

National Environmental Directory Of Minority And Women-Owned Businesses

INTRODUCTION

The "National Environmental Directory of Minority and Women-Owned Businesses" has been compiled in response to national concerns regarding a shortfall of competent and qualified MBE/WBE firms in environmental contracting. The Office of Small and Disadvantaged Business Utilization developed this Directory for use by EPA Program Offices, State and local governments, Federal Agencies and the private sector.

Our mission is twofold: (1) to provide visibility of these firms in the marketplace; and (2) to assist organizations in fulfilling their MBE/WBE mandates.

Efforts were undertaken to provide the most accurate and up-to-date information. The listings were verified by each firm contained herein. The Directory will be published semi-annually. We do welcome your comments and suggestions for future editions.

If you have any questions or need further assistance regarding the firms, please call Elaine Rice, National Program Officer, at (703) 305-5300.

TABLE OF CONTENTS

<i>Asbestos Abatement</i>	<i>1-83</i>
<i>Superfund Hazardous Waste</i>	<i>84-235</i>
<i>Lead-Based Paint Abatement</i>	<i>**</i>

FIRM: *Environmental Support Services, Inc.*
ADDRESS: *1701 North Greenville Avenue, Suite 404
Richardson, TX 75081-1848*
PHONE NO.: *(214) 238-5227*
FAX NO.: *(214) 238-8803*

DESCRIPTION OF SERVICES:

Complete management of Asbestos from initial investigation to risk assessment, planning, remediation, and designs of Operation and Maintenance (O&M) Programs. Actual inspections commence when inspectors are thoroughly familiar with the history and setting of the site then a plan for bulk sampling and analysis is developed. All phases of asbestos abatement activities are managed to comply with OSHA and EPA safety standards by performing air monitoring of ACM (Asbestos-Containing Material) dust levels. ESS also monitors project costs and schedules.

EQUIPMENT:

*10-High Volume Air Sampling Pumps
4-Personal Air Sampling Pumps
Ludlum, Model 19
HSPA Vent Hood
Olympus Steroscope
Olympus PLM Microscope with McCrone objective and wide angle ocular Olympus PCM Microscope
