EMTS Beta Testing Industry User Profile

For the purpose of testing EMTS, your MyCDX account has been associated with two test organizations. The test organization names created for you are taken from the name of an organization affiliated with your account in the OTAQ Registration system, and all other remaining User Profile information is only a random representation of valid data. As a result, any transactions submitted to EMTS during Beta testing will not be carried over when the EMTS system goes into production. Below you will see a list of the test fuels, feedstocks, and coproducts that are registered for the test organizations and facilities associated with your user profile.

Organization 1:

Name: Test "your organization name" 1

Business Activities:

Domestic Renewable Fuel Producer (10)

Refiner (60)

Facility:

Name: Test "your facility name" 1

Registered Fuels (D-Code)

Renewable Fuel (6)

Registered Fuel Categories

Ethanol (10)

Registered Feedstocks

Starch-Corn (10)

Registered Processes

Grandfathered (Dry Mill, Natural Gas Fired) (10)

Registered Coproducts

Wet Distillers Grains (10)

Dry Distillers Grains (20)
