

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

May 25, 2001

EPA-SAB-EEAC-CON-01-003

OFFICE OF THE ADMINISTRATOR  
SCIENCE ADVISORY BOARD

Honorable Christine Todd Whitman  
Administrator  
U.S. Environmental Protection Agency  
1200 Pennsylvania Avenue, NW  
Washington, DC 20460

Re: Trade and the Environment; an EPA Science Advisory Board Notification  
of a Consultation

Dear Governor Whitman:

The Environmental Economics Advisory Committee (EEAC) of the EPA Science Advisory Board (SAB), met on May 25, 2001, in part to conduct a consultation with staff from the Office of Policy, Economics, and Innovation's National Center for Environmental Economics (NCEE) on the Agency's plans to develop tools and approaches to carry out its responsibilities under Executive Order 13141, *Environmental Review of Trade Agreements*.

The SAB has developed the consultation as a mechanism to advise the Agency on technical issues that should be considered in the development of regulations, guidelines, or technical guidance before the Agency has taken a position. A consultation is conducted under the normal requirements of the Federal Advisory Committee Act, which include advance notice of the public meeting in the Federal Register.

As is our customary practice, there will be no formal report from the SAB as a result of this consultation, nor do we expect any formal response from the Agency. However, the Committee looks forward to the opportunity of continuing to interact with EPA on this issue in the future.

Sincerely,

/ S /

Dr. William Glaze, Chair  
EPA Science Advisory Board

/ S /

Dr. Robert N. Stavins, Chair  
Environmental Economics Advisory Committee  
EPA Science Advisory Board

## NOTICE

This report has been written as part of the activities of the EPA Science Advisory Board, a public advisory group providing extramural scientific information and advice to the Administrator and other officials of the Environmental Protection Agency. The Board is structured to provide balanced, expert assessment of scientific matters related to problems facing the Agency. This report has not been reviewed for approval by the Agency and, hence, the contents of this report do not necessarily represent the views and policies of the Environmental Protection Agency, nor of other agencies in the Executive Branch of the Federal government, nor does mention of trade names or commercial products constitute a recommendation for use.

**Distribution and Availability:** This EPA Science Advisory Board report is provided to the EPA Administrator, senior Agency management, appropriate program staff, interested members of the public, and is posted on the SAB website ([www.epa.gov/sab](http://www.epa.gov/sab)). Information on its availability is also provided in the SAB's monthly newsletter (*Happenings at the Science Advisory Board*). Additional copies and further information are available from the SAB Staff [US EPA Science Advisory Board (1400A), 1200 Pennsylvania Avenue, NW, Washington, DC 20460-0001; 202-564-4546].
