SEMINAR SERIES FOCUS

A vast amount of the nation's solid waste is currently deposited in landfills, and available land for disposal operations is becoming scarce. New technologies and management approaches in reducing and handling solid waste should be considered. EPA has established a 25% reduction goal for waste going to landfills and several states have implemented regulations for diverting waste from land disposal. Since these regulations are generally administered at the county level, counties are responsible for producing a plan to meet them.

This seminar series will address planning issues in solid waste management for rural, county and local governments. It will focus on integrating new technologies in a total program of municipal solid waste management, and will provide information on specific issues such as collection alternatives, source reduction, recycling, and composting. The seminar will also include information on both new and existing landfills, presentations on case studies of successful state and local programs, and a demonstration of software used for developing integrated municipal solid waste management plans.

TARGETED AUDIENCE

This seminar is designed for federal, state, and local government officials and regulatory personnel, environmental scientists, engineers, environmental consultants, and other individuals with responsibilities for the management of solid waste. Presentations, demonstrations, and exhibitions will provide detailed technical and environmental information that will assist planners in developing integrated solid waste management plans for their communities.

REGISTRATION INFORMATION

Please complete the pre-registration form and return to EA Environmental Technology Group by mail or FAX as soon as possible. There is no fee for attending these seminars. However, registration will be limited and will be filled on a space-available basis. Should you need further information, please call EQUITY ASSOCIATES, Inc. at (615) 584-9171.

HOTEL: This seminar series will be held at the hotels listed below. Special room rates have been negotiated for the seminar series (government identification may be required to be eligible for discounted rates). Room reservations are the responsibility of each attendee and should be made as early as possible. The reserved block of rooms will only be held until the cut-off date; after that, the rooms will be sold on a space-available basis by the hotel. When making your reservations, be sure to mention that you will be attending the EPA seminar so that you will qualify for the special room rate.

July 13-14, 1992
Hyatt Regency
Buffalo, New York

Cut-off date: July 13

SEMINAR AGENDA

DAY ONE

9:00 a.m.	Registration
9:30 a.m.	Welcome and Introduction
9:40 a.m.	Federal Requirements and Integrated Solid Waste Management Planning Concept
10:00 a.m.	State Requirements, Regulations, and Assistance
10:20 a.m.	Break
10:35 a.m.	Small Community Implementation Procedures
11:35 a.m.	Questions and Answers
12:00 p.m.	Lunch
1:00 p.m.	Alternatives for Collection of Municipal Solid Waste
1:30 p.m.	Strategies for Reduction of Municipal Solid Waste
2:00 p.m.	Material Recovery Facilities and Recycling
2:30 p.m.	Break
2:45 p.m.	Small Community Composting Alternatives
3:15 p.m.	RCRA Subtitle D Effects on New and Existing Landfills
4:00 p.m.	Questions and Answers
4:30 p.m.	Adjourn

DAY TWO

9:00 a.m.	Pollution Prevention Successes From USEPA Research Program
9:30 a.m.	The Georgia Success Story
10:15 a.m.	Local Case Study
11:00 a.m.	Questions and Answers
11:30 a.m.	Lunch
12:30 p.m.	Demonstration of SW-Options Software
2:00 p.m.	Adjourn

Speakers include: L. Diaz, CalRecovery, Inc.; J. Swartzbaugh, University of Dayton; J. Bridges, USEPA-ORD; Ross King, Georgia Association of County Commissioners; USEPA State Representatives, and USEPA Region Representatives.
