EPA Journal Holdings Report 1988

INTRODUCTION

This is the tenth edition of the Journals Holdings Report for the United States Environmental Protection Agency Library Network. The purpose of the Report is to improve access to journal articles, and to encourage resource sharing.

The approximately 3,000 titles and 11,000 holdings records represent a wealth of data available from the libraries at EPA Headquarters, Regions and Laboratories.

The journals are listed alphabetically by title. After each title, the libraries that own the title are listed alphabetically by their code.

A sample entry key and the legend for these library codes appear on the next few pages.
