Issues Shaping the Industry

May 7-9, 2002
Westminster, CO
(Denver/Boulder Area)

CALL FOR ABSTRACTS CALL

PURPOSE

This conference will provide participants with an opportunity to examine and discuss current and future environmental issues shaping the mining industry with emphasis on case study analysis and technology verification.

CONFERENCE GOAL

The conference goal is to provide a forum for the exchange of scientific information on current and future environmental issues shaping the mining industry. This information exchange will serve to enhance the legacy of remediation and cleanup and contribute to the sustainable U.S. modern mining industry.

WHO SHOULD ATTEND

This conference is aimed at hardrock mining remediation researchers and practitioners; federal, state, local, and tribal decision makers; the mining industry; and others interested in hardrock mining remediation.

CONFERENCE ORGANIZERS

U.S. Environmental Protection Agency

U.S. Geological Survey

U.S. Department of Energy

Colorado Geological Survey

Colorado Department of Natural Resources
Division of Minerals and Geology

Society for Mining, Metallurgy, and
Exploration (SME)

Department of Indian Affairs and Northern
Development - Government of Canada

Mine Waste Technology Program

MSE Technology Applications, Inc.

Montana Tech of the University of Montana

Mining Life Cycle Center - University of
Nevada, Reno

FOR FURTHER INFORMATION

Registration information and agenda updates will be available in February, 2002. Visit the EPA's website for more information at:

www.epa.gov/ttbonrmrl

Recycled/Recyclable

Printed with vegetable-based ink on paper that contains a minimum of 50% post-consumer fiber and is processed chlorine free.

Hardrock Mining 2002

MAIN TOPICS OF INTEREST

Multimedia Issues

Air

- particulates
- control technologies
- toxics release inventory

Water

- wetlands
- total maximum daily load
- pit lakes
- groundwater

Waste

- acid drainage
- active clean-up and remediation technologies
- soil covers

Land

- plans of operations
- land access and tenure
- federal use planning

Closure & Post-Closure Issues

Financial Issues: Reclamation Bonding and Environmental Surety

Environmental Insurance

Abandoned Mine Lands Issues

Mining Sustainability

Public and Community Relations Issues

Cyanide Impacts

Public Policy

Biological Indicators/Ecological Monitoring

ABSTRACT SUBMISSION

Abstracts for both oral and poster presentations must be submitted by Friday, November 9, 2001. Abstracts must be limited to 1 page single spaced, and include the title, authors' names and affiliations, email and mailing addresses, phone number, an indication of the presenting author, and main topic. Please state your preference for an oral or poster presentation. Abstracts should be submitted either by email or regular mail to:

Alina Martin
SAIC R-4-3
11251 Roger Bacon Drive
Reston, VA 20190
Email: martinali@saic.com
Phone: (703) 318-4678, ext.1

Presenting authors will be notified by January 11, 2002 of abstract acceptance and format of presentation.

LOCATION

Doubletree Hotel - Denver/Boulder
8773 Yates Drive
Westminster, CO 80030
(303) 427-4000 or 1-800-868-4001

A limited number of rooms has been reserved. Please reference the Hardrock Mining Conference to receive the special rate. Reservations are on a space-available basis and must be made by April 16, 2002. Government rate (ID required) is \$86 plus tax and the corporate rate is \$119 plus tax.
