

Quick List of ENERGY STAR® Resources for Buildings

Save Energy, Save Money, and Fight Global Warming

Tools and Resources

How These Tools or Resources Help You

GET STARTED

Gain internal support and make energy management a priority.

ENERGY STAR Challenge

Take the ENERGY STAR Challenge and improve the energy efficiency of America's commercial and industrial buildings by 10 percent or more. www.energystar.gov/challenge

ENERGY STAR Partnership

Become an ENERGY STAR Partner and join the thousands committed to protecting the environment. www.energystar.gov/joinbuildings

Teaming Up to Save Energy

Use this "how-to" guide for assistance with setting up an energy management team in your organization. www.energystar.gov/energyteam

Guidelines for Energy Management

Adopt EPA's proven strategy for superior energy management with tools and resources to help each step of the way. www.energystar.gov/guidelines

TAP INTO HELP FROM EXPERTS

Look for skilled ENERGY STAR contacts to help enhance energy management planning and implementation.

Service and Product Provider (SPP) Directory

Find expert help to assist in achieving your energy performance goals. www.energystar.gov/spp

Directory of Energy Efficiency Programs

Identify regional energy efficiency program sponsors to find financial and technical assistance to improve energy efficiency. www.energystar.gov/programdirectory

Find a Professional Engineer (PE)

Search for Professional Engineers for your building from a directory of those who have performed verifications for buildings that have already qualified for the ENERGY STAR label. www.energystar.gov/pedirectory

MEASURE YOUR ENERGY USE

Determine energy use and evaluate ways to improve energy efficiency.

Portfolio Manager

Measure the energy performance of your buildings on a 1-100 scale relative to similar buildings across the country, identify and prioritize improvement opportunities, and track improvement over time. www.energystar.gov/benchmark

Target Finder

Generate energy performance ratings for new building designs and compare estimated energy use to your target. www.energystar.gov/targetfinder

LOOK FOR THE ENERGY STAR

Find tips and advice on purchasing ENERGY STAR qualified products.

ENERGY STAR Qualified Products and Procurement

Find ENERGY STAR qualified products and guidance for procurement. www.energystar.gov/purchasing

BUILDING & EQUIPMENT IMPROVEMENTS

Identify potential improvement opportunities and determine appropriate paths to implementation.

Building Upgrade Manual

Learn about EPA's strategic five-stage approach for upgrading buildings to realize energy savings. www.energystar.gov/bldgmanual

New Building Design Guidance

Apply best practices guidelines to help incorporate energy efficiency strategies into your building design. www.energystar.gov/newbuildingdesign

ENERGY STAR® is a government-backed program helping businesses and individuals protect the environment through superior energy efficiency.

Quick List of ENERGY STAR® Resources for Buildings (cont'd)

Save Energy, Save Money, and Fight Global Warming

Tools and Resources

How These Tools or Resources Help You

CALCULATE ENERGY SAVINGS

Make the financial case for energy efficiency improvements.

Building Upgrade Value Calculator

Estimate the financial impact of proposed investments in energy efficiency in office properties. www.energystar.gov/financialevaulation

Financial Value Calculator

Determine how energy performance improvements can impact profit margins, earnings per share, and shareholder value. www.energystar.gov/financialevaulation

Cash Flow Opportunity Calculator

Estimate how much new equipment can be purchased and financed by the anticipated energy savings of an improvement project. www.energystar.gov/financialevaulation

TRAINING PROGRAMS

Learn how to successfully implement energy management practices.

ENERGY STAR Online Training: Live, Pre-Recorded, and Self-Guided

Learn more about available tools, resources, and national campaigns without leaving your computer. www.energystar.gov/businesstraining

CELEBRATE ACHIEVEMENTS

Receive EPA recognition to maintain momentum and support for communicating energy efficiency achievements internally and with the public.

ENERGY STAR Leaders

Improve the energy performance of your portfolio and become an ENERGY STAR Leader. www.energystar.gov/leaders

ENERGY STAR Label

Earn the ENERGY STAR label for commercial and industrial buildings that achieve a 75 or higher on the rating scale. www.energystar.gov/eslabel

Designed to Earn the ENERGY STAR

Meet specific design criteria for new buildings and distinguish project plans as "Designed to Earn the ENERGY STAR." www.energystar.gov/designtoearn

ENERGY STAR Partner of the Year

Share the outstanding commitment your organization has made to energy performance improvements and be honored by EPA. www.energystar.gov/awards

SPREAD THE WORD

Highlight commitments and environmental and financial achievements to employees and consumers.

Challenge Toolkit

Find ideas for educating employees, the public, and other stakeholders on your accomplishments. Gain access to tip sheets and customizable templates. www.energystar.gov/challengekit

Building Profiles & Leaders' Stories

Highlight your success on the ENERGY STAR Web site through case studies on labeled buildings and energy reduction successes. www.energystar.gov/success

ENERGY STAR Publications

Find brochures, posters, and other materials provided by ENERGY STAR that you can order or download to help promote partnership or participation with ENERGY STAR. www.energystar.gov/publications

National Campaigns

Join in ENERGY STAR's national campaigns to raise awareness of the importance of energy efficiency. www.energystar.gov/nationalcampaigns
