EFIG on the WEB

The Emission Factor and Inventory Group (EFIG) has a new home page on the World Wide Web. From our home page you can link to many web resources on air emissions. Point your web browser to:

<http://www.epa.gov/oar/oaqps/efig/>

EFIG's ClearingHouse for Inventories and Emission Factors (CHIEF) also has a new web site. From the CHIEF web pages you can access the latest documents and tools for emission inventories and emission factors. Point your web browser to:

<http://www.epa.gov/ttn/chief/>

See inside for more details!

The CHIEF List Server

If you have an e-mail account, it's the best way to stay on top of new activities in EFIG. CHIEF now has a list server which allows you to receive notices of new EFIG documents or software updates! This list server also distributes the quarterly *CHIEF Newsletter*. To subscribe to the *CHIEF List server*, send an e-mail message to:

listserv@unixmail.rtpnc.epa.gov

In the body of your e-mail message, type:

subscribe CHIEF *firstname lastname*.

The CHIEF Website

The ClearingHouse for Inventories and Emission Factors website is part of the OAQPS TTNWeb and a successor to the dial-up CHIEF BBS. On the main page of the CHIEF website you will find a brief description of its purpose, along with several links to the latest emission factor and inventory information and products.

General Information: From the blue sidebar you can link directly to general information and news about EFIG, a **What's New** page that updates you on recent additions to the CHIEF web site, the **FAQ** (Frequently Asked Questions) page, the **CHIEF and Emission Inventory Public Forums** for online public discussion and comment, and a **Search** page that allows you to search for information on the TTNWeb by keyword.

Documents: From the CHIEF website you can download any section of the *Compilation of Air Pollutant Emission Factors (AP-42)*, the *Locating and Estimating Document* series, the *National Air Pollutant Emission Trends Report* and *Emission Inventory Improvement Program* documents, guidance for emission inventories, and many other technical reports and memos.

Software: The link to the **Emission Estimation Software** page allows you to download the latest versions of programs such as TANKS, the FIRE database, the Landfill model, Speciate, WATER8, CHEMDAT8, and others. Additional software and models can be found on the **Inventory Data & Projection** page which offers EGAS and MIDAS.

The EFIG Home Page

The home page for EPA's Emission Factor and Inventory Group is a gateway to air emissions websites. It provides an intuitive and direct pathway to this information. In addition to general information about EFIG, links from this page will take you to:

OAQPS Website - The home page for EPA's Office of Air Quality Planning and Standards which directs national efforts to meet air quality goals.

CHIEF Website (see below)

Emission Inventory Improvement Program (EIIP) - A cooperative effort between EPA, state/local agencies, and industry for the improvement of emission inventories.

1996 Emission Inventory - The central information source for state and local agencies as they prepare and submit their 1996 emission inventories.

Unified Air Toxics Website - Various information concerning air toxics, including regulations, programs, contacts, etc.

Office of Mobile Sources - Information on air pollution from motor vehicles, construction equipment, aircraft, and other mobile sources.

TTNWeb - OAQPS Technology Transfer Network, home to 19 different web pages pertaining to air issues.

OAR and AIRLinks - EPA's Office of Air and Radiation and OAR's "hottest" web sites.

The EFIG home page also provides direct links to two of our most popular documents: *National Air Pollutant Emission Trends Report* and *Compilation of Air Pollutant Emission Factors (AP-42)*.
