a commercial chemical product and presents minimal risk to the environment (48 FR 14496; April 4, 1983), battery regeneration, including the regeneration of spent lead-acid batteries, is exempt from Subtitle C regulation (§261.6(a)(3)(ii)).

2. Delsing Petitions for Hazardous Wastes From The Petroleum Industry

A petroleum refinery is submitting a delsing petition to EPA for its listed refinery hazardous waste. Does EPA provide a list of constituents typically found in petroleum refinery wastes that should be used in developing such a delsing petition?

The EPA publication, Petitions To Delist Hazardous Wastes: A Guidance Manual (EPA/530-R-93-007, March 1993) contains a list of constituents of concern for hazardous wastes from the petroleum industry (Exhibit 6-3). This list (referred to as the delsing "petroleum list") identifies the specific hazardous constituents of concern that typically may be found in petroleum wastes. As delsing is "generator-specific", individual petitioners should also investigate if other hazardous constituents are present in their particular wastes. The guidance manual provides details about developing an analytical plan.

EPA initially provided such a petroleum list in the first edition (1985) of the delisting guidance manual. This list was based on the "Skinner List" developed by OSW in 1984 for land treatment associated with petroleum refinery wastes. The 1985 version of the delisting petroleum list has since been modified based on new data from various sources. The current petroleum list in the 1993 delisting manual provides the most recent federal guidance for submitting a delisting petition. States that are authorized for delisting implement the RCRA delisting program in lieu of the Federal program; therefore, petitioners in these states may have additional requirements. Furthermore, facilities should consult with other appropriate EPA and/or state regulating authorities to determine if this list should be used in other aspects of the RCRA program, such as RCRA permitting.

hazardous waste if they exhibit any characteristic of hazardous waste.

UST

3. UST Remediation Wastes

Petroleum contaminated environmental media and debris from an underground storage tank (UST) corrective action are excluded from the definition of hazardous waste if they only exhibit the characteristic of toxicity for TC constituents D018-D043, per §261.4(b)(10). When activated carbon filters are used to remediate these wastes, are the filters also eligible for the exclusion?

The exemption does not apply to spent carbon filters used to remediate petroleum contaminated UST corrective action wastes. The carbon filters are newly generated wastes. Whether disposed of or reclaimed for future reuse, the filters, once spent, would be considered solid wastes (§261.1(c)(3)). The filters would, therefore, need to be handled as

NEW PUBLICATIONS

HOW TO ORDER ...

NTIS Publications are available by calling (703) 487-4650, or writing NTIS, 5285 Port Royal Road, Springfield, VA 22161. Use the NTIS Order Number listed under the document.

EPA Publications are available through the Hotline. Use the EPA Order Number listed under the document.

RCRA

TITLE: "Guide to Environmental Issues"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA520-B-94-001

The handbook provides a brief overview and comments on the intent of various laws pertaining to health, safety, and the environment. It also references federal and state agencies that disseminate documents and regulatory information on these topics, and it contains a glossary which defines frequently used technical terms. The handbook is intended for the regulated community and summarizes general information about various programs.

TITLE: "Environmental Fact Sheet: EPA Releases the 1991 Biennial RCRA Hazardous Waste Report"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-F-94-039

This fact sheet provides an overview of the information contained in the 1991 RCRA Biennial Hazardous Waste Report. The fact sheet references some statistics from the report including the number of large quantity generators in the United States and the amount of hazardous waste generated. It also states

that the six-volume report and the database from which the information is compiled is available on the Internet.

TITLE: "1991 Biennial RCRA Hazardous Waste Report: List of Large Quantity Generators"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB94-201 928

In cooperation with states, EPA collects information regarding the generation, management, and final disposition of hazardous waste regulated under RCRA, and this document contains the findings of EPA's 1991 Biennial Reporting System (BRS) data collection efforts. The list of large quantity generators contains the EPA ID number, company name, location, and tons of waste generated for every facility in the United States that reported as a large quantity generator in 1991.

TITLE: "1991 Biennial RCRA Hazardous Waste Report: List of Treatment, Storage, and Disposal Facilities"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB94-201 936

In cooperation with states, EPA collects information regarding the generation, management, and final disposition of

hazardous waste regulated under RCRA, and this document contains the findings of EPA's 1991 Biennial Reporting System (BRS) data collection efforts. The list of treatment, storage, and disposal facilities contains the EPA ID number, facility name, location, and tons of waste managed for each facility in the United States that reported itself to be a treatment, storage, or disposal facility in 1991.

