The *OSWER* Source Book

Training and Technology Transfer Resources

ADDENDUM

This document represents an addition to the 1991 Office of Solid Waste and Emergency Response, Technology Innovation Office training and technology transfer resource document. *The OSWER Source Book* provides a consolidated listing of training courses and technology transfer resources of potential interest to U.S. Environmental Protection Agency (EPA), State, and local personnel concerned with solid and hazardous waste management. *The OSWER Source Book* is being revised and the information in this addendum will be incorporated in the updated 1992 version.

Training Courses

Course Title:	<i>Air Emissions Controls at Hazardous Waste Facilities</i>	
Course Goal:	To inform EPA staff about existing and upcoming air emissions rules and procedures for permit writing and enforcement.	
Course Length:	2 days	
Target Audience:	EPA Regional and State staff involved with RCRA air emissions permitting and inspections	
Prerequisites:	None	
Description:	The course covers the control of Volatile organic air emissions (VOCs) at RCRA facilities and the permitting requirements for affected units. Subpart AA governs air emissions from process vents, BB from equipment leaks and the recently proposed Subpart CC controls VOCs from tanks, surface impoundments, and containers. Also covered are the methods for determining which units are specifically covered and whether the facility-wide air emissions limits are being met.

Course Title: *Basic Incinerator and BIF Permitting Training*

Course Goal: To enable adequate technical and policy review of incinerator permit applications.

Course Length: 2 days

Target Audience: Regional and State incinerator permit writers who are new to the job

Prerequisites: None

Description: This two-day course trains new permit writers in the basics of incineration and BIF technology and permitting. It covers basis combustion concepts, incineration design, incineration regulations, monitoring, trial burn planning and observation, and test result review. Class size is limited to 50.

Course Title: *RCRA Corrective Action Remedy Selection*

Course Goal: To facilitate selection of remedies at RCRA corrective action facilities.

Course Length: To be determined

Target Audience: Regional and State RCRA Corrective Action Personnel

Prerequisites: None

Description: Participants will learn how to apply the remedy selection criteria discussed in the Subpart S Rule. The course is a mixture of lectures, exercises, and case studies. Both policy and technical subjects are discussed.

Course Title:	<i>Resource Conservation and Recovery Information System (RCRIS) Instructional Series (VHS Format Videotape)</i>
Course Goal:	To provide a general overview of the Resource Conservation and Recovery Information System and training on data entry, reporting, and reconciliation procedures.
Course Length:	2 hours
Target Audience:	RCRIS Users (State, Regional, and Headquarters data entry, program staff, and system managers)
Prerequisites:	None
Description:	<p>These videotapes provide guidance on the purpose and structure of RCRIS, and how to use the various components of the system. RCRIS tracks information on facilities that generate, transport, and/or treat, store, and dispose hazardous waste. The system supports program activity using six major modules:</p> <ol style="list-style-type: none">1. Handler Identification (HID) — Tracks and maintains descriptive information on regulated hazardous waste facilities, generators and transporters.2. Permitting/Closure/Post-Closure (PMT/CL/PC) — Tracks information on the status of permit applications for hazardous waste facilities.3. Compliance Monitoring and Enforcement (CM&E) — Tracks and maintains data on inspections, violations, enforcement actions, and return to compliance.4. Corrective Action (CA) — Supports the permit writing and enforcement program coordination necessary for an effective corrective action program.5. Program Management (PM) — Supports the State, Regional, and national management and evaluation needs of the RCRA program.6. Facility Management Planning (FMP) — Supports the development and analysis of facility management plans.

Course Title:	<i>Statistical Analysis of RCRA Ground-Water Monitoring Data</i>	
Course Goal:	To facilitate the proper analysis of RCRA ground-water monitoring data through the appropriate selection and use of statistical analysis procedures.	
Course Length:	2 days	
Target Audience:	Regional and State RCRA Personnel	
Prerequisites:	None	
Description:	Participants will learn how to select and apply statistical analysis procedures to RCRA ground water monitoring data. Software specifically developed for analysis of ground-water data will be demonstrated and distributed. The course will be a mixture of lectures, exercises, and case studies.

Course Title:	<i>Subpart H: Financial Assurance Requirements</i>
Course Goal:	To provide a basic understanding of financial assurance under Subtitle C and of the financial assurance mechanisms allowed under Subpart H.
Course Length:	2 days
Target Audience:	RCRA State and Regional Permit Writers — to a lesser extent, enforcement officials
Prerequisites:	None
Description:	<p>This course will discuss financial responsibility requirements under Subtitle C of RCRA as well as the roles and responsibilities of owners/operators and state and regional staff in implementing these requirements. The course is a mixture of lecture and case studies and is divided into 8 modules:</p> <ol style="list-style-type: none">1. Closure/Post-Closure Overview2. Cost Estimating3. Financial Responsibility Overview4. Financial Instruments Allowed for Demonstrating Financial Responsibility for Closure/Post-Closure Care5. Third-Party Liability Coverage Overview6. Financial Instruments Allowed for Demonstrating Financial Responsibility for Third-Party Liability Coverage7. Financial Assurance for Corrective Action8. Upcoming Financial Responsibility Activities

Information Systems and Software

Resource Conservation and Recovery Information System (RCRIS)

