

## Striking new design. More efficient.

(And we're just talking about the label)

For most people the beauty of a car extends to the mileage, the pocket book and the impact on the air they breathe. Now when you shop for a new car you will have more information in a more usable format.

A new generation of labels for a new generation of cars.

EPA Fuel Economy and Environment

Gisoline Vehicle
You Save \$1,350
in fuel costs over 5 years compared to the
average new vehicle average new vehicle. Actual results will vary for many reasons, including driving conditions and how you drive and maintain your
vehicle. The average new vehicle gets 23 MPG and costs $\$ 11,600$ to fuel over 5 years. Cost estimates are enes
based on 15,000 miles per year at $\$ 3,55$ per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
