

Activities of the Grants Assistance Programs

We obtain these data from the Grants Information and Control System (GICS), monthly regional reports of grant activity and other sources.

We base available funds upon advices of allowance (and sub-allocations) issued; we have not reduced the balances to reflect projects recommended for funding (commitments) but not yet awarded.

We estimate projected annual funding data at the time of publication.

Monthly awards figures are preliminary and subject to adjustment.

An administratively consolidated grant is one funded under more than one grant authority by the Environmental Protection Agency.

Increases and decreases in funding may include revisions (change in project scope) and augmentations (project scope unchanged).

The Financial Management Division will provide detailed information upon request.

Grant Highlights

\$690 MILLION FUNDED IN JUNE	EPA approved 874 grants totaling \$690 million in June. Total grant dollars awarded during the first nine months of FY 81 were up \$173 million from last year (\$2.48 billion compared to \$2.31 billion awarded during the same period of FY 80).
RESEARCH, DEMONSTRATION, AND OTHER HEADQUARTERS ACTIVE PROJECTS TOTAL \$214 MILLION	As of June 30, 1981, Headquarters active projects totaled \$214 million. Research grants, contrasted with demonstration and other Headquarters projects, represented 64% (\$136 million) of the total active grant dollars. (During the same period of FY 80, research grants represented 49% of the Headquarters active projects.)
WWT CONSTRUCTION GRANT OBLIGATIONS INCREASED 13% FROM SAME NINE MONTH PERIOD IN FY 80	Obligations during the first nine months of FY 81 totaled \$1.99 billion, an increase of 13% (\$221 million) from the same period of FY 80.
\$1.7 BILLION OF CURRENT CONSTRUCTION GRANTS APPROPRIATIONS RESCINDED	PL 97-12, enacted June 5, 1981, rescinded \$1.7 billion of unobligated funds for the construction grants program distributed in the following amounts: \$756 million in FY 81 funds, \$880 million in FY 80 funds, and \$64 million in Talmadge/Nunn funds.
PHASE-OUT OF THE THE CLEAN LAKES PROGRAM HIGHLIGHTED	A synopsis of the phase-out of EPA's Clean Lakes Program assistance is highlighted in the Activities report this month. Periodically the editors will publish articles about EPA programs that are largely supported through grants-in-aid.

Feature of the Month

Phase-out of the Clean Lakes Program

The President's FY 82 budget provided no funding for Section 314 Clean Lakes Program grants or personnel to administer the 230 active cooperative agreements that support this Program.

The elimination of funding for the Clean Lakes Program does not terminate existing projects because most Clean Lakes projects were fully funded at the time the awards were made.

Although no personnel resources are available to work specifically on Clean Lakes activities, EPA is still responsible for dispersing approximately \$50 million to State and substate recipients and ensuring the integrity of the cooperative agreements. EPA Headquarters and the Regional Offices are working together to provide an orderly phase-out of the Program.

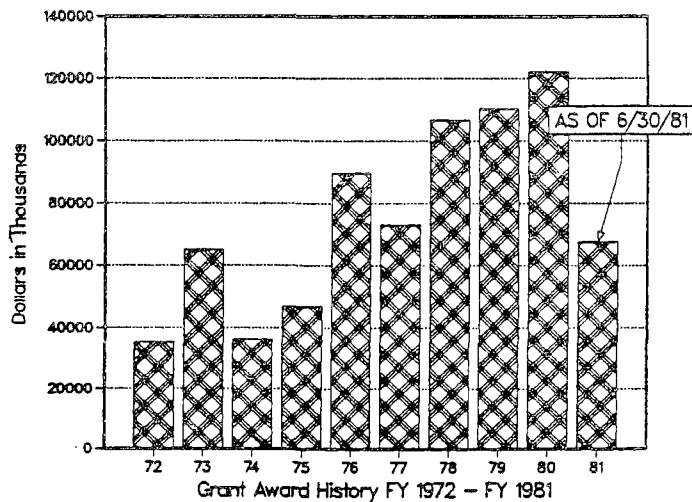

To ensure that Clean Lakes projects are completed with adequate oversight, the following activities were initiated:

- ° The Lake Assistance Service Program was developed to provide regional offices with teams of experts to help regional project officers and cooperative agreement recipients resolve problems or issues that may prevent the completion of a project. The assistance may involve: modifying the scope of work of a project to achieve the greatest level of lake restoration/protection within project resources; identifying ways to protect water quality if the project cannot be completed within existing resources, or suggesting other sources of funding to complete the project.
- ° Guidance was sent to the regions identifying their continued responsibility to assign a project officer to monitor and certify the performance of the project until all grant closeout requirements are completed. Activities were identified that could be delegated to the States that would not threaten the integrity of the project.
- ° A report will be available October 1, 1981, that documents the phase-out of the program. This report will summarize the history of Federal involvement in preserving and restoring our nation's lakes, will discuss the science of lake restoration, and will review the status of State lakes programs and Clean Lakes projects.
