DEFICE OF CIVIL RIGHTS

MEMORANDUM

NOV 1 8 1986

SUBJECT: Civil Rights Personnel Directory

FROM:

Nathaniel Scurry, Director /

Office of Civil Rights (A-105)

TO:

Agency Personnel Involved in Civil Rights Activities

The Office of Civil Rights is pleased to publish the attached updated Directory. You will note that this Directory contains the names of 270 employees.

This Directory provides a description of the structure and program involvement of the Office of Civil Rights, and includes names, telephone numbers of all personnel involved in agency civil rights activities.

Because you are involved in civil rights duties, and are listed as such in the Directory, I wanted to be sure that you received your personal copy. I hope this Directory will be useful in locating other agency personnel involved in similar work.

If you have any questions or comments about the Directory, please call Nereid Maxey of my staff. Ms. Maxey may be contacted at FTS 382-4567.

OFFICE OF CIVIL RIGHTS

MEMORANDUM

SUBJECT:

Civil Rights Personned Directory

FROM:

3308 25-64

Nathaniel Scurry, Director,

Office of Civil Rights (A-105)

TO:

Executives, Managers and Supervisors

The Office of Civil Rights is pleased to publish the attached updated <u>Directory</u> identifying key agency personnel who have civil rights duties and responsibilities.

As you know, the Environmental Protection Agency has an aggressive civil rights policy. This commitment is reflected in the over 270 employees who are involved in these activities either on a full time or collateral duty basis. We believe you will find the Directory useful.

This <u>Directory</u> outlines the organizational structure and provides a description of the major program areas within the Office of Civil Rights. It also includes names, telephone numbers and civil rights subject areas of all personnel involved in civil rights activities at Headquarters, Regional Offices and Laboratories.

Because our supply is limited, we ask that you make your employees aware of this <u>Directory</u> so that they may have access to it as needs arise. Please feel free to make additional copies if you wish to make it available to each of your employees.

Memorandum

April 18, 1985

TO: All EPA Employees

SUBJECT: EPA's Civil Rights Policy and Commitment

It is the policy of the Environmental Protection Agency to create and maintain a work environment which is free from discrimination. As Administrator of the Agency, it is also my policy to provide equal opportunity in hiring new employees and equal access to all programs which promote professional development of qualified employees. This policy is based on Federal law and on sound human development principles. In addition, it is my firm belief that a fully representative workforce will enhance the Agency's ability to address the concerns of the public it serves.

In keeping with this policy, I will be personally involved in monitoring Agency progress in meeting our Civil Rights objectives and our statutory responsibilities. I am especially concerned that our EPA managers and supervisors assume an active role in assuring success in four major areas of commitment:

1. Hiring - The Agency's Affirmative Action Plan sets forth our commitment to expand recruitment efforts to reach and encourage more women and minorities to join EPA's highly qualified staff. The primary focus of our recruitment strategy is to improve the representation of women and minorities in the professional and technical ranks of the Agency's workforce.

2. Professional Development - We are committed to developing the human and professional potential of all our employees. We will make every reasonable effort to bring about changes in the Agency's current employment profile which shows relatively few female, minority and handicapped employees holding positions at the higher grade levels. We have revitalized the Upward Mobility program. The Office of Human Resources Management is taking the lead in developing strategies to ensure that all qualified employees are aware of and have access to available training to acquire the skills they need to advance in their careers. These and other efforts are aimed at maximizing the contribution that each employee is capable of making to this agency.

3. Training for Supervisors and Managers - The success of our Civil Rights program depends on the contributions of all of us, but it is the explicit responsibility of all EPA managers and supervisors to execute the Agency's policy within their organizational units. During this fiscal year, we will offer appropriate training to all managers and supervisors to clearly define their Civil Rights responsibilities and assist them in carrying out their charge.

4. Enforcement of External Compliance Program - We now have in place Agency procedures for ensuring that recipients of EPA grants adhere to Federal guidelines prohibiting unlawful practices of discrimination. We are committed to strict enforcement of these nondiscrimination standards and will withhold grant funds from those who do not comply.

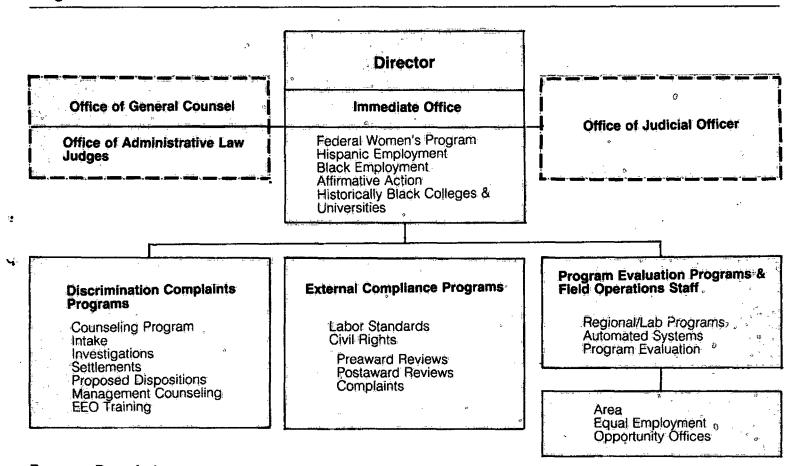

I am especially pleased with the recent progress that has been made in our Civil Rights Programs and the positive direction in which we are now moving. However, I want to be sure that we continue to build on these accomplishments and not lose the momentum. With your cooperation, I am confident that we can meet these challenges.

