MUNICIPAL WASTEWATER TREATMENT FACILITIES
IN
NEW ENGLAND

U.S. ENVIRONMENTAL PROTECTION AGENCY - NEW ENGLAND
BOSTON, MA

PREPARED BY:
MUNICIPAL ASSISTANCE UNIT
JANUARY 1997

FOREWORD

This directory presents a listing of municipal wastewater treatment facilities in EPA - New England. The listing is categorized by state and includes the NPDES permit number, facility address and telephone number, type of treatment and sludge disposal method, indication of industrial pretreatment program, and design flow. Additional information is included in the "Remarks" column. Facilities without NPDES permit numbers do not have direct discharges to surface water. A key for pretreatment types, sludge disposal methods, and pretreatment indicators is in the beginning of the directory.

State and Federal contacts for operation and maintenance, sludge management, and pretreatment are listed on the following pages. Also, for each State and for the entire Region there is a summary of treatment types and sludge disposal methods by facility size.

The listing is an update of the 1993 directory and is as current and complete as possible. However, due to the number of facilities involved and frequent changes, there may be some errors, omissions, or out-of-date information. Therefore we request that any inaccurate information be reported to:

Maria McCarthy

or

Anthony Depalma, Chief Municipal Assistance Unit

Your assistance in keeping this list accurate and up-to-date is greatly appreciated.

Thanks to the State operation and maintenance coordinators for their assistance in providing up-to-date information regarding facilities in their respective states. Also, special thanks to Ed Kim of EPA for his assistance in preparing this directory.
