# SANITARY LANDFILL

## A BIBLIOGRAPHY

*This report (SW-4rg.1) on work performed under solid waste research  
grant no. EC-00162 was compiled by R. LEE STEINER and RENEE KANTZ*

*This bibliography continues the series initiated in 1967*

Public Health Service Publication No. 1819

An environmental protection publication (*SW-4rg.1*)  
in the solid waste management series

## INTRODUCTION

A wide variety of American and British periodicals were searched by the authors to obtain this bibliography of articles which provides a chronology of the development of sanitary landfill practice. Only those references that could be verified are listed in this revised edition. It is published as an aid to investigators in this field in their review of the technical literature.