TITLE: "1991 Biennial RCRA Hazardous Waste Report: State Detail Analysis"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB94-201 951

In cooperation with states, EPA collects information regarding the generation, management, and final disposition of hazardous waste regulated under RCRA, and this document contains the findings of EPA's 1991 Biennial Reporting System (BRS) data collection efforts. The state detail analysis presents a thorough look at each state's waste handling practices, including overall totals for generation, management, and shipments and receipts, as well as totals for the fifty largest facilities.

TITLE: "1991 Biennial RCRA Hazardous Waste Report: Executive Summary"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-S-94-039

In cooperation with states, EPA collects information regarding the generation, management, and final disposition of hazardous waste regulated under RCRA, and this document contains the findings of EPA's 1991 Biennial Reporting System (BRS) data collection efforts. The executive summary presents an overview of national hazardous waste management practices.

TITLE: "1991 Biennial RCRA Hazardous Waste Report: National Analysis"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB94-201 944

This document contains the findings of EPA's 1991 Biennial Reporting System (BRS) data collection efforts. The report is divided into six parts, each dealing with a different component of the information that was reported. The audience for the document includes government agencies, the regulated community, and the public. The national analysis contains information on the types of waste managed in each state, the total amount generated, and the management techniques that are implemented throughout the United States.

TITLE: "1991 Biennial RCRA Hazardous Waste Report: State Summary Analysis"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB94-201 969

This document contains the findings of EPA's 1991 Biennial Reporting System (BRS) data collection efforts. The state summary analysis presents two-page overviews of the generation and management practices of individual states. Specifically, it lists the ten largest hazardous waste generators; the quantity of generated waste that was only a characteristic waste, only a listed waste, or both; the ten largest hazardous waste managers; and the quantity of waste managed.

TITLE: "US Environmental Protection Agency Mine Waste Policy Dialogue Committee Meeting Summaries and Supporting Material"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB95-122 529

This document contains the transmittal memorandum and the charter establishing EPA's Mine Waste Policy Dialogue

Committee. It defines the purpose, scope, authority, and objectives of the committee's activities. It also contains a list of participants, summaries of each meeting held by the committee, and EPA memorandum concerning procedural approaches for conducting state reviews.

TITLE: "National Capacity Assessment Report; Capacity Planning Pursuant to CERCLA Section 104(c)(9); Draft"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB95-105 417

This draft report assesses the data used during an analysis of the states' Capacity Assurance Plans (CAPs) that were submitted to EPA on May 1, 1994. The states' CAP submissions contain data demonstrating knowledge of their existing hazardous waste management systems and projections of their future capacity for managing hazardous waste through the next twenty years. The document also presents resolutions to a number of methodological issues raised in conducting this assessment.

TITLE: "National Capacity Assessment Report; Capacity Planning Pursuant to CERCLA Section 104(c)(9); Executive Summary"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-S-94-040

This document summarizes the Draft National Capacity Assessment Report. It contains information about Capacity Assurance Plans (CAPs) that were submitted to EPA by states. These plans contain data demonstrating knowledge of their capacity to manage hazardous waste for the new twenty years. This summary also outlines the resolutions to issues that were addressed in conducting the assessment.

TITLE: "RCRA Permit Policy Compendium Update Package: Revision 3 - September 1994"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB95-109 773

This is an update package for the RCRA Permit Policy Compendium. The package contains memoranda pertaining to RCRA dated October 1993 through September 1994. The update package is not an individual document; it is only useful to those who already have the entire compendium because it contains memoranda that must be inserted into other volumes of the document.

TITLE: "Review of Industrial Waste Exchanges"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-K-94-003

This document is the result of a study that reviewed the activities and status of North American waste exchanges. It contains a directory of operating waste exchanges and a summary of the services they provide. The document also summarizes the history of waste exchanges as well as the benefits and liability issues that are associated with their use.

TITLE: "Joining Forces on Solid Waste Management: Regionalization is Working in Rural and Small Communities"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-K-93-001

This booklet provides an introduction to the concept of regionalization. It outlines the steps that communities can follow when implementing the program and it lists the benefits and obstacles that should be considered. Examples of various regionalization programs and a list of useful references are also provided in the document.

TITLE: "Environmental Fact Sheet: EPA Announces Strategy for Hazardous Waste Minimization and Combustion"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA-530-F-94-027

This fact sheet announces the culmination of 18 months of intensive effort by EPA and interested parties under the May 1993, Draft Strategy for Hazardous Waste Minimization and Combustion. It highlights EPA's goals, planned activities, and major actions already undertaken.

