September 28, 1992

Mr. Robert Pepin-WQS16J
USEPA Region V
77 West Jackson Boulevard
Chicago, IL 60604-3590

Dear Rob:

Please find enclosed two copies of the *Grand Calumet River/Indiana Harbor Canal Literature Search* indexed by:

- author,
- reference number,
- title, and
- year.

We also are sending to you under separate cover all of the documents gathered to date on the study area. We organized the documents using a number and letter system that allows us to arrange the documents chronologically (primary-level) and alphabetically by author (secondary-level). If you obtain a new document you want to add to the collection, you would:

- identify the year of the document,
- determine where the new document falls alphabetically by author, (or by title if there is no author),
- use the number of the document preceding the new document as your route number,
- follow the newly assigned route number with a period and the first three initials of author's last name.

For example, if you found a 1982 document by Peter Jones you would place it between two 1982 documents, "023.GAN" and "024.LAK." The newly assigned number in this case, would be "023.JON."

I will be sending you the data management strategy soon and will be in touch.

Sincerely,

Beverly Brown Cadorette
Principal
