Proceedings of the Royal Society, B, 167:87-163,
1967. (copy attached)

Bibliography on the Effects of Herbicides on Wildlife

With the exception of the paper by Martin, all references are from "The Toxicity of Herbicides to Mammals, Aquatic Life, Soil Microorganisms, Beneficial Insects and Cultivated Plants, 1950 - 65 - A List of Selected References," Library List No. 87 (available from the National Agricultural Library, Washington, D. C.).

504. ANDERSON, A. E. Effects of sagebrush eradication by chemicals on deer and related range. *Colo. Game & Fish Dept. Fed. Aid. Div. Traco.*, 1960. Ref. 72 p. Dept. Interior Libr.
2,4-D; includes cattle and wildlife.
505. BERGSTRAND, J., and KILISTRA, W. D. Toxicity of "Dybar" to bobwhite quail. *J. Wildlife Manage.* 26(3):325-327. July 1962. 410 J827.
506. BOICE, A. P. Toxicity of arsenite debarkers to deer in Michigan. *Mich. Dep. Conserv. Game Div. Rep. No. 2025*, 12 p. 1954. 412.9 F50R
Particularly red dyrd sodium arsenite. Also in *Midwest Wildlife Conf. Proc.* 16, 1954. Not in Nat. Agr. Libr.
507. CHRISTIANSEN, M., and DALGUM-
MIKKELSEN, S. Toxic effect of mono-
chloroacetate on geese. *Acta Pharmacol.*
Toxicol. 18:179-182. Ref. 1961. Nat.
Libr. Mod.
Wild geese poisoned by its sodium
salt.
508. COTTRELL, C. Chemical controls in
relation to wildlife. *Int. Union Pro-
tect. Natur. Proc. & Papers Tech. Meet-
ing* 5:100-110. Ref. 1954, pub. 1956.
279.9 In8. Pt
Section of effects on herbi-
cides on habitat modifi-
cation.
509. CRYMER, H. H. The state of our
knowledge of the effect of large-scale
control measures on forest biology. A
review of current knowledge. (Ge)
Z. Pflanzenkrankh. Pflanzenschutz.
62(7):422-435. Ref. 1955. 457.8 Z3
English summary.
Effect on forest organisms of
dinitroresol, arsenic compounds,
and synthetics.
Bibliography, p. 433-435.
510. DEWITT, J. E., STICKEL, W. H.,
and SPRINGER, P. F. Wildlife studies,
Patuxent Wildlife Research Center.
U.S. Dep. Interior Fish & Wildlife Serv.
Circ. 167:74-96. 1963. 150.2 C49
Pesticide toxicity to bobwhite quail,
ring-necked pheasants, mallard ducks;
includes amrolole, dimethyl 2,3,5,6-
tetrachloroterephthalate, dalapon,
2,4-D, 2,4,5-T, and 2-methyl-4-
chlorophenoxyacetic acid.
511. GEORGE, J. L. The pesticide
problem; a brief review of present
knowledge and suggestions for action.
New York, The Conservation Foundation,
1957. Ref. 67 p. 395 G79
Section on toxicity and repellency
of herbicides to wildlife p. 29-34.
512. GEORGE, J. L. Some primary and
secondary effects of herbicides on
wildlife. In *Herbicides and Their
Use in Forestry. Forestry Symposium,*
Penn. State Univ. 1960:40-73. Ref.
79.9 F76
Summary of toxicity to mammals,
birds, reptiles, amphibians, fish,
and invertebrates.
513. GOODROW, P. D., and REID, V. H.
Wildlife implications of hardwood and
brush controls. *N. Amer. Wildlife Conf.*
Trans. 21:127-141. Ref. 1956. 412.9
N814
Chiefly habitat modifications;
143 references.
514. GREAT BRITAIN. Working Party on
Precautionary Measures Against Toxic
Chemicals Used in Agriculture. Toxic
chemicals in agriculture; risks to
wild life. London, H. M. Stationery
Office, 1955. 31 p. 395 G7932 (1955)
Includes herbicides, chiefly dinitro-
resol, sodium arsenite, and 2-methyl-
4-chlorophenoxyacetic acid; mammals,
insects, birds, and fish.

515. HANSON, W. R. Effects of some herbicides and insecticides on biota of North Dakota marshes. *J. Wildlife Manage.* 16(3):299-300. Ref. 1952. 410 J827

Damage to wildlife habitat by 2,4-D amine and water and 2,4-D ester and oil.

516. HATTANO, T., and KINO, T. Laboratory studies on the effects of agricultural chemicals on the first stage larvae of a firefly, *Luciola lateralis* Motschulsky. (Ja) *Kyushu Univ. Fac. Agr. Sci. Bull.* 20(3):265-269. Ref. Mar. 1963. 107.6 K9933

English summary.

Includes 2,4-D and MCP-sodium.