TITLE: "Statement of Michael Shapiro, Director, Office of Solid Waste"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-F-94-035

This November 18, 1994, statement by Michael Shapiro announces the release of the Strategy for Hazardous Waste Minimization and Combustion and highlights EPA's fundamental goals and basic vision for the implementation of the policy. Director Shapiro stresses that the Strategy should be viewed as a living document which will be periodically revised.

TITLE: "Update on Implementation of Draft Strategy on Hazardous Waste Minimization and Combustion"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-F-94-037

Through this update, EPA addresses each component of the Strategy in terms of completed actions, current implementation status, and future objectives.

TITLE: "Strategy for Hazardous Waste Minimization and Combustion"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-R-94-044

This document reasserts EPA's strategic goals and progress made towards implementing hazardous waste minimization and combustion goals during the previous 18 months. The document also discusses a broad range of activities which will be or have been undertaken to implement each component of the Strategy. The appendices list accomplishments in each component of the strategy to date, voluntary initiatives by the regulated community, and background information on hazardous waste generation and management.

TITLE: "Universe of Hazardous Waste Combustion Facilities"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-F-94-030

This fact sheet presents EPA's statistics regarding the permitting status of hazardous waste Boilers and Industrial Furnaces (BIFs) and incinerators as of November 1994.

TITLE: "Permit Process Steps"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-F-94-036

This document outlines the permit process steps for both interim status and new hazardous waste combustion facilities. It incorporates proposed requirements from the June 2, 1994, proposed rule on RCRA expanded public participation and revision to combustion permitting procedures.

TITLE: "Hazardous Waste Incinerators"
AVAILABILITY: Hotline
EPA ORDER NO.: EPA530-F-94-029

This document provides a list of facilities that have incinerators operating either under a RCRA permit or interim status and facilities which have submitted a permit application for a new unit as of November 1994.

TITLE: "Hazardous Waste BIFs"
AVAILABILITY: Hotline
EPA ORDER NO.: EPA530-F-94-032

This document provides a list of facilities that have BIFs operating either under a RCRA permit or interim status, and facilities which have submitted a permit application for a new unit as of November 1994.

TITLE: "October 17, 1994, Memo from Shapiro to Regions, Re: Regulation of Fuel Blending and Related Treatment and Storage Activities"
AVAILABILITY: Hotline
EPA ORDER NO.: EPA530-F-94-033

This document outlines EPA's process of upgrading emissions standards controls for hazardous waste combustors. Revised regulations for incinerators, cement kilns, light-weight aggregate kilns, and metals recovery furnaces are scheduled for proposal in September 1995, and promulgation in December 1996 (Phase I). Revised regulations for other hazardous waste combustors are scheduled to be proposed in September 1998, and promulgated in December 1999 (Phase II).

TITLE: "Commercial Hazardous Waste Incinerators"
AVAILABILITY: Hotline
EPA ORDER NO.: EPA530-F-94-038

This fact sheet lists the names and locations of commercial hazardous waste incinerators in operation on November 1, 1994; not in operation on November 1, 1994; and with permit applications pending on November 2, 1994.

TITLE: "Commercial Hazardous Waste Boilers and Industrial Furnaces"
AVAILABILITY: Hotline
EPA ORDER NO.: EPA530-F-94-034

This fact sheet lists the names and locations of commercial hazardous waste BIFs in operation on November 1, 1994; not in operation on November 1, 1994; and with permit applications pending on November 1, 1994.

TITLE: "Commercial Hazardous Waste Boilers and Industrial Furnaces-Cement Kilns Only"
AVAILABILITY: Hotline
EPA ORDER NO.: EPA530-F-94-040

This fact sheet lists the names and locations of commercial hazardous waste cement kilns in operation on November 1, 1994; not in operation on November 1, 1994; and with permit applications pending on November 1, 1994.

TITLE: "Environmental Fact Sheet: EPA Releases Hazardous Waste Minimization National Plan"
AVAILABILITY: Hotline
EPA ORDER NO.: EPA530-F-94-028

This fact sheet announces EPA's release of the Hazardous Waste Minimization National Plan. It outlines the five objectives of the Plan,

national waste minimization goals, and EPA's actions to implement the plan.

TITLE: "Hazardous Waste Minimization National Plan"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA530-R-94-045

Released on November 18, 1994, EPA's Hazardous Waste Minimization National Plan outlines the Agency's major goals, objectives, and actions which are paving the way toward achieving national reductions in the generation of hazardous waste.