System Type	Database
System Purpose	RCRIS is an information system that helps EPA Regions and States in the daily operations and implementation of the RCRA program.
System Elements	RCRIS is the computerized information system for managing the hazardous waste program mandated by RCRA. RCRIS is both a program management and inventory system of RCRA hazardous waste handlers. RCRIS captures identification and location data for all handlers of hazardous waste and a wide range of information on the hazardous waste treatment, storage and disposal facilities regarding permit and closure status, compliance with federal and state regulations and cleanup (corrective action) activities.
Accessibility	
How to:	RCRIS is an on-line system that is menu-driven. A mainframe account and RCRIS authorization is required. On-line access is restricted to RCRA personnel. Standard Reports are available to the public upon request through the FOIA process. Reports are available for EPA and State personnel upon request to RCRIS staff.
Software	RCRIS is written in FOCUS, a database application program chosen because of its compatibility on both IBM compatible PCs and the EPA mainframe.
Hardware	RCRIS was written for use on both the PC and the mainframe to accommodate the States' needs for various platforms. The National Oversight Database is on the EPA IBM Mainframe.
Contacts	Kevin Phelps (202) 260-4697 U.S. EPA
For more Information	Liza Hearn (202) 260-3393 U.S. EPA

Biennial Reporting System (BRS)

System Type	Database
System Purpose	BRS is the information system created by EPA Headquarters to assist in the collection and management of data collected through the Biennial Report. The Biennial Report is a data collection activity required of all Treatment, Storage, and Disposal Facilities, as well as all Hazardous Waste Large Quantity Generators. The database is used to collect the data by the EPA Regions and States. The data is then uploaded to the BRS National Oversight database for use by EPA Headquarters in the production of the Biennial Report to Congress.
System Elements	BRS is the national system that collects data on the generation, management, and minimization of hazardous waste. BRS captures detailed data on the generation of hazardous waste from large quantity generators and data on waste management practices from treatment, storage, and disposal facilities. These data are collected every other year and provide the ability to perform trend analysis.
Accessibility	
How to:	BRS is an on-line system that is menu-driven. A mainframe account and BRS authorization is required. On-line access is restricted to RCRA personnel. Copies of the Report to Congress are available through NTIS.
Software	BRS is written in FOCUS, a database application program chosen because of its compatibility on both IBM compatible PCs and the EPA mainframe.
Hardware	BRS was written for use on both the PC and the mainframe to accommodate the States' needs for various platforms. The National Oversight Database is on the EPA IBM Mainframe.

Computerized On-line Information System (COLIS)

System Type	Integrated system	
System Purpose	COLIS provides information on corrective action taken at leaking underground storage tanks, hazardous waste sites, and spill responses.	
System Elements	This system contains four databases: Case History File (documentation on removal and remedial action, spills, and UST problems); SITE Application Analysis Reports (documentation on technologies analyzed); Library Search System (RREL collection); and the RREL Treatability Database.	
Accessibility		
How to:	COLIS is an on-line system that is menu-driven.	
Software	Crosstalk is the recommended communications package.	
Hardware	COLIS is accessible through any personal computer with 1200 or 2400 baud modem.	
Contacts	System Operator	(908) 906-6871
For more Information	Robert Hillgen or Hugh Masters U.S. EPA	(908) 321-6639

HOW TO USE THIS CATALOGUE

This catalogue lists publications developed by the U.S. Environmental Protection Agency's Office of Solid Waste (OSW). This is not a comprehensive list of all OSW documents, but rather a select list of those titles that are frequently requested. The catalogue is organized alphabetically by title.

Some of these publications are no longer available from OSW, but can be purchased from the National Technical Information Service or the U.S. Government Printing Office. The catalogue is keyed to indicate where OSW Publications can be ordered:

NTIS CUSTOMER SERVICE INFORMATION

Telephone Orders

The NTIS telephone sales desk is available between 7:45 a.m. and 5:00 p.m. Eastern Time.

TELEX and Telecopier Orders

The NTIS TELEX number is 89-905. Orders may also be sent to NTIS via Telecopier: Panafax MV3000. Dial NTIS, (703) 321-8547.

Method of Payment

Customers may pay for reports (and other NTIS products and services) by: (1) credit card—American Express, MasterCard, or VISA; (2) check or money order, on a U.S. bank, payable to NTIS; (3) an NTIS Deposit Account; or (4) by asking to be billed (add \$7.50 per order) United States, Canada, and Mexico only.

Handling Fee

A \$3.00 handling fee per total order (not per item) applies to U.S. orders. In all other countries the handling fee is \$4.00 per order.

Postage and Shipping

Orders are shipped First Class mail or equivalent except for addresses outside the United States. For air mail service to Canada and Mexico add \$3.00 per printed report and \$0.75 per microfiche copy.

Order Turnaround Time

Orders for technical reports are generally shipped within 3 to 8 days of receipt.

Rush and Express Order Service

NTIS Rush Order Service (add \$10.00 per item) guarantees that an order will be processed through NTIS within 24 hours of its receipt. Rush orders receive immediate, individual attention. The items ordered are delivered by First Class mail unless express mail service is requested.

Express service (add \$20.00 per item) is for customers who need overnight delivery. Guidelines are the same as for Rush Order Service. Delivery is by overnight courier.

To place a Rush or Express Order, call (800) 336-5700 (in Virginia, call (703) 487-4700.)

Customer Service

If you have a problem with your order, contact a Customer Services Representative at (703) 487-4600.
