October 1990

Office of Administration
Management and Organization Division

Printed on Recycled Paper

The Management and Organization Division is pleased to provide you with the 1990 version of "Who's Who in EPA". EPA is a dynamic agency with complex programmatic responsibilities. "Who's Who" is an opportunity to provide you with the organization charts and personnel listings as they exist at the close of FY90.

I hope you find this booklet a useful reference tool in your dealings with EPA.

A handwritten signature in cursive script, reading "Kathy Petruccelli".

OFFICE OF ADMINISTRATION AND RESOURCES MANAGEMENT

OFFICE OF ADMINISTRATION AND RESOURCES MANAGEMENT

The Office of the Assistant Administrator for Administration and Resources Management has primary responsibility for policy and procedures governing resources management, human resources management, environmental health and safety, facilities management, administrative services, organization and management analyses, systems development, information management services, automated data processing systems and procurement through contracts and grants. In performance of the above functions and responsibilities, the Assistant Administrator represents the Administrator in communications with the Office of Management and Budget, Office of Personnel Management, General Accounting Office, General Services Administration, Department of Treasury, and other Federal agencies prescribing requirements for the conduct of Government budget, fiscal, management, and administrative activities.

OFFICE OF ENFORCEMENT

OFFICE OF ENFORCEMENT

The Office of the Assistant Administrator for Enforcement serves as the primary advisor to the Administrator in matters concerning enforcement; and provides the principal direction and review of civil enforcement activities for air, water, waste, pesticides, toxic substances and radiation. The office manages a national criminal enforcement program; ensures coordination of media office administrative compliance programs, and civil/criminal enforcement activities; provides technical expertise for enforcement activities to Headquarters, Regions and States through the National Enforcement Investigations Center; and manages the program for assuring compliance by Federal facilities with all environmental statutes and implementing regulations.

OFFICE OF INTERNATIONAL ACTIVITIES

The Office of the Assistant Administrator for International Activities performs the primary role in developing and maintaining a sophisticated understanding of the international political climate that will influence domestic and international consideration of environmental problems. The Office advises the Administrator on the most appropriate timing, forum, and other modalities for dealing with international environmental issues and exercises lead responsibility within EPA for devising strategies to advance the U.S. position. The Office manages meetings with representatives of other governments and multilateral organizations consistent with such strategies.

OFFICE OF PESTICIDES AND TOXIC SUBSTANCES

OFFICE OF PESTICIDES AND TOXIC SUBSTANCES

The Office of the Assistant Administrator for Pesticides and Toxic Substances is responsible for: development of national strategies for the control of toxic substances; criteria for assessing chemical substances; standards for test protocols for chemicals; rules and procedures for industry reporting and regulations for the control of substances deemed to be hazardous to man or the environment; enforcement of standards; and evaluating and assessing the impact of new chemicals and chemicals with new uses to determine the hazard and, if needed, develop appropriate restrictions. It coordinates activities under assessment and control of toxic substances. Additional activities include control and regulation of pesticides and reduction in their use to assure human safety and protection of environmental quality; establishment of tolerance levels for pesticides which occur in or on food; monitoring of pesticide residue levels in food, humans, and nontarget fish and wildlife and their environments; and investigation of pesticide accidents.

OFFICE OF RESEARCH AND DEVELOPMENT

OFFICE OF RESEARCH AND DEVELOPMENT

The Office of the Assistant Administrator for Research and Development is responsible for the research and development needs of the Agency's operating programs and the conduct of an integrated research and development program for the Agency. The Assistant Administrator for Research and Development serves as the Agency's principal science advisor and is responsible for the development, direction, and conduct of a national environmental research, development and demonstration program in: health risk assessment, health effects, engineering and technology, processes and effects, acid rain deposition, monitoring systems and policy, standards, and regulations. The Office provides for dissemination of scientific and technical knowledge, including analytical methods, monitoring techniques, and modeling methodologies; and provides technical and scientific advice on Agencywide technical program issues.

REGIONAL OFFICES

Regional Administrators are responsible within the boundaries of their Regions for the execution of the Regional programs of the Agency. Regional Administrators cooperate with Federal, state, interstate and local agencies, industry, academic institutions, and other private groups to make sure Regional needs are considered and Federal environmental laws implemented. Regional Administrators are responsible for developing, proposing, and implementing Regional programs for comprehensive and integrated environmental protection activities; conducting effective Regional enforcement and compliance programs; translating technical program direction and evaluation provided by various Assistant Administrators, Associate Administrators and Headquarters Staff Offices into effective operating programs at the Regional level, and assuring that such programs are executed efficiently; exercising approval authority for proposed State standards and implementation plans; and providing overall and specific evaluations of Regional programs. EPA maintains its Region I in Boston; Region II in New York; Region III in Philadelphia; Region IV in Atlanta; Region V in Chicago; Region VI in Dallas; Region VII in Kansas City; Region VIII in Denver; Region IX in San Francisco; and Region X in Seattle.
