

ENVIRONMENTAL PROGRAM ADMINISTRATORS

December 1977

**U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Regional and Intergovernmental Operations
Washington, D.C. 20460**

P R E F A C E

This tabulation of Environmental Program Administrators listing State officials and their respective areas of responsibility has been assembled to facilitate and improve interstate cooperation and intergovernmental communications. The availability of this information is expected to result in more frequent contact among the various State agencies and expedite responses to environmental issues and problems. The information provided in this tabulation has been verified as correct as of December 1, 1977 by EPA's Regional Offices.

This listing is an updating of the May, 1976 version . As last year, the compilation is subdivided into five sections. The first three sections are arranged according to the uniform Federal region configuration, i.e., Regions I through X with the States located within each region listed alphabetically. Section IV is a compilation of interstate agencies having environmental program responsibilities, while Section V lists EPA Regional Offices. Comments and suggested changes from users of these tabulations have been incorporated. Users are urged to make their needs known as the listing is updated annually by the Environmental Protection Agency's Office of Regional and Intergovernmental Operations.

Inquiries should be addressed to the organization or individuals listed under each category.

DEFINITIONS

| | |
|-------------------------|---|
| <u>Environmental</u> | Those persons having broad authority for the overall supervision of State environmental programs. |
| <u>Water Quality</u> | Those persons who are, in general, responsible for such State programs as water quality surveillance and enforcement, training, and certification of sewage treatment plant operators, pollution control studies, as well as planning and administering the programs authorized by the Federal Water Pollution Control Act, including establishment of priorities, review of grant applications, plans and specifications and other related activities. |
| <u>Water Supply</u> | Those persons who are responsible for the drinking water program of the State. |
| <u>Industrial Waste</u> | Those persons who are leaders in the conduct of the permitting program for industrial discharges, providing technical and advisory assistance to industries and conducting studies relative to the development of industrial effluent standards, and serve as the focal point for technology transfer from EPA of new industrial waste treatment processes. |
| <u>Air Quality</u> | Those persons who are responsible for review and approval of requests for the construction or modification of air pollution control facilities, development and revision of implementation plans, provide technical assistance, maintain air quality monitoring and surveillance programs and carry out enforcement of air quality standards. |
| <u>Solid Waste</u> | Those persons who are, in general, responsible for the conduct of surveys of solid waste disposal practices and problems. They also develop solid waste management and disposal plans and approve solid waste disposal projects, as provided for under individual State codes or laws. |
| <u>Noise</u> | Those persons responsible for the noise pollution control programs of the State. |
| <u>Pesticides</u> | Those persons responsible for the pesticide control programs of the State. |
| <u>Radiation</u> | Those persons responsible for radiation control programs of the State. |
| <u>Laboratory</u> | Those persons responsible for laboratory operations connected with the environmental protection programs of the State. (Split responsibility is qualified in the listing, e.g. separate water supply laboratory.) |
