

We obtain these data from the Grants Information and Control System (GICS), monthly regional reports of grant activity and other sources.

We base available funds upon advices of allowance (and sub-allocations) issued; we have not reduced the balances to reflect projects recommended for funding (commitments) but not yet awarded.

We estimate projected annual funding data at the time of publication.

Monthly awards figures are preliminary and subject to adjustment.

An administratively consolidated grant is one funded under more than one grant authority by the Environmental Protection Agency.

Increases and decreases in funding may include revisions (change in project scope) and augmentations (project scope unchanged).

The Financial Management Division will provide detailed information upon request.