517. HAUGEN, A. O. Arsenate in the diet of deer. *J. Wildlife Manage.* 17(1): 33-36. Jan. 1953. 410 J827.

518. KEITH, J. O., HANSEN, R. M., and WARD, A. L. Effect of 2,4-D on abundance and foods of pocket gophers. *J. Wildlife Manage.* 23(2):137-145. Ref. 1959. 410 J827.

Martin, R. P. Effects of the herbicide 2,4,5-T on breeding bird populations. *Okla. Acad. Sci. Proc.* 46:235-237, 1966.

519. MIDDLETON, A. D. The effect of certain insecticides and herbicides on game-birds and other wildlife in farm crops. *Int. Union Protect. Natur. Proc. & Papers Tech. Meeting* 5:161-163. 1954, pub. 1956. 279.9 In8-Pt

Chiefly insecticides; but includes note on dinitrocresol.

520. U.S. FISH AND WILDLIFE SERVICE. Pesticide-wildlife studies, 1963; a review of fish and wildlife service investigations during the calendar year. U.S. Dept. Interior Fish & Wildlife Ser. Circ. 199, 1963. 130 p. 156.2 C49

Includes herbicides and toxicity tables.

521. *PRZYGODDA, W. Effect of plant protection chemicals on birds, with reference to other free-living animals. (Ge) *Biol. Abhandl.* No. 12:1-34. Ref. 1955. Not in Nat. Agr. Libr.

Review, includes 2,4-D and dinitrocresol.

522. *ROSASCO, E. H. A preliminary study on the effect of sodium arsenite, used as a chemical debarking agent, upon wildlife and wildlife environments. Syracuse, 1952. 100 p. Not in Nat. Agr. Libr.

*Not examined.

523. RUDD, R. L. Field reporting of suspected wildlife poisoning by agricultural chemicals. *Calif. Fish & Game* 40:167-173. Apr. 1954. 410 C12
Includes trichloroacetic acid, ammonium sulfate, sodium chlorate, 2,4-D, 2,4,5-T, arsenic and dinitro compounds.

524. RUDD, R. L., and GENNELLY, R. E. Pesticides: Their use and toxicity in relation to wildlife. *Calif. Dep. Fish & Game Bull.* No. 7, 209 p. 1956. 412.9 C12G

Herbicides p. 149-156;

Bibliography p. 157-202.

525. SCHNEIDT, H. The possibilities of danger to bees, fish, birds and game with the use of plant protection materials. (Ge) *Deut. Akad. Land-wirtschaftswissenschaft. Tagber.* 54:5-13. Ref. 1962. 18 D4825T

English summary.

2,4-D, 2,4,5-T and dinitrocresol.

526. SHELDON, M. G., and others. Reaction of Canada geese to a diet containing 2,4-D. In *Pesticide-Wildlife Studies*, 1953, 47 p. 156.2C49

P. Johnson, J. E. Peterson, and W. H. Robinson, joint authors.

527. *STOCKS, S. V. R. An evaluation of the wildlife hazard from chemical debarking with sodium arsenites. Syracuse, 1954. 74 p. Not in Nat. Agr. Libr.

Thesis (M.S.) - State University of New York. College of Forestry.

528. SPRINGER, P. F. Effects of herbicides and fungicides on wildlife. *N. C. Pesticide Manual*:87-106. Ref. 1957. 79.8 N31

Review; includes toxicity to laboratory rats; bibliography p. 100-104.

529. U. S. BUREAU OF SPORT FISHERIES AND WILDLIFE. Wildlife research progress, 1961. U.S. Dept. Interior Fish & Wildlife Serv. Circ. 146, June 1962. 50 p. Ref. 156.2 C49

Includes effects of herbicides.

530. U. S. FISH AND WILDLIFE SERVICE. Effects of pesticides on fish and wildlife in 1960. U.S. Fish & Wildlife Serv. Circ. 143, 52 p. Ref. 1962. 156.2 C49

Includes herbicide toxicity to quail, pheasants, and mallards, p. 31-47.

531. U. S. FISH AND WILDLIFE SERVICE. Pesticide-wildlife studies by states, provinces, and universities, an annotated list of investigations through 1964. U.S. Fish & Wildlife Serv. Circ. 224, 30 p. May 1965. 156.2 C49

Includes unpublished herbicide toxicity projects.

532. WEBB, W. L., ROSASCO, E. N., and SIMKINS, S. V. R. Effect of chemical debarking on forest wildlife. N. Y. State Univ. Coll. Forest. Tech. Publ. 77:35-43. Ref. 1956. 99.9 N367
Arsenic compounds.

533. WILBERT, D. E. Some effects of chemical sagebrush control on elk distribution. J. Range Manage. 16(2): 74-78. Mar. 1963. 60. 18J8?

534. WILLARD, C. J. Indirect effects of herbicides. N. Central Weed Contr. Conf. Proc. 7:110-112. Ref. 1950. 79.9 N81

Drift: Effect on balance of nature, destruction of game cover, and poisonous effects, chiefly of 2,4-D.