UST

TITLE: "Procedures and Requirements for Codification of Approved State UST Programs"

AVAILABILITY: Hotline

EPA ORDER NO.: OSWER Directive 9650.15

This document provides guidance for EPA Regions on the codification process of state UST programs. The codification of state programs is designed to provide the public with information about the current status of an approved state program.

CERCLA

TITLE: "Common Cleanup Methods at Superfund Sites"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB91-963 271

This booklet is a compilation of one-page fact sheets on some of the common cleanup methods used at various hazardous waste sites. It answers four basic questions: What type of cleanup method? How does it work? Where is it used most? What are the reasons for using it?

TITLE: "Common Chemicals Found at Superfund Sites"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB94-963 272

This booklet is a compilation of one-page fact sheets on the most common chemicals found at hazardous waste sites. It discusses how a person can be exposed to the chemical, how the chemical affects human health, how it enters the body and leaves the body, what levels of exposure result in harmful effects, what recommendations the federal government makes to protect human health from the chemical, and the methods for treatment and disposal of the chemical.

TITLE: "Superfund Innovative Technology Evaluation Program: Technological Profiles 7th Edition"

AVAILABILITY: ORD

EPA ORDER NO.: EPA540-R-94-526

This document is a reference guide for those interested in the SITE Demonstration, Engineering Technology, and Monitoring and Measurement Technologies Program. It is a compilation of two-page profiles. Each technological profile contains a technology developer and process name, a technology description, a discussion of waste applicability, a project status report, and EPA project manager and technology contacts.

TITLE: "Superfund Delegations Work Group: Final Report - August 1994"

AVAILABILITY: NTIS

NTIS ORDER NO.: PB94-963 415

This report is the final report of the Superfund Delegations Work Group. The Work Group examined current delegations of authority to assure that Superfund decisions are being made as efficiently and effectively as possible. The Work Group developed recommendations for 17 Superfund delegations and 2 directives.

TITLE: "Handbook: Approaches for the Remediation of Federal Facility Site Contaminated with Explosive or Radioactive Wastes"

AVAILABILITY: ORD

EPA ORDER NO.: EPA625-R-93-013

This document provides an overview of technical issues related to remediating soil and groundwater contaminated with explosive and radioactive wastes at federal facility sites. It discusses different sampling approaches and treatment options for federal facility sites.

TITLE: "Handbook: Control of Air Emissions from Superfund Sites"

AVAILABILITY: ORD

EPA ORDER NO.: EPA625-R-92-012

This handbook is intended for engineers and scientists involved in preparing remedial design plans for Superfund sites. It is a tool for decision makers to evaluate air emission control devices for use with Superfund remediation actions and assist in the selection of cost-effective control operations.

EPCRA

TITLE: "Toxics Release Inventory; List of Toxic Chemicals within Warfarin Category"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA745-B-94-004

On November 30, 1993, EPA added 21 chemicals and two chemical categories to the toxic chemical list. This document provides a list of CAS numbers and chemical names to assist the regulated community in determining what chemicals fall within the Warfarin category. The document contains lists of chemicals and mixtures within the Warfarin category.

TITLE: "Toxics Release Inventory; List of Toxic Chemicals within Ethylenedisithiocarbamic Acid Category"

AVAILABILITY: Hotline

EPA ORDER NO.: EPA745-B-94-003

On November 30, 1993, EPA added 21 chemicals and two chemical categories to the toxic chemical list. This document provides guidance necessary to facilitate accurate reporting for ethylenedisithiocarbamic acid, salt, and ester categories. The document contains lists of chemicals and mixtures within the EDBC chemical category.

TITLE: "Nationwide LEPC Survey"

AVAILABILITY: Hotline

EPA ORDER NO.: N/A

During the summer of 1994, George Washington University in conjunction with EPA's Chemical Emergency Preparedness and Prevention Office (CEPPO), conducted a nationwide survey regarding LEPC activity. The survey focused on several areas of consideration, specifically EPCRA compliance, LEPC proactivity, and LEPC structure and procedures. The document also surveyed public communication and emergency response plans. It contains charts outlining the current status of LEPC activity nationwide.

TITLE: "Nationwide LEPC Survey: Summary Report"

AVAILABILITY: Hotline

EPA ORDER NO.: N/A

During the summer of 1994, George Washington University in conjunction with EPA's Chemical Emergency Preparedness and Prevention Office (CEPPO), conducted a nationwide survey regarding LEPC activity. This document outlines and summarizes the detailed information found in the full report of the nationwide survey.

