

Forecast of Contract Opportunities for 8(A) and  
Small Businesses for Fiscal Year 1996

U.S. ENVIRONMENTAL PROTECTION AGENCY  
OFFICE OF SMALL AND DISADVANTAGED BUSINESS UTILIZATION  
WASHINGTON, D.C. 20460

OCTOBER 1995

NOV 3 1995

## ***FOREWORD***

Public Law 100-656, the Business Opportunity Development Reform Act of 1968, amended the Small Business Act to place greater emphasis on acquisition planning as it pertains to socioeconomic concerns. The law requires Federal agencies/departments to compile and make available information on contracting opportunities for small and small disadvantaged firms.

The Environmental Protection Agency (EPA), in compliance with P.L. 100-656, has developed a Fiscal Year 1996 Forecast of projected contract actions above \$25,000 that small and small disadvantaged firms may be able to perform through direct contract with the Government. The Forecast consolidates anticipated acquisitions at each of EPA's headquarters and field buying activities into an awards acquisition planning report.

The EPA acquires a variety of products and services from environmental engineering to highly technical computer services and management consulting services. For Fiscal Year 1994, the Agency's procurement obligations were approximately \$1 billion. The Forecast is based on the best information available at the time of the publication and may be revised if warranted. The addresses and telephone numbers of the Small Business Representatives assigned to the Agency's buying facilities are included in the back of this publication.

To obtain copies of this publication contact:
