9420-00-3 Tufts University Research Proposal

3 Jim O'Leary, Special Assistant
Office of Solid Waste (WH-562)

Addressees

Since FY 1984, Congress has appropriated monies (already \$3 million) for Tufts University to establish a research and policy center for the study of hazardous waste. Recently, Tufts University submitted to EPA a draft program plan for research, policy, and education that Marcia Williams has asked us to review and comment on prior to an October 25th meeting with Tufts. The plan is 43 pages long and is divided into several activities that relate directly to your particular responsibilities.

Below is a list of those activities and related pages that I would like you to review by Friday, October 18th. In your comments, would you state whether the proposed projects could assist us with our regulatory development or implementation efforts and how; whether ORD is performing or proposing something comparable for us; what priority you would give to the project (high, medium, or low); and whether you would or would not recommend initiation of such a project.

	<u>Topic</u>	<u>Pages</u>
Francine Jacoff	Health Effects	7-18
	Risk Assessment	38-41
Joan Warren	Community Participation	21-25
	Community Response and Education	41-43
Jim Bachmaier	Site Assessment	19-23
Ron Ney	Remedial Action	23-24
Jim Berlow	Waste Reduction and Treatment	26-37

Thanks for your help.