Lee M. Thomas

Program Description

Office of Civil Rights

The Office of Civil Rights is responsible for the enforcement of nondiscrimination laws on the bases of race, color, national origin, sex, age and handicap as they affect EPA employees, applicants for employment, and recipients of EPA financial assistance.

Discrimination Complaints Programs (Internal)

Processes and investigates discrimination complaints filed by EPA employees and applicants for employment, negotiates settlements and writes proposed dispositions, and provides outreach training to managers and employees. Administers the EEO counseling program.

Equal Employment Opportunity Counselors

EEO Counselors are the first step in initiating a discrimination complaint. All employees having EEO complaints must first receive EEO counseling. Counselors, acting as neutral third parties, attempt to resolve issues as required before the employee may file a formal complaint.

External Compliance Programs

A. Civil Rights - Sets policy for and oversees EPA's implementation of civil rights laws applicable to EPA grantees which variously prohibit discrimination on the basis of race, color, national origin, sex, handicap and age.

B. Labor Standards — Establishes procedures to implement Department of Labor requirements and policy regarding various labor standards legislation applicable to EPA and EPA-assisted contractors and makes initial assessments of liquidated damages under the Contract Work Hours and Safety Standards Act (CWHSSA).

Program Evaluation and Field Operations Staff

Serves as the focal point and primary resource within the Office of Civil Rights for ensuring the involvement of EPA's field activities in all aspects of the Agency's Civil Rights Programs; coordination and implementation of OCR programs within the laboratories; and development and maintenance of systems for tracking and evaluating accomplishments of program objectives and compliance with established policies.

Related Headquarters Offices

Office of Administrative Law Judges authorized to issue proposed dispositions in EEO complaint cases when referred by the Office of Civil Rights.

Office of the Judicial Officer - issues final agency decisions in EEO complaint cases; issues decisions on appeals involving labor standards cases.

Office of General Counsel - represents agency in EEO complaint hearings before the Equal Employment Opportunity Commission and provides liaison with the Department of Justice. Provides general legal assistance as required by the Office of Civil Rights.

Policy Statement on Prohibition of Sexual Heresement Environmental Protection Agency

Employees of the Environmental Protection Agency have a grave responsibility under the Federal code of conduct and othics for maintaining high standards of honesty, integrity, imperiality and conduct to assure proper performence of the Government's business and maintainings of the confidence of the American people. Any employee conduct which violates this code cannot be conduct. Sexual haresment is unacceptable conduct in the workplace and will not be tolerated at EPA.

0

Sexual harasement is a form of misconduct which undernines the integrity of the employment relationship. All employees must be allowed to work in an environment free from unsolicited and unwelcome sexual exercines. Sexual harasement debilitates morals and interferes with the work productivity of its victims and co-workers.

Sexual harasment is a prohibited personnal practice when it results in disadmination for or against an employee on the basis of conduct not related to work performance, such as taking or relusing to take a personnal action, including promotion of employees who submit to sexual advances or refusal to promote employees who resist or protest sexual ovartures. Specifically, sexual harasment is deliberate or repeated unsolitated varial comments, gestures, or physical context of a sexual nature which are unwelcome.

A supervisor who uses implicit or explicit coexive sexual behavior to control, influence, or diest the errear, selarly, or job of an employee is engaging in sexual behavior in this manner in the process of conducting agency business is engaging in sexual beassment. Finally, any employee who participates in deliberate or repeated unsolicited verbal comments, gestures, or physical content of a sexual nature which are unveloced and interfere with work productivity is also engaging in sexual haresment.

Our Personnel menegement must be free from such prohibited personnel presides and consistent with meat system principles, as outlined in the provisions of the Clvil Service Reform Act of 1975. All EPA employees should evoid conduct which undernines these meat principles. At the same time, it is not the intent of the Agency to regulate the social interaction or relationships freely entered into by EPA employees.

evoid conduct which undermines these most principles. At the same time, it is not the intent of the Agency to regulate the social interaction or relationships ficely entered into by EPA employees. Any employee who feels victimized by sexual heresement should contact the Office of Civil Rights to learn of the confidential counseling services and legal resources evallable within the Agency.