TITLE: "1994 International Hazardous Materials Spills Conference Program"**AVAILABILITY:** Hotline**EPA ORDER NO.:** N/A

This document is the agenda to the 1994 International Hazardous Materials Spills Conference. It lists the specific dates and times of activities planned at the conference, as well as speakers and brief summaries of the topics to be presented.

TITLE: "1994 International Hazardous Materials Spills Conference Program Update"**AVAILABILITY:** Hotline**EPA ORDER NO.:** N/A

This document is the final update to the 1994 International Hazardous Materials Spills Conference agenda. It consists of changes made to the original agenda, including new dates and times of activities planned for the conference.

TITLE: "1994 International Hazardous Materials Spills Conference Case Studies"**AVAILABILITY:** Hotline**EPA ORDER NO.:** N/A

This document contains a compilation of case studies used during the conference as a teaching guide for emergency responders. Each case study presents a scenario and a solution for effective emergency response. A set of discussion questions are also included to enhance your understanding of the case.

The three conference documents described above will be the only proceedings published from the conference.

FEDERAL REGISTERS

FINAL RULES

RCRA

"Washington; Final Authorization of State Hazardous Waste Management Program Revisions"
November 4, 1994 (59 FR 55322)

EPA announced its approval of revisions to Washington's hazardous waste program under RCRA. Final authorization will be effective November 4, 1994.

"Louisiana; Final Authorization of State Hazardous Waste Management Program Revisions"
November 7, 1994 (59 FR 55368)

EPA intends to approve revisions to Louisiana's hazardous waste program under RCRA. Final authorization will be effective January 23, 1995, unless EPA publishes a prior action withdrawing this immediate final rule. Comments must be received on or before December 22, 1994.

"North Carolina; Final Authorization of State Hazardous Waste Management Program Revisions"
November 10, 1994 (59 FR 56000)

EPA intends to approve revisions to North Carolina's hazardous waste program under RCRA. Final authorization will be effective January 9, 1995, unless EPA publishes a prior action withdrawing this immediate final rule. Comments must be received on or before December 12, 1994.

"New Hampshire; Final Authorization of State Hazardous Waste Management Program Revisions"
November 14, 1994 (59 FR 56397)

EPA intends to approve revisions to New Hampshire's hazardous waste program under RCRA. Final authorization will be effective January 13, 1995, unless EPA publishes a prior action withdrawing this immediate final rule. Comments must be received on or before December 14, 1994.

"Alabama; Final Authorization of State Hazardous Waste Management Program Revisions"
November 14, 1994 (59 FR 56407)

EPA intends to approve revisions to Alabama's hazardous waste program under RCRA. Final authorization will be effective January 13, 1995, unless EPA publishes a prior action withdrawing this immediate final rule. Comments must be received on or before December 14, 1994.

"Solid Waste Disposal Facility Criteria"
November 16, 1994 (59 FR 58789)

EPA corrected a typographical error in the October 1, 1993, (58 FR 51536) final rule delaying the effective date for certain requirements issued under the authority of RCRA, Subtitle D.

FINAL RULES**"Alabama; Final Authorization of State Hazardous Waste Management Program; Correction"**
November 25, 1994 (59 FR 60686)

EPA noted a correction to the text from the rule authorizing Alabama's State Hazardous Waste Management Program. Page 56407 of the November 14, 1994, Federal Register, in the third column, in the third full paragraph, in the 7th line, should read January 13, 1995, in place of January 13, 1994.

"South Carolina; Final Authorization of State Hazardous Waste Management Program Revisions"
November 29, 1994 (59 FR 60910)

EPA intends to approve revisions to South Carolina's hazardous waste program under RCRA. Final authorization will be effective January 30, 1995, unless EPA publishes a prior action withdrawing this immediate final rule. Comments must be received on or before December 29, 1994.

CERCLA**"National Priorities List; Ringwood Mines/Landfill Site"**
November 2, 1994 (59 FR 54830)

EPA announced the deletion of the Ringwood Mines/Landfill Site in Ringwood Borough, New Jersey, from the National Priorities List. The Agency published a notice of its intent to delete the site on December 8, 1993 (58 FR 64539). EPA and the State of New Jersey determined that no further cleanup under CERCLA is appropriate and that remedial actions at the site have been protective of public health, welfare, and the environment. The effective date of this action is November 2, 1994.

"National Priorities List; Allied Plating Site"
November 14, 1994 (59 FR 56409)

EPA announced the deletion of the Allied Plating Site, in Portland, Oregon, from the National Priorities List. The Agency published a notice of its intent to delete the site on September 2, 1994 (59 FR 45675). EPA and the State of Oregon determined that no further cleanup under CERCLA is appropriate and that remedial actions at the site have been protective of public health, welfare, and the environment. The effective date of this action is November 14, 1994.

