List of EPA Forms Declared Obsolete Since April 30, 1989	Obsolete-1

Introduction

What This Catalog Does

Forms-based information is vital to the efficient operation of the EPA and its management of mission-related programs. This Forms Catalog identifies all administrative and program-related forms currently used by the Agency, as well as forms declared obsolete during a survey conducted in mid-1995. It also provides information on the sources of forms supplies and an order blank used to request forms from the Agency's distribution center in Cincinnati, Ohio, or from responsible program offices.

The electronic version of this Catalog, found on the Agency's Value-Added Backbone System, is a first step in a development program designed to provide Agency personnel with timely information about available forms, along with electronic versions of actual forms that may be filled, approved and routed via computer, mitigating the need for paper forms.

Getting the Form You Need

This Catalog contains three principal lists of forms. The first is sorted by the **EPA Form Number**, in ascending order. The second is sorted by the **alphabetical name of the form**. Third is a list of forms used by the Agency to collect information from the public; these require approval from the Office of Management and Budget (OMB) for EPA distribution and use. This list is sorted twice: once by EPA Form Number, and once by **OMB Approval Number**.

The Agency does *not* stock or distribute General Services Administration (GSA) "Standard Forms" (SF series), or "Optional Forms" (OF series). These should be obtained from the nearest GSA office. The GSA forms are available over the Internet on <http://www/gsa/form>. If you have any questions, please call 817-978-2604.

EPA pre-printed paper forms are available from several sources. Most Agency forms are stocked and distributed by the National Center for Environmental Publications and Information (NCEPI) in Cincinnati, Ohio. Other program-related administrative and public use forms may be distributed solely by the program offices responsible for them. In addition, a limited number of forms are available on a self-service basis in the EPA FormSmart Center at Headquarters. The Center is located in Room M3307CY (Courtyard), Mail Code 3408; service hours are 8:00 a.m. to 4:30 p.m. daily.

To assist you in obtaining the forms you need, this Catalog also contains a list of EPA forms, identified by EPA form number, that shows **Source information** for all active forms. For your convenience, an order form is included in the Appendices of the catalog. Forms also may be requested by phone or facsimile machine.

The "Source" column in each of the lists will indicate "A" if the form can be obtained from the NCEPI, "B" if the form is available in the EPA FormSmart Center (Headquarters), "C" if the form is distributed by a program office, and "D" if the form comes from another source (e.g. the National Technical Information Service in Springfield, VA, a Federal agency, or a state government).

To order forms from the National Center:

To order forms from NCEPI, you may do any of the following:

- Contact NCEPI via telephone:
(513) 489-8190 (from within a Federal Agency or International)
(800) 490-9198 (from outside a Federal Agency)
- Complete EPA Form 2360-1
- Submit a memorandum, stating your name, form number, quantity, your complete return mailing address(mail code), and telephone number
- Contact NCEPI via facsimile (fax) at 513-489-8695
- Send an e-mail to allaire-michael on the LAN
- Send a request through the mail to:
US EPA-NCEPI Forms Distribution Office
P.O. Box 42419
Cincinnati, OH 45242

To obtain a form distributed by a program office, first find the Mail Code for the office responsible for the form (located under the "Originating Office" column on each sort list). Order a form by mail by sending a copy of the order blank (found in the Appendices of this Catalog) to the program office via the mail code shown. Order a form by phone by calling the program office telephone number corresponding to the form number, as found in the Appendix "Source Information for EPA Forms."

Electronic Forms

An increasing number of forms used for general administrative and program management applications are becoming available in electronic format. These are distributed and supported by the Enterprise Systems Division (ESD) of the Office of Information Resources Management. In the future, electronic forms likely will be maintained and distributed on the Value Added Backbone System (VABS) network and the EPA Intranet for use by Agency personnel nationwide. For information on the availability and use of

electronic forms, please contact the Director, Enterprise Systems Division, Mail Code 3403, US EPA, 401 M Street, Washington, DC 20460, or telephone (202) 260-5220.

Other electronic form applications involving the use of Electronic Document Interchange (EDI) procedures also are under development to improve the exchange of data between the Agency and the commercial sector (the regulated community, EPA contractors and suppliers of goods and services to the Agency). These initiatives are fostered by the National Performance Review (NPR) under the guidance of the Agency's Office of Policy, Planning and Evaluation (OPPE). For further information on electronic commerce with EPA, please contact the Director, Regulatory Management Division, OPPE, Mail Code 2136, US EPA, Washington, DC 20460.

Contacting the Agency Forms Officer

We hope this Forms Catalog will be helpful in the selection and use of Agency forms. Please forward any corrections and suggestions for improvement of this Catalog to the Agency Forms Officer, Enterprise Information Management Division, Mail Code 3408, US EPA, Washington, DC 20460. Please address any questions to the Forms Officer by calling (202) 260-2866, via facsimile at (202) 401-8390, or by email to: "FORMS OFFICER".

EPA Forms Available in Electronic Format

Beginning in 1992, EPA began an initiative to incorporate electronic forms into the workplace. This effort was designed to broaden delivery of administrative support services to employee computer workstations, improve productivity of forms processing workflow activities, and reduce the volume of paper forms used by the Agency.

That initiative evolved into the **Next Generation** electronic forms application, now managed by the Enterprise Systems Division within the Office of Information Resources Management (OIRM). Two types of "Next Generation" forms have been developed and made available on Agency local area networks.

"Workflow Forms" can be electronically filled, "signed," and routed for approval and processing using the Agency's electronic mail system. These Workflow Forms are available now:

**Procurement Request
Application for Leave**

**EPA 1900-8
SF 71**

In addition, 23 **"Fill and Print Forms"** currently are available. These forms may be filled at a personal computer workstation, printed on a local laser printer, then manually routed in paper format using existing procedures. Fill and Print Forms include:

EPA 1700-9	Property Pass
EPA 1900-65A	Nomination and Appointment of Contracting Officer's Representative (COR)
EPA 2550-9	Commitment Notice
EPA 2560-28	Payroll Distribution Time Sheet
EPA 2200-9	Printing, Distribution and Inventory
EPA 2610-3	Approval to Accept Travel (eth. Ref. Act 1989)
EPA 3110-1	Employee Separation or Transfer Checklist
EPA 3115-24	Performance Appraisal & Certification
EPA 3130-1A	Recommendation for Incentive Award
EPA 3140-32	Individual Development Plan
EPA 3150-1	Position Description
EPA 3160-6	Application to Contribute to EPA Leave Bank
EPA 5040-13	Changes in Telephone Listing
EPA 5100-8	Facilities Service Request
FMS 2231	Direct Deposit (Fastart)
OF 41	Routing Slip
OGE 450	Financial Disclosure (Confidential)
SF 52	Request for Personnel Action

EPA Forms Available in Electronic Format

SF 182	Request, Authorization, Agreement and Certification of Training
SF 278	Financial Disclosure (Public)
SF 1164	Claim for Reimbursement
SF 2801	Application for Retirement (CSRS)
SF 3107	Application for Retirement (FERS)

For further information regarding the Next Generation Electronic Forms application, please contact Tony Studer at (202) 260-5621 or Chris Bullock at (202) 260-3298. For Electronic Forms support, please contact the Next Generation support hot line at (703) 734-2338.
