METHOD OF NUMBERING AIR QUALITY CONTROL REGIONS

1. States are arranged in alphabetical order, and state SAROAD number is assigned consecutively - Puerto Rico, American Samoa, Guam, and Virgin Islands are at end of list, with District of Columbia following Delaware and preceding Florida.
2. AQCRs are arranged alphabetically (by name as specified in Federal Register) within each state.
3. AQCRs are numbered consecutively within states beginning with the lowest numbered state.
4. If an AQCR exists in more than one state, it receives its number in the lowest numbered state.