EPCRA**"Toxic Chemical Release Reporting; Addition of Certain Chemicals"**
November 30, 1994 (59 FR 61432)

EPA added 286 chemicals and chemical categories to the list of toxic chemicals subject to reporting under EPCRA §313 and PPA §6607. Reporting for the newly listed chemicals and chemical categories will be required beginning with the 1995 reporting year. The first reports capturing releases of these chemicals will be due to the appropriate entities by July 1, 1996. The action is effective November 22, 1994.

"Toxic Chemical Release Reporting; Alternate Threshold for Facilities with Low Annual Reportable Amounts"
November 30, 1994 (59 FR 61488)

EPA established an alternate reporting threshold for those facilities with low annual reportable amounts of listed toxic chemicals that would otherwise meet the EPCRA §313 reporting requirements. A facility that meets the current EPCRA §313 reporting thresholds, but

estimates that the total annual reportable amount of the toxic chemical does not exceed 500 pounds, can take advantage of an alternate manufacture, process, or otherwise use threshold of one million pounds per year for that toxic chemical. Facilities may take advantage of this alternative beginning with the 1995 reporting year. The rule is effective November 22, 1994, except for 40 CFR §§372.27 and 372.95, which will be effective upon OMB approval.

PROPOSED RULES

RCRA

"Closed and Closing Hazardous Waste Management Facilities" November 8, 1994 (59 FR 55778)

EPA proposed to amend the regulations under RCRA in two areas. First, the Agency proposed to remove the current requirement for facilities to obtain a post-closure permit and instead to allow the Agency to use alternative authorities to address facilities with units requiring post-closure care. Second, EPA proposed to amend the regulations governing state authorization to require authorized states to adopt, as a component of an adequate enforcement program, authority to address corrective action at interim status facilities. This action also solicits comment on issues related to closure and corrective action at hazardous waste management facilities. Comments must be received by January 9, 1995.

CERCLA

"National Priorities List; Kent City Mobile Home Park Site" November 8, 1994 (59 FR 55606)

EPA announced its intention to delete the Kent City Mobile Home Park Site, located in Kent City, Michigan, from the National Priorities List.

EPA and the State of Michigan determined that no further cleanup under CERCLA is appropriate. Comments must be submitted by December 8, 1994.

NOTICES

RCRA

"Utah; Final Authorization of State Hazardous Waste Management Program; Correction" November 10, 1994 (59 FR 56114)

EPA noted a correction to the text of the rule authorizing Utah's State Hazardous Waste Management Program. Page 52085 of the October 14, 1994, Federal Register, in the first column, in the second paragraph, in the 11th line, should read November 13, 1994, in place of the parenthetical phrase published.

"North Dakota; Full Program Adequacy of State Municipal Solid Waste Permit Program" November 25, 1994 (59 FR 60631)

Pursuant to RCRA §4005(c)(1)(C), EPA gave notice of a tentative determination, public hearing, and public comment concerning the adequacy of North Dakota's municipal solid waste landfill permit program. Comments must be received no later than January 12, 1995. If there is sufficient public interest, a public hearing is tentatively scheduled for January 12, 1995.

CERCLA

"Proposed Administrative Settlement; King Neptune Site" November 2, 1994 (59 FR 54912)

EPA proposed to enter into an administrative settlement under CERCLA §122(h). The proposed settlement requires the settling parties

NOTICES

to reimburse EPA for response costs incurred in connection with the King Neptune Site in Bell Gardens, California. The Agency will receive comments for a period of 30 days from the date of publication.

**"Proposed Administrative Settlement;
Triangle Petroleum Site"
November 2, 1994 (59 FR 54913)**

EPA proposed to enter into an administrative settlement under CERCLA §122(h). The proposed settlement requires the settling parties to reimburse EPA \$138,941.01 for response costs incurred in connection with the Triangle Petroleum Site, Fruita Mesa County, Colorado. The Agency will receive comments for a period of 30 days from the date of publication.

**"Proposed Consent Decree; Coshocton
Landfill Site"
November 14, 1994 (59 FR 56532)**

EPA proposed to enter into an administrative settlement under CERCLA. The proposed settlement requires the settling party to reimburse EPA \$1,750,000 plus interest from July 1, 1994, for response costs incurred in connection with the Coshocton Landfill Site in Coshocton County, Ohio. The Agency will receive comments for a period of 30 days from the date of publication.

