**Don't miss the opportunity to attend!**

November 2-4, 1999  
Indian Lakes Resort  
Bloomington, Illinois  
(Chicago Metropolitan Area)

# **Innovative Clean-up Approaches:**

*Investments in Technology Development,  
Results & Outlook for the Future*

**Tuesday, November 2, 1999**

- Contaminated Sediments
- PCB/Pesticides in Soils
- Geophysics
- Chlorinated Solvents-Groundwater
  - Barrier Technologies
- Site Characterization and Monitoring Technologies Pilot
- Commercialization of Research and Development
- Optimization of Soil Vapor Extraction
- Context for Cleanup-Risk Management Approaches

**Wednesday, November 3, 1999**

- Metals in Soil
- Sampling Technologies
- PAHs - Soils
- Electronic Information Resources
- New Techniques in Brownfields
- Superfund Innovative Technology Evaluation (SITE) Program
- Small Business Innovation Research (SBIR)-
  - New Funding
  - Design for Reuse
- Context for Cleanup-RCRA/CERCLA Policy Interface
- Industrial/Municipal Waste Remediation
  - Chlorinated Solvents-Groundwater
    - Phytoremediation/Biological
    - NAPLs-Groundwater
      - Chemical/Biological
      - Thermal
    - Surfactant and Solvent Flushing

## Technical Presentations & Workshops

**Thursday, November 4, 1999**

- Metals-Bioavailability
- NAPLs in Soils
- Chlorinated Solvents-Soils
- Multi-media Approaches
- New Developments in MTBE
- Hazardous Substance Research Centers
- SITE Program
- Monitored Natural Attenuation
- Optimization of Pump and Treat
- Presumptive Approaches to Characterizations and Cleanup

### Other Related Activities

**Multi-Agency Grants Update on  
Bioavailability/Bioremediation**  
*November 3-4*

**Field-Based Site  
Characterization Technologies  
Training Course**  
*November 1-2 at Indian Lakes*

Please Note: There is  
NO charge for attending  
this conference
