# NCEPI PUBLICATIONS CATALOG

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
Cincinnati, Ohio 45268

**INTRODUCTION:**

The National Center for Environmental Publications and Information (NCEPI), is the primary national large volume publications distribution clearinghouse for the Agency. Over 4,000 different Agency documents and publications are contained in NCEPI as well as floppy diskettes, transparencies, VCR and audio cassette tapes, and posters. Over 500,000 publication copies are distributed monthly to domestic and international destinations.

A single-source listing of technical and non-technical Agency publications has been called for by the Agency, the public, state and local governments, and academia. As a first step, NCEPI, along with the Office of Communications, Education, and Public Affairs, the Office of Information Resources Management, and the Office of Research and Development, produced this first-edition catalog, which includes program publications contained within NCEPI. Materials are representative of almost every Office (OARM, OIA, OAR, OSWER, OW, OPPTS, ORD, etc).

There are other Agency publications housed in other locations than NCEPI. Those program and regional offices interested in including publication titles and location to obtain copies in the next catalog edition may contact either Deborah McNealley or Earl Eastwood from NCEPI, at 513/569-7985.

Designed to be easily read, this catalog provides the means by which Agency information can be shared with its clients via "one-stop shopping", while eliminating the frustration often experienced in trying to locate a particular publication title. Your suggestions are encouraged and may be forwarded on the enclosed Comments Form.

William M. Henderson, Director  
Office of Management & Administration

EPA's National Center for Environmental Publications & Information (NCEPI), provides the primary mainframe computing resource through which EPA's staff at Headquarters, Regions, and Program Offices access publication and multi-media product titles housed within the NCEPI Clearinghouse. 32,000 historic publication titles are also included in the database archived at the National Technical Information Service (NTIS).

This system will allow users to:

- o Perform Keyword Search
- o Place Electronic Orders for Publications within NCEPI
- o Identify publications alphabetically, by publication number, or by "lab owner"/corporate author.

If you are interested in connecting to this system or have questions concerning the system, please contact NCEPI at 513/569-7985.