**"Proposed Administrative Settlement;
C&R Battery Company, Inc., Site"
November 15, 1994 (59 FR 58842)**

EPA proposed to enter into a *de minimis* administrative settlement under CERCLA §122(g). The proposed settlement requires the settling parties to reimburse EPA for response costs incurred in connection with the C&R Battery Company, Inc., Site in Chesterfield County, Virginia. The Agency will receive

comments for a period of 30 days from the date of publication.

**"Informational Meeting; Draft Soil
Screening Level Guidance"
November 16, 1994 (59 FR 59225)**

EPA will hold an informational public meeting in Washington, D.C., on December 1, 1994, to present a document entitled Draft Soil Screening Level Guidance.

**"Availability of Draft Document"
November 16, 1994 (59 FR 59226)**

EPA announced the availability of the Draft National Capacity Assessment Report used to determine state compliance with CERCLA §104(c)(9) which concerns the availability of hazardous waste treatment or disposal capacity to manage hazardous waste generated in each state during the next twenty years. The report finds that sufficient capacity exists. Comments will be accepted until January 17, 1995.

**"Proposed Consent Decree; Acme
Solvents Reclaiming Site"
November 16, 1994 (59 FR 59249)**

A Consent Decree in United States v. Acme Solvents Reclaiming, Inc., et al., was lodged with the U.S. District Court for the Northern District of Illinois on November 1, 1994. The proposed settlement requires the settling parties to reimburse EPA \$775,000 for response costs incurred in connection with the Acme Solvents Reclaiming Site in Winnebago County, Illinois. The Agency will receive comments for a period of 30 days from the date of publication.

NOTICES**"Proposed Consent Decree; PSC Resources Site"
November 16, 1994 (59 FR 59249)**

A Consent Decree in United States v. AMF Reece, et al., was lodged with the U.S. District Court for the District of Massachusetts on October 28, 1994. The decree requires eleven settling parties to perform remedial activities in connection with the PSC Resources Site in Palmer, Massachusetts, as well as to make financial contributions to EPA, Commonwealth of Massachusetts, and DOI. Approximately 145 other settling parties agreed to a de minimis settlement that requires them to contribute \$3,755,484 toward the remediation effort. Finally, the New Jersey Department of Transportation will contribute \$3,500,000 and settling federal agencies \$625,152 to the remedial fund. Comments will be received for a period of 30 days from the date of publication.

**"Brownfield Economic Redevelopment Initiative"
November 21, 1994 (59 FR 60012)**

EPA will accept proposals for Brownfield Economic Redevelopment Pilots beginning December 1, 1994, and closing on March 1, 1995.

**"Proposed Prospective Purchaser Agreement; Commodore Semiconductor Group Site"
November 21, 1994 (59 FR 60014)**

EPA executed a Prospective Purchaser Agreement resolving potential EPA claims under CERCLA §107 against the purchaser concerning the Commodore Semiconductor Group Site in Norristown, Lower Providence Township, Montgomery County, Pennsylvania. The agreement is subject to the approval of the

Attorney General. Comments will be received until December 21, 1994.

**"Proposed Administrative Settlement; Niagara County Refuse Site"
November 21, 1994 (59 FR 60015)**

EPA proposed to enter into a de minimis settlement under CERCLA §122(g). The proposed settlement requires parties to reimburse EPA \$793,866 for response costs incurred in connection with the Niagara County Refuse Site in Wheatfield and North Tonawanda, Niagara County, New York. Comments will be received until December 21, 1994.

**"Proposed Consent Decree; Farmland Industries, Inc. Site"
November 21, 1994 (59 FR 60023)**

A Consent Decree in United States v. Farmland Industries, Inc., Burlington Northern Railroad Company, and Shell Oil Company was lodged with the U.S. District Court for the Western District of Missouri, St. Joseph Division, on September 24, 1994. The proposed decree requires the defendants to reimburse EPA \$274,487 for response costs incurred in connection with the Farmland Industries, Inc. Site in St. Joseph, Buchanan County, Missouri. DOJ will receive comments for a period of 30 days from the date of publication.

**"Proposed Administrative Settlement; Hunterstown Road Site"
November 22, 1994 (59 FR 60148)**

EPA proposed to enter into a de minimis administrative settlement under CERCLA §122(g). The proposed settlement requires the settling parties to reimburse EPA \$195,633.46 for response costs incurred and DOI \$3000 for damages to natural resources in connection with

NOTICES

the Hunterstown Road Site in Adams County, Pennsylvania. Comments must be received by December 22, 1994.

**"Proposed Administrative Settlement;
Renner Road Site"
November 22, 1994 (59 FR 60149)**

EPA proposed to enter into a de minimis administrative settlement under CERCLA §122(g). The proposed settlement requires the settling parties to reimburse EPA \$41,250 for response costs incurred in connection with the Renner Road Site in Shawnee, Johnson County, Kansas. Comments must be received by December 22, 1994.

**"Proposed Administrative Settlement;
Great Lakes Asphalt Facility"
November 25, 1994 (59 FR 60633)**

EPA proposed to enter into a de minimis administrative settlement under CERCLA §122(g). The proposed settlement requires 183 parties to reimburse EPA \$601,355.86 and the State of Indiana \$40,761.14. Respondents must also pay \$40,000 for natural resource damages. Comments must be received by December 27, 1994.

**"Proposed Consent Decree; Linemaster
Superfund Site"
November 25, 1994 (59 FR 60660)**

A Consent Decree in United States v. Linemaster Switch Corporation was lodged with the U.S. District Court for District of Connecticut on October 11, 1994. The proposed decree requires the defendant to perform the remedy for the site and reimburse EPA for response costs incurred in connection with the Linemaster Superfund Site in Woodstock, Windham County,

Connecticut. DOJ will receive comments for a period of 30 days from the date of publication.

**"Proposed Consent Decree; Sinclair
Refinery Site"
November 25, 1994 (59 FR 60660)**

A Consent Decree in United States v. Valley Steel Products Company, Inc. was lodged with the U.S. District Court for the Eastern District of Missouri on November 3, 1994. The proposed decree requires the defendant to reimburse EPA \$240,000 for response costs incurred in connection with the Sinclair Refinery Superfund Site in Wellsville, New York. DOJ will receive comments for a period of 30 days from the date of publication.

**"Proposed Consent Decree; Norwood
PCB Site"
November 28, 1994 (59 FR 60829)**

A Consent Decree in United States v. Federal Pacific Electric Company, Inc., et al., was lodged with the U.S. District Court for the District of Massachusetts on November 14, 1994. The proposed decree requires the defendants to reimburse EPA \$38,500,000 for response costs incurred in connection with the Norwood PCB Superfund Site in Norwood, Massachusetts. Defendants must also pay EPA \$1,500,000 in civil penalties and damages for failure to comply with a Unilateral Administrative Order. DOJ will receive comments for a period of 30 days from the date of publication.

**"Proposed Consent Decree Modification;
Fisher-Calo Site"
November 28, 1994 (59 FR 60829)**

A Consent Decree in United States v. Accurate Partitions Corp., et al., was lodged with the U.S.

NOTICES

District Court for the Northern District of Indiana on October 18, 1994. The proposed modification to the decree adds two settling parties as Settling Defendants to the decree. The modification is dependent upon the defendants reimbursement to EPA \$25,000 for response costs incurred in connection with the Fisher-Calo site in LaPorte County, Indiana. DOJ will receive comments for a period of 30 days from the date of publication.

OTHER**"Establishment of Federal Advisory Committee"****November 3, 1994 (59 FR 55117)**

EPA announced the establishment of the Common Sense Initiative Council. The Council is charged with developing recommendations for improvements in the regulatory and statutory environmental protection framework.

"EPA Regulatory Plan"**November 14, 1994 (59 FR 57178)**

EPA published an inaugural regulatory plan which highlights the Agency's major policy rulemakings planned for the upcoming year.

"EPA Semiannual Regulatory Agenda"**November 14, 1994 (59 FR 58200)**

EPA's Semiannual Regulatory Agenda describes the Agency's ongoing and long-term plans for policy and regulation development, revision, and review.

"Public Meetings; Dioxin Reassessment Documents"**November 18, 1994 (59 FR 59776)**

EPA will hold five public meetings to gather comments on the recently released Draft Dioxin Reassessment Documents. The meetings will be held on December 8-9, in Herndon, Virginia; December 12-13, 1994, in New York City and Newark, New Jersey; December 13, 1994, in Arlington, Texas; December 14, 1994, in Chicago, Illinois; and, December 16-17, 1994, in San Francisco, California.

"Availability of Pollution Prevention Grants and Announcement of Financial Assistance Programs Eligible for Review"**November 21, 1994 (59 FR 60010)**

EPA announced the availability of approximately \$5 million in fiscal year 1995 grant/cooperative agreement funds under the Pollution Prevention Incentives for States grant program. These grants and awards are funded under the authority of the Pollution Prevention Act of 1990.
